MINNEAPOLIS GAS LIGHT CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of July A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Minneapolis Gas Light Company ("Minneapolis"), a public utility subsidiary of American Gas & Power Company ("American"), a registered holding company. Declarant designates sections 6 (a) and 7 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than August 4, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized below:

Minneapolis proposes to borrow from banks located in Minneapolis, Minnesota, during the balance of the year 1947, the sum of $1,000,000 on delivery of its promissory notes as follows:

Payable to	Dated	Due	Interest rate	Amount
			Per cent	
Northwestern National Bank	8-1-47	8-1-48	2	$250,000
First National Bank	8-1-47	8-1-48	2	250,000
Northwestern National Bank	10-1-47	10-1-48	2	250,000
First National Bank	10-1-47	10-1-48	2	250,000

Under the banks' commitment, the company is to agree that if it sells new securities (except to refund outstanding securities) or borrows additional money, it will apply the proceeds therefrom to the payment of said notes and other indebtedness to the two banks, which in each case consists of a promissory note in the principal amount of $350,000 dated June 20, 1947, maturing nine months thereafter. The banks agree to renew any balance of the proposed loan owing at the maturity date of the respective notes for an additional twelve months. The rate of interest on any renewal of the loan is to be negotiated at the time of such renewal.

Minneapolis states that it is in process of converting its gas utility system to the distribution of 100% natural gas instead of the present mixed gas. The total cost of conversion is estimated by the company to be approximately $800,000 of which $170,000 has been expended up to May 31, 1947, leaving an estimated $630,000 to be expended during the last seven months of 1947. In addition thereto, the company estimates that its construction program for 1947 will require the expenditure of approximately $2,150,000, of which $1,500,000 will be expended during the last seven months of this year. The declarant states that it is unable to finance its construction program by means of long term financing pending final consummation of the Plan of Simplification and Integration of Community Gas and Power Company, American Gas and Power Company, et al., under section 11 (e) of the act and therefore must rely on short term borrowing.

The said plan relates to the dissolution of Community Gas and Power Company, a registered holding company and parent company of American, and the merger of Minneapolis into American (which will then change its name to Minneapolis Gas Company) which was approved by the Commission on April 10, 1946 and January 14, 1947, (Holding Company Act Releases Nos. 6541 and 7131) and by the District Court of the United States for the District of Delaware by order entered on April 24, 1947. An appeal taken from the order of the District Court is now pending before the United States Circuit Court of Appeals for the Third Circuit.

The declarant states that no state commission has jurisdiction over the proposed transactions and requests that the Commission's order to be issued herein become effective forthwith in view of its urgent need of the funds to be obtained from the proposed financing.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20-6]

PART 20—PILOT CERTIFICATES

REISSUANCE OF EXPIRED PILOTS CERTIFICATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of July 1947.

Many pilots were not aware of the requirements of § 20.55 of the Civil Air Regulations which provides that a private or commercial pilot certificate effective on or after January 1, 1942, and issued prior to July 1, 1945, will expire as of July 1, 1947, unless exchanged for the new type certificate at any time prior to that date. There is no provision in the present Civil Air Regulations which prescribes the procedure for reissuance of such expired pilot certificates. The holders of these expired certificates should be permitted to apply to the Administrator for reissuance without examination or flight tests inasmuch as pilot competency was not involved in this certificate exchange.

The purpose of this regulation is to provide for the reissuance, without examination or flight tests, of those pilot certificates which expire July 1, 1947.

Effective July 22, 1947, Part 20 of the Civil Air Regulations is amended to add § 20.550 as follows:

§ 20.550 *Reissuance.* Any person who on June 30, 1947, held a valid private or commercial certificate and who failed to exchange such certificate in accordance with § 20.55 of the Civil Air Regulations, may, notwithstanding such failure and without other showing, obtain a pilot certificate with appropriate ratings upon application to the Administrator. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

PART 20—PILOT CERTIFICATES

ISSUANCE OF STUDENT PILOT CERTIFICATES AND TEMPORARY STUDENT PILOT CERTIFICATES; DURATION OF PILOT CERTIFICATES WITH PRIVATE OR COMMERCIAL RATING

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 22d day of July 1947.

The issuance of student pilot certificates would be facilitated, if provision were made in the Civil Air Regulations whereby an authorized representative of the Administrator, as well as the Administrator, were permitted to issue these certificates.

A further provision to provide for the issuance of temporary student pilot certificates would authorize the holders to exercise the privileges of a student pilot during the interim between successful completion of the prescribed requirements for such certificates and the receipt of same.

The Civil Air Regulations pertaining to airman certificates other than pilot certificates now provide that such certificates do not have a prescribed expiration date.

The purpose of this regulation is to provide that: (1) An authorized representative of the Administrator, as well as the Administrator, may issue student pilot certificates, (2) temporary student pilot certificates as well as pilot certificates with private or commercial rating may be issued by the Administrator or his authorized representative, and (3) pilot certificates with a private or commercial

rating shall not have a prescribed expiration date.

Effective July 22, 1947, Part 20 of the Civil Air Regulations is amended as follows:

1. Amend § 20.00 to read as follows:

§ 20.00 *Issuance.* A student pilot certificate will be issued by the Administrator or his authorized representative to an applicant who meets the applicable requirements.

2. Amend § 20.51 to read as follows:

§ 20.51 *Duration.* (a) A student pilot certificate shall expire 24 calendar months after the month of issuance.

(b) A pilot certificate with a private or commercial rating shall remain in effect unless it is suspended, or revoked, or a general termination date for such certificate is fixed by the Board.

3. Amend § 20.52, *Renewals,* to read as follows:

§ 20.52 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary student pilot certificate or a temporary pilot certificate with a private or commercial rating for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

4. By repealing § 20.53, *Reinstatement.*

(52 Stat. 984, 1007; 49 U. S. C. 425, 551)

Secretary.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 250—GENERAL RULES AND REGULATIONS, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935

EXEMPTION OF SMALL HOLDING-COMPANY SYSTEMS

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Public Utility Holding Company Act of 1935, particularly sections 3 (a), 3 (d) and 20 (a) thereof, and deeming such action appropriate in the public interest and for the protection of investors and consumers, hereby amends § 250.9 (Rule U-9) of the general rules and regulations under the Public Utility Holding Company Act of 1935 by inserting after the words "does not exceed $1,000,000," the words "or did not exceed $1,000,000 at December 31, 1946,". This modification of § 250.9 (Rule U-9) is in the nature of an exemption, and it appears improbable that its adoption will be objectionable to any person. The Commission therefore finds that the preliminary notice and public procedure provided for in section 4 (a) and (b) of the Administrative Procedure Act are unnecessary and declares the amendment of § 250.9 (Rule U-9) effective immediately pursuant to section 4 (c) of that act, subject, however, to reconsideration at the end of thirty days in the event any significant comments or criticisms have then been received with respect to the rule. Such comments or criticisms may be submitted in writing to the Secretary of the Commission.

The text of the rule as modified follows:

§ 250.9 *Exemption of small holding-company systems—*(a) *Exemption.* If the net book value of utility assets of a holding-company system (including all parent companies and their subsidiaries) does not exceed $1,000,000, or did not exceed $1,000,000 at December 31, 1946, or if the gross revenues from the utility operations of such system (excluding intercompany sales of electric energy) for the preceding calendar year did not exceed $350,000, all of the companies in such system shall, subject to filing the statements required by paragraph (c) of this section, be exempt from all the provisions of the act and rules thereunder, and none of such companies shall be deemed to be subsidiaries within the meaning of the act or any rule.

(b) *Exception.* The exemption provided by this section shall not apply to any acquisition of any security of any public-utility or holding company or any utility assets, if acquired from any person other than an associate company and for a consideration in excess of $100,000.

(c) *Annual statement.* The top holding company of any system exempted by this section shall annually, on or before March 1, file with this Commission a statement that such system falls within the exemption granted by this section, including as exhibits (1) an income and surplus statement for the preceding year, and (2) a balance sheet as of the end of that year, both in consolidating form showing the utility revenues and asset values of each company in such holding-company system. (Secs. 3 (a), 3 (d), 49 Stat. 810, 20 (a), 49 Stat. 833; 15 U. S. C. 79c, 79t)

Effective: July 22, 1947.

By the Commission.

Secretary.

PART 270—GENERAL RULES AND REGULATIONS INVESTMENT COMPANY ACT OF 1940

EXEMPTION OF CERTAIN TRANSACTIONS

The Securities and Exchange Commission has heretofore duly published in the FEDERAL REGISTER, notice of proposals with respect to the amendment of § 270.17a-2 (Rule N-17A-2) and the adoption of a new § 270.17a-4 (Rule N-17A-4) under the Investment Company Act of 1940. After due consideration of all relevant matter presented in regard to the proposals, the Commission has determined that the proposed action is necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act. Accordingly, the Commission, acting pursuant to authority conferred upon it by the above mentioned act, particularly sections 17 (a) and 38 (a) thereof, hereby amends Rule N-17A-2 and adopts a new Rule N-17A-4 both to read as hereinafter set forth.

Section 270.17a-2 (Rule N-17A-2) exempts from section 17 (a) of the act certain purchase, sale or borrowing transactions. Prior to the amendment, the exemption was limited to transactions between a bank and a person engaged principally in the business of instalment financing. The purpose of the amendment is to expand the exemption provided by the rule so that it will also apply to certain transactions between banks.

The purpose of § 270.17a-4 (Rule N-17A-4) is to exempt from section 17 (a) of the act, transactions pursuant to a contract where, at the time the contract was made and for a period of six months prior thereto, no affiliation or other relationship existed which would bring the transaction within the purview of section 17 (a). The Commission deems it proper to exempt such transactions since they are effected pursuant to a contract presumably entered into upon the basis of arms-length negotiations.

1. The text of § 270.17a-2 (Rule N-17A-2) as amended is as follows:

§ 270.17a-2 *Exemption of certain purchase, sale or borrowing transactions.* Purchase, sale or borrowing transactions occurring in the usual course of business between affiliated persons of registered investment companies shall be exempt from section 17 (a) of the act provided (a) the transactions involve notes, drafts, time payment contracts, bills of exchange, acceptances or other property of a commercial character rather than of an investment character; (b) the buyer or lender is a bank; and (c) the seller or borrower is a bank or is engaged principally in the business of instalment financing.

2. The text of new § 270.17a-4 (Rule N-17A-4) is as follows:

§ 270.17a-4 *Exemption of transactions pursuant to certain contracts.* Transactions pursuant to a contract shall be exempt from section 17 (a) of the act if at the time of the making of the contract and for a period of at least six months prior thereto no affiliation or other relationship existed which would operate to make such contract or the subsequent performance thereof subject to the provisions of said section 17 (a).

Since the foregoing action involves the enlargement of an existing exemption and the granting of an additional exemption, the Commission, acting pursuant to section 4 (c) of the Administrative Procedure Act, declares such action effective July 22, 1947.

(Secs. 17 (a) and 38 (a), 54 Stat. 815, 841; 15 U. S. C. 80a-17, 80a-37)

Secretary.

APPLICATION AND COMMITMENT

§ 585.1 *Mortgagee approved under section 203 (b) or section 603 (b) of the National Housing Act approved as lenders to file application.* Application for the insurance of loans under section 609 of the National Housing Act, which are eligible as hereinafter provided, may be filed by any lender which is approved as a mortgagee under sections 203 (b) or 603 (b) of the National Housing Act, and by any other chartered institution or permanent organization having succession upon its approval by the Commissioner for a particular transaction.

§ 585.2 *Form of application.* The application must be made upon a standard form prescribed by the Commissioner and forwarded to the Federal Housing Administration, Washington 25, D. C. Prior to the filing of the formal application, the proposed Borrower or the proposed Lender may submit to the Federal Housing Administration a request for a preliminary analysis with respect to specific questions of eligibility upon a standard form to be prescribed by the Commissioner, which request should be forwarded to Washington headquarters.

§ 585.3 *Fee to accompany application.* The application must be accompanied by the Lender's check for a sum computed at the rate of three dollars ($3) per thousand dollars ($1,000) of the original principal amount of the loan applied for. If the application is refused without an estimate of the necessary current cost of manufacturing the houses, the fee paid will be returned to the applicant. If agreements are entered into between the Borrower and the Lender, with the approval of the Commissioner for the substitution of the security for an insured loan, a further fee shall be paid at the time of the request for substitution, in such amount as may be determined by the Commissioner, but, in no event, shall such additional fee exceed one dollar and a half ($1.50) per thousand dollars ($1,000) of the loan value of the substituted security as determined by the Commissioner.

§ 585.4 *Approval of application.* Upon approval of an application, acceptance of the loan for insurance will be evidenced by the issuance of a commitment setting forth, upon a form prescribed by the Commissioner, the terms and conditions under which the insurance will be granted.

ELIGIBLE LOANS

§ 585.5 *Use of proceeds.* The proceeds of the loan shall be used for the purpose of financing the cost of manufacturing houses meeting such requirements of sound quality, durability, livability and safety as may be prescribed by the Commissioner.

§ 585.6 *Maximum amount of loan.* The loan shall involve a principal obligation not in excess of 90% of the amount which the Commissioner estimates will be the necessary current cost of manufacturing such houses, exclusive of profit.

§ 585.7 *Execution of binding purchase contracts.* The borrower shall establish that binding contracts have been executed satisfactory to the Commissioner, providing for the purchase and delivery of the number of houses to be manufactured with the proceeds of the loan.

§ 585.8 *Security, agreements and undertakings.* The loan shall be secured by an assignment of the purchase contracts specified in the next preceding paragraph and of all sums payable under such purchase contracts, with the right in the assignee to proceed against such security in the case of default as provided in the assignment, which assignment shall be in such form and contain such terms and conditions as may be prescribed by the Commissioner; and the Commissioner may require such other agreements and undertakings to further secure the loan as he may determine, including the right, in the case of default or at any time necessary to protect the lender, to compel delivery to the lender of any houses manufactured with the proceeds of the loan and then owned and in the possession of the borrower.

§ 585.9 *Requirements with respect to plant facilities, capital funds, and experience and credit standing.* The borrower shall establish to the satisfaction of the Commissioner that he has or will have (a) adequate plant facilities, (b) sufficient capital funds, taking into account the loan applied for, and (c) the experience necessary to achieve the required production schedule. The borrower must have a general credit standing satisfactory to the Commissioner.

§ 585.10 *Maturity.* The loan shall have a maturity satisfactory to the Commissioner but not in excess of one year from the date of the note.

§ 585.11 *Rate of interest.* The loan may bear interest at such rate as may be agreed upon between the borrower and the lender, but in no case shall such interest rate be in excess of 4% per annum on the amount of the principal obligation outstanding at any time.

§ 585.12 *Loan agreement, matters required therein.* The borrower and the lender shall, prior to the insurance of the loan, enter into a written loan agreement, containing such terms and conditions and undertakings with respect to

the loan transaction as may be approved by the Commissioner, including provisions with respect to the manner and conditions under which advances, (if any), during the process of manufacture are to be made by the lender and approved for insurance by the Commissioner, and provisions under which substitutions of security may be made from time to time.

§ 585.13 *Form and contents of note.* The note evidencing the indebtedness shall be in such form and contain such provisions as the Commissioner may determine, including a provision for acceleration of maturity, at the option of the holder, in the event of default in the payment of any sums due thereunder or failure to perform any undertaking or agreement contained in the note or any collateral document executed in connection with the loan transaction.

§ 585.14 *Inspections of books, records and operations of borrower.* The books, records, contracts, documents, papers, property equipment, buildings and machinery used in connection with and pertaining to the manufacture of the houses shall be subject to inspection and examination by the Commissioner or his duly authorized agent at all reasonable times. The borrower shall furnish, at the request of the Commissioner, his employees or attorneys, specific answers to questions upon which information is desired from time to time relative to the income, assets, liabilities, contracts, operations, including all papers and documents relating to cost of manufacturing of such houses, and any other information with respect to any matters concerned with the manufacturing of such houses which may reasonably be required by the lender and the Commissioner. The above enumeration of specific items shall not be deemed in any manner to limit the generality of the preceding sentence. In case the borrower is in default either under the provisions of the loan, or has failed to meet any applicable requirements of this section, or is in default with respect to any agreement or undertaking between the borrower and the lender or any agreement or undertaking to which the Commissioner is a party, the Commissioner may require the borrower to furnish at the expense of the borrower a complete audit of the borrower's books of accounts, duly certified by a public accountant satisfactory to the Commissioner.

§ 585.15 *Fees and charges collectible from borrower.* The lender may charge and collect from the borrower the amounts payable by the lender to the Commissioner on account of insurance premiums under the insurance contract, application and appraisal fees, and inspection charges.

EFFECTIVE DATE

§ 585.16 *Effective date.* These administrative rules (§§ 585.1 to 585.16, inclusive), are effective as to all loans with respect to which a commitment to insure under section 609 is issued to an approved lender on or after July 25, 1947.

586.9 Effective date.

AUTHORITY: §§ 586.1 to 586.9, inclusive, issued under sec. 607, 55 Stat. 61, sec. 609, Pub. Law 129, 80 Cong., 12 U. S. C. Sup. 1742.

§ 586.1 *Citation.* The regulations in this part may be cited and referred to as "Part 586—Regulations of the Federal Housing Commissioner under section 609 of the National Housing Act, issued July 25, 1947".

§ 586.2 *Definitions.* As used in the regulations in this part, the term:

(a) "Commissioner" means the Federal Housing Commissioner.

(b) "Act" means the National Housing Act, as amended.

(c) "Contract of Insurance" means the written instrument duly executed by the Commissioner and the lender setting forth the terms, conditions and provisions of insurance.

(d) "Lender" means a financial institution which is eligible to obtain the insurance of loans made pursuant to section 609 of the act and includes the original lender, its successors and such of its assigns as are approved by the Commissioner.

(e) "Insured Loan" means a loan with respect to which the Commissioner has executed a contract of insurance.

§ 586.3 *Insurance premiums.* The lender shall pay to the Commissioner an insurance charge equal to one per centum (1%) of the original principal of the loan specified in the Commitment to insure and such premium charge shall be paid on the date the contract of insurance becomes affective. Such premium charge shall be construed as fully earned when paid and shall be computed without regard to the amount of the loan actually advanced or outstanding.

§ 586.4 *Contract of insurance.* Upon compliance satisfactory to the Commissioner with the terms of the commitment to insure, the Commissioner and the lender shall execute the Contract of Insurance and the loan shall be an insured loan from the effective date of such contract. The Commissioner and the lender shall thereafter be bound by the contract of insurance, subject to the provisions of the regulations in this part which shall form a part of each such contract. The contract of insurance shall contain such provisions as the Commissioner may prescribe with respect to the servicing of the loan, submission of reports and notices regarding the loan transaction and other duties of the lender in the handling of the loan transaction prior or subsequent to default, consistent with the provisions of section 609 of the act and the administrative rules and regulations thereunder.

§ 586.5 *Default and rights of lender under insurance contract.* If the borrower fails to make any payment due under or provided to be paid by the terms of the loan or fails to perform any other covenant or obligation contained in any assignment, agreement or undertaking executed by the borrower in connection with such loan, because of which the lender has declared the full amount due and payable under the acceleration clause contained therein, and such failure continues for a period of thirty (30) days, the loan shall be considered in default and the lender shall, within thirty (30) days thereafter, give notice in writing to the Commissioner of such default. At any time within thirty (30) days after the date of such notice, or within such further period as may be agreed upon by the Commissioner in writing, the lender shall in such manner as the Commissioner may require, assign, transfer, and deliver to the Commissioner the original credit instrument without recourse or warranty, except that the note bears the genuine signature of the borrower, is valid and enforceable in the jurisdiction in which it is issued, the amount stated in the instrument of assignment is actually due and owing, there are no offsets or counterclaims thereto, and that the lender has a good right to assign the note and other items enumerated below:

(a) All rights and interest arising with respect to the loan so in default;

(b) All claims of the lender against the borrower or others, arising out of the loan transaction, except such claims as may have been released with the approval of the Commissioner;

(c) Any cash or property held by the lender, or to which it is entitled, as deposits made for the account of the borrower and which have not been applied in reduction of the principal of the loan; and

(d) All records, documents, books, papers, and accounts relating to the loan transaction.

The assignment provided for in this section shall be in a form satisfactory to the Commissioner.

§ 586.6 *Payment of debentures.* Upon such assignment, transfer, and delivery and compliance with the provisions of § 586.5, the Commissioner shall deliver to the lender:

(a) Debentures of the War Housing Insurance Fund as set forth in section 604 (d) of the act, issued as of the date the loan became in default, bearing interest at the rate of two and one-half (2½%) per centum per annum, payable semi-annually on the first day of January and the first day of July of each year and having a total face value equal to the unpaid principal balance of the loan on the date of default as determined in § 586.5, less any amounts received by the lender from any source and applied on the loan subsequent to the date of default and prior to its assignment to the Commissioner.

(b) Such debentures shall be registered as to principal and interest and all

or any such debentures may be redeemed at the option of the Commissioner with the approval of the Secretary of the Treasury at par and accrued interest on any interest payment day on three months' notice of redemption given in such manner as the Commissioner shall prescribe. Such debentures shall be issued in multiples of $50 and any difference not in excess of $50 between the amount of debentures to which the lender is otherwise entitled hereunder and the aggregate face value of the debentures issued shall be paid in cash by the Commissioner to the lender.

§ 586.7 *Assignments.* Loans insured under the regulations in this part may be transferred (but, except with the written approval of the Commissioner, only subsequent to full disbursement of the loan proceeds) to a transferee, who is approved by the Commissioner. Upon such approval and transfer and the assumption by the transferee of all obligations under the Contract of Insurance, the transferor shall be released from its obligations under the Contract of Insurance.

§ 586.8 *Amendments.* The regulations in this part may be amended by the Commissioner at any time and from time to time, in whole or in part, but such amendment shall not affect the Contract of Insurance on any loan already insured or any loan on which the Commissioner has made a Commitment to insure.

§ 586.9 *Effective date.* The regulations in this part are effective as to all loans on which a Commitment to insure under section 609 is issued to an approved lender on or after July 25, 1947.

FEDERAL POWER COMMISSION

[Docket No. G-923]

UNITED NATURAL GAS CO.

NOTICE OF APPLICATION

JULY 22, 1947.

Notice is hereby given that on July 11, 1947, United Natural Gas Company (Applicant), a Pennsylvania corporation, having its principal place of business at Oil City, Pennsylvania, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described facilities:

Seven (7) gas engine driven compressors with a combined rating of 1,450 hp., and auxiliary equipment, to be installed in a proposed new compressor station to be located in Franklin Township, Beaver County, Pennsylvania.

Applicant states that the proposed facilities will be installed in a proposed compressor station to be located in Franklin Township, Beaver County, Pennsylvania, at the northern end of a proposed 20-inch pipeline described in United Natural's application for a certificate of public convenience and necessity filed in Docket No. G-891.

Applicant states that the purpose of the proposed facilities is for recompressing gas supplied from the Big Inch and Little Big Inch lines as long as the pressure provided at these lines is insufficient to transport to other points on Applicant's system such gas as may be delivered to Applicant, and for recompressing gas which is now being purchased under contract from The Manufacturers Light and Heat Company and which is limited to a maximum pressure of 365 pounds p. s. i.

Applicant intends to operate the proposed facilities only as long as the pressures available from the sources of supply are inadequate, after which application will be made to the Commission to remove the station either in its entirety or such parts as may be unnecessary for ultimate operation of the system.

It is stated that the volumes of natural gas to be compressed by the proposed facilities will be from 10,000 Mcf tc 60,000 Mcf per day, depending upon pressures and volumes at the sources of supply mentioned.

The total over-all capital cost of the proposed facilities is estimated to be $274,000. In order to finance the proposed construction, Applicant states that it is proposed that National Fuel Gas Company, its parent company, will borrow temporarily from banks a sufficient amount to supplement cash resources of Applicant and in turn will loan to Applicant on promissory notes of three months' maturities. Permanent financing to the extent necessary will be accomplished at a later date.

The estimated annual cost of operation of the proposed facilities is $106,030. It is not presently contemplated that the proposed construction will make necessary any increase in Applicant's rates.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's Rules of Practice and Procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of United Natural Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the Rules of Practice and Procedure, and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

[Docket No. G-924]

PHEBUS PIPE LINE CO.

NOTICE OF APPLICATION

JULY 23, 1947.

Notice is hereby given that on July 16, 1947, Phebus Pipe Line Company (Applicant), an Illinois corporation having its principal place of business at Owensboro, Kentucky, filed an application for permission and approval of the Commission to abandon the following-described facilities and to discontinue the service rendered thereby:

Approximately 8 miles of 6-inch natural-gas transmission pipe line, together with necessary appurtenances, extending from the Russellville Gas Field in Lawrence County, Illinois, in a southeasterly direction to a point near Vincennes, Indiana.

Applicant states that, by means of the facilities described, it transports and sells natural gas produced in the Russellville Field to Hoosier Gas Corporation for resale by the latter in the cities of Vincennes, Washington, and Princeton, Indiana, and environs.

Applicant states that it is not Hoosier Gas Corporation's major or sole source of supply and that abandonment by Applicant of its system and discontinuance of service to Hoosier Gas Corporation will not materially affect the latter's service to its consumers.

It is stated that the wells from which Applicant receives its source of supply have become so depleted that it is not economically advisable to continue operation of its pipe line system; that production has decreased from a total of 92,059 Mcf in the year 1943 to 37,527 Mcf in the year 1946, and a total of 6,551 Mcf for the first five months of 1947.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's Rules of Practice and Procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Phebus Pipe Line Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of Rule 8 or 10, whichever is applicable, of the rules and practice and procedure (18 CFR 1.8 or 1.10).

INTERSTATE COMMERCE COMMISSION

[Ex Parte 166]

1947 INCREASED FREIGHT RATES

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 24th day of July A. D. 1947.

Upon consideration of the petition in the above-entitled proceeding filed on July 3, 1947, as amended July 23, 1947, by common carriers by railroad named therein, comprising all the Class I railroads in the United States, and many railroads of other classifications, requesting the Commission to institute an investigation into the level of railway freight rates and charges, and to authorize the petitioners to increase their freight rates and charges 25 percent within eastern territory; 15 percent within southern and within western territories; 25 percent interterritorially between southern and western territories, on the one hand, and eastern territory, on the other; and 15 percent interterritorially between southern and western territories, with certain exceptions, as set forth in detail in Appendix II to the petition, as amended, with permission to make such increased rates and charges effective at the earliest possible date, upon one day's notice, and for a general order modifying all outstanding orders of the Commission to the extent necessary to enable the petitioners to make the proposed increased rates and charges effective, and for entry of appropriate orders under sections 4 and 6 of the Interstate Commerce Act, and for other and further relief:

It is ordered, That an investigation is hereby instituted into and concerning the reasonableness and lawfulness of further increases in freight rates and charges of petitioning carriers and intervening petitioners and that the investigation and the petition, as amended, be, and they are hereby, assigned for hearing at the office of the Commission in Washington, D. C., before Division Two, on September 9, 1947, at 9 a. m. United States standard time (10 a. m. District of Columbia daylight saving time).

And it is further ordered, That the proceedings be governed by the special rules of practice hereto appended, in addition to the general rules of practice before the Commission.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

APPENDIX—SPECIAL RULES OF PRACTICE APPLICABLE IN PROCEEDING IN DOCKET EX PARTE NO. 166

Interventions. Petitions of intervention by carriers other than the petitioners, seeking similar relief should comply with the General Rules of Practice, Rule 72. Persons appearing in opposition to the petition herein, or in opposition to any similar petition of carriers other than those filing the original petition, will be considered as protestants, and may be heard without the filing of petitions of intervention.

Simplification of presentations. In order to conserve time and avoid expense, it is strongly urged that persons finding themselves with common interests in the proceeding shall, to the greatest extent possible, endeavor to consolidate their presentation of testimony, and arrange for cross-examination by as few counsel as possible. The same course should be followed upon oral argument.

Evidence offered should be carefully prepared with a view to conciseness and clarity, and so as to avoid extraneous, immaterial, and irrelevant matter and undue cumulation of testimony or of witnesses upon any point. It should be factual in character, and argument should be reserved for the oral argument stage, and not be incorporated in the testimony.

Exhibits. In the preparation of exhibits, Rules of Practice 81 to 84, inclusive, should be followed. If possible, all documents submitted by a witness should be embraced in a single exhibit, with pages consecutively numbered, suitably bound together. In order to supply the State Commissioners, members of this Commission, and counsel in the proceeding, at least 150 copies of each exhibit should be prepared. So far as possible exhibits should be made self-explanatory in order to minimize the amount of time required for explanation by oral testimony.

Prepared statements. Witnesses who expect in the course of their testimony to read from a written statement should comply with Rule 77 of the Rules of Practice. They should have sufficient copies thereof to supply opposing counsel, the presiding officers and the official reporter. Such written statements should be furnished counsel a reasonable time before the appearance of the witness on the stand. However, in the interest of conservation of time, it is suggested that such statements be prepared and offered in the manner indicated in the paragraph below, relating to verified statements, instead of being submitted orally by a witness on the stand.

Witnesses who will use prepared statements should remember that extensive tabular matter should be submitted separately, as an exhibit, and thus avoid the necessity for copying tabular matter into the transcript of oral testimony.

Hearings. The initial hearing shall be primarily for the purpose of receiving testimony on behalf of (a) the petitioners, (b) interveners, and (c) protestants who are prepared and desire to be heard. Such additional hearings will be provided as the progress of the proceeding indicates to be necessary or desirable.

Submission of evidence in written form. The evidence in chief to be produced on behalf of the petitioners and any intervening petitioners who may come into the proceeding, shall be submitted in written form, as prepared statements by the respective witnesses, with their accompanying exhibits. Such documents should be made available to the Commission by filing copies as in the case of verified statements (hereinafter mentioned) on or before August 20, 1947, and a copy should be transmitted by petitioners and intervening petitioners to the regulatory authority of each State having jurisdiction with respect to the intrastate rates and charges of petitioners and intervening petitioners, and also to each person who shall give timely notice to the Commission and counsel for petitioners of their intention to appear as protestants. Such notification to petitioners should be made on or before August 20 1947, in writing, addressed to J. Aronson, 466 Lexington Avenue, New York 17, New York.

Verified statements (affidavits). Evidence in the form of verified statements (affidavits) without personal appearance of the affiant as a witness will also be received in the absence of objection, as hereinafter specified. Parties desiring to offer such statements should make available as early as possible during the hearing 150 copies for the Commission and other parties, including the petitioners. Notice of any objection to the receipt of any such statement in evidence should be given to the Commission and to the party submitting the statement promptly following the receipt of such statement. If no such notice is given promptly it will be considered that objection to the receipt of the statement in evidence is waived, but objection to the weight to be accorded the statement of facts is reserved. Such statements should conform to the Rules of Practice in respect of style, mimeographing or printing, etc. They should be limited strictly to statements of fact and contain no argument, and if not so limited may be excluded. The Commission on its own motion or on objection may exclude a verified statement or any portion thereof which (a) is not material or relevant to the questions presented in this proceeding, (b) is obviously incompetent, or (c) is argumentative in character. In the absence of objection to introduction of the verified statement it will be unnecessary for the affiant to appear personally at the hearing. All verified statements received in evidence will be part of the record in the proceeding, upon which the Commission will base its decision.

Notice of intention to produce testimony. Persons who desire to be heard will facilitate necessary arrangements by sending notice of their intention by letter or telegram to the Commission at Washington, so as to reach the Commission before September 4, 1947, which shall state the number of witnesses, and the approximate amount of time considered necessary for presentation of direct testimony.

Correspondence. Correspondence relative to this matter should be addressed to the Commission at Washington, D. C., with a reference to the docket number, Ex Parte No. 166.

§ 263.104 *Eligible producer.* An eligible producer shall be an individual, partnership, association, corporation, or other legal entity producing grain sorghums in 1947, as landowner, landlord, tenant, or sharecropper.

§ 263.105 *Eligible grain sorghums.* Eligible grain sorghums shall be grain sorghums which were produced in 1947, the beneficial interest in which is now in the producer, and always has been in him, or in him and a former producer whom he succeeded before the grain sorghums were harvested, provided such grain sorghums grade No. 4 or better in accordance with Official Grain Standards and do not grade discolored, weevily, or smutty. When stored in a warehouse, the grain sorghums must not contain in excess of 14 percent moisture. When stored on the farm the grain sorghums must not contain in excess of 13 percent moisture and must have been stored in the granary at least 20 days prior to inspection for measurements, sampling, and sealing, unless otherwise approved by the State PMA Committee.

§ 263.106 *Eligible storage.* Eligible storage for grain sorghums shall meet the following requirements:

(a) Under the loan program, eligible farm storage shall consist of farm bins and granaries which, as determined by the county committee, are of such substantial and permanent construction as to afford safe storage of the grain sorghums, permit effective fumigation for the destruction of insects, and afford protection against rodents, other animals, thieves, and weather.

(b) Under the loan and purchase agreement program, eligible warehouse storage shall consist of (1) public grain warehouses situated at terminal, subterminal or country points, for which a Uniform Grain Storage Agreement (CCC Form H) is in effect. (Warehousemen desiring approval should communicate with the CCC field office serving the area in which the warehouse is located); or (2) warehouses operated by Eastern common carriers under tariffs approved by the Interstate Commerce Commission.

(c) Under the purchase agreement program, grain sorghums stored in other than eligible warehouse storage will be purchased on delivered basis.

§ 263.107 *Approved forms.* The approved forms constitute the loan and purchase agreement documents which, together with the provisions of this bulletin, govern the rights and responsibilities of the producer, and should be read carefully. Any fraudulent representation made by a producer in obtaining a loan or purchase agreement or in executing any of the loan or purchase documents, will render him subject to prosecution under the United States Criminal Code.

Notes and chattel mortgages, and notes and loan agreements, must be dated prior to February 29, 1948, and be executed in accordance with these instructions, with State and documentary revenue stamps affixed thereto where required by law. Purchase agreements must be signed and dated by the producer and mailed or delivered to the county committee prior to February 29, 1948. Notes and chattel mortgages, note and loan agreements, and purchase agreements executed by an administrator, executor, or trustee will be acceptable only where legally valid.

(a) *Farm storage loans.* Approved forms shall consist of producer's note on CCC Commodity Form A, secured by a chattel mortgage on CCC Commodity Form AA.

(b) *Warehouse storage loans.* Approved forms shall consist of note and loan agreement on CCC Commodity Form B, secured by negotiable warehouse receipts, representing the grain sorghums stored in approved warehouses. All grain sorghums pledged as security for a loan on a single CCC Commodity Form B must be stored in the same warehouse.

(c) *Purchase agreement program.* The approved forms shall consist of the Purchase Agreement (Purchase Form 1) signed by the producer and approved by the county committee, negotiable warehouse receipts, and such other forms as may be prescribed by the Director, Grain Branch, PMA.

(d) *Warehouse receipts.* Grain sorghums stored in eligible warehouse storage in connection with a loan or purchase agreement must be represented by warehouse receipts which satisfy the following requirements:

(1) Warehouse receipts must be issued in the name of the producer, properly endorsed in blank so as to vest title in the holder, and be issued by an approved warehouseman.

(2) Each warehouse receipt should set forth in its written terms that the grain sorghums are insured for not less than market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, or, in lieu of this statement, it must have stamped or printed thereon the word "Insured."

(3) Liens for warehouse charges will be recognized by CCC but only from May 15, 1947, or the date of the warehouse receipt, whichever is later.

(4) Each warehouse receipt, or the warehouseman's supplemental certificate (in duplicate) properly identified with the warehouse receipt, must show the gross weight and grade, dockage, test weight and all special grading factors.

(5) In the case of warehouse receipts issued for grain sorghums delivered by rail or barge, CCC will accept inbound weight and inspection certificates properly identified with the grain sorghums covered thereby in lieu of the information required by subparagraph (4) of this paragraph. In areas where licensed inspectors are not available at terminal and subterminal warehouses, CCC will accept inspection certificates based on representative samples which have been forwarded to and graded by licensed grain inspectors.

§ 263.108 *Determination of quantity.* A unit of 100 pounds shall be determined to be 100 pounds of grain sorghums, free of dockage when determined by weight, or 2.25 cubic feet of grain sorghums testing 56 pounds per bushel when determined by measurement. A deduction of ¾ of a pound for each sack will be made in determining the net quantity of the grain sorghums when stored as sacked grain sorghums. In determining the quantity of grain sorghums in farm storage by measurement, fractional units of less than 100 pounds will be disregarded. The quantity determined by measurement of grain sorghums having a test weight less than 56 pounds per bushel shall be adjusted by the following percentages:

For grain sorghums testing	*Percent*
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	95
52 pounds or over, but less than 53 pounds	93
51 pounds or over, but less than 52 pounds	91
50 pounds or over, but less than 51 pounds	89
49 pounds or over, but less than 50 pounds	87

§ 263.109 *Determination of dockage.* The percentage of dockage shall be determined in accordance with the Official Grain Standards of the United States, and the weight of such dockage shall be deducted from the gross weight of the grain sorghums in determining the net quantity available for loan or purchase.

§ 263.110 *Liens.* The grain sorghums must be free and clear of all liens and encumbrances, or if liens or encumbrances exist on the grain sorghums, proper waivers must be obtained.

§ 263.111 *Service fees—(a) Loans.* Where the grain sorghums under loan are farm-stored the producer shall pay a service fee of 2 cents per 100 pounds, and where the grain sorghums under loan are warehouse-stored the producer shall pay a service fee of 1 cent per 100 pounds.

(b) *Purchase agreement.* At the time the purchaser applies for a purchase agreement he shall pay a preliminary minimum service fee of $1.50. In addition, where delivery of grain sorghums is made under the purchase agreement, the producer shall pay a service fee of 1 cent on each 100 pounds of grain sorghums delivered in excess of 160 hundredweight.

§ 263.112 *Set-offs.* A producer who is listed on the county debt register as indebted to any agency or corporation of the United States Department of Agriculture shall designate the agency or corporation to which he is indebted as the payee of the proceeds of the loan or purchase agreement to the extent of such indebtedness, but not to exceed that portion of the proceeds remaining after deduction of the service fees and amounts due prior lien-holders. Indebtedness owing to the CCC shall be given first consideration after claims of prior lien-holders.

§ 263.113 *Interest rate.* Loans shall bear interest at the rate of 3 percent per annum; and interest shall accrue from the date of disbursement of the loan, notwithstanding the printed provisions of the note.

§ 263.114 *Transfer of producer's equity.* The right of the producer to transfer either his right to redeem the grain sorghums under loan or his remaining interest may be restricted by CCC.

§ 263.115 *Safeguarding of the grain sorghums.* The producer obtaining a farm-stored loan is obligated to maintain the farm storage structures in good repair, and to keep the grain sorghums in good condition.

§ 263.116 *Insurance.* CCC will not require the producer to insure the grain sorghums placed under farm-storage loans; however, if the producer does insure such grain sorghums such insurance shall inure to the benefit of CCC to the extent of its interest, after first satisfying the producer's equity in the grain sorghums involved in the loss.

§ 263.117 *Loss or damage to the grain sorghums.* The producer is responsible for any loss in quantity or quality of the grain sorghums placed under farm-storage loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on the part of the producer resulting solely from an external cause other than insect infestation or vermin will be assumed by CCC, provided the producer has given the county committee immediate notice in writing of such loss or damage, and provided there has been no fraudulent representation made by the producer in the loan documents or in obtaining the loan.

§ 263.118 *Personal liability.* The making of any fraudulent representation by the producer in the loan documents, or in obtaining the loan, or the conversion or unlawful disposition of any portion of the grain sorghums by him, shall render the producer personally liable for the amount of the loan and for any resulting expense incurred by any holdler of the note.

§ 263.119 *Maturity, delivery, and satisfaction—(a) Loans.* Loans mature on demand but not later than April 30, 1948. In the case of farm-storage loans, the producer is required to pay off his loan on or before maturity, or to deliver the mortgaged grain sorghums in accordance with the instructions of the county committee. Credit will be given for the total quantity delivered, provided it was stored in the bins in which the grain sorghums under loan were stored, at the applicable loan rate, according to grade and/or quality. If the settlement value of the grain sorghums delivered exceeds the amount due on the loan, the amount of the excess shall be paid to the producer. If the settlement value of the grain sorghums is less than the amount due on the loan, the amount of the deficiency, plus interest, shall be paid by the producer to CCC, or may be set off against any payment which would otherwise be made to the producer under any agricultural programs administered by the Secretary of Agriculture, or any other payments which are due or may become due to the producer from CCC or any other agency of the United States. In the event the farm is sold or there is a change of tenancy, the grain sorghums may be delivered before the maturity date of the loan upon prior approval by the county committee. In the case of warehouse storage loans, if the producer does not repay his loan upon maturity CCC shall have the right to sell or pool the grain sorghums in satisfaction of the loan in accordance with the provisions of the note and loan agreement and section 263.120 hereof.

(b) *Purchase agreements.* The producer who signs a purchase agreement (Purchase Form 1) shall not be obligated to deliver any specified quantity of grain sorghums to CCC. If the producer who signs a purchase agreement desires to sell grain sorghums to CCC he shall, during the month of May 1948, submit warehouse receipts representing eligible grain sorghums stored in eligible warehouse storage to the county committee for the quantity of such grain sorghums he elects to sell to CCC, or, in the case of grain sorghums stored in other than eligible warehouse storage, he shall notify the county committee of his intention to sell and request delivery instructions. The producer must then complete delivery within a 15-day period immediately following the date the county committee issues delivery instructions, unless the county committee determines more time is needed for delivery. Delivery shall be made to an approved warehouse, or as otherwise directed by the Administrator of PMA or his authorized representative. When delivery is completed, payment shall be made as prescribed by the Administrator. The producer shall direct to whom payment of the purchase price shall be made.

In the case of grain sorghums stored in eligible warehouse storage, purchases will be made on the basis of the weight, grade, and other quality factors shown on the warehouse receipts and accompanying documents. Grain sorghums delivered from other than eligible warehouse storage will be purchased on the basis of official weights, grades and other quality factors at destination, or official weights at destination and official grades and other quality factors at the inspection point shown on the shipping order furnished the producer, which unless otherwise agreed shall be the customary location, on the route of shipment, of an inspector licensed under the U. S. Grain Standards Act; or, if such grain sorghums are delivered to a local CCC bin site, on the basis of the weight, grade and quality determinations made by the county committee (in accordance with instructions for the determination of such factors under the loan program) and approved by the producer at the time of delivery.

§ 263.120 *Removal of the grain sorghums under loan.* If the loan is not satisfied upon maturity by payment or delivery, the holder of the note may remove the grain sorghums and sell them either by separate contract or after pooling them with other lots of grain sorghums similarly held. The producer has no right of redemption after the grain sorghums are pooled, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat the pooled grain sorghums as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the grain sorghums, even though part or all of such pooled commodity is disposed of under such policies at prices less than the current domestic price for such commodity. Any sum due the producer as a result of the sale of the grain sorghums or of insurance proceeds thereon, or any ratable share resulting from the liquidation of a pool, shall be payable only to the producer without right of assignment by him.

§ 263.121 *Release of the grain sorghums under loan.* A producer may at any time obtain release of the grain sorghums under loan by paying to the holder of the note, or note and loan agreement, the principal amount thereof, plus interest. If the note is held by an out-of-town lending agency or by CCC, the producer may request that the note be forwarded to a local bank for collection. In such case, where CCC is the holder of the note, the local bank will be instructed to return the note if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of a farm-storage loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the county records. Partial release of the grain sorghums prior to maturity may be arranged with the county committee by paying to the holder of the note the amount of the loan and accrued interest represented by the quantity of the grain sorghums to be released. In the case of warehouse-storage loans, each partial release must cover all of the commodity under one warehouse receipt number.

§ 263.122 *Purchase of notes.* CCC will purchase, from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages or negotiable warehouse receipts. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. Lending agencies are required to submit a weekly report to CCC and to the county committees on 1940 C. C. C. Form F, or such other form as the Corporation may prescribe, of all payments received on producers' notes held by them, and are required to remit promptly to CCC an amount equivalent to 1½ percent interest per annum, on the amount of the principal collected, from the date of disbursement to the date of payment. Lending agencies should submit notes and reports to the C. C. C. field office serving the area.

§ 263.123 *Field offices of CCC.* The field offices of CCC, and the areas served by them, are shown below:

§ 263.124 *Loan and purchase rates.* Loan and purchase rates for grain sorghums grading No. 2 or better are set forth below:

(a) *Basic loan and purchase rates at terminal markets.* 1947 grain sorghums loan and purchase rates per 100 pounds for grain sorghums grading No. 2 or better, stored in approved public grain warehouses at the following terminal markets, shall be as follows:

Market	*Loan and purchase rate per 100 pounds*
Kansas City, Mo., and Omaha, Nebr.	$2.50
Memphis, Tenn., and St. Louis, Mo.	2.63
San Francisco and Los Angeles, Calif.	2.75
New Orleans, La., and Houston and Galveston, Tex.	2.58

For loan or purchase at the full rates shown in the above schedule, the grain sorghums must have been shipped by rail at the domestic interstate freight rate. The rate at the designated terminal market will be reduced by the difference between the freight paid and the domestic interstate freight rate on any grain sorghums shipped at other than such freight rate.

The foregoing schedule of rates applies to grain sorghums delivered to any designated terminal market in carload lots which have been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges; *Provided*, That in the event the amount of paid-in freight is insufficient to guarantee minimum proportional freight rate from the terminal market, there shall be deducted from the applicable terminal rate the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee outbound movement at the minimum proportional freight rate. The warehouse receipts must be accompanied by the registered freight bills or by (1) a statement in the following form signed by the warehouseman, (2) a certificate of the warehouseman containing such a certification, or (3) such forms as may hereafter be approved by CCC.

Grain sorghums stored at a designated terminal market (including trucked-in grain sorghums) for which neither registered freight bills nor such freight certificates are presented shall have a loan or purchase rate equal to the higher of (i) the terminal rate minus 10 cents per 100 pounds, or, (ii) the county rate for the county in which the grain sorghums are stored.

(b) *Basic loan and purchase rates at other than designated terminal points.* CCC will determine the loan and purchase rate for grain sorghums in storage on the farm or in country warehouses by deducting from the designated terminal market rate an amount equal to (1) the receiving and loading-out charges computed in accordance with the schedule of rates of the Uniform Grain Storage Agreement (CCC Form H) plus (2) the average all-rail interstate freight rate (plus tax) from all shipping points in the county.

Upon request by the county committee the Branch office of CCC will determine the loan and purchase rate for grain sorghums stored in approved warehouses (other than those situated in the designated terminal markets) which are shipped by rail from country shipping points, by deducting from the appropriate designated terminal market rate an amount equal to the transit balance of the through freight from point of origin for such grain sorghums to such terminal market, plus freight tax on such transit balance: *Provided*, That in the case of grain sorghums stored at any railroad transit point, taking a penalty by reason of out-of-line movement, or for any other reason, to the appropriate designated market, there shall be added to such transit balance an amount equal to any out-of-line costs or other costs incurred in storing grain sorghums in such position.

The warehouse receipts, in addition to other required documents must be accompanied by the original paid freight bills duly registered for transit privileges or by a statement in the following form signed by the warehouseman, or a warehouseman's supplemental certificate containing such information:

(c) *Variations for grades.* The loan and purchase rate for grain sorghums which grade No. 3 shall be discounted 8 cents per 100 pounds, and No. 4, 16 cents per 100 pounds. In addition a discount of 3 cents per 100 pounds shall apply to "mixed" grain sorghums.

(d) *Storage allowance.* There shall be no storage allowance on grain sorghums under either the loan or purchase agreement program.

A deduction of 9 cents per 100 pounds shall be made from the applicable loan rate on grain sorghums being placed under loan in a warehouse, unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been prepaid through April 30, 1948.

A deduction of 9 cents per 100 pounds shall be made from the applicable purchase rate on warehouse-stored grain sorghums offered under the purchase agreement program unless evidence is submitted with the warehouse receipt that all warehouse charges except receiving charges have been paid through the date on which the warehouse receipts are tendered to the county committee.

(e) *County loan and purchase rates.* Loan and purchase rates per 100 pounds of eligible grain sorghums for the respective States and counties basis No. 2 or better grain sorghums free of dockage are listed below:

ADMINISTRATION

§ 33.3 *Director.* The Director shall perform, for and under the supervision of the Secretary and Administrator, such duties as the Secretary or Administrator may require in the administration and enforcement of the act and the regulations in this part.

MISCELLANEOUS

§ 33.4 *Inspection certificate.* The regulations issued under the Farm Products Inspection Act governing the inspection and certification of fresh fruits and vegetables, as amended (7 CFR 51.1 et seq.) and as the same may, from time to time, be amended, insofar as the aforesaid regulations apply to apples or pears, are hereby adopted and made a part of the regulations in this part for the purposes of the act except when in conflict with specific regulations herein set forth; and all persons authorized to issue certificates of grade or condition of fresh fruits and vegetables under the said Farm Products Inspection Act are authorized to issue the certificate required, under the act and under the regulations in this part, for apples and pears.

§ 33.5 *Form of certificate.* A Farm Products Inspection Act certificate bearing in prominent letters across the face thereof the words "Export Form Certificate" shall, when issued hereunder, be issued only for apples or pears inspected and certified in accordance with the provisions of the act and the regulations in this part and shall include the following printed or typed statement: "The apples or pears covered by this certificate meet the requirements of the Export Apple and Pear Act."

§ 33.6 *Analysis; certificate.* If the apples or pears in any shipment for export are to be analyzed for any spray residue and the chemist's report is not available at the time the inspection for grade is finished, the inspector may, if practicable, issue a certificate subject to its being rescinded within 48 hours after issuance should the chemist's analysis show that the apples or pears do not comply with the tolerances for any such spray residue established under the Federal Food, Drug and Cosmetic Act, as

amended (52 Stat. 1040; 21 U. S. C. 301 et seq.).

§ 33.7 *Delivery of certificate.* If, at the time of billing for shipment in export, a certificate shall have been issued under the provisions of the act and the regulations in this part, such certificate or a copy thereof, on a form approved by the Director, shall be delivered by the shipper or his agent to the initial carrier for delivery to the proper official of any carrier on which the apples or pears, covered by the certificate or the copy thereof, as aforesaid, are to be exported.

§ 33.8 *Requirements for shipments—*(a) *Export of apples or pears.* No person shall ship, offer for shipment, transport, or offer for transportation to a foreign country apples or pears in packages except in accordance and compliance with the requirements hereof and only if a certificate has been issued with respect to such apples or pears.

(b) *No acceptance for export without certificate.* A shipment of apples or pears in packages shall not be accepted for export by any carrier unless such shipment is accompanied by a certificate or a copy thereof, on a form approved by the Director, and such certificate or a copy thereof has been surrendered to the carrier.

(c) *Split shipments.* When a certificate has been issued covering a lot of apples or pears and the shipper desires to export part of the lot by one carrier and part by another carrier, such certificate or copy thereof, as aforesaid, shall be delivered to each carrier.

(d) *Representation of issuance, without copy of certificate, not acceptable.* No carrier shall accept for shipment a part of a lot of apples or pears in packages upon the representation by the shipper or his agent or by the initial carrier that a certificate has been issued covering the entire lot of such apples or pears, but shall require that such certificate or a copy thereof, as aforesaid, be delivered to such carrier.

§ 33.9 *Method of inspection and certification.* When a shipment of apples or pears in packages is made to a foreign country under a through bill of lading or under a bill of lading marked for export, the shipper shall, except as provided in § 33.18, secure inspection of the apples or pears in such shipment and deliver to the local agent of the carrier the certificate or copy thereof, as aforesaid, covering such shipment. Such local agent shall attach such certificate or copy thereof to the waybill or make a notation on the waybill that the fruit has been inspected and that a certificate has been issued as provided herein. Inspection of a shipment of apples or pears in packages, not under a through bill of lading to a foreign country or not under a bill of lading marked for export, may be obtained at point of origin of such shipment, if inspection is available, or at any convenient point en route to or at destination.

§ 33.10 *Noncertificated shipments; handling.* Any person operating any carrier shall, within 72 hours after such carrier sails from any port, send to the Director of the Fruit and Vegetable Branch, Production and Marketing Administration, Washington 25, D. The furnishing of the foregoing information shall not relieve any person operating a carrier, as aforesaid, from liability under the act or the regulations in this part if the facts warrant prosecution.

§ 33.11 *Special certificates.* A special certificate in compliance with the standards or requirements of any foreign country as to condition of apples or pears shall, as authorized by section 3 of the act, be issued as a part of, or in addition to, an export form certificate. A reasonable additional fee may be charged when the inspection necessary for the issuance of such special certificate requires additional time or an examination or certification at some time or place other than that at which the original inspection was made.

§ 33.12 *Issuance of certificate; requirements.* The issuance of a certificate does not excuse any person who fails to comply with any regulatory laws or requirements applicable to apples or pears shipped in foreign commerce. No certificate shall be issued except upon a showing satisfactory to the Director that the apples or pears shipped in foreign commerce comply with the tolerances for any arsenical or lead spray residue established under the Federal Food, Drug or Cosmetic Act, as aforesaid.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 901—HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

ORDER AMENDING ORDER, AS AMENDED

§ 901.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps. 900.1 et seq.; 11 F. R. 7737, 12 F. R. 1159), a public hearing was held at San Francisco, California, on April 28, 1947, upon proposed further amendments to the marketing agreement, as amended, and to the marketing order, as amended (7 CFR 901.1 et seq., as amended, 7 CFR, Cum. Supp., 901.4, 901.17, 901.19), regulating the handling of walnuts grown in California, Oregon, and Washington; and the decision (12 F. R. 4819) was made with respect to the amendments by the Secretary on July 15, 1947. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of the said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The said order, as amended and as hereby further amended, regulates the handling of the aforementioned walnuts in the same manner as the aforementioned marketing agreement, as amended and as further amended effective as of the same time as the further amendment of the said marketing order, as amended; and the said marketing order, as amended and as hereby further amended, is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposals upon which the hearing was held; and

(3) There are no differences in the production and marketing of said commodity in the production area covered by the said marketing order, as amended and as hereby further amended, that make necessary different terms applicable to different parts of such area.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Additional findings.* It is necessary to make effective not later than August 1, 1947, the present amendments to the order, as amended, because the coming crop year will begin on that date, and it is essential that all procedures and requirements in connection with regulation during such entire crop year be in accordance with the appropriate provisions contained in the amendments hereinafter set forth, some of which provisions differ materially from the corresponding provisions in the existing order, as amended. Any delay beyond August 1, 1947, in the effective date of the order, as amended and as hereby further amended, will seriously disrupt the successful operation of this regulatory program, and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication (see section 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237).

(c) *Determinations.* It is hereby determined that, (1) The further amendment to the marketing agreement, as amended, regulating the handling of walnuts grown in California, Oregon, and Washington, upon which the aforesaid hearing was also held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the commodity covered by the said order as heretofore and hereby amended) who handled not less than 50 percent of the volume of said commodity, covered by this order, as heretofore and hereby amended, produced within California, Oregon, and Washington;

(2) The aforesaid agreement, further amending the aforesaid marketing agreement, as amended, has been executed by three packers, who during the preceding crop year, handled not less than 67 percent of the merchantable walnuts packed during such crop year, and

(3) The issuance of this order, further amending the aforesaid marketing order, as amended, is favored and approved by producers of walnuts who, during the determined representative period (September 1, 1945, to August 31, 1946, both dates inclusive), produced for market, within the production area specified in the said order, as amended and as hereby further amended, at least two-thirds of such commodity produced for market within such area.

It is therefore ordered, That on and after the effective date hereof, the handling of walnuts grown in California, Oregon, and Washington shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended and as hereby further amended; and such order, as amended, is hereby further amended as follows:

1. Delete the provisions of paragraph 1, section 1 of Article I (§ 901.2 (a)) and insert, in lieu thereof, the following:

(a) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States Department of Agriculture who is, or who may be, authorized to perform the duties of the Secretary of Agriculture of the United States.

2. Delete the provisions of paragraphs 9, 10, 11, 12, 13, 14, and 15 of section 1 of Article I (§ 901.2 (i), (j), (k), (l), (m),

(n), (o), and (p)) and insert, in lieu thereof, the following:

(i) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.).

(j) "Walnuts" means only walnuts of the "English" (Juglans Regia) varieties grown in the States of California, Oregon, and Washington.

(k) "Merchantable walnuts" means all unshelled walnuts meeting the pack specifications and minimum requirements prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(l) "Cull walnuts" means all lots of unshelled walnuts which do not meet the minimum specifications for merchantable walnuts and which cannot be brought up to such minimum specifications by standard commercial grading practices.

(m) "Pack" means a specific commercial classification according to size, variety or type, internal quality, and external appearance and condition, of merchantable walnuts, packed in accordance with the pack specifications prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

(n) "Credit value" means that value per pound for each pack established by the Control Board, subject to the approval of the Secretary, pursuant to section 1 of Article IV (§ 901.5 (a)).

(o) "Sheller" means any person engaged in the business of shelling walnuts for any commercial purpose.

3. Delete the provisions of paragraphs 17 and 18 of section 1 of Article I (§ 901.2 (r) and (s)) and insert, in lieu thereof, the following:

(r) "Crop year" means the twelve months from August 1 to the following July 31, both inclusive.

(s) "Surplus referable" to any walnuts handled or certified for handling or sold to the Control Board means a quantity of walnuts of like pack which bears the same ratio to such quantity of walnuts handled or certified for handling or sold to the Control Board as the surplus percentage bears to the salable percentage.

4. Delete the provisions of paragraph 5 of section 3 of Article II (§ 901.3 (c) (9)) and insert, in lieu thereof, the following:

(9) To perform such duties in connection with the administration of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c), as may from time to time be assigned to it by the Secretary.

5. Delete the provisions of sections 1, 2, and 3 of Article III (§ 901.4 (a), (b), and (c)) and insert, in lieu thereof, the following:

(a) *Authorized packs.* Except as otherwise provided in Article VII (§ 901.8) hereof for the sale of cull walnuts, no packer shall handle any unshelled walnuts except those packed in accordance with such pack specifications and minimum requirements as the Control Board may prescribe, subject to the approval of the Secretary, in order to tend to effectuate the declared policy of the act. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in prescribing such pack specifications and minimum requirements and such other data pertaining thereto as the Secretary may request.

(b) *Salable percentage and surplus percentage.* On the basis of the carryover, estimated consumptive demand and estimated production of merchantable walnuts, the salable and surplus percentages of merchantable walnuts for each crop year shall be fixed by the Secretary, after consideration of the recommendations submitted to him by the Control Board, and other pertinent data: *Provided*, That the salable and surplus percentages so fixed shall not apply to separate packs of walnuts, of which not over 12 percent by count pass through a round opening $\frac{9}{64}$ inches in diameter. The total of the salable and surplus percentages fixed for each crop year shall equal one hundred (100) percent. The Secretary may, subsequently, on request of the Control Board (or if the Control Board shall fail so to request, on request of two or more packers who have handled during the immediately preceding crop year at least ten (10) percent of the total tonnage handled by all packers during such crop year), and after a finding of fact, based on such revised and current information as may be pertinent, that the merchantable walnuts, available for sale will not be sufficient to supply the consumptive demand, increase the said salable percentage to conform with such new relation as may be found to exist between consumptive demand and available supply: *Provided, however*, That an increase of the salable percentage shall not be made after January 15 of any crop year unless the quantity of walnuts held unsold by the Control Board is sufficient to permit full delivery to packers as required by section 2 of Article V (§ 901.6 (b)) hereof. The merchantable walnuts handled by any packer in accordance with the provisions hereof shall be deemed to be that packer's quota fixed by the Secretary within the meaning of section 8a (5) of the act.

(c) *Estimated carryover, consumptive demand, and production.* To aid the Secretary in fixing the salable and surplus percentages, the Board shall furnish to the Secretary, not later than September 1 of each year, the following information: its estimate of the quantity of merchantable walnuts to be produced during such year, herein referred to as the "estimated production", such estimate to be approved by at least a two-thirds ($\frac{2}{3}$) vote of the Control Board; and, likewise, its estimate of the total consumptive demand in the United States for merchantable walnuts for the coming crop year (on the basis of prices not exceeding the maximum prices contemplated in section 2 of the act), such estimate to be approved by at least a two-thirds ($\frac{2}{3}$) vote of the Control Board; and also a report on the total carryover of merchantable walnuts from preceding crop years held by packers on the preceding August 1. The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting to recommend the salable and surplus percentages to be fixed by the Secretary.

6. In section 4 of Article III (§ 901.4 (d)), change the phrase "of each year after 1935" to read "of each year"; and change the phrase "quantity, pack, quality and location thereof" to read "quantity, pack and location thereof."

7. In section 5 of Article III (§ 901.4 (e)), change the phrase "the surplus referable to each pack and quality of such merchantable walnuts handled or to be handled" to read "the surplus referable to each pack of such merchantable walnuts handled or certified for handling."

8. In section 6 of Article III (§ 901.4 (f)), delete the words "or to be handled" and insert, in lieu thereof, the words "or certified for handling."

9. In section 7 of Article III (§ 901.4 (g)), delete the words "and quality" wherever they now appear in said section.

10. In section 11 of Article III (§ 901.4 (k)), change the phrase "the quantity of each pack and quality handled or to be handled" so as to read "the quantity of each pack handled or certified for handling"; and, in subparagraph (1) thereof, change the phrase "or a total weight equal to the surplus referable to such walnuts so handled or to be handled" to read "of a total weight equal to the surplus referable to such walnuts so handled or certified for handling."

11. Delete the provisions of sections 1 and 2 of Article IV (§ 901.5 (a) and (b)) and insert, in lieu thereof, the following:

(a) *Credit values.* The Control Board shall, on or before October 15 of each year, establish, subject to the approval of the Secretary, credit values for each pack of merchantable walnuts. The establishment of credit values shall require a vote of at least two-thirds ($\frac{2}{3}$) of the members of the Control Board. To aid the Secretary in determining whether to grant or withhold such approval, the Control Board shall furnish to the Secretary the data upon which it acted in establishing such credit values and such other data pertaining thereto as the Secretary may request. Such credit values shall provide reasonable differentials for the different packs as will reflect the normal differences in market prices thereof.

(b) *Interest of packers in holdings of Control Board.* The equitable interest of each packer in the holdings of the Control Board shall be in the proportion of the net credits of such packer to the total net credits of all packers. For the purpose of this section, "holdings of the Control Board" means the merchantable walnuts held by or for it and the net proceeds from the sale, exchange or other disposition thereof by the Control Board, and all cash received by the Control Board pursuant to Article III (§ 901.4) hereof, which has not been expended or refunded in accordance with the provisions of said Article III, but shall not include such moneys, if any, as may be received by the Control Board as diversion payments in connection with the encouragement of exportation or encouragement of domestic consumption pursuant to the provisions of section 32 of the act of Congress of August 24, 1935, as amended (7 U. S. C. 612c). The Control Board shall, from time to time, distribute the cash "holdings of the Control Board," ratably to the packers in accordance with their respective interests therein, except that no cash which under the provisions of Article III (§ 901.4) is to be, or may be, used to effect purchases from packers or which, under the provisions of said article, is to be held undistributed until the end of a crop year shall be distributed before the end of such crop year.

12. Delete the provisions of section 1 Article VI (§ 901.7 (a)) and insert, in lieu thereof, the following:

(a) *Certification of shipments.* Every packer, at his own expense, shall obtain a certificate for each lot of merchantable walnuts handled or to be handled by him and all lots of merchantable walnuts which he delivers to the Control Board. Said certificates shall be issued by inspectors designated by the Control Board. All such certificates shall show, in addition to such other requirements as the Control Board may specify, the identity of the packer, whether domestic shipments will move interstate or intrastate and if for export, the country of destination, the quantity and pack of merchantable walnuts in such lot, and that the walnuts covered by such certificate conform to the minimum specifications for quality and soundness prescribed pursuant to section 1 of Article III (§ 901.4 (a)).

The Control Board may direct that such certificate be not issued to any packer who has failed to deliver or otherwise account for his surplus obligation in accordance with the terms thereof.

13. Delete the provisions of section 1 of Article VIII (§ 901.9) and insert, in lieu thereof, the following:

§ 901.9 *Expenses.* Each packer shall pay to the Control Board, upon demand and on the applicable basis provided for hereinafter in this section, his pro rata share of the expenses necessarily incurred by the Control Board for its maintenance and functioning under this order for the crop year ending July 31, 1948, and for each crop year thereafter. The amount of such expenses which will necessarily be incurred by the Control Board during the crop year ending July 31, 1948, and each crop year thereafter, shall be fixed by the Secretary on the basis of recommendations by the Control Board and such other pertinent information as may be available to him. Such approved amount for any such crop year may later be adjusted, from time to time, by the Secretary. The recommendation of the Control Board as to the expenses for each such crop year, together with all data supporting such recommendations, shall be submitted to the Secretary on or before September 1 of the crop year in connection with which such recommendation is made.

In the event a surplus percentage of merchantable walnuts is fixed for any crop year, each packer's pro rata share of the expenses of the Control Board for such crop year shall be that proportion thereof which the total credit value of his surplus obligation with respect to merchantable walnuts handled or certified for handling by him and merchantable walnuts sold by him to the Control Board, during such crop year, is of the total credit value of the surplus obligations of all the packers with respect to merchantable walnuts handled or certified for handling by them and merchantable walnuts sold to the Control Board by them during that crop year: *Provided*, That an initial assessment for any such crop year may be levied on each packer of one (1) percent of the total credit value of such packer's estimated surplus obligation for such crop year.

In the event no surplus percentage of merchantable walnuts is fixed for any crop year, each packer shall pay, as his pro rata share of the expenses of the Control Board for that crop year, an amount (adjusted to the next higher one-hundredths of a cent) per pound of merchantable walnuts handled, or certified for handling, by him during such crop year computed as follows: The amount resulting from dividing the approved expenses by the total aggregate pounds of merchantable walnuts which the Board estimates will be handled by all handlers during that crop year.

Any money collected to cover the expenses of the Control Board for any crop year and not expended for that purpose in connection with such crop year's operations shall be refunded to the packers who paid it on the basis of, in the case of each individual packer, the proportion that the amount of the assessment paid by him bears to the total amount of the assessments paid by all packers for the particular crop year.

14. In paragraph 3, section 2, Article XVI (§ 901.17 (third paragraph)), change the phrase "on or before August 1" to read "on or before July 1."

15. Delete Exhibits A and B (§§ 901.19 and 901.20).

[Bartlett Pear Order 1, Amdt. 1]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY SIZES

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Bartlett Pear Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Bartlett pears, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and 30-day effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this amended regulation is based became available and the time when this amended regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Bartlett Pear Order 1, as amended.* Effective at 12:01 a. m., P. s. t., July 30, 1947, the provisions in § 936.326 (b) (2) (ii) of Bartlett Pear Order 1 (12 F. R. 4626) shall read as follows:

(ii) If any shipper, on any day from the beginning of the season ships from any one shipping point less than the maximum allowable portion of such Bartlett pears of the aforesaid size 195, the amount of such undershipment of such pears may be shipped, from such shipping point, on any subsequent day or days in addition to such Bartlett pears of such size that the respective shipper could have shipped on such day or days: *Provided*, That the total quantity of such size shipped from such shipping point by such shipper from the beginning of the season to any given day shall not exceed five (5) percent of the total shipments of Bartlett pears made by such shipper from such shipping point from the beginning of the season to that day.

(c) Nothing contained herein shall be construed (1) as affecting or waiving any right, duty, obligation, or liability which has arisen or which, prior to the effective time of the provisions hereof, may arise in connection with any provision of said Bartlett Pear Order 1, or (2) as releasing or extinguishing any violation of said Bartlett Pear Order 1 which has occurred or which, prior to the effective time of the provisions hereof may occur.

PART 944—MILK IN QUAD CITIES MARKETING AREA

ORDER AMENDING ORDER REGULATING HANDLING

§ 944.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and the rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737; 12 F. R. 1159; a public hearing was held on February 27, 1947, upon a proposed marketing agreement and a certain proposed amendment to the order, as amended, regulating the handling of milk in the Quad Cities marketing area; and the decision (12 F. R. 4273) was made with respect to the amendment by the Secretary on June 26, 1947. Upon the basis of the evidence introduced at such hearing and the record thereof it is hereby found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act.

(2) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in the proposed marketing agreement upon which a hearing has been held:

(3) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8e of the act are not reasonable in view of the price of feeds, available supply of feeds, and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the said order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(4) It is impracticable, unnecessary, and contrary to the public interest to comply with the requirements in section 4, paragraph (c), of the Administrative Procedure Act (60 Stat. 237; Pub. Law 404, 79th Cong., 2d Sess.) with respect to the withholding of the effective date of this order for a period of not less than 30 days after publication in that (i) a serious competitive situation exists which threatens to disrupt the orderly marketing of milk in the Quad Cities marketing area; and (ii) administratively it is imperative that the status of handlers who sell milk in other marketing areas as well as in the Quad Cities marketing area, be clarified.

The foregoing findings are supplementary to and in addition to the findings made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order, as amended and as hereby further amended) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the Quad Cities marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the Quad Cities marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the Quad Cities marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who during the determined representative period (January 1947) were engaged in the production of milk for sale in the Quad Cities marketing area.

ORDER REALTIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Quad Cities marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended in the following respects:

Amend § 944.6 by adding, at the end thereof, the following:

(e) *Handlers subject to other Federal orders.* In the case of any handler, who the Secretary determines disposes of a greater portion of his milk as Class I and Class II milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this order shall not apply except as follows:

(1) The handler shall, with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with the provisions of § 944.5 (e) of this order.

(2) If the price which such handler is required to pay under the other Federal order to which he is subject for milk which would be classified as Class I or Class II milk under this order is less than the price provided pursuant to §§ 944.4 (a) (1) and (2) and 944.4 (c) of this order, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all milk disposed of as Class I milk or Class II milk within this marketing area) an amount equal to the difference between the value of such milk as computed pursuant to §§ 944.4 (a) (1) and (2) and 944.4 (c) of this order and its value as determined pursuant to the other order to which he is subject.

(48 Stat. 31, 670, 675; 49 Stat. 730; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Issued at Washington, D. C., this 24th day of July 1947, to be effective on and after the 1st day of August 1947.

(1) Subdivisions (i), (ii) and (iii) of paragraph (a) (1) of § 947.6 of the order and the entire table contained in subdivisions (iv) of said paragraph, with the exception of the words "Class I price (dollars per cwt.)" and the figure or price "5.96," do not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of August 1947; and

(2) In accordance with the Administrative Procedure Act (Public Law 404, 79th Cong., 60 Stat. 237), notice of proposed rule making, public procedure thereon, and publication or service of this suspension order 30 days prior to its effective date hereby are found to be impracticable and contrary to the public interest in that it is imperative to issue this suspension order immediately so as to facilitate and promote the orderly marketing of milk produced in August 1947 for the Fall River, Massachusetts, milk marketing area, and in that the time intervening between the date when the need for this action became apparent and the effective date hereof is insufficient to provide for public rule making procedure, prior notice thereof and publication or service of this order 30 days prior to its effective date.

It is therefore ordered, That subdivisions (i), (ii), and (iii) of paragraph (a) (1) of § 947.6 of the order and the entire table contained in subdivision (iv) of said paragraph with the exception of the words "Class I price (dollars per cwt.)" and the figure or price "5.96" be and they hereby are suspended with respect to all milk subject to the provisions of the order during the month of August 1947.

The foregoing findings are supplementary to and in addition to the findings made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

§ 970.6 *Application of provisions.* • • •

(f) *Handlers subject to other Federal orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this order shall not apply except as follows:

(1) The handler shall with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with the provisions of § 970.5 (a) of this order.

1700.4 Sales of commodities abroad.

AUTHORITY: §§ 1700.1 to 1700.4, inclusive, issued under sec. 21 (a) and 10 (c) of the Surplus Property Act of 1944, as amended: 58 Stat. 775; Pub. Law 584, 79th Cong.; 50 U. S. C. App. Sup. 1619, 1630 (a).

§ 1700.1 *General purpose and scope.* (a) Under sections 21 (a) and 10 (c) of the Surplus Property Act of 1944, as amended, the Secretary of Agriculture (successor in this respect to the War Food Administrator) is solely responsible, subject to the supervision of the War Assets Administrator (successor to the Surplus Property Board), for the formulation of policies with respect to the disposal of surplus agricultural commodities and surplus foods processed from agricultural commodities, which are located within the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, and subject to the supervision of the Secretary of State for the formulation of policies with respect to such commodities and foods which are located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands. This part, issued under said sections 21 (a) and 10 (c), states the policies which are to be observed by all disposal agencies in connection with the disposal of surplus commodities with respect to which the Secretary of Agriculture has policy making responsibility.

(b) The general policy statements and the regulations issued from time to time by the War Assets Administrator are applicable to the disposal of surplus agricultural commodities and surplus foods processed from agricultural commodities located within the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, except where explicitly otherwise required by the terms of this part.

§ 1700.2 *Limitation on sales.* (a) Surplus farm commodities shall not be sold in the United States (except solely for export) in quantities[1] in excess of, or at prices[2] less than, those applicable with respect to sales of such commodities by Commodity Credit Corporation, or at less than current prevailing market prices, whichever may be higher.

(b) Surplus agricultural commodities for which the Department of Agriculture has price-support programs in effect at the time of the sale, and food processed from such commodities, shall not be sold (except solely for export) at prices which will be disruptive of such programs or the market generally. Before such a commodity is sold as surplus below the support price, or food processed from a commodity is sold at a price which will not reflect the support price, unless the sale is solely for export, there must be a finding by the Secretary of Agriculture that the sale at the proposed price will not unduly disrupt the price support program involved.

(c) Surplus agricultural commodities and foods processed from agricultural commodities, other than those described in paragraphs (a) and (b) of this section shall be disposed of in a way designed so as to prevent their being dumped on the market in a disorderly manner and disrupting the market prices for agricultural commodities.

[1] Section 21 (c) of the Surplus Property Act provides that surplus farm commodities are not to be sold in the United States (except for export) in quantities in excess of those in which they may be sold by Commodity Credit Corporation. The only quantitative restriction on Commodity Credit Corporation is to be found in section 381 (c) of the Agricultural Adjustment Act of 1938 which prohibits the sale of more than 300,000 bales of cotton in any calendar month, or more than 1,500,000 bales in any calendar year. See 52 Stat. 66, 7 U. S. C. 1381 (c). However, section 2 of Public Law 30, April 12, 1945, 59 Stat. 50, suspends section 381 (c) until the expiration of the two-year period beginning with the first day of January immediately following the date on which the President, by proclamation, or the Congress, by concurrent resolution declares that hostilities in the present war have terminated. In view of the President's proclamation on the cessation of hostilities of World War II (12 F. R. 1), the quantitative restriction contained in section 381 (c) of the Agricultural Adjustment Act of 1938 will become effective on January 1, 1949.

[2] Section 2 of Public Law 30, April 12, 1945, 59 Stat. 50, suspends section 381 (c) of the Agricultural Adjustment Act of 1938 (which prohibits Commodity Credit Corporation from selling cotton at a price which is not sufficient to reimburse the United States for its investment in the cotton) until the expiration of the two year period beginning with the first day of January immediately following the date on which the President, by proclamation, or the Congress, by concurrent resolution, declares that hostilities in the present war have terminated; and during the period of such suspension prohibits Commodity Credit Corporation from selling any farm commodity owned or controlled by it at less than the parity or comparable price therefor with the following exceptions: "(1) Sales for new or byproduct uses; (2) sales of peanuts for the extraction of oil; (3) sales for export; (4) sales for seed or feed: *Provided*, That no wheat or corn shall be sold for feed at less than parity price for corn at the time such sale is made: *And provided further*, That in making regional adjustments in the sale price of corn or wheat for feed, the minimum price need not be higher in any area than the United States average parity price for corn; (5) sales of commodities which have substantially deteriorated in quality or of nonbasic perishable commodities where there is danger of loss or waste through spoilage; or (6) sales for the purpose of establishing claims against persons who have committed fraud, misrepresentation, or other wrongful acts with respect to the commodity. The method that is used for the purposes of Commodity Credit Corporation loans for determining the parity price or its equivalent for seven-eights-inch Middling cotton at the average location used in fixing the base loan rate for cotton shall also be used for determining the parity price for seven-eights-inch Middling cotton at such average location for the purposes of this section." In view of the President's proclamation on the cessation of hostilities of World War II (12 F. R. 1), the price restriction contained in section 381 (c) of the Agricultural Adjustment Act of 1938 will become effective on January 1, 1949, and the restrictions based on parity or comparable price, with the enumerated exceptions, are applicable through December 31, 1948.

(d) Surplus commodities and foods described in paragraphs (a) and (b) of this section may be sold solely for export without regard to the restrictions stated in such paragraphs, but only upon an adequate undertaking of the purchaser that the commodity will not later be imported into the United States: *Provided*, That no food or food product shall be sold or otherwise disposed of under this paragraph solely for export unless it is first determined by the Secretary of Agriculture (1) that there is no shortage of such food or food product in the United States and that the proposed sale or other disposal will not result in such a shortage, and (2) that such food or food product is not needed to supply the normal demands of consumers in the United States.

(e) The Department of Agriculture shall keep the disposal agency advised from time to time as to the agricultural commodities for which price-support programs are in effect, and shall give all reasonable assistance in defining the commodities to which the provisions of paragraph (a) of this section are applicable.

§ 1700.3 *Consumer protection.* All reasonable safeguards and precautions shall be taken in cooperation with Federal, State, and local health authorities, to insure that surplus foods which are unfit for human consumption do not go into food uses. Items found to be unfit for human consumption must be segregated under Government supervision. Unfit items may be sold only for reconditioning or reprocessing for food uses or for industrial or nonfood purposes under circumstances and on conditions which will assure that the items are so used.

§ 1700.4 *Sales of commodities abroad.* Commodities located abroad shall promptly be returned to the United States upon the issuance of a declaration and finding by the Secretary of Agriculture that commodities of that type or character are in short supply in the United States and that such return is in the public interest. In the absence of such a finding commodities located abroad notwithstanding the foregoing provisions of this part, shall be sold or otherwise disposed of abroad upon such terms and conditions and employing such methods of sale or disposition and priority of offering as seem reasonable under all of the circumstances: *Provided*, That if the Secretary of Agriculture determines that a commodity of the same type or character as the commodity located abroad is being exported from the United States and specifies a minimum sales price for the commodity located abroad, sales of such commodity shall not be made at a price below such minimum sales price. Records shall be kept of all disposals abroad and they shall be reported to the Secretary of Agriculture. The disposal agency shall insert in each contract for the sale or other disposition of any such commodity an undertaking on the part of the purchaser not to import the commodity into the United States in the same or processed form: *Provided*, That the foregoing shall not apply where such commodities are sold to a member of the armed forces abroad who certifies to the disposal agency that he is purchasing the commodities for the purpose of bringing them into the United States for his personal use.

NOTE: This section was formerly § 1700.10 and is in effect with regard to surplus agricultural commodities and surplus foods processed therefrom located outside the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, which are disposed of under the supervision of the Secretary of State pursuant to Public Law 584, 79th Congress, approved August 1, 1946. Such disposals are subject to this section and not to any other section of this part.

Effective date. This statement of policies shall become effective August 1, 1947, except that the disposal of property declared to the Department of Agriculture prior to May 1, 1947, may be concluded in accordance with the prior statement of policies.

[Suspension Order S-33]

PART 807—SUSPENSION ORDERS

FRED N. COHENNO AND WILLIAM B. MILLIGAN

Fred N. Cohenno, trustee of Eunice Realty Trust of 57 Lambert Avenue,

Stoughton, Massachusetts, and William B. Milligan of 427 Walpole Street, Stoughton, Massachusetts, as contractor, in February 1947, began construction of a restaurant and bar serving alcoholic beverages on land owned by the Trust in Stoughton, Massachusetts, at an estimated cost of $10,000. This was a wilful violation of Veterans' Housing Program Order 1 and continuation of construction would be in violation of Construction Limitation Regulation, issued June 30, 1947 under the Housing and Rent Act of 1947, resulting in a diversion of scarce building materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.33 *Suspension Order No. S–33.* (a) Neither Fred N. Cohenno, nor Eunice Realty Trust, nor William B. Milligan, their successors or assigns, nor any other person shall do any further construction on the bar or do any construction to be used for recreation or amusement prohibited by Construction Limitation Regulation on the premises at 590 Washington Street, Stoughton, Massachusetts, unless specifically authorized in writing by the Office of the Housing Expediter.

(b) Fred N. Cohenno, Eunice Realty Trust and William B. Milligan shall refer to this order in any application or appeal which they or any of them may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Fred N. Cohenno, Eunice Realty Trust, or William B. Milligan, their successors or assigns, nor any other person from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 807—SUSPENSION ORDERS

RODGERS INVESTMENT CO., INC. AND EDGAR STEPHENS & SON, INC.

Rodgers Investment Company, Inc., a corporation of Cairo, Illinois, as owner, and Edgar Stephens and Son, Inc., a corporation of Cairo, Illinois, as contractor, on or about March 4, 1947, without authorization, began the construction of a building, size 208' x 95', at Broadway, Oak and Pine Streets in Poplar Bluff, Missouri, to be used as a theatre and store building. The estimated cost of such building being in excess of $200,000. The beginning of such construction was in violation of Veterans' Housing Program Order 1 and continuation of construction would be in violation of Construction Limitation Regulation, issued June 30, 1947, under the Housing and Rent Act of 1947, resulting in a diversion of scarce building materials to uses not authorized by the Office of Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.50 *Suspension Order No. S–50.* (a) Neither Rodgers Investment Company, Inc., nor Edgar Stephens and Son, Inc., nor any other person shall do any further construction on the premises located at Broadway, Oak and Pine Streets in Poplar Bluff, Missouri, including the putting up, completing or altering any structure thereon, unless thereafter specifically authorized in writing by the Office of the Housing Expediter.

PART 825—RENT REGULATIONS UNDER THE HOUSING AND RENT ACT OF 1947

MAXIMUM RENTS ESTABLISHED UNDER A LEASE

The following is an interpretation of section 4 (b) of the Controlled Housing Rent Regulations (§§ 825.2, 825.3, 825.4, 825.10) and the Rent Regulations for Controlled Rooms in Rooming Houses and Other Establishments (§§ 825.5, 825.6, 825.7):

Interpretation of section 4 (b); maximum rents established under a lease. Congress has provided in section 204 (b) of the Housing and Rent Act of 1947, that if a landlord and tenant enter into a lease under certain conditions, a maximum rent may be increased up to fifteen percent. Section 4 (b) of the Controlled Housing Rent Regulations and the Rent Regulations for Controlled Rooms in Rooming Houses and Other Establishments relate to such leases.

In order that a lease may be effective under section 204 (b) of the act and section 4 (b) of the rent regulations to increase the maximum rent otherwise allowable by an amount not to exceed fifteen percent, all of the following requirements must be met:

1. The lease must be in writing and executed (signed) by both the landlord and the tenant.
2. The lease must be executed on or before December 31, 1947.
3. The lease must be entered into voluntarily by both the landlord and the tenant.
4. The lease must be made in good faith.
5. The lease must take effect or commence after July 1, 1947, which is the effective date of the Housing and Rent Act of 1947. This means that the lease cannot take effect on July 1, 1947.
6. The lease must contain an expiration date on or after December 31, 1948.
7. The landlord must file with the area rent office a true and duly executed copy of the lease, or a true and duly executed copy of a lease extension agreement to which is attached a copy of the lease being extended (certified to be a true copy) within fifteen days after the date of execution of the lease or extension agreement.
8. The increase in the maximum rent otherwise allowable must not be more than fifteen percent. An increase of less than fifteen percent may be made.
9. The lease must be a valid lease under local law.

I. *Date of execution of lease.* The execution date must be on or before December 31, 1947. Ordinarily, the effective date of the lease (the date on which the term begins) will be after the date of execution of the lease. A lease, however, will not be ineffective to increase the maximum rent because its effective date is prior to the execution date, *Provided*, That the execution date and the effective date are within the same rent paying period not exceeding one month.

Illustrations: 1. On July 15, 1947, landlord and tenant executed a lease increasing the rent fifteen percent, effective July 2, 1947, and providing for the payment of the rent on a monthly basis. If the lease meets the other requirements of section 4 (b) of the rent regulation, it will be effective to increase the maximum rent even though the effective date of the lease precedes the execution date, because both dates are within the same rent paying period.

2. On August 10, 1947, landlord and tenant execute a lease increasing the rent fifteen percent, effective July 2, 1947, and providing for the payment of rent in monthly installments. This lease is ineffective to raise the rent from July 2, 1947, because the effective date of the lease is prior to its execution date and the two are not in the same rent-paying period. It is effective, however, to increase the maximum rent from August 2, 1947, if the lease meets all of the other requirements of section 4 (b). In such a case the first day of the rent-paying period in which the lease is executed should be considered the effective date for the purpose of increasing the maximum rent.

II. *Expiration date of lease.* The expiration date of the lease must be December 31, 1948, or later. The lease, therefore, may not be terminable at the will of the landlord before December 31, 1948. An option, however, on the part of the tenant to cancel the lease prior to its expiration date shall not make the lease ineffective to increase the maximum rent.

III. *Extension of existing lease.* Where a landlord and tenant are now parties to an existing written lease which expires before December 31, 1947, they may enter into a written extension agreement, effective at the expiration of the existing lease which extends the lease to December 31, 1948, or later. In such a case, the increase in maximum rent provided in the written extension agreement would take effect at the expiration of the old lease. Likewise, a landlord and tenant who are now parties to an existing written lease may enter into a new rental agreement on or before December 31, 1947, the effect of which would be to modify or cancel the previous lease before its term expires, provided the tenant is granted a new term which does not expire before December 31, 1948. In this case, the increase in maximum rent would take effect on the effective date of the new agreement. In all cases where a written extension agreement or a new agreement changing or modifying the terms of an existing lease agreement are entered into, the landlord is required to file a duly executed copy of the extension or modification of lease agreement, together with a copy of the lease extended or modified (certified by the landlord to be a true copy) within fifteen days after the date of execution of the extension or modification agreement.

Illustrations: 1. The laudlord and tenant are parties to an existing lease which expires on September 30, 1947. On August 15, 1947, the parties enter into a written extension agreement in accordance with the provisions of section 4 (b) of the Controlled Housing Rent Regulation to be effective October 1, 1947, which extends the former lease to December 31, 1948. Such a written extension agreement is effective to increase the maximum rent up to fifteen percent from October 1, 1947 under section 4 (b) of the regulation.

2. The landlord and tenant are parties to an existing lease which expires on April 1, 1948. On November 15, 1947, the parties enter into a modification of lease agreement increasing the maximum rent in accordance with section 4 (b) of the regulation, effective December 1, 1947, and extending the term to December 31, 1948. Such a modification of lease agreement is effective to increase the maximum rent up to fifteen percent from December 1, 1947, under section 4 (b) of the regulation.

IV. *Filing requirements.* Under the act and the regulations, a lease shall not be effective to increase the maximum rent unless a true and duly executed copy of the lease is filed within fifteen days after the date of its execution. Filing requirements are met if the copy of the lease is sent by mail and the envelope is postmarked within fifteen days after the date of execution. Similarly, filing requirements are met if the fifteenth day after the date of execution falls on a Saturday, Sunday or legal holiday, and the lease is filed with the area rent office the first day it is opened for business after such Saturday, Sunday, or legal holiday.

Illustrations: 1. A lease is executed on July 15, 1947. It is mailed to the area rent office and the envelope is postmarked on July 30, 1947. This meets the filing requirements of section 4 (b) of the rent regulations.

2. Assume that a lease is entered into on August 15, 1947, and a true and duly executed copy of the lease is filed with the area rent office on Tuesday, September 2. Although the fifteenth day (August 30) expires before the filing of the lease, the filing requirements will be met because, the fifteenth, sixteenth and seventeenth days after the date of execution of the lease will be Saturday, Sunday and Labor Day on which the area rent offices will be closed and the lease is being filed on the next business day, Tuesday, September 2, 1947.

Section 4 (b) of the rent regulations requires also that the landlord file with a true and duly executed copy of the lease, Form D–92, in triplicate (Registration of Lease).

V. *Rent provided for in lease.* A lease is ineffective to increase the maximum legal rent if it increases the maximum legal rent which was in effect immediately prior to the effective date of the lease by more than fifteen percent.

A lease which contains an escalator clause providing for a rent to take effect after December 31, 1948, which is above the fifteen percent limitation, is ineffective to raise the maximum legal rent.

Illustration: The maximum rent for a housing accommodation is $100. On July 15, 1947, landlord and tenant enter into a lease for a term beginning August 1, 1947 and ending December 31, 1949, which provides that the rent shall be $115 per month from August 1, 1947 to December 31, 1948, and $125 per month from January 1, 1949 to December 31, 1949. This lease is ineffective to raise the maximum legal rent.

A lease may contain an escalator clause providing for varying rents for periods between the effective date of the lease and December 31, 1948, *Provided*, The highest rent called for is not more than fifteen percent above the maximum rent otherwise allowable immediately prior to the effective date of the lease. In such case, the maximum legal rent shall be increased in accordance with the terms of the lease.

Illustration: Assume that the maximum rent for a house is $40 per month. The landlord and tenant enter into a lease complying with the requirements of section 4 (b) of the rent regulations which provides for a monthly rent of $42 from August 1, 1947 to October 31, 1947, and a rent of $46 from November 1, 1947 to December 31, 1948. The maximum legal rent for the premises in such a case is $40 from July 1 to July 31, 1947; $42 from August 1 to October 31, 1947; and $46 from November 1, 1947 to December 31, 1947. Such a lease is not inconsistent with the provisions of section 4 (b) of the rent regulations.

If at the time of the execution of the lease, the maximum legal rent is a variable rent, the lease may provide for an increase in the maximum rents up to fifteen percent on each variation.

Illustrations: 1. Assume that a one-family house is located in a resort community and the maximum legal rent is $150 for the months of June, July, August and September, and $40 for the months of October to May, inclusive. Assume, further, that the landlord and tenant desire to enter into a lease increasing the maximum rent by ten percent. In such a case, a lease which otherwise meets the requirements of section 4 (b) of the rent regulations would be effective to increase the maximum rents if it provided for a rent of $165 for the months of June to September, inclusive, and $44 during the months of October to May, inclusive.

2. Assume that the maximum legal rent for a housing accommodation is $40 for the summer months and $45 for the winter months because the landlord provides heat during the winter months. A landlord and tenant could provide in their lease in such a case for a rent of $46 during the summer months and $51.75 during the winter months.

3. Assume that a variable maximum rent was established under the Rent Regulation for Housing, issued pursuant to the Emergency Price Control Act of 1942, as amended, by order of an area rent director establishing a variable rent of $45 for five occupants, $50 for six, seven or eight, and $55 for nine or ten occupants. A lease could be made in such a case which would increase the maximum legal rents not more than fifteen percent on a variable basis based upon the number of occupants.

If a landlord and tenant enter into a lease which is effective to increase the maximum rent under section 4 (b) and such lease is terminated prior to December 31, 1947, the maximum rent shall be the rent as established in said lease until December 31, 1947, after which date the premises are no longer subject to the rent regulations.

VI. *Lease providing for decrease in living space, services, furniture, furnishings and equipment.* In order for a lease to effectively increase the maximum rents otherwise allowable, it must be based upon the continuation of the same services by the landlord. Therefore, if a lease provides for a decrease in the living space or essential services, furniture, furnishings, or equipment which are required under the regulations to be provided with the housing accommodations, or a substantial decrease in the other services, furniture, furnishings, or equipment, such lease shall be ineffective to establish a new maximum rent.

Issued July 23, 1947.

ADOLPH H. ZWERNER,
General Counsel.

MAIL SERVICE TO GREAT BRITAIN AND NORTHERN IRELAND

The regulations under "Great Britain and Northern Ireland" (39 CFR, Part 21, Subpart B, Service to foreign countries) are amended as follows:

1. In the item Regular mails, insert subitem "Routing."

Observations. The importation into the United Kingdom of various kinds of merchandise is either entirely prohibited or permitted only under license previously obtained by the importer from the Import Licensing Department of the Board of Trade, 25 Southampton Building, London W. C. 2, England. Although such licenses are not required to accompany the parcels at time of mailing, it is suggested that exporters ascertain in advance that the importer has obtained the necessary license or is able to obtain it provided it is required. This restriction does not apply to gift shipments sent by a private sender to private addressee nor to trade samples.

Mail articles for delivery in London, England, to secure delivery should include in all cases: 1. Name of addressee. 2. Number (or if there is no number, the name) of the house. If a house bears a name and also a number, the number should always be used, whether or not the name be added. 3. Name of street or road in which the house is located. 4. The words "London, England." 5. Initials of the postal district, followed by the number of the office of delivery: thus, "S. W. 4," "N. W. 8." In the case of articles for delivery in other parts of Great Britain and Northern Ireland, the name of the country is an essential part of the address.

It is recommended to senders that any article of printed matter with dutiable contents be plainly marked "c/o The Officer of Customs and Excise" in addition to bearing the full name and address of the addressee. A post-office fee of 6d. for clearance through the customs is charged on each package on which customs duty is levied.

13. In the item, parcel post, amend paragraph (12) of subitem "Prohibitions—For other reasons", by deleting the closing parenthesis, and adding the following:

9. *Copetitors called in advance.* In slow fire stages of individual matches the competitor next to fire may be called to the ready line while the competitor is still firing, and called to the firing point when the competitor firing has completed his score. Any competitor will forfeit his right to fire if he appears at the proper target after the time shown on his score card for him to appear unless he presents satisfactory evidence that he is late through no fault of his own. If he does not appear when called, another competitor present may be called to the firing point.

10. *Challenges.* Challenges will be handled in accordance with the latest issue of official National Rifle Association Rules for the conduct of matches. The challenge fee will be $1 and will be charged to all competitors making challenges. All challenge money will be delivered to the range director at the end of each day's firing, who in turn will deliver it to the executive officer.

11. *Safety precautions.* No arms will be loaded except on command at the firing point. During and after loading the pistol, and after loading, the revolver, will be kept at raised pistol until unloaded, except when aimed at the target for firing. During and after loading, the muzzle of weapons will be kept pointed in the direction of target until unloaded.

12. *Ammunition, unauthorized.* In the National Trophy Matches any competitor having any ammunition about his person when he takes his place at the firing line, other than that authorized, will be immediately disqualified.

14. *Arms.* No weapon will be available for issue to competitors.

15. *Competitors may be required to score, prepare of paste targets, or act as range officers.* Any competitor who is detailed to perform any of these duties and fails to do so in a manner satisfactory to the range director will forfeit his right to compete in that match and, in the discretion of the executive officer, may be disqualified during the remainder of the matches from further participation in any match or any practice.

16. *Protests.* Protests and appeals may not be submitted directly to the executive officer, but will be submitted to the range officer or statistical officer concerned. In case the competitor desires to appeal from executive officer's decision such appeal will be submitted in writing within 12 hours. Qualification insignia will be issued from the Washington office of the Director of Civilian Marksmanship after the close of the matches.

18. *Same pistol used.* Two or more competitors may use the same pistol in any competition. However, the application of this rule will not be permitted to interfere with the routine squadding of pistol matches; and no squadding changes will be made to adjust conflicts caused by this practice.

19. *National Trophy Match.* For the National Trophy matches only, the following provisions will apply:

a. *Malfunction.* When a competitor claims inability to complete his score at timed or rapid fire within the time limit because of a defective cartridge or disabled piece, the range officer, if satisfied that conditions are as claimed by the competitor, will permit him to refire a complete score as soon as may be practicable. No competitor will refire any record score more than once because of a defective cartridge or disabled piece. Such shots as may have been fired in the original score will not be marked or scored.

b. *Defective cartridge.* A defective cartridge is defined as one which clearly shows the imprint of the firing pin on the primer. The imprint of the firing pin on the primer will clearly constitute a misfire without further test.

c. *Disabled piece.* An unserviceable or disabled piece is a pistol which is pronounced, by a range officer, as unsuitable for match competition.

d. *Procedure in case of malfunction.* In case of malfunction for any reason whatsoever, the competitor will immediately assume and hold the position of "raise pistol" and call a range officer, whose duty it will be to draw back the slide and investigate the malfunction. The competitor will not clear the malfunction or draw the slide to the rear.

PUBLIC SERVICE COMPANY OF NEW MEXICO

MEMORANDUM OPINION AND SUPPLEMENTAL ORDER GRANTING AND PERMITTING APPLICATION AND DECLARATION TO BECOME EFFECTIVE AND CONTINUING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23d day of July A. D. 1947.

On June 26, 1947, we issued our memorandum findings and opinion in this matter permitting, among other things, the issue and sale by Public Service Company of New Mexico ("Public Service") of $6,800,000 principal amount of First Mortgage Bonds, --% Series due 1977, and 20,000 shares of $100 par value --% Cumulative Preferred Stock, subject to the condition that said sale of the aforementioned bonds and preferred stock should not be consummated until the results of competitive bidding, pursuant to Rule U-50, have been made a matter of record in this proceeding and a further order entered in the light of the record so completed.

The company filed an amendment on July 10, 1947 herein stating that the First Mortgage Bonds and Cumulative Preferred Stock were offered for sale pursuant to the competitive bidding requirements of Rule U-50, that six bids were submitted for the bonds, and that the company accepted a bid for the bonds but that no bids were received for the Cumulative Preferred Stock.

On July 10, 1947, we issued our supplemental order pursuant to Rule U-50 releasing the jurisdiction heretofore reserved with respect to the results of competitive bidding in connection with the sale of the said bonds, but continuing the jurisdiction heretofore reserved with respect to the sale of Preferred Stock.

The company has now filed a further amendment herein proposing to borrow $1,000,000 from the Irving Trust Company and to issue in evidence thereof its 2% Promissory Note with a maturity of nine months. The proceeds of the said note are to be used for construction purposes, as heretofore set forth in this proceeding. The amount of such note will constitute approximately 9.5% of the principal amount and par value of the other outstanding securities of Public Service and authorization to issue said note is requested pursuant to the first sentence of section 6 (b) of the Public Utility Holding Company Act of 1935.

The record indicates that the present proposal is a temporary expedient and that, subject to market conditions, the company will refinance the said note, before the maturity date thereof, by the sale of preferred stock.

Under the circumstances of this case as disclosed by the record, we are of the opinion that, pursuant to the first sentence of section 6 (b) of the act, the issuance of the proposed note is appropriate in the public interest and for the protection of investors and consumers.

It is therefore ordered, That the application and declaration filed herein, as further amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the sale at competitive bidding of the Cumulative Preferred Stock by Public Service Company of New Mexico as prescribed in said order of June 26, 1947, be, and the same hereby is, continued.

By the Commission.

The Commission having by order dated July 11, 1947 (as modified by a supplemental order dated July 14, 1947), granted and permitted to become effective said joint application-declaration, as amended, subject to the condition that the proposed issue and sale of bonds not be consummated until the results of competitive bidding pursuant to Rule U-50 had been made a matter of record in this proceeding and a further order entered by the Commission in light of the record as so completed, and subject, further, to a reservation of jurisdiction with respect to the payment of all counsel fees and expenses in connection with the proposed transactions; and

American and Pacific having filed a further amendment to their joint application-declaration setting forth the action taken to comply with the requirements of Rule U-50 and stating that pursuant to an invitation for competitive bids, three bids on such bonds by three groups of underwriters headed by the firms set forth below were received:

The Commission finding that the proposed payments of counsel fees in the amounts of $15,000 to Reid & Priest, New York counsel for Pacific, $7,500 to Laing, Gray & Smith, general counsel for Pacific, and $12,500 to Davis, Polk, Wardwell, Sunderland & Kiendl, counsel for the successful bidders for such bonds, whose fee is to be paid by the successful bidder, are not unreasonable; and

The Commission having examined said amendment and having considered the record herein and finding no reason for imposing terms or conditions with respect to said matters:

It is ordered, That jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for said bonds under Rule U-50 be, and the same hereby is, released, and that the amendment filed on July 23, 1947, to the joint application-declaration be, and the same hereby is, granted and permitted to become effective, subject, however, to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That jurisdiction heretofore reserved with respect to fees and expenses of counsel in connection with the issue and sale of said bonds, including the fees payable to counsel for the successful bidder, be, and the same hereby is, released.

ELECTRIC BOND AND SHARE CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 22d day of July A. D. 1947.

Electric Bond and Share Company ("Bond and Share"), a registered holding company having filed an application-declaration with this Commission pursuant to sections 6 (a) (2), 12 (c), 14 and 15 of the act and Rules U-23 and U-46 promulgated thereunder with respect to the following transactions:

Bond and Share proposes to restate its accounts as of January 1, 1945, and to set up on its books an "Accounting Reorganization Account" in the total amount of $460,571,680. This account will be created by the transfer of (a) the stated value of the $5 and $6 Preferred Stock as of January 1, 1945, amounting to $107,540,000; (b) Capital Surplus (including reserve created therefrom) as of

January 1, 1945, amounting to $328,067,986; and (c) Earned Surplus as of January 1, 1945, amounting to $24,963,694 (after provision for preferred stock dividends or equivalent to date of retirement). From this account $280,000,000 is proposed to be allocated to Investment Reserves as follows: (a) United States Utilities $80,000,000 and (b) Foreign Utilities $200,000,000. The balance of the Accounting Reorganization Account amounting to $180,571,680 together with Capital Surplus additions to December 31, 1946, resulting from the acquisition and retirement of preferred stocks, amounting to $27,617, will be transferred to a Capital Adjustment and Contingency Reserve, which will include provisions for (a) the payment to Bond and Share's preferred stocks of $70 per share in the aggregate amount of $73,029,600; (b) an amount not in excess of $30,000,000 to be available for adjustment of Investment Reserves—Foreign Utilities; and (c) all other charges in connection with action taken by Bond and Share towards compliance with section 11 of the act. Any balance in said account remaining upon consummation of the program for conformance with section 11 of the act and other related matters will be transferred to Capital Surplus.

Applicant-declarant states that its program for conformance with the act as evidenced by various plans heretofore filed by it pursuant to section 11 (e) of the act provides for disposal of the company's investment in domestic public utilities; that the amounts realizable by the company upon sale or disposal of such investments is substantially lower than the ledger value of such investments; and that the plan of reorganization dated October 25, 1944 and amended May 22, 1947 which was filed by its subsidiary, American & Foreign Power Company Inc. ("Foreign Power"), and joined in by Bond and Share, provides for the surrender of Bond and Share's interests in Foreign Power and in the latter's subsidiary, Cuban Electric Company, for securities of a substantially different nature, the value of which is estimated by the applicant-declarant to be considerably lower than the ledger value of its present holdings in Foreign Power.

Applicant-declarant further states that as a result of its joinder in the plan of reorganization of Foreign Power and the required provision for other adjustments in the ledger value of Investment Securities and Advances of the company, an accounting reorganization is necessary.

In addition, by order of this Commission dated July 18, 1946, Bond and Share was ordered to record its investments in the common stocks of Birmingham Electric Company, Carolina Power & Light Company, and Pennsylvania Power & Light Company and its remaining investment in National Power & Light Company, a registered holding company, at such amounts and in such manner as the Commission may approve or direct. The applicant-declarant states that the transactions hereinbefore described will in effect meet the requirements of such order inasmuch as such common stocks are required to be disposed of subject to further order of the Commission by October 6, 1947.

MORRIS PLAN CORP. OF AMERICA ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 24th day of July A. D. 1947.

In the matter of The Morris Plan Corporation of America, American General Corporation, and William G. Avery, et al.; File No. 812-502.

Notice is hereby given that The Morris Plan Corporation of America (Morris Plan) has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order exempting from the provisions of section 17 (a) of said act, certain transactions in which William G. Avery, Louis A. Welch, Jr., and Edwin E. Miller propose to purchase from Morris Plan a total of 500 shares of the capital stock of The Industrial Bank of Schenectady (Bank) for the sum of $10,105, a purchase price of $20.21 per share.

The proposed purchasers are directors of the Bank which is a majority-owned subsidiary of Morris Plan. American General Corporation (American), a registered investment company, controls Morris Plan, therefore, the purchasers are affiliated persons of an affiliated person of American and the proposed transactions are prohibited by section 17 (a) (2) of the act.

The proposed purchase price, which is equal to the book value of $20.21 per share for the stock as of May 31, 1947, is subject to revision downward to the extent that any dividend declaration after May 31, 1947 and prior to the date of sale reduces the book value below $20.21 per share. Over the ten year period 1937–1946 the per share net earnings of the Bank fluctuated between $0.95 in 1945 and $2.61 in 1939 and averaged $1.99 per year after taxes. In 1946 the net earnings amounted to $2.34 per share. The purchase price is approximately 10.2 times the average per share net earnings of the Bank over the ten year period and slightly less than nine times the per share net earnings for 1946. The stock is not listed on a national securities exchange or traded on an over-the-counter market. Sales occur infrequently, about once or twice a year, and usually are the result of estate liquidations. The stock is quoted in Schenectady, New York, the most recent quotation being $20 Bid, $21 Offered. The purchase contracts provide that upon the demise of a purchaser, or in the event that a purchaser desires to dispose of the stock, the stock must be offered to Morris Plan for repurchase at the then book value.

All interested persons are referred to said application, which is on file at the Philadelphia, Pennsylvania offices of this Commission, for a more detailed statement of the matters of fact and law therein asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination: whether the terms of the proposed transactions, including the consideration to be paid and received, are reasonable and fair and do not involve overreaching on the part of any person concerned; whether the proposed transactions are consistent with the policy of American

General Corporation as recited in its registration statement and reports filed under the act; and, whether the proposed transactions are consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on the 13th day of August 1947 at 10:00 a. m., eastern daylight saving time, in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locusts Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's rules of practice.

Notice of such hearing is hereby given to The Morris Plan Corporation of America, American General Corporation, William G. Avery, Louis A. Welch, Jr., Edwin E. Miller and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise wishing to participate in said proceedings should file with the Secretary of the Commission, on or before August 11, 1947, his application therefore as provided by Rule XVII of the rules of practice of the Commission setting forth therein any of the above issues of law or fact which he desires to contravert and any additional issues he deems raised by the aforesaid application.

Terminal Annex, Dallas, Texas, with a Sub-Area office at 408 Mid-west Building, Oklahoma City, Oklahoma; and 449 West Peachtree Street, Atlanta, Georgia. Area and Sub-Area offices are primarily responsible for all operations of the Branch within their respective jurisdictions, in accordance with policies and procedures established in the Washington office.

§ 2326.3 *Public Information, submittals, and requests.* Any person desiring information or to make submittals or requests with respect to the programs and functions of the Branch should address: The Director, Food Distribution Programs Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., or the Area or Sub-Area office closest to where he resides.

The records of the Branch, including those maintained in field offices, are available for examination in accordance with the rules and designation of records issued by the Secretary (7 CFR, Part 2100).

SUBPART B—FUNCTIONS AND PROCEDURE

§ 2326.10 *National school lunch program.*[1] The National School Lunch Act provides for a National School Lunch Program to be carried out in cooperation with the State educational agencies and nonprofit private schools. Under authority of the Secretary, this program is formulated and administered in this Branch.[2] The funds appropriated for this program for each fiscal year are apportioned by the Secretary pursuant to the formula set forth in the act which takes into consideration the number of school children in the State and the need for assistance in the State as indicated by the relation of the per capita income in the United States to the per capita income in the State. In the case of a State wherein the State educational agency is not permitted to disburse funds paid to it under the National School Lunch Act to nonprofit private schools, or is not permitted to match Federal funds made available for use by such non-profit private schools, the Department disburses funds directly to such non-profit private schools in accordance with the act. Agreements are entered into by the Department with State educational agencies and with non-profit private schools in States where the State agency cannot enter into agreements with such schools. Area or Sub-Area offices have authority to execute such agreements on forms prescribed by the Director. However, if any departures are to be made from the forms in connection with a particular State educational agency or a non-profit private school, the Area or Sub-Area office concerned is authorized to enter into negotiations with the State educational agency or the non-profit private school with respect to the execution of the agreement, but the agreement with the changes to be made must be submitted by the Area or Sub-Area office to the Director for approval on behalf of the Department. Upon the certification by the Secretary of Agriculture to the Secretary of the Treasury of the amounts to be paid to the States pursuant to the act, the Secretary of the Treasury will pay the States, at the time fixed by the Secretary of Agriculture, the amounts so certified. In the case of funds withheld for payment to non-profit private schools under the circumstances mentioned above, the Department will disburse the funds so withheld direct to such non-profit private schools in accordance with the act.

§ 2326.11 *Direct distribution of agricultural commodities and other foods.* From time to time supplies of agricultural commodities in abundance and other foods are distributed to public and non-profit private schools participating in the National School Lunch Program and to other public and non-profit private schools and institutions eligible to receive such commodities and foods. The Direct Distribution Division of this Branch prescribes the standards of eligibility and conditions under which such commodities and foods may be donated, pursuant to section 32 of the act of August 24, 1935, as amended, the act of June 28, 1937, as amended, 15 U. S. C. 713c, and sections 6 and 9 of the National School Lunch Act. Agreements on Form FP–51, or a revision thereof, are entered into with public or non-profit private agencies which will receive and distribute available agricultural commodities and other foods to eligible recipients. Area or Sub-Area offices of the Branch have authority to execute such agreements. Copies of the form may be obtained by writing to the appropriate Area or Sub-Area office or to the Director. From time to time, the Direct Distribution Division makes allocation of commodities available to distributing agencies, and notification thereof is given through the Area or Sub-Area offices to the distributing agencies.

§ 2326.12 *Food preservation.* Under the technical supervision of the Direct Distribution Division, food preservation specialist conduct workshops in different parts of the country to train supervisors of community, school, and institutional food preservation centers. These food specialists also provide technical assistance with respect to food preservation plant lay-out, facilities equipment, operating methods, and processing techniques. Anyone acting on behalf of a community, school, or institutional food preservation center may make application for securing these services by applying to the appropriate Area or Sub-Area office or to the Director.

§ 2326.13 *Cooperative programs with distributive trades groups.* The Abundant Foods Marketing Division of the Branch conducts programs to increase the movement of agricultural products through normal channels of trade. In order to accomplish this, the Division establishes liaison with food trade, public feeding, and allied groups to meet distribution problems which may be interfering with wider marketing of agricultural commodities; encourages increased consumer purchase and use of abundant or plentiful foods; plans and directs special marketing programs for such foods and secures the maximum cooperation of food trade groups in the operation of such programs; establishes and serves food distribution advisory groups in selected trading areas; assists vulnerable groups in obtaining minimum requirements of essential foods in periods of short supply; and conducts programs to encourage wider distribution and sale of new and improved food products through normal trade channels.

This revision is effective July 1, 1947.

Dated: July 25, 1947.

[SEAL] CHARLES F. BRANNAN,
Acting Secretary

§ 1.71 *Rule making.* (a) There are numerous provisions in the statutes dealing with immigration and nationality which require the Commissioner of Immigration and Naturalization to issue, with the approval of the Attorney General, rules and regulations to implement such statutes (e. g., sec. 23, 39 Stat. 892, sec. 15, 43 Stat. 162, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 327 (b), 54 Stat. 1151, sec. 705, 56 Stat. 183, sec. 4, 60 Stat. 340; 8 U. S. C. and Sup., 102, 215, 222, 458 (a), 727 (b), 1005; 50 U. S. C. App., Sup., 1854). Such valid rules and regulations have the force and effect of statutes. The authority of the Attorney General to approve the issuance of such rules and regulations has not been delegated by § 90.1 of this chapter, or otherwise. Rules and regulations are drafted by the Commissioner with the assistance of his staff (see § 90.17 of this chapter). The provisions of the Federal Register Act (49 Stat. 500, 50 Stat. 304, sec. 202, 53 Stat. 1435, 56 Stat. 1045; 44 U. S. C. and Sup., ch. 8B) and of the regulations thereunder (1 CFR, 1946 Supp., Part 2) governing the issuance of rules and regulations are observed. Rules and regulations drafted by the Commissioner are submitted to the Attorney General for approval and, upon being so approved, are filed with the Division of the Federal Register of the National Archives for publication in the FEDERAL REGISTER. Rules dealing with Service organization, including delegations of authority, are now and will hereafter be separately stated; that is, they appear in separate parts such as this Part 1 and Parts 60 and 90 of this chapter. Substantive rules will, on and after September 11, 1946, usually be issued in connection with adjective or other rules, but within each part dealing with a particular proceeding will be observed the requirements of section 3 (a) of the Administrative Procedure Act for separation of rules by type and content.

(b) There is no requirement in the immigration and nationality laws for the giving of notice of, or for hearing on, proposed rules or regulations under those laws. Pursuant to the provisions of section 4 (b) of the Administrative Procedure Act, substantive rules will hereafter be issued after the giving of notice and all interested persons will be given an opportunity to participate in such rule making under such conditions as may be specified in the notice of proposed rule making. Rules other than substantive may be issued without either notice or hearing. Petitions by interested persons for the issuance, amendment, or repeal of a rule may be submitted to the Commissioner of Immigration and Naturalization. Such petitions will be considered by the Commissioner and the petitioner will be notified of any denial of such petition and, where considered appropriate, of any other action taken in connection therewith.

(c) Authority is vested in the Attorney General by section 7 (d) of the Air Commerce Act of 1926 (44 Stat. 572; 49 U. S. C. 177 (d)) to issue certain rules applying immigration laws to civil air navigation. While such statute does not place any responsibility on the Commissioner of Immigration and Naturalization, such rules are recommended to the Attorney General by the Commissioner and the provisions of this section will be followed to the extent applicable where regulations dealing with civil air navigation are involved.

Therefore, such official files, documents, records, and information shall not be published, opened to public inspection, or made available to the public in any other way, except where the Attorney General, The Assistant to the Attorney General, or the Commissioner permits disclosure, either by the exercise of discretion in particular cases or, generally, through specific provisions of this section part, or chapter.

Such privilege is ordinarily granted with respect to records which are statistical in nature, such as records of arrival or of naturalization.

§ 1.85 *Intra-Service manuals.* The following manuals are prepared solely for the guidance of the Immigration and Naturalization Service and the contents of such manuals shall not be published, opened to public inspection, or made available to the public in any other way except in unusual cases where the Commissioner specifically authorizes the furnishing of an excerpt from such manuals: Immigration Manual, Nationality Manual, Administrative Manual, and Operations Instructions.

§ 60.24 *Investigation and report of naturalization illegally or fraudulently procured.* Whenever a district director has reason to believe that any grant of naturalization has been illegally or fraudulently procured, he shall cause an immediate investigation to be made of all the pertinent facts and circumstances regarding the procuring of such naturalization and shall report the facts in writing to the Commissioner, with recommendation as to whether suit should be instituted looking to the revocation of the order granting the certificate of naturalization or citizenship and to the cancellation of the certificate, but if the facts indicate illegal or fraudulent procurement of naturalization in violation of the penal provisions of the Nationality Act of 1940 (54 Stat. 1163; 8 U. (b) The district director shall close any case, insofar as prosecution is concerned, where investigation establishes to his satisfaction that:

(1) No violation has occurred;

(2) The statute of limitations has run;

(3) In the case of a violation of section 346 (a) (18) of the Nationality Act of 1940 (54 Stat. 1165; 8 U. S. C. 746), the alien falsely represented himself to be a citizen of the United States solely for the purpose of obtaining employment which he could or would have obtained even though he had fully disclosed his foreign nationality and alien status;

(4) In the case of a violation of section 346 (a) (29) of the Nationality Act of 1940 (54 Stat. 1166; 8 U. S. C. 746), the person who duplicated the document as described in that provision or caused it to be duplicated was ignorant of the provisions of said section 346 (a) (29) and did not use the duplicated document for any unlawful purpose;

(5) In the case of a violation of section 31 (a) or (b) of the Alien Registration Act, 1940 (54 Stat. 673; 8 U. S. C. 452), there was no refusal or willful failure to apply for registration and to be fingerprinted, and the alien complies with the provisions of said section 31 on demand. This shall include the case of any alien who did not apply for registration and to be fingerprinted under the provisions of said section 31 because he had a bona fide belief that he was a citizen of the United States, because he was confined to an institution and so was unable to apply for registration and to be fingerprinted, or because he was ignorant of the requirements of the said section 31;

(6) In the case of a violation of section 35 of the Alien Registration Act, 1940 (54 Stat. 675; 8 U. S. C. 456), the alien failed to notify the Commissioner of Immigration and Naturalization of a change of address or new address because he was ignorant of the requirement of said section 35 or that the failure to comply with the provisions of said section 35 was unintentional: *Provided*, That the alien voluntarily furnishes at the time of investigation full information as to his addresses which he failed to report as required by said section 35; or

(7) The case falls within a class which the United States attorney has in writing requested the district director not to refer to him for possible prosecution.

(c) The district director shall submit to the Central Office any case in which he finds that:

(1) He is in doubt as to whether the case is within one of the classes of cases which under the provisions of paragraph (b) of this section he shall close; or that he is in doubt as to whether the case is a proper one to submit direct to the United States attorney under paragraph (d) of this section;

(2) The person under investigation or another person involved in the violation advances a claim to United States citizenship that is not frivolous, the alienage of such person or such other person is one of the facts that must be established to prove that a violation has occurred, and there is reasonable doubt as to whether such person or such other person is a citizen of the United States or an alien;

(3) The crime under investigation is such that conviction thereof would result in cancellation of the defendant's certificate of naturalization under section 338 (e) of the Nationality Act of 1940 (54 Stat. 1159; 8 U. S. C. 738); or

(4) He has reason to believe that the provisions of section 10 of the Immigration Act of 1917, as amended by section 27 of the Immigration Act of 1924 (39 Stat. 881, 43 Stat. 167; 8 U. S. C. 146), have been violated by any person or any owner, officer, or agent of a vessel or transportation line. In such a case the district director shall promptly serve notice upon such person, owner, officer, or agent that it is his intention to recommend to the Attorney General that a prosecution be brought; and such person, owner, officer, or agent shall be allowed 60 days within which to submit to the Department, through the district director or officer in charge and the Commissioner of Immigration and Naturalization, a statement of reasons why neither of the proceedings should be brought. When transmitting such statement of reasons to the Commissioner, the district director or officer in charge shall submit a full report of the case and his recommendation as to whether the proposed proceedings should be brought and if so whether in personam or in rem.

(d) The district director shall submit direct to the United States attorney having jurisdiction, without reference to the Central Office, all cases which the district director is not required to close under the provisions of paragraph (b) of this section or to submit to the Central Office under the provisions of paragraph (c) of this section. The district director shall also submit direct to such United States attorney any case which the district director is not authorized by this section to close and in which the statute of limitations is about to run or in which there is likelihood that the person believed to be guilty will flee.

(e) On receipt in the Central Office of a case submitted by a district director under the provisions of paragraph (c) (1), (2), or (3) of this section, the General Counsel shall either close the case or make a recommendation to be transmitted through the district director of the district where the case originated to the United States attorney having jurisdiction or take whatever appropriate action may be necessary.

The work as immigrant inspectors shall be arranged by supervisory officers so as not to interfere substantially with the performance of the duties of the other positions.

§ 60.28 *Power of arrest without warrant, of boarding and searching, and of executing warrants* — (a) *Definitions.* (1) The term "the act" as used in this section shall, unless otherwise indicated, mean the act of February 27, 1925, as amended by the act of August 7, 1946 (43 Stat. 1049, 60 Stat. 865; 8 U. S. C. and Sup., 110).

(2) The term in the act "officer of the Immigration and Naturalization Service having authority to examine aliens as to their right to enter or remain in the United States" shall mean an immigrant inspector or any person designated an immigrant inspector by § 60.27.

(3) The phrase in the act "within a reasonable distance from any external boundary of the United States" shall mean within a distance not exceeding 100 air miles from any external boundary of the United States, or any shorter distance which may be fixed by the district director in charge of a district defined in § 60.1, or, so far as the power to board and search aircraft is concerned, any distance within any of the areas designated in paragraph (d) of this section.

(b) *Authorized employees.* All patrol inspectors, immigrant inspectors, and all persons designated immigrant inspectors by § 60.27 are authorized to exercise the power of arrest without warrant, the power to board and search vessels and other conveyances, and the power to execute warrants and other processes conferred by the act.

(c) *Reasonable distance; fixing by district directors.* In fixing reasonable distances of less than 100 air miles pursuant to paragraph (a) (3) of this section, district directors shall take into consideration topography, confluence of arteries of transportation leading from external boundaries of the United States, relative distance from such boundaries, density of population, possible inconvenience to the traveling public, types of conveyances used, and reliable information as to movements of persons effecting illegal entry into the United States: *Provided*, That whenever in the opinion of a district director a distance in his district of more than 100 air miles from any external boundary of the United States would because of unusual circumstances be reasonable, such district director shall forward a complete report with respect to the matter to the Commissioner of Immigration and Naturalization, who may, if he determines that such action is justified, declare such distance to be reasonable.

(d) *Powers; where exercised.* The powers conferred by the act may be exercised in the forty-eight States of the United States, the District of Columbia, Hawaii, Alaska, Puerto Rico, and the Virgin Islands.

(e) *Examining officer.* Although any officer authorized by paragraph (b) of this section to make arrests is qualified under paragraph (a) (2) of this section to conduct the examination required under clause (1) of the act, such examination shall be conducted by the arresting officer only in cases in which no other qualified officer is readily available and the taking of the alien before another officer would entail unnecessary delay and then only when the conducting of such examination is a part of the duties assigned to the arresting officer.

(f) *Disposition of cases of deportable aliens.* Whenever the examination which is required under clause (1) of the act in the case of an alien illegally entering or in the United States indicates that further action should be brought against the arrested alien, the examining officer shall proceed in accordance with the provisions of Part 150 of this chapter or shall take whatever other action may be appropriate or required under the laws or other regulations applicable to the particular case. In so doing, the examining officer may utilize any record made by the arresting officer.

(g) *Disposition of felony cases.* The cases of persons arrested under clause (3) of the act for felonies shall be handled administratively in accordance with the applicable provisions of § 60.25, but in no case shall there be prejudiced the right of the person arrested to be taken without unnecessary delay before the nearest available commissioner or before another nearby officer empowered to commit persons charged with offenses against the laws of the United States.

(h) *Powers not exclusive.* The powers conferred by the act upon the employees qualified thereunder are in addition to the powers conferred on immigrant inspectors by that provision of section 16 of the Immigration Act of 1917 (39 Stat. 885; 8 U. S. C. 152) which reads "Immigrant inspectors are hereby authorized and empowered to board and search for aliens any vessel, railway car, or any other conveyance, or vehicle in which they believe aliens are being brought into the United States" and in addition to any powers which are or may be conferred on officers or employees of the Immigration and Naturalization Service by other laws.

§ 60.29 *Persons qualified as members of boards of special inquiry; oath.* In accordance with the provisions of section 17 of the Immigration Act of 1917 (39 Stat. 887; 8 U. S. (c) Persons, other than employees of the Immigration and Naturalization Service but preferably Government employees, who are selected by an Immigration and Naturalization Service official in charge of a port where no permanent board of special inquiry is maintained and to which it is impracticable to detail a board from some other station. Such persons shall, before serving on a board of special inquiry, subscribe to an oath

of office on Form I–266 before an immigrant inspector.

§ 60.30 *Authority to accept applications; remittance of fees*—(a) *Applications.* Unless otherwise specifically provided in other sections of this chapter, the various applications prescribed in this chapter, including any required fees and prescribed supporting evidence, shall upon execution be submitted by the applicant by mail or in person or by agent to the appropriate Immigration and Naturalization Service field office. When furnishing application forms to prospective applicants, either directly or through the offices of clerks of courts having naturalization jurisdiction, officers of the Immigration and Naturalization Service shall place on such forms the address of the Immigration and Naturalization Service field office to which the completed application should be submitted. If an application form does not indicate the address to which it should be submitted after execution, the applicant may obtain such information from any immigration and naturalization office or he may submit the application to the nearest immigration and naturalization office.

(b) *Remittance of fees*—(1) *Form.* Any fees required to be submitted with, or on account of, any of the various applications prescribed in this chapter shall be in the amount provided by the applicable statute and regulation. All remittances shall be accepted subject to collection, and no receipt issued by an officer of the Immigration and Naturalization Service for any such remittance shall be binding if the instrument of remittance is found uncollectible. Such fees shall not be accepted in the form of currency, coins, or postage stamps.

(2) *Payee.* Such remittances should be drawn in favor of the "Commissioner of Immigration and Naturalization," except that in the cases of applicants residing in the Virgin Islands of the United States, the remittances should be drawn in favor of the "Commissioner of Finance of the Virgin Islands." The address of the payee shall not be included in that part of the form of remittance intended solely for the designation of the payee. Where it is necessary to indicate on a form of remittance the place at which the remittance is collectible or payable, there shall be used the name of the city or town and the state in which is located the immigration and naturalization office to which the application is to be sent.

(b) Notwithstanding paragraph (a) of this section:

(1) A district director, an officer in charge, the Commissioner, any other officer of the Central Office authorized by the Commissioner to do so, or the Board may permit an attorney or representative to file an appearance in behalf of a party in any case prior to the approval of his application for admission if such attorney or representative files the application concurrently with filing his appearance in the case. If the application is subsequently denied, such attorney or representative shall not thereafter be permitted to practice, in that or any other case, unless and until his admission to practice has been authorized by the Board and subject to such conditions as the Board shall direct.

(2) An attorney or representative who files or has filed an appearance in any case prior to the effective date of this part and on that date continues so to serve may be permitted to conclude such services subject, however, to the prohibitions stated in §§ 95.4 (d) and 95.8 (d).

Such application shall be made in triplicate upon Form G-27, shall be executed under oath or affirmation, shall be responsive to the questions therein, and shall reveal such information as may be considered necessary to make a decision upon the application. An application by an attorney shall be supported by a current certificate from a judge or clerk of the court in which the applicant is licensed to practice, or by a written statement of the officer in charge of the local office of the Service certifying that upon inquiry he has ascertained and has personal knowledge that the applicant is so licensed. An application by the representative of an organization shall be supported by a statement of the appropriate officer or officers thereof, certifying that the applicant is its accredited representative and authorized to appear in its behalf in any case.

(b) The original application shall be permanently retained in the files of the Board, the duplicate in the files of the Commissioner, and the triplicate in the files of the district director having jurisdiction over the applicant's place of residence.

(c) As soon as practicable after receipt of the application the Board shall give consideration thereto. If the application is approved, written notation to that effect shall be made on the application and a certificate of admission to practice shall be issued to the licensee. If the conclusion is that the application should be denied, the Board shall prepare a proposed order of denial, in which shall be stated the reasons for denying the application. The Board shall serve the proposed order on the applicant, either personally or by registered mail and obtain a return receipt therefor. The applicant shall be allowed a reasonable time, not less than ten days, in which to file exceptions to the proposed order and to submit a brief if desired. After receipt of the exceptions, or if none are received within three days after expiration of the period specified for filing of exceptions, the Board shall make such order as it may then determine appropriate. If the order be to deny the application, or if any one of the circumstances described in § 90.12 of this chapter be present, the Board shall refer the record to the Attorney General for review of its decision. If any attorney or representative of record authorizes another attorney or representative to act for him as an associate in a case, the latter will be heard if satisfactory evidence of his authorization is presented and if he has been admitted to practice under the regulations in this part.

(b) During the time a case is pending the attorney or representative of record, or his associate, shall be permitted to review the record and, upon request, be lent a copy of the testimony adduced and in expulsion proceedings the memorandum, if any, prepared by the presiding inspector setting forth a summary of the evidence and his proposed findings of fact, conclusions of law, and order. The attorney or representative shall give his receipt for such copy and pledge that no copy thereof will be made, that he will retain it in his possession and under his control, and that it will be surrendered upon final disposition of the case.

(j) Who wilfully made false and material statements in his application for admission to practice, or in his appearance in any case;

(k) Who engages in contumelious or otherwise unprofessional conduct with respect to a case in which such attorney acts in a representative capacity which would constitute cause for suspension or disbarment were the case pending before a court;

§ 95.8 *Procedure for suspension or disbarment; effect.* (a) The Commissioner may cause to be investigated any complaint or circumstance which establishes a prima facie case for the suspension or disbarment of any enrolled attorney or representative. If such investigation establishes to the satisfaction of the Commissioner that suspension or disbarment proceedings should be instituted, he shall cause written charges to be preferred. A copy of such charges shall be served upon the respondent, either personally or by registered mail, with notice to show cause within a specified time, not less than 30 days, why he should not be suspended or disbarred from further practice. Such notice shall also advise the respondent that after answer has been made and the matter is at issue, if he so requests he will be given opportunity for a hearing. If hearing is requested, the Commissioner will specify the time and place therefor and specially designate the officer who shall preside and the officer who shall present the evidence in support of the charges. The nonreceipt of answer within three days after expiration of the period prescribed to show cause shall be held a waiver of defense to the charges. When the record is complete, the Commissioner shall forward it to the Board with his recommendation.

(b) The respondent, either with or without counsel, and the Commissioner, or any officer designated by him for the purpose, shall have the privilege of appearing before the Board for oral argument at a time specified by the Board.

(c) The Board shall consider the record as presented by the Commissioner as soon as practicable after its receipt and render its decision thereon. The order of the Board shall constitute the final disposition of the proceeding: *Provided, however,* That if the order would suspend or disbar the respondent, or if any one of the circumstances described in § 90.12 of this chapter be present, the Board shall refer the record to the Attorney General for review of its decision and in such case the order of the Attorney General shall be the final determination of the proceeding.

(d) In case the final order against the respondent is for suspension or disbarment, the attorney or representative shall not thereafter be permitted to practice unless and until authorized so to do by the Board; and if disbarred, he shall surrender certificate of his admission to the Board for cancellation.

§ 95.9 *Effective date.* The regulations in this part shall take effect from and after May 1, 1944, except that applica-

In any case under this section, the officer in charge, the district director, or the Commissioner may timely file objections to the admission of the applicant, which together with the reasons supporting such objections will be considered by the Board in reaching its decision. An application under this section shall be treated in the manner provided by § 95.4 (c). The Board may conduct or cause to be conducted appropriate inquiry with respect to any application under this section. A person admitted under this section shall be subject to the provisions of this part regulating the practice of attorneys and representatives.

C. and Sup., 216), such contracts showing the exact amounts paid for transportation from the "initial point of departure," which point shall be stated, to the foreign port of embarkation, from the latter to the United States port of arrival, and from the port of arrival to inland point of destination, respectively, and also the amount paid for head tax.

§ 107.17 *Manifests of aliens from foreign contiguous territory.* (a) Upon the inspection of aliens seeking to enter continental United States directly from Canada or Mexico, the examining immigrant inspector shall prepare a manifest on Form I–448 in cases where the preparation of such a manifest is required by the provisions of this chapter, particularly Parts 108 and 114. § 108.3 *Nonimmigrants; Forms 257a, 257b, and 257d; action at time of entry.* (a) At the time an alien presenting Forms 257a, 257b, and 257d applies for admission to the United States for temporary stay, the alien shall surrender such forms to an immigrant inspector and, if the alien is admitted, the admitting inspector shall add on all three such forms in the spaces indicated the data as to the period and other facts of the admission. The inspector shall deliver Form 257a at once to the alien. The Form 257b, without transmittal letter, shall be forwarded at once to the Central Office for statistical and permanent record purposes. The Form 257d shall be retained at the port of entry and in the cases of aliens admitted directly to the continental United States from Canada or Mexico shall be filed as the record of entry in lieu of Form I–448.

(b) If an alien presenting Forms 257a, 257b, and 257d is excluded from the United States, the Form 257a shall not be given to the alien. Data as to the exclusion shall be placed on the Forms 257b and 257d by the chairman of the board of special inquiry. The Form 257d shall be retained at the port as a record of the exclusion. The Forms 257a and 257b shall be sent together to the Central Office and shall accompany any record of the hearing before the board of special inquiry submitted to the Central Office in appellate or similar proceedings. Where the Forms 257a and 257b are submitted with such a record, they shall be returned to the port with the notification of the decision. Data as to the facts of the resulting final action at the port shall be placed on the Forms 257a, 257b, and 257d, and the Forms 257b and 257d shall be disposed of as prescribed in paragraph (a) of this section; the Form 257a shall also be disposed of as prescribed in paragraph (a) of this section in those cases where the alien is admitted under the decision but the Form 257a shall be sent with the Form 257b to the Central Office in cases where the alien is not admitted.

(c) The term "continental United States" as used in this section and part means the territory of the forty-eight States, the District of Columbia, and Alaska.

§ 108.4 *Nonimmigrants; Forms 257a, 257b, and 257d; action at time of departure.* (a) At the time of the departure from the United States of an alien who was admitted on presentation of Forms 257a, 257b, and 257d, the alien shall, with the exceptions provided in paragraph (b) of this section, surrender the Form 257a to an immigration officer or other designated person, who shall endorse it to show the facts of departure, after which the Form 257a shall be sent to the port where the entry occurred, if different from the port of departure. Regardless of whether the port of entry and the port of departure are the same or different, the facts of departure shall be posted to the Form 257d from the Form 257a, after which the latter shall be forwarded to the Central Office for statistical and permanent record purposes.

(b) An alien admitted to the United States on presentation of Forms 257a, 257b, and 257d shall not be required to surrender the Form 257a at the time of his departure from the United States in the following classes of cases:

(1) The Form 257a bears a nonimmigrant visa valid for more than one journey to the United States and the alien states his intention to enter the United States again within the period of the validity of such visa. The alien shall nevertheless report his departure to an immigrant inspector in accordance with the instructions on Form 257a. If departure occurs at the same port as that at which the entry occurred, the facts of departure shall be posted to the Form 257d and reported to the Central Office by form letter; if the entry occurred at another port, the departure shall be verified by form letter to such port and the facts of departure posted to the Form 257d there, after which the letter shall be forwarded to the Central Office.

(2) An alien child or alien children, accompanying on entry, are named on the Form 257a and all aliens covered by the form do not depart simultaneously. In such cases, Form 257a shall be surrendered by the alien last departing and endorsed only as to his departure, unless retention is permitted by this section. The earlier departures of the other aliens named on the form shall be posted to the Form 257d and reported to the Central Office, in the same way as is prescribed in subparagraph (1) of this paragraph.

(3) Any alien (including a resident of Canada or Mexico) who during his temporary stay in the United States proceeds to Canada or Mexico for a visit of not more than 30 days, after which he intends to reenter the United States for the remainder of the period of his original temporary admission.

(4) Other exceptional cases where the Commissioner of Immigration and Naturalization has instructed immigration officers to waive or defer the surrender of Form 257a at the time of the holder's departure from the United States.

§ 108.5 *Nonimmigrants; Forms I–94 and I–448.* (a) Form I–94 shall be used at all ports in the following cases of temporary admission:

(1) Where the alien is required to present a passport and a nonimmigrant visa and meets such requirement by presenting a passport containing the required nonimmigrant visa but does not present Forms 257a, 257b, and 257d because he surrendered those three forms in connection with a previous temporary stay or because such forms were not in use when his nonimmigrant visa was issued.

(2) Where the alien is required to present a nonimmigrant visa and meets such requirement by presenting Form 257a bearing the nonimmigrant visa but does not present Forms 257b and 257d because he surrendered those two forms on a previous entry.

(3) When the alien is coming from some country other than Canada or Mexico, does not present a nonimmigrant visa and Forms 257a, 257b, and 257d, and is admitted temporarily under a waiver of the nonimmigrant visa requirement.

(b) At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, Form I–94 shall be used not only in cases listed in paragraph (a) of this section but also in cases of temporary admission where Forms 257a, 257b, and 257d are not presented and where:

(1) The alien is admitted for more than 29 days; or

(2) Head tax is collected; or

(3) Bond is exacted; or

(4) Verification of departure is desired; or

(5) The case comes within some other specific class in which immigrant inspectors are instructed to execute Form I–94; or

(6) The facts of the particular case are such that a record on Form I–94 is deemed desirable.

(c) The original Form I–94 shall be delivered to the alien at the time of admission. If the alien has previously complied with the Alien Registration Act, that fact should be noted on the Form I–94. In the cases of aliens admitted directly to the continental United States from Canada or Mexico, the duplicate Form I–94 shall be filed as a record of entry in lieu of Form I–448. The original Form I–94 shall be surrendered by the alien at the time of his departure in accordance with the directions on the form except that where the circumstances described in § 108.4 (b) (2) or (3) exist, the alien may retain the form, in which event the procedure prescribed in those two subparagraphs shall be followed. Surrendered Forms I–94 shall be returned to the port of entry, if different from the port of departure. If a departing alien also has a Form 257a because he is within paragraph (a) (2) of this section, he shall surrender it simultaneously unless retention is permitted by this part. Where a departing alien surrenders both a Form I–94 and a Form 257a, the latter form shall be attached to the Form I–94. A triplicate copy of Form I–94 shall be made on plain or printed paper and forwarded to the Central Office in the following classes of cases:

(1) Where the form is issued to an alien whose journey to the United States originates in countries other than Canada or Mexico; and

(2) Where the form is issued to an alien admitted to the United States for more than 29 days.

Such furnishing to the Central Office of a triplicate copy of Form I–94 shall be noted by the issuing officer on the duplicate copy, and when satisfactory evidence of departure—normally the original Form I–94—is received at the port of entry, the facts of departure shall be posted to the duplicate copy of Form I–94 and such evidence of departure forwarded to the Central Office.

(d) At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, Form I–448 shall be prepared in the case of every alien who is an applicant for temporary admission, who does not present Form 257a, and who is held for hearing before a board of special inquiry. Such Form I–448 shall be filed at the port regardless of the disposition of the case.

§ 108.6 *Immigrants; Forms 256a and I–151.* (a) At the time an alien presenting Form 256a applies for admission to the United States for permanent residence, the alien shall surrender such form to an immigrant inspector and, if the alien is admitted, the admitting immigrant inspector shall add on such form in the space indicated the data as to the admission. If the admission occurs at a port where aliens are admitted directly to the continental United States from Canada or Mexico, a record shall be made at once on Form I–448. In all cases the Form 256a, without transmittal letter, shall be forwarded at once to the Central Office, where it shall be kept as a permanent record of the entry. On receipt in the Central Office of the Form 256a, it shall be assigned an alien number and there shall be prepared in the Central Office on Form I–151 an alien registration receipt card bearing the alien's photograph and a statement of such facts of admission, registration, and personal description as are provided for on the Form I–151. The photograph in the sealed envelope attached to and accompanying the Form 256a shall be used on the Form I–151. Thereafter, the Form I–151 shall be mailed directly from the Central Office to the alien.

(b) If an alien presenting Form 256a is excluded from the United States, data as to the exclusion shall be placed on that form by the chairman of the board of special inquiry and forwarded to the Central Office. The form shall accompany any record of the hearing before a board of special inquiry submitted to the Central Office in appellate or similar proceedings. Where the Form 256a is submitted with such a record, it shall be returned to the port with the notification of the decision, and data as to the facts of the resulting final action at the port shall be placed on the Form 256a, after which it shall be returned to the Central Office.

CROSS REFERENCE: For handling of immigration visas not surrendered at time of entry, see §§ 110.18 and 110.58 of this chapter.

§ 108.7 *Immigrants; land border ports; Form I–448.* At ports where aliens coming directly to the continental United States from Canada or Mexico are admitted, in cases where Form 256a is not presented, a record shall be made on Form I–448 where:

(a) The alien is held for hearing before a board of special inquiry; or

(b) Bond is exacted; or

(c) Head tax is collected; or

(d) There is no existing record of admission for permanent residence; or

(e) The alien is admitted on surrender of a permit to reenter the United States; or

(f) The case comes within some other specific class in which immigrant inspectors are instructed to execute Form I–448; or

(g) The facts of the particular case are such that a record on Form I–448 is deemed desirable.

§ 108.8 *Immigrants; surrender of cards at time of departure.* When an alien in possession of Form I–151 or any other form of alien registration receipt card, or in possession of an immigrant identification card, certificate of registry, or certificate of lawful entry—issued to him—departs permanently from the United States, he shall surrender such cards and certificates to an immigration officer at the time of departure and the cards and certificates shall be forwarded to the Central Office with Form I–407, processed in accordance with instructions issued by the Commissioner of Immigration and Naturalization. When the holder of a resident alien's border crossing identification card—issued to him—departs permanently from the United States, he shall at the time of departure surrender such card to an immigration officer for cancellation and return to the office of issuance in accordance with the provisions of § 166.6 of this chapter.

§ 108.9 *Endorsement of passports.* (a) When an alien admitted temporarily to the United States is issued a Form 257a or Form I–94 or when an alien is admitted permanently on presentation of a Form 256a or a permit to reenter the United States, the admitting immigrant inspector shall stamp any passport presented by the alien (as the term passport is defined in § 176.101 (e) of this chapter) to show the word "Admitted" and the date and place of admission: *Provided,* That the provisions of Part 125 of this chapter shall be followed as to the endorsement of passports presented by aliens admitted as students under the provisions of subsection (e) of section 4 of the Immigration Act of 1924 (43 Stat. 155; 8 U. S. C. 204 (e)).

(b) If an alien admitted temporarily to the United States is granted an extension of the period of his original admission, no notation to that effect shall be placed in any passport he possesses but he shall be advised in the notice of such extension that he should keep such notice with his passport.

§ 110.4 *Admissibility; prompt determination.* The appropriate officer shall determine as promptly as circumstances permit the right to admission of each alien applying for entry into the United States. If, in accordance with the provisions of section 16 of the Immigration Act of 1917 (39 Stat. 885; 8 U. S. C. 152), the examining immigrant inspector detains an alien for examination by a board of special inquiry, the examining inspector shall immediately sign and deliver to the alien the following written notice (Form I–122): "You are hereby notified that, since you do not appear to me to be clearly and beyond a doubt entitled to enter the United States, you are detained for further examination by a board of special inquiry to determine whether you are entitled to enter the United States under the provisions of the immigration laws. During such examination you have the right to be represented by counsel and to have a friend or relative present." If the alien is unable to read the notice, it shall be read and explained to him prior to his examination by the board of special inquiry and through an interpreter if necessary. (Secs. 5 (a), 6 (a), 60 Stat. 239, 240; 5 U. S. C., Sup., 1004, 1005)

§ 110.5 *Admissibility of steerage passengers; determination.* A steerage passenger who is in possession of an unexpired permit to reenter the United States issued pursuant to section 10 of the Immigration Act of 1924 (43 Stat. 158; 8 U. § 110.6 *Aliens coming for employment while residing in contiguous territory; classification.* Aliens entering the United States to engage in existing employment or to seek employment in this country and who desire to continue to reside in foreign contiguous territory will be considered as aliens of the immigrant class. (Sec. 3, 43 Stat. 154, 47 Stat. 607, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 203)

§ 110.7 *Inspection postponed; disability of alien.* When an alien upon arrival or pending the determination of his right to land is found to be suffering from a disability which in the opinion of the immigration officials renders it impracticable to proceed with the examination under the immigration law, such alien may be placed in a hospital designated by the proper immigration official, and inspection shall be postponed during such disability. (Sec. 16, 39 Stat. 885, 58 Stat. 714, 60 Stat. 1049; 8 U. S. C. and Sup., 152)

the examining medical officer as helpless under the last proviso of section 18 of the Immigration Act of 1917 (39 Stat. 887; 8 U. S. C. 154), any alien accompanying such alien and whose protection or guardianship will be required, shall be detained and determination of his case postponed pending decision of the case of the alien likely to be rejected. (Sec. 16, 39 Stat. 885, 58 Stat. 714, 60 Stat. 1049; 8 U. S. C. and Sup., 152)

§ 110.10 *Inspection not postponed.* In cases arising under § 110.8, when the member in hospital is in no manner necessary to the support of the remaining members of the family and presumably is eligible to land provided he recover, such remaining members may be forthwith inspected and, if found eligible, landed upon the deposit, (a) of a sum of money (or ticket covering transportation and money) sufficient to defray the expenses of conveying the detained member to final destination, and (b) if for infancy or any other cause he may require an attendant when traveling to his destination or in the process of deportation, unless satisfactory assurances are given that a proper attendant will be furnished without charge to the Government, of a further sum sufficient to cover the cost of the services and transportation to and fro of such an attendant. (Sec. 16, 39 Stat. 885, 58 Stat. 714, 60 Stat. 1049; 8 U. S. C. and Sup., 152)

§ 110.11 *Reporting condition of vessels.* Pursuant to the provisions of the second proviso to section 11 of the Immigration Act of 1917 (39 Stat. 881; 8 U. S. C. 147), in the case of any vessel which is arriving at a United States port and which is bringing alien passengers to the United States, the immigrant inspector who boards such vessel for the purpose of inspecting the passengers or crew shall observe the conditions prevailing upon the vessel with respect to sanitation and the comfort of passengers and crew. If any such conditions are found to be unsatisfactory, the immigrant inspector shall submit a formal report in triplicate on Form I–84 to the officer in charge of the port, and that office shall forward two copies to the Central Office in order that such further action as may be deemed necessary may be taken.

§ 110.13 *Immigrants having expired documents.* Where an immigrant arriving in the United States by water, or arriving by water at a port designated as a United States port of entry for aliens in foreign contiguous territory, is in possession of and presents an immigration visa or permit and that he has proceeded pired, such immigrant shall be excluded unless it shall satisfactorily appear that the immigrant embarked on the vessel by which he arrives prior to the expiration of the validity of such immigration visa or permit and that he has proceeded by continuous voyage to the United States. (Sec. 2 (c), 43 Stat. 153; 8 U. S. C. 202 (c))

§ 110.18 *Visas and reentry permits; surrender subsequent to entry.* Where an alien has been lawfully admitted but failed to surrender his immigration visa or his reentry permit at the time of such admission, such documents subsequently coming into the possession of immigration officers will be forwarded to the port where entry occurred for proper disposition. (Sec. 2 (e), 43 Stat. 154; 8 U. S. C. 202 (e))

§ 110.20 *Immigrant aliens liable to be excluded as public charges; admission under bond.* The immigration officer conducting the primary inspection in the case of an alien who is applying for admission to the United States for permanent residence and who is liable to be excluded because likely to become a public charge or because of physical disability other than tuberculosis or a dangerous contagious disease shall refer the question of admission to the officer in charge of the port and that official may in his discretion admit the alien on primary inspection, if otherwise admissible, upon the furnishing of a bond in the sum of not less than $1,000 conditioned as prescribed on Form I–354, or, in lieu of such bond, upon the depositing of cash or a postal money order in the sum of not less than $1,000 for the same purposes, and subject to the same conditions as the bond. If the officer in charge of the port does not so admit the alien, the question of admission shall be referred to a board of special inquiry and such board may in its discretion admit the alien, if otherwise admissible, upon the furnishing of the bond or the depositing of the cash or the postal money order described in the preceding sentence. (Sec. 21, 39 Stat. 891; 8 U. S. C. 158)

NOTE: § 110.20, as set forth above, becomes effective Sept. 1, 1947.

§ 110.21 *Form of public charge bonds; action where no longer required.* All bonds, including agreements covering deposits of cash or postal money orders, given as a condition of the admission of an alien under section 21 of the Immigration Act of 1917 (39 Stat. 891; 8 U. S. C. 158) shall be executed on Form I–354 entitled "Bond That Alien Shall Not Become a Public Charge". Where cash or a postal money order is deposited, the depositor shall give his power of attorney and agreement on Form I–304, authorizing the officers designated thereon to collect, assign, or transfer such deposit, in whole or in part, in case of any violation of the conditions of the bond; and the officer accepting such deposit shall give his receipt therefor on Form I–305. If proofs are submitted that the alien is no longer likely to become a public charge or is no longer afflicted with a physical disability, the bond with its appurtenant documents shall be forwarded to the Commissioner of Immigration and Naturalization with an appropriate recommendation.

NOTE: § 110.21, as set forth above, becomes effective Sept. 1, 1947.

CROSS REFERENCE: For approval and cancellation of public charge bonds, see 8 CFR Part 169.

§ 110.27 *Definitions of "status" in relation to nonimmigrants and students.* The term "status" as used in the Immigration Act of 1924 means the condition of carrying on one of the particular limited activities for which an alien may be admitted under a subdivision of section 3 of that act (43 Stat. 154, 47 Stat. 607, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 203) or under subdivision (e) of section 4 (43 Stat. 155; 8 U. S. C. 204 (e)). When applied to an alien, the term "official status" means that he is admissible under section 3 (1) and is a government official, or a member of the family, attendant, servant, or employee of a government official whom he accompanies or follows to join; the term "visitor's status" means that he is admissible under section 3 (2) and is an alien visiting the United States temporarily as a tourist or temporarily for business or pleasure; and the term "trader's status" means that he is admissible under section 3 (6) and is an alien entitled to enter and to remain in the United States solely to carry on trade between the United States and the foreign state of which he is a national under and in pursuance of the provisions of a treaty of commerce and navigation, or the wife, or unmarried child under 21 years of age of a person so entitled whom he accompanies, or follows to join.

§ 110.28 *Officials, visitors, traders; determination of admissibility.* When an alien claims to have an official status, or a visitor's status, or a trader's status, and is otherwise admissible, an examining officer may temporarily admit him if satisfied beyond a doubt that the alien has the specific status claimed. If the officer is not so satisfied, such alien shall be held for examination regarding his status by a board of special inquiry or, at ports where there are no permanent boards of special inquiry, by the officer in charge at such port. Either of these authorities may temporarily admit him if satisfied that the alien has the specific status claimed.

§ 110.29 *Officials, visitors, traders; period and conditions of admission.* The admission of the aliens described in § 110.28 by an examining officer, by a board of special inquiry, or by an officer in charge at a port shall be for a reasonable fixed period not exceeding one year, and on condition that the alien shall maintain during his temporary stay in the United States the specific status claimed, and shall voluntarily depart therefrom at the expiration of the time fixed or upon failure to maintain the specific status under which admitted. If the question of admission is referred to either a board of special inquiry or the officer in charge of a port, that authority may exact, as a condition of admission, a bond in the sum of $500 with appropriate provisions to insure that the alien will voluntarily depart from the United States at the expiration of the time fixed or upon his failure to maintain the specific status claimed, whichever shall happen sooner. Exceptions to this section are as follows:

(a) *Officials.* A government official and his family shall be admitted without limitation of time and shall not be required to give bond;

(b) *Traders.* An alien having a trader's status shall be admitted without limitation of time;

(c) *Trader, minor child of.* An alien who has been admitted as the unmarried minor child of a treaty trader shall be regarded as having maintained his specific status so long as his parent maintains his trader's status;

(d) *Visitors; readmission from contiguous territory.* If an alien who claimed a visitor's status and who was admitted without exaction of a bond, subsequently departs to foreign contiguous territory for a temporary visit and returns to the United States, such departure shall not be considered as affecting the period for which he was originally admitted, and upon his return he shall be entitled to readmission, if no cause for exclusion is found. (Sec. 15, 43 Stat. 162, 47 Stat. 524; 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 215)

§ 110.31 *Officials, traders, visitors; change of status, conditions.* After an alien has gained admission by claiming a visitor's status, a trader's status or (except in the case of a government official or his family) an official status, or by meeting the requirements of section 4 (e), Immigration Act of 1924 (43 Stat. 155; 8 U. S. C. 204 (e)), he cannot change from the specific status under which he was admitted, unless, because of the peculiar circumstances of his case, the Attorney General authorizes such change. In meritorious cases where the Attorney General does authorize such change, he may (except in the case of an alien becoming a government official or a member of the family of such an official) exact, as a condition of the change, a bond in such sum and with such provisions as he deems appropriate to insure that the alien shall voluntarily depart from the United States at the expiration of a time fixed by the Attorney General or upon his failure to maintain the specific new status acquired, whichever shall happen sooner. (Sec. 3, 43 Stat. 154, 47 Stat. 607, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 203)

§ 110.35 *Entry of aliens who were born in the barred zone but who are not barred by section 13 (c) of the Immigration Act of 1924, as amended.* The rights of any alien not barred from admission to the United States by the provisions of section 13 (c) of the Immigration Act of 1924, as amended (43 Stat. 162, 46 Stat. 581, 60 Stat. 975; 8 U. S. C. and Sup., 213 (c)), shall not be regarded as impaired by those provisions of section 3 of the Immigration Act of February 5, 1917 (39 Stat. 875; 8 U. S. C. 136 (n)), relating to the exclusion of natives of the geographical zone described in said section 3.

§ 110.36 *Nonquota status; by relationship to citizen or by former citizenship.* (a) An unmarried child under 21 years of age, or the wife, of a citizen of the United States, or the husband of a citizen of the United States by marriage occurring prior to July 1, 1932, shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer, designating the holder as such, and then only when the facts necessary to determine the particular status as a nonquota immigrant are established to the satisfaction of the examining immigration officer. The alien will be excluded if subsequent to issuance of the visa the alien has obtained a divorce from the citizen petitioner; or, if subsequently widowed, has remarried; or, if beneficiary is a child, has subsequently married. A person who is ineligible to citizenship or is a person of a race indigenous to India as defined in section 5 (a) of the act of July 2, 1946 (60 Stat. 417; 8 U. S. (b) A woman, regardless of her race, who was a citizen of the United States and lost her citizenship by reason of her marriage to an alien, or the loss of United States citizenship by her husband, or by marriage to an alien and residence in a foreign country, and who has acquired no other nationality by affirmative act other than by such marriage, shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer, designating the holder as such, and then only when the facts necessary to determine the particular status as a nonquota immigrant are established to the satisfaction of the examining immigration officer.

(c) A person, regardless of his race, who was a citizen of the United States and also a national of a foreign state, and who lost his citizenship of the United States under the provisions of section 401 (c) of the Nationality Act of 1940 (54 Stat. 1169; 8 U. S. C. 801), and who claims that he is entering the United States for the purpose of recovering his citizenship, shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer designating the holder as such, and then only if the facts necessary to determine the particular status are established to the satisfaction of the examining immigration officer. (Secs. 4 (a), 4 (f), 43 Stat. 155, 45 Stat. 1009, 46 Stat. 854, 47 Stat. 656, sec. 13 (a), 43 Stat. 161, 50 Stat. 165, sec. 317 (c), 54 Stat. 1147; 8 U. S. C. 204 (a), 204 (f), 213 (a), 717 (c))

§ 110.37 *Nonquota status on basis of former residence.* (a) An alien, regardless of his race, claiming to be a nonquota immigrant on the ground that he has previously been lawfully admitted to the United States and is returning from a temporary visit abroad shall not be admitted as such unless at the time of arrival he shall establish that he has previously been lawfully admitted for permanent residence, is returning from a temporary visit abroad, and presents such valid documents as may be necessary under the terms of an outstanding Executive order or orders prescribing documents required of aliens entering the United States, or a waiver of such documents has been granted by the Secretary of State under the circumstances present in his case.

(b) The following described aliens who on admission expressed an intention of remaining but temporarily in or passing in transit through the United States, of whose admission a record exists, and in whose cases a head tax was assessed, if assessable, and not refunded, but who remained in the United States, may be regarded as having been admitted for permanent residence:

(1) Aliens admitted prior to June 3, 1921, except that aliens of these classes admitted temporarily under the 9th proviso to section 3 of the Immigration Act of 1917, will not be regarded as having been admitted for permanent residence;

(2) Aliens admitted under the act of May 19, 1921, as amended, who were of a class admissible for permanent residence under that act notwithstanding the quota limitations of that act;

(3) An accompanying wife or unmarried child under 21 years of age of an alien admitted under the act of May 19, 1921, as amended, who was of a class admissible for permanent residence under that act notwithstanding the quota limitations of the act; and

(4) Aliens charged under such law to the proper quota at time of admission or subsequently and who remained so charged. (Secs. 4 (b), 13 (a), 43 Stat. 155, 161, 50 Stat. 165; 8 U. S. C. 204 (b), 213 (a))

§ 110.38 *Lawful admission; when presumed.* Citizens of Canada or Newfoundland who entered the United States across the Canadian border prior to October 1, 1906, and citizens of Mexico who entered across the Mexican border prior to July 1, 1908, shall, for reentry purposes, be presumed to have been lawfully admitted, even though no record of their original entry can be found. Aliens who entered the Virgin Islands of the United States prior to July 1, 1938, shall, for purposes of reentry at any port of entry, be presumed to have been lawfully admitted for permanent residence even though no record of their original entry can be found or even though a record of their admission as nonimmigrants is found. Any alien within the terms of this section shall upon application for readmission to the United States be inspected and be subject to the requirements of the immigration laws and regulations the same as if the original presumed lawful entry was by recorded admission for permanent residence; and if no record exists of a reentry since such presumed lawful entry, the alien shall be regularly manifested for the purpose of recording the application for readmission. Nothing in this section shall be deemed to preclude an alien qualified

to do so from applying for registry under section 328 (b) of the act of October 14, 1940 (54 Stat. 1152; 8 U. S. C. 728 (b)).

CROSS REFERENCE: For issuance of certificate of arrival based on recorded reentry of alien presumed lawfully admitted, see Part 363 of this chapter.

§ 110.39 *Nonquota status; by country of birth or by relationship to certain nonquota immigrants.* (a) An alien claiming a nonquota status because of birth in the Dominion of Canada, Newfoundland, the Republic of Mexico, the Republic of Cuba, the Republic of Haiti, the Dominican Republic, the Canal Zone, or an independent country of Central or South America shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer designating the holder as such, and then only when it shall be established to the satisfaction of the examining immigration official that he was born in one of the countries named or referred to in this paragraph. When such alien is accompanied by an alleged wife, or an unmarried child or children under 18 years of age, born elsewhere than in one of such countries, who seek admission as nonquota immigrants on the ground that the husband or parent was born in one of such countries, these claimed members of the family must also present immigration visas duly issued by an American consular officer, designating the wife or child or children as nonquota immigrants and satisfactory proof shall be required of the relationship asserted and the age of the child or children.

(b) When a wife, or child under 18 years of age, born elsewhere than in one of the countries named or referred to in paragraph (a) of this section, seeks to enter the United States as a nonquota immigrant because coming to join a husband or parent alleged to have been born in one of such countries, such wife or child must present an immigration visa duly issued by an American consular officer, designating the holder as a nonquota immigrant and shall establish to the satisfaction of the examining immigration official (1) that the claimed relationship actually exists; (2) that the child or children are under 18 years of age; (3) that such husband or parent was born in one of such countries; and (4) that such husband or parent has been lawfully admitted to the United States for permanent residence and resides therein.

(c) An alien who is ineligible to citizenship or is a person of a race indigenous to India as defined in section 5 (a) of the act of July 2, 1946 (60 Stat. 417; 8 U. S. C., Sup. 212c), or is a Chinese person as defined in section 5 (b) of the same act, shall not be regarded as having the nonquota status described in paragraph (a) or (b) of this section. (Secs. 4 (c), 13 (a), 43 Stat. 155, 161, 50 Stat. 165; 8 U. S. C. 204 (c), 213 (a))

§ 110.40 *Nonquota status; ministers and professors; students.* (a) An alien, regardless of his race, who claims a nonquota status because for at least two years immediately preceding the time of his application for admission to the United States he has continuously been, and seeks to enter the United States solely for the purpose of, carrying on the vocation of minister of any religious denomination or professor of a college, academy, seminary, or university shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer designating the holder as such, and then only when it shall be established to the satisfaction of the examining immigration officer that he has been, and seeks to enter the United States solely for the purpose of, so carrying on his vocation. When an alleged wife, or an unmarried child or children under 18 years of age accompany such an alien or follow to join him and seek admission as nonquota immigrants on the ground that the husband or parent is or was a nonquota immigrant as described in this section, these claimed members of the family must also present immigration visas duly issued by an American consular officer, designating the wife or child or children as nonquota immigrants on such ground and satisfactory proof shall be required of the relationship asserted and the age of the child or children.

(b) An alien, regardless of his race, claiming to be a nonquota immigrant on the ground that he is a student as defined in § 125.1 of this chapter shall not be regarded as a nonquota immigrant unless provided with an immigration visa duly issued by an American consular officer designating the holder as such, and then only when the facts necessary to determine his status as a student are established to the satisfaction of the examining immigration officer. (Sec. 4 (d), 43 Stat. 155, 44 Stat. 812, sec. 13 (a), 43 Stat. 161, 50 Stat. 165; 8 U. S. C. 204 (d), 213 (a))

§ 110.41 *Nonquota status; failure to prove on primary inspection.* Where an immigrant claiming a nonquota status fails to meet the requirements of §§ 110.36, 110.37, 110.39, 110.40, he shall be held for examination in relation thereto by a board of special inquiry. (Sec. 16, 39 Stat. 885; 8 U. S. C. 152)

§ 110.42 *Financial status.* In the absence of a statutory provision, no hard and fast rule can be laid down as to the amount of money an alien should have. This is only one element to be considered in each case, but generally he should have enough to provide for his reasonable wants and those of accompanying persons dependent upon him until such time as he is likely to find employment; and when bound for an interior point, railroad ticket or funds with which to purchase the same. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (i))

§ 110.43 *Reading test; aliens subject thereto.* All aliens over 16 years of age who are physically capable of reading, except as specified in the statute and described in § 110.47, shall be required to demonstrate their ability to read matter printed in plainly legible type and in a language or dialect designated by the alien at the time of examination. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (o))

§ 110.44 *Reading test; general method of application.* When applying the reading test immigration officers shall use the printed and numbered test slips supplied by the Central Office for that purpose, and a record shall be made upon the manifest or board minutes showing both the class and serial numbers of the slip used in each case and the language or dialect designated by the applicant and actually used in the examination. No two aliens listed upon the same manifest sheet shall be examined at seaports by the use of the same slip. If the examining inspector is unable to speak and understand the language or dialect in which the alien is examined, the services of an interpreter shall be used for interpreting into spoken English the printed matter as read by the alien, so that the examining inspector may compare such interpretation with the slip of corresponding serial number containing the English translation of the same reading matter. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (o))

§ 110.45 *Reading test; exceptional method of application.* In all cases in which, because of lack of the qualified interpreters necessary for the observance of the general method prescribed in § 110.44, or for any other reason it is impracticable to adopt said general method, immigration officers may employ such other means as will clearly demonstrate the alien's ability, or lack of ability, to read. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (o))

§ 110.46 *Reading test; failure to read; procedure.* In the event the applicant is subject to the reading test and is unable to satisfy the examining or challenging inspectors of his ability to read matter printed in the designated language or dialect, it shall be the duty of either the examining or the challenging inspectors to detain the applicant for special inquiry and to record upon the manifest and detention cards for the information of the board the class and serial numbers of the slip used or other means employed in the primary examinations to determine ability to read. (Secs. 3, 16, 39 Stat. 875, 885; 8 U. S. C. 136 (o), 152)

§ 110.47 *Exemptions from reading test.* The following classes of aliens over 16 years of age are exempted from the reading test:

(a) *Physically incapable.* Persons who are physically incapable of reading.

(b) *Relationship.* Persons of any of the following relationships to United States citizens, admissible aliens, or legally admitted aliens, when such persons are sent for or brought in by such citizens, admissible aliens, or admitted aliens: father, if over 55 years of age; grandfather, if over 55 years of age; wife; mother; grandmother; unmarried daughter; or widowed daughter.

(c) *Religious persecution.* Persons seeking admission to the United States to avoid religious persecution in the country of their last permanent residence.

(d) *Returning residents.* Persons who have been lawfully admitted to the United States and who have resided therein continuously for five years and who have returned to the United States within six months from the date of their departure therefrom.

(e) *Transits through contiguous territory.* Persons who have been lawfully admitted to the United States and who later go from one part of the United States to another through foreign contiguous territory. The period an alien may remain in foreign contiguous territory while in transit under this exemption shall be limited to 60 days. An alien may leave and enter the United States at the same port and still be in transit within the meaning hereof.

(f) *Transits.* Persons in transit through the United States, as defined in § 118.1 of this chapter.

(g) *Visitors from nearby countries.* Persons whose legal domicile or bona fide residence was in Canada, Newfoundland, Cuba, or Mexico for at least one year immediately preceding entry and who enter the United States temporarily for business or pleasure for a period not exceeding one year.

(h) *Exhibitors.* Exhibitors and employees of fairs and expositions authorized by Congress. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (o), (q))

§ 110.48 *Unaccompanied children; admission.* Children under 16 years of age unaccompanied by or not coming to one or both of their parents may be admitted on primary examination when the immigration officer is satisfied that they are in good mental and physical condition, that while abroad they have not been the objects of public charity, that they are going to near relatives who are able and willing to support and properly care for them, that it is the intention of such relatives to send such children to day school until they reach the age of 16, and that they will not be put at work unsuited to their years; or that the children are to attend a designated reputable institution of learning for which suitable provision has been made in advance, or that the children are merely in transit and the person accompanying such children will convey them through and out of the United States, or that the children are to make a temporary visit to their relatives. (Sec. 3, 39 Stat. 875; 8 U. S. C. 136 (m))

§ 110.49 *Unaccompanied children; exceptional cases.* In cases where all of the conditions set forth in § 110.48 are not met, but the immigration officer on primary examination is satisfied that the applicant is admissible, the case may be referred to the officer in charge, and if he likewise is satisfied of the applicant's admissibility the case may be disposed of on primary examination; otherwise it shall be referred to a board of special inquiry. (Secs. 3, 16, 39 Stat. 875, 885; 8 U. S. C. 136 (m), 152)

§ 110.50 *Stowaways.* Aliens arriving at seaports of the United States as "stowaways" or alien "stowaways" who arrive as "workaways" shall be held for examination by a board of special inquiry. Unless the board reaches the conclusion that beyond a doubt the alien, except for being or having been a stowaway, is entitled to land, it shall exclude. Such an alien is entitled to appeal unless he is certified as afflicted with diseases or disabilities as specified in the proviso of section 17 of the Immigration Act of 1917. (Secs. 3, 16, 17, 39 Stat. 875, 885, 887; 8 U. S. C. 136 (l), 152, 153)

§ 110.51 *Aliens previously rejected; exclusion; permission to reapply.* Any alien excluded from admission and deported in pursuance of law who applies for admission within one year after such rejection and deportation shall be excluded, unless, prior to reembarkation at a place outside the United States or his attempt to be admitted from foreign contiguous territory, the Attorney General has consented to his reapplication for admission. At the time of original exclusion by a board of special inquiry, an applicant shall be advised of the provisions of law relating to the obtaining of permission to reapply within one year, and the fact of such notification shall be entered on the record, together with the applicant's foreign address. In strictly meritorious cases, where the cause of exclusion may be readily overcome, applicants may be advised by the board of special inquiry that an application for permission to reapply may then and there be made. If the applicant desires to make such application, the board record shall thereupon be forwarded to the Department, whether or not an appeal is taken from the excluding decision. In other cases applications for the privilege to reapply should be submitted to the official in charge at the port of last exclusion, and will be forwarded by such official through proper channels to the Central Office, accompanied by the record previously formulated, unless the Central Office through appeal proceedings has already come into possession of the record. If upon consideration of the record the Attorney General grants permission to reapply within one year of date of exclusion, notification of such permission shall be transmitted to the port where alien was excluded, if he has not already been deported, or to his foreign address, if he has actually been deported. (Sec. 1 (d), 45 Stat. 1551; 8 U. S. C. 136 (j))

§ 110.52 *Aliens previously arrested and deported; exclusion; permission to reapply.* Any alien heretofore or hereafter arrested and ordered deported in pursuance of law shall be excluded from admission to the United States: *Provided, however,* That the foregoing shall not apply to any alien who was arrested and deported prior to March 4, 1929, and prior to his reembarkation at a place outside the United States, or prior to his application in or from foreign contiguous territory for admission to the United States, and prior to March 4, 1929, has been granted permission to apply for admission by the Attorney General, and when so applying is found admissible; or to any other alien so ordered deported who has left the United States, if prior to reembarkation from a point outside the United States, or prior to his application in or from foreign contiguous territory for admission to the United States he applies for and obtains from the Attorney General permission to apply for admission after one year from the date of his departure in pursuance of an order of deportation, and is found admissible. Application for permission to reapply may be made at any time after such departure. Application should be made on Form I-212, when available, and should be sent direct to the Central Office of the Service. (Sec. 1 (a), (b), (c), 45 Stat. 1551, sec. 7, 47 Stat. 166; 8 U. S. C. 180, 181)

§ 110.53 *Immigrants, possessing proper documents, but who entered without examination; procedure.* Where an alien is found in the United States in possession of an immigration visa or a reentry permit, who failed to undergo proper examination at a port of entry, such alien shall be examined in the district where located or residing, and complete record of the case, including his or her visa or reentry permit, shall be forwarded to the Central Office for consideration by the Department. If the Department directs admission, the officer in charge of the district where the examination has taken place will be so advised and furnished with the visa or permit, and he will thereupon cause the alien to be properly recorded as admitted, or if entry occurred in another district, he will forward the visa or permit to the officer in charge of that district for such recording, together with a duplicate copy of the entire record of examination, which record should include appropriate statistical data, postal money order for the head tax (where the latter is required), together with complete details concerning the time, place, and manner of the entry. It is essential that officers conducting such examinations shall go thoroughly into the circumstances attendant upon the failure of the alien to undergo proper examination at the time of entry, and particularly so if said entry occurred through a regular port, for the purpose of fixing the responsibility for failure to undergo inspection, as well as the actual date of the alien's entry, the port through which entry was made, and the means of transportation employed. Record of admission, if and when made, will be as of the actual date, place, and manner of arrival in the United States. If admission is not directed, instructions will be given for such other action as the circumstances may warrant. (Sec. 2 (e), 43 Stat. 154; 8 U. S. C. 202 (e))

PART 112—ADMISSION OF HOLDERS OF CERTIFICATES OF IDENTITY TO PROSECUTE AN ACTION UNDER SECTION 503 OF THE NATIONALITY ACT OF 1940

Sec.
- 112.1 Ports of entry upon certificate of identity.
- 112.2 Entry upon certificate of identity; conditions.
- 112.3 Certificate of identity obtained by fraud or other illegality.
- 112.4 When deportation proceedings shall be instituted.
- 112.5 Transportation of holder of certificate of identity.

AUTHORITY: §§ 112.1 to 112.5, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 112.1 to 112.5, inclusive, interpret and apply sec. 503, 54 Stat. 1171; 8 U. S. C. 903.

§ 112.1 *Ports of entry upon certificate of identity.* The admission to the United States of a person on the basis of a certificate of identity issued under section 503 of the Nationality Act of 1940 (54 Stat. 1171; 8 U. S. C. 903) may be granted only at a port designated in § 110.1 or § 110.3 of this chapter as a port of entry for aliens.

§ 112.2 *Entry upon certificate of identity; conditions.* The holder of such a certificate of identity shall be regarded as an alien until otherwise finally held by the court in the action for a judgment declaring him to be a national of the United States. He shall be admitted to the United States as a temporary visitor for business on the condition, including, when deemed necessary, the giving of a bond with sufficient surety, that he shall depart from the United States if it is discovered that he has obtained admission by fraud or other illegality or if the final action in court to determine his nationality is not to the effect that he is a national of the United States. In addition, if such person is found to be afflicted with a loathsome or dangerous contagious disease or to have had one or more attacks of insanity or to be likely to become a public charge in the United States or to belong to one or more of the classes excluded from admission to the United States by the act approved October 16, 1918, as amended, or to be of a race that renders an individual ineligible to naturalization, his admission shall, unless the Attorney General on appeal from a decision of the board of special inquiry otherwise directs, be upon such further conditions as may be prescribed by the immigration authorities of the United States. The conditions shall be such as may be deemed necessary to safeguard the public and to require periodic reports by the person of his whereabouts to the immigration authorities of the United States, so that departure or deportation therefrom may be effected in the event it is discovered that he obtained admission by fraud or other illegality or if the final outcome of his action in court to determine his nationality is not to the effect that he is a national of the United States and if he then fails to depart without delay from the United States in accordance with directions from the immigration authorities. At the time of admission the certificate of identity shall be endorsed by the immigration officer to show the manner of arrival and the place and date of admission. The endorsement shall be signed by the officer making it and he shall add thereto the title of his office. A person admitted on a certificate of identity shall be informed at the time of admission that, until he departs from the United States or there is a decision of the court that he is a national of the United States, he is required by law to notify the Commissioner of Immigration and Naturalization, Washington, D. C., in writing of his address at the expiration of each three months' period of residence in the United States.[1] Also, at the time of such admission, a report of the name of such person and the date and port of his admission shall be made by the immigration office at once to the United States attorney for the judicial district in which the action by the person is pending for a judgment declaring that he is a national of the United States. If the final decision in such action in court be that he is a national of the United States, a record to that effect shall be made by the immigration authorities at the port of admission.

§ 112.3 *Certificate of identity obtained by fraud or other illegality.* Whenever there is evidence before the immigration authorities indicating that a certificate of identity was obtained or issued through fraud or other illegality or that it is in the possession of a person other than the rightful holder, the certificate shall not entitle the holder to be admitted to the United States unless satisfactory evidence is presented showing that such is not the case. Whenever a certificate of identity is found by an immigration officer of the United States to have been obtained by fraud or other illegality or to be in the possession of a person other than the rightful holder, such officer shall, if practicable, obtain possession of the certificate and send it, together with a report on the matter, through the Central Office, Immigration and Naturalization Service, Washington, D. C., to the Department of State.

§ 112.4 *When deportation proceedings shall be instituted.* Steps for the institution of deportation proceedings against a person admitted on the basis of a certificate of identity shall be taken by the Immigration and Naturalization Service in accordance with the applicable sections of Part 150 of this chapter if found to have obtained admission to the United States unlawfully or if he fails to comply with the conditions under which admitted to the United States.

§ 112.5 *Transportation of holder of certificate of identity.* The transportation of the holder of a certificate of identity to the United States shall be subject to the same liabilities and penalties under the immigration laws as the bringing of any alien to the United States except liability to any fine or penalty under the immigration laws because of a mental defect other than such defects specifically named in section 9 of the Immigration Act of 1917, as amended (39 Stat. 880, 43 Stat. 166; 8 U. S. C. 145), or a physical defect of a nature which may affect ability to earn a living, as contemplated in section 3 of the Immigration Act of 1917 (39 Stat. 875; 8 U. S. C. 136) or because of excludability under that section as a native of that portion of the continent of Asia and the islands adjacent thereto described in that section, or because of inability to read.

AUTHORITY: §§ 114.1 to 114.7, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 114.1 to 114.7, inclusive, interpret and apply sec. 23, 39 Stat. 892, sec. 17, 43 Stat. 163; 8 U. S. C. 160, 162, 217. Other statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

§ 114.1 *Inspection.* All inspections and medical examinations conducted at Canadian seaports of entry for aliens bound for the United States, the land border ports of entry, or United States immigration offices in the interior of Canada where boards of special inquiry are stationed, shall be in all respects similar to those conducted at other ports of entry, and all necessary facilities shall be provided the proper officials of the United States to enable them to make the inspections and examinations required under the immigration laws of the United States.

§ 114.2 *Preexamination of citizens, nationals, statistical and nonstatistical aliens.* United States citizens, citizens of the insular possessions of the United States, and aliens of the nonstatistical class, except as hereinafter provided, applying for preexamination in Canada at places where United States immigration officers are stationed, shall prepare and present Form I–121 at time of application, obtainable at such immigration offices, railroad or steamship ticket offices in Canada, or at such other places as may hereafter be designated. The names and ages of children under sixteen may be included in Form I–121 prepared by the accompanying parent or guardian. The preexamining inspector shall indicate on Form I–121 whether the alien holder is a temporary visitor or a returning resident of the United States: *Provided*, That aliens of the class mentioned who are required to deposit head tax shall be fully manifested on Form I–448 by the preexamining inspector: *Provided further*, That such inspector shall enter on Form I–448 the data appearing on Form I–121 with regard to those nonstatistical aliens who hold reentry permits or properly visaed passports, the form to contain a notation of the number of the permit or the fact that a visaed passport is carried: *And provided further*, That no preexamination will be accorded to persons of any class planning to proceed directly from a Canadian seaport to ports in the Territories of Hawaii and Alaska. Aliens of the statistical class shall be fully manifested on Form I–448 by the preexamining inspector whether arriving from overseas or whether their journey originates in Canada. Notwithstanding the other provisions of this section, Form I–448 shall not be executed when its use is obviated by the presentation by the alien of Forms 257a, 257b, and 257d or by the preparation of Form I–94.

§ 114.3 *Preexamination; procedure when admissibility determined.* If and when admissibility is determined, Form I–121, I–448, 257d, or I–94 shall be so endorsed by the appropriate immigration officer, attached to other pertinent immigration documents, and given to the applicant for presentation and surrender at the actual port of entry into the United States. If applicants of any class so preexamined depart for the United States by water from a place other than that at which the preexamination was conducted, the endorsed forms shall be countersigned by the appropriate United States immigration officer at the Canadian port of embarkation. Upon the surrender at ports of entry of properly endorsed forms within 30 days from endorsement, the period of the validity of the endorsement, the rightful holders will be promptly admitted if their status has undergone no change since preexamination: *Provided, however*, That holders of visas must apply for admission at ports of entry within the period of validity of their visas, or it is established that such holders began a continuous journey to such ports of entry prior to the expiration of the visas. The actual port of entry into the United States shall be the "record" port of entry for all purposes, including head-tax transactions. Forms I–121 and I–448 shall be completed at such actual port of entry, as will be all other immigration documents.

§ 114.4 *Procedure where preexamination board is nonexistent.* Any alien not provided with a validly endorsed Form I–121, I–448, 257d, or I–94 who shall apply for admission at a point on the Canadian border where no board of special inquiry is located, if held for examination before such a board, shall be conveyed by the transportation company concerned to the nearest port of entry where a board of special inquiry is located; and, in the discretion of the appropriate United States immigration official, any alien not having been preexamined and not holding any of said forms, who shall apply for admission at a border point within one year after arriving at a Canadian seaport, shall be returned by the transportation company responsible, to the seaport of arrival for examination by United States immigration officials and (where proper) assessment of head tax in the manner required in the cases of aliens arriving at Canadian seaports and giving destinations in the United States, unless it shall appear that such alien was originally destined in good faith to Canada and has been actually residing in said country, or unless upon examination, Canadian officials shall declare such alien eligible for residence in Canada and the transportation company involved shall arrange for his removal a reasonable distance from the boundary: *Provided*, That where the mental, physical, financial, or moral status of the alien is such that in the opinion of the proper official such person should be returned to the initial point of departure in Canada, the transportation company or other interest concerned shall, upon request, return such alien to such initial point of departure.

§ 114.5 *Further examination at border port.* All aliens seeking entry into the United States from Canada at the border ports without first having been preexamined and provided with endorsed Form I–121, I–448, 257d, or I–94, who may not appear to the examining immigrant inspector clearly and beyond a doubt entitled to enter the United States; and those aliens holding any of said forms whose further examination is deemed necessary or advisable; and aliens brought to the border who have arrived in Canada by steamship lines or vessels which have not conformed to the requirements of section 17 of the Immigration Act of 1924 (43 Stat. 163; 8 U. S. C. 217), and who have not had two years' residence in Canada, shall, at the discretion of the examining immigrant inspector, be removed from the railroad train or other vehicle of travel by the owner, agent, or person in charge of the transportation line concerned, and delivered to the immigration office or such other place of detention as may be designated by the said examining immigrant inspector, for further examination.

§ 114.6 *Canadian-born American Indians; exemption from immigration laws.* Aliens who are American Indians born in Canada (exclusive of persons whose membership in Indian tribes or families is created by adoption) shall be permitted to enter the United States without inspection under any provision of the immigration laws other than section 2 of the act of September 27, 1944 (58 Stat. 746; 8 U. S. C., Sup., 136 (d) (1)). (45 Stat. 401; 8 U. S. C. 226a)

§ 114.7 *Residence in contiguous territory by aliens who traveled on noncomplying line.* Where an alien has entered foreign contiguous territory by a transportation line not signatory to the agreement made pursuant to section 23 of the Immigration Act of 1917 (39 Stat. 892; 8 U. S. C. 160), and section 17 of the Immigration Act of 1924 (43 Stat. 163; 8 U. S. C. 217), with the intention, actually carried into effect, of taking up permanent residence in such foreign contiguous territory, and such arrival and the taking up of residence occurred at least two years prior to the time of making application for admission to the United States, the admissibility of such alien will not be destroyed merely by reason of temporary absence, without relinquishment of domicile, from such foreign contiguous territory subsequent to the time of taking up permanent residence therein. The term "foreign contiguous territory" as used in this section and as used in the two sections of law mentioned in this section means Mexico, Canada, Newfoundland, and the French islands of St. Pierre and Miquelon.

(c) Entry required by this section in an area shall be made by the aircraft commander at the place of landing provided for under § 116.3.

§ 116.6 *Clearance of aircraft of scheduled air lines.* (a) Aircraft operated by scheduled air lines departing for any place outside the United States may clear from the area of departure, but clearance shall be mandatory only during any period covered by a proclamation of the President that a state of war exists between foreign nations, or the aircraft is:

(1) Beginning a flight in that area; or

(2) Carrying from that area merchandise or such passengers as must be listed in clearance declaration (§ 116.9); or

(3) There are one or more aliens that must be listed on the part of clearance declaration relating to aliens employed (§ 116.9).

(b) Aircraft operated by scheduled air lines departing from any area for another area shall clear in the area from which departing, if:

(1) Carrying passengers that must be listed on clearance declaration (§ 116.9 (b), (e)); or

(2) Carrying merchandise.

(c) Clearance required by this section may be obtained by the aircraft commander at the customs port of entry (whether or not an airport of entry) at or nearest each place at which merchandise or passengers, or both, are taken aboard for discharge beyond the area. In such case the clearance shall be limited to the passengers and merchandise taken aboard at such place. Otherwise the clearance shall be obtained at the customs port of entry (whether or not an airport of entry) at or nearest the place of last take-off in the area unless some other place for clearance is designated by the collector of customs.

§ 116.7 *Documents.* (a) The forms described in §§ 116.8 and 116.9 shall be the primary documents required for entry and clearance of aircraft and the listing of passengers and merchandise carried thereon and aliens employed on board thereof. The forms to be used for the entry and clearance of the aircraft, passengers, crew members, and merchandise carried thereon, except the forms of air cargo manifest, air passenger manifest, passenger card, and immigration instruction sheet for aircraft, shall be forms approved by the Commissioner of Customs, the Commissioner of Immigration and Naturalization, and the Surgeon General. The form of air cargo manifest shall be approved by the Commissioner of Customs. The forms of air passenger manifest, passenger card, and immigration instruction sheet for aircraft shall be approved by the Commissioner of Immigration and Naturalization.

(b) The forms described in §§ 116.8 and 116.9, except the air passenger manifest, passenger card, and immigration instruction sheet for aircraft may be obtained from collectors of customs upon prepayment by the owner or operator of the aircraft. A small quantity of each of such forms shall be set aside by collectors of customs for free distribution or official use. The forms of air passenger manifest, passenger card, and immigration instruction sheet for aircraft may be obtained upon prepayment from the Superintendent of Documents, Government Printing Office, Washington, D. C. A small quantity of such forms shall be set aside by immigration officers in charge for free distribution and official use. The forms may be printed by private parties, provided the forms so printed conform to the official form in size, wording, arrangement, and quality and color of paper.

§ 116.8 *Documents for entry.* (a) At the time any aircraft arriving from outside the United States lands in any area in which making of entry is required by § 116.4 or § 116.5, the aircraft commander shall deliver an aircraft commander's general declaration in accordance with this section. Aircraft arriving in an area from another area shall deliver documents as specified by § 116.9 (e) and § 116.11.

(b) An aircraft commander's general declaration shall contain the following information:

(1) A crew manifest showing, as to each alien employed in any capacity on board the aircraft, name in full (family name, given name), full permanent address, age, sex, nationality, crew member's certificate number or passport number, country of issue, and date. The list is not required if the aircraft is not arriving from outside the United States or if it is arriving on a trip which originated in Canada, Newfoundland, or the French islands of St. Pierre and Miquelon, or if the information with respect to the crew is furnished in accordance with § 116.10.

(2) A passenger manifest or an air passenger manifest attached to the general declaration. In either case the manifest shall show, as to each passenger, name in full (family name, given name), full permanent address, age, sex, nationality, passport number and date, but if a passenger is a citizen of the United States and has no passport the manifest shall show the date, state, city or town in which the citizen was born if a citizen of the United States by birth, or if a citizen by naturalization the date, name of court, and place of naturalization. Additional facts as to each alien passenger shall be furnished on passenger cards except in the cases not required by the immigration instruction card for aircraft. On the card "point of embarkation" means place where trip on aircraft is begun by alien (not merely touched as a through passenger), and "race" means the same as on the alien passenger manifest required of a vessel. This subparagraph shall not apply to aircraft arriving on a trip which originated in Canada, Newfoundland, or the French islands of St. Pierre and Miquelon.

(3) Cargo manifest either on the general declaration or on a separate form attached to the general declaration. The cargo manifest on the general declaration, properly executed, having airway bills/consignment notes attached will be acceptable if it bears a notation such as "Express as per airway bills attached" and shows the airway bill or consignment note number, if any. If the airway bills or consignment notes are not attached to the general declaration or to the separate forms of air cargo manifest, the full information required in the cargo manifest on the general declaration shall be furnished. Customs Form 5119 may be used in lieu of the cargo manifest if the merchandise or baggage consists of a single shipment and does not exceed one hundred dollars in value. (For rule applicable to arrival in an area from another area, see § 116.9 (e).)

(4) A report showing illness (other than airsickness) that has occurred aboard the aircraft during flight; details of last disinsectization or sanitary treatment, including methods, place, date, and time; and a report of the animals, birds, insects, bacterial cultures, and viruses on board.

(5) Such other information and statements as are required on the general declaration form.

(c) The aircraft commander's general declaration required by this section shall consist of five copies with three copies of each attached air passenger manifest and three copies of each attached air cargo manifest. These documents shall be disposed of as follows:

(1) One copy of the general declaration and one copy of each air passenger manifest, immediately upon the arrival at the customs airport or other first place of landing in an area, shall be delivered by the aircraft commander to the immigration officer in charge at such airport or place with a passenger card in the case of each alien passenger as required by paragraph (b) (2) of this section.

(2) One copy of the general declaration and one copy of each attached air passenger manifest shall be delivered by the aircraft commander to the quarantine officer.

(3) Two copies of the general declaration, one copy of each attached air passenger manifest, and two copies of each air cargo manifest shall be delivered by the aircraft commander immediately to the customs officer in charge at such airport or place. One copy of the general declaration and one copy of each cargo manifest shall be retained by the aircraft commander and forwarded promptly by him to the comptroller of customs in whose district such airport or place is located.

(4) One copy of the general declaration and one copy of each attached air cargo manifest delivered to the customs officer shall be forwarded by him to the comptroller of customs above mentioned with appropriate notations thereon showing the disposition of the merchandise covered thereby. One copy of the general declaration delivered to the customs officer shall be retained by him as a record of the entry of the aircraft.

(5) With respect to transit crew and passengers, that is, such crewmen and passengers as do not move out of a special prescribed space at the airport or other place of landing, any and all copies delivered to the immigration officer, whether original or not, of the general declaration and attached air passenger manifests referred to in this section or in § 116.9 (e) (2) shall be returned by the immigration officer to the commander of the aircraft upon its departure from that airport or other place of landing, but this paragraph shall not apply in the mainland except with respect to an aircraft of a scheduled air line and such documents shall not be returned at the airport or place at which the last landing in such a case is made in the mainland.

(d) The provisions of section 466, Tariff Act of 1930, are applicable to any such aircraft of United States registry engaged in trade arriving in the United States, as defined in section 401 (k), Tariff Act of 1930, whether from a contiguous or noncontiguous foreign country, and a notation as to any equipment installed on any such aircraft or repairs made thereto in a foreign country shall be made in the aircraft journey log book, which shall set forth a general description of the equipment or repairs and a statement of the necessity therefor. The aircraft commander, on the first subsequent arrival of the aircraft in the United States, shall exhibit the journey log book to the customs officer at the port of arrival. Except as specified hereafter in this paragraph, such equipment and repairs shall be subject to entry and deposit of duty as prescribed by § 4.14 of Title 19. Entry and deposit of duty on such equipment or repairs shall not be required if (1) the aircraft belongs to a scheduled air line operating between the United States and foreign countries, (2) the aircraft commander executes and files with the entry of the aircraft an affidavit in the form set forth below, and (3) the collector is satisfied from an inspection of the journey log book and such further investigation as he may deem necessary that the facts with respect to the installation of the equipment and making of repairs were as set forth in such affidavit.

§ 116.9 *Documents for clearance.* (a) At the time of the departure of any aircraft from any area from which clearance is required by § 116.4 or § 116.6, the aircraft commander shall deliver:

(1) Shipper's export declarations on Commerce Form 7525 to the customs officer in charge for all cargo on the aircraft (also for the aircraft itself if being exported from the United States for foreign account), and

(2) An aircraft commander's general declaration in accordance with this section.

The above documents may be filed pro forma if the aircraft is departing from the United States and prior to departure a proper bond is given, and the completed documents are delivered pursuant thereto not later than the fourth day after departure, provided that during any period covered by a proclamation of the President that a state of war exists between foreign nations no aircraft shall be cleared for a foreign port until the shipper's export declarations have been filed with the customs officer in charge.

CROSS REFERENCE: For export of aircraft, see 22 CFR 201.35.

(b) The general declaration shall be on the same form as is required by § 116.8. Any air passenger manifest and any air cargo manifest delivered with the general declaration shall also be on the same forms as are required by § 116.8, with the following exceptions:

(1) Manifesting of members of crew may be omitted if they are departing from the mainland or Alaska, destined to Mexico, Canada, Newfoundland, St. Pierre, or Miquelon; or if information with respect to the crew is furnished as is required by § 116.10.

(2) The passenger manifest must state in column 5, in the case of an alien passenger, the date and place of last arrival in the United States. Manifesting of passengers is not required if they are departing from the mainland or Alaska, destined to Mexico, Canada, Newfoundland, St. Pierre, or Miquelon.

(c) The aircraft commander's general declaration required by this section, except as provided in paragraph (e) of this section, shall consist of the original and two copies, together with one copy of each attached air passenger manifest and one copy of each attached air cargo manifest. One copy of the general declaration and one copy of each air passenger manifest shall be filed promptly by the aircraft commander with the immigration officer in charge. One copy of the general declaration and one copy of each air cargo manifest shall be delivered by the aircraft commander to the customs officer in charge to be retained by him as a record of outward clearance.

(d) The original of the general declaration for departure from the United States shall constitute a clearance cer-

tificate when endorsed by the customs officer in charge to show that clearance is granted.

(e) Two additional copies of the general declaration shall be furnished by the aircraft commander when the clearance is to another area, together with two additional copies of each air passenger manifest and two additional copies of each attached air cargo manifest. One copy of the general declaration must have the endorsement of the customs officer in the area from which departing that permit to proceed is granted, but this requirement shall not apply unless the commander, owner, or operator of the aircraft and the customs officer in charge have been notified by the immigration officer that fines and liabilities under the immigration laws appear to have been incurred in connection with the aircraft and payment thereof has not been made or secured by sufficient deposit or bond. These copies and a passenger card concerning each alien passenger except in the cases not required by the immigration instruction card for aircraft shall upon arrival of the aircraft in the area to which cleared be disposed of by the aircraft commander as follows:

(1) One copy of the general declaration and one copy of each attached air passenger manifest and the passenger cards shall be delivered by the aircraft to the immigration officer at the place of entry for use there as a list of arriving passengers.

(2) One copy of the general declaration, one copy of each air passenger manifest, and two copies of each attached cargo manifest shall be delivered by the aircraft commander to the customs officer in charge at such place of entry. One copy of the air cargo manifest shall be retained by such officer as the coasting manifest.

§ 116.10 *Omission of lists of aliens employed on board aircraft.* The information required by §§ 116.8 and 116.9 as to aliens employed on board an aircraft may be omitted from the aircraft commander's entry and clearance declarations in the case of aircraft operated by a scheduled air line if its schedules and a list (on a form approved by the Commissioner of Immigration and Naturalization) of such information as to all aliens employed on board the aircraft have been filed by the operator of the aircraft with the immigration officer in charge at the airport of arrival (and at the airport of departure if other than the airport of arrival) shown on such schedules. From that list such officer shall keep as to each alien a card record on a form prescribed by the Commissioner of Immigration and Naturalization. Whenever an alien so listed shall be left in a hospital in the United States or ceases to be in the employ of the operator, the latter shall file with such immigration officer at such airport a report covering the date, place, and manner of leaving the alien in a hospital or the discontinuance of his employment. The name, place, and date of employment of any other or additional alien on board, for inclusion in the list so filed, shall be reported promptly by the operator to such immigration officer at such airport.

§ 116.11 *Residue cargo; customs.* (a) Tariff Act of 1930, section 442 (19 U. S. C. 1442):

* * * Any vessel arriving from a foreign port or place having on board merchandise shown by the manifest to be destined to a port or ports in the United States other than the port of entry at which such vessel first arrived and made entry may proceed with such merchandise from port to port or from district to district for the unlading thereof.

(b) Tariff Act of 1930, section 443 (19 U. S. C. 1443):

Merchandise arriving in any vessel for delivery in different districts or ports of entry shall be described in the manifest in the order of the districts or ports at or in which the same is to be unladen. Before any vessel arriving in the United States with any such merchandise shall depart from the port of first arrival, the master shall obtain from the collector a permit therefor with a certified copy of the vessel's manifest showing the quantities and particulars of the merchandise entered at such port of entry and of that remaining on board.

(c) Tariff Act of 1930, section 444 (19 U. S. C. 1444):

Within twenty-four hours after the arrival of such vessel at another port of entry, the master shall report the arrival of his vessel to the collector at such port and shall produce the permit issued by the collector at the port of first arrival, together with a certified copy of his manifest.

(d) *Merchandise destined beyond place of first landing.* Aircraft arriving in an area with merchandise on board from any place outside the United States destined to or through another area may proceed with such merchandise to the place of first landing in the other area under the procedure prescribed in paragraph (e) of this section, upon the giving of a bond on Customs Form 7567 or 7569. When such aircraft has on board no merchandise from any place outside the United States and if no bond on Customs Form 7567 or 7569 is on file covering such aircraft, but immediate clearance is requested, a bond on Customs Form 7301, "Bond of vessel or aircraft to produce complete manifest and/or export declarations," shall be required.

(e) *Documents.* An aircraft commander's entry declaration, as prescribed in § 116.8, shall be filed at the port of first arrival in the United States from any place outside thereof. Upon departure from such port of first arrival there shall be filed a manifest in duplicate of all foreign cargo then retained on board. For this purpose two additional copies of the outward manifest on the aircraft commander's clearance declaration, as prescribed in § 116.9, shall be used. These duplicate manifests, together with a copy of the complete inward manifest on the aircraft commander's entry declaration filed on arrival from the foreign port or place and certified by the properly authorized customs officer, with a certificate (Customs Form 3221, appropriately modified) attached thereto, shall be furnished to the aircraft commander for deposit at the next port. Commerce Form 1385 shall not be used.

(f) *Cargo.* Except as specified in this section, the customs regulation requirements applicable to residue vessel cargo shall apply to residue aircraft cargo.

CROSS REFERENCE: For residue vessel cargo, see 19 CFR 4.85.

§ 116.12 *General provisions; customs.* Except as otherwise in these regulations provided (§§ 116.1 to 116.16, inclusive), aircraft arriving from contiguous foreign territory and the persons, merchandise, and baggage carried thereon shall be subject to the customs laws and regulations applicable to vehicles arriving from contiguous foreign territory; and aircraft, and the passengers and merchandise and baggage carried thereon, arriving from any other place outside the United States, shall be subject to the customs laws and regulations applicable to vessels so arriving, insofar as such laws and regulations are applicable to aircraft.

§ 116.13 *Public health requirements*—(a) *Release by Public Health Service.* When an aircraft subject to quarantine inspection in accordance with Subpart D, Part 11 of Title 42, arrives at an airport of entry or other place of first landing, the aircraft commander shall be responsible for the detention of the aircraft, its crew and passengers until they are released by the quarantine officer at the airport of entry or other place of first landing. Any mail, baggage, cargo, or other contents on board such aircraft shall be held at such airport or place until released by the quarantine officer. (For procedure in case of emergency or forced landing, see § 116.3 (d).)

(b) *Restrictions on boarding aircraft and contacting personnel.* Except with the permission of the quarantine officer, no person other than the quarantine officer and quarantine employees shall be permitted to board any aircraft subject to quarantine inspection or to have contact with the crew or passengers of such aircraft until quarantine inspection of the aircraft, crew, and passengers has been completed. The same restrictions as those imposed on the crew and passengers shall be imposed on a person boarding such aircraft or having contact with a passenger or member of the crew when the quarantine officer considers such contact a possible means of spreading a quarantinable disease.

(c) *Special sanitary treatment.* Any aircraft arriving from any foreign port or place which the quarantine officer declares to be of such menace that it cannot be adequately or safely handled at the airport of first or intended landing shall be required to proceed with all passengers and persons employed on board and all mail, baggage, cargo, or other contents on board, as may be designated by such officer, to an airport indicated by such officer to have adequate facilities for such treatment as shall be prescribed by him.

(d) *Disinsectization of aircraft.*[1] An aircraft bound for any port in the United States from any port in a region designated as a yellow fever area by the Surgeon General of the Public Health Service for the purposes of this part or from any other region where yellow fever may have appeared shall be disinsectized in all compartments not later than thirty minutes prior to landing. The insecticide used and method of disinsectization shall be those prescribed by the Surgeon General of the Public Health Service. When on arrival of an aircraft from any yellow fever region the quarantine officer, after inspection, determines that the aircraft has not been adequately disinsectized, the aircraft shall be kept tightly closed and disinsectization completed before discharge of passengers, crew, mail, baggage, cargo, or other material. No person other than quarantine officials shall be allowed on board until disinsectization is completed. Additional requirements for disinsectization of aircraft flying to or from certain regions may be prescribed by the Surgeon General of the Public Health Service when necessary to prevent the importation or spread of insect vectors of disease.

(e) *General provisions.* The regulations appearing elsewhere in Part 11 of Title 42 of the Code of Federal Regulations are applicable to aircraft and to passengers, merchandise, and baggage carried thereon, in the absence of express provision to the contrary.

§ 116.14 *General provisions; entry and clearance.* All navigation laws and regulations pertaining to the entry and clearance of vessels shall apply to civil aircraft to such extent and upon such conditions as are specified in these regulations (§§ 116.1 to 116.16, inclusive).

§ 116.15 *Penalties.* (a) Any person violating any customs regulation relating to aircraft or any provision of the customs laws or regulations made applicable to aircraft by § 116.12 shall be subject to a civil penalty of $500, and any aircraft used in connection with any such violation shall be subject to seizure and forfeiture, as provided for in the customs laws. Such penalty and forfeiture may be remitted or mitigated by the Secretary of the Treasury.

(b) Any person violating any public health regulation relating to aircraft or any provision of the public health laws or regulations made applicable to aircraft by § 116.13 shall be subject to punishment by fine or imprisonment as provided for in section 368 (a) of the Public Health Service Act (42 U. S. C., Sup., 271 (a)). Any aircraft which violates any public health regulation relating to aircraft or any provision of the public health laws or regulations made applicable to aircraft by § 116.13 shall be subject to forfeiture as provided in section 368 (b) of the Public Health Service Act (42 U. S. C., Sup., 271 (b)). Such forfeiture may be remitted or mitigated by the Surgeon General with the approval of the Federal Security Administrator.

(c) Any person violating any of the provisions of these regulations (§§ 116.1 to 116.16, inclusive) relating to the entry and clearance of aircraft under the laws and regulations administered by the Secretary of Commerce shall be subject to a civil penalty of $500 and any aircraft used in connection with any such violation shall be subject to seizure and forfeiture in accordance with the provisions of the Air Commerce Act of 1926, as amended. Such penalty and forfeiture may be remitted or mitigated by the Secretary of Commerce.

(d) For the penalty for any violation of these regulations (§§ 116.1 to 116.16, inclusive) relating to immigration, see further regulations in 8 CFR Part 116 applying immigration laws and regulations to civil air navigation.

(e) Liability to penalties with respect to any one of the sets of laws, that is, the customs laws, the public health laws, the entry and clearance laws, and the immigration laws, under which these regulations (§§ 116.1 to 116.16, inclusive) are prescribed, shall be separate from such liability with respect to any other set of such laws.[2]

§ 116.16 *Airports of entry.* (a) Airports of entry will be designated after due investigation to establish the fact that a sufficient need exists in any particular district or area to justify such designation and to determine the airport best suited for such purpose.

(b) A specific airport will be designated in each case, rather than a general area or district which may include several airports.

(c) The designation as an airport of entry may be withdrawn if it is found that the volume of business clearing through the port does not justify maintenance of inspection equipment and personnel, if proper facilities are not provided and maintained by the airport, if the rules and regulations of the Federal Government are not complied with, or if it be found that some other location would be more advantageous.

(d) Airports of entry shall be municipal airports, unless particular conditions which prevail warrant a departure from such requirement, and shall be possessed of a currently effective designation as a "Designated Landing Area" issued by the Administrator of Civil Aeronautics. Additional requirements may be imposed as the needs of the district or area to be served by the airport may demand.

(e) Airports of entry shall provide without cost to the Federal Government suitable office and other space for the exclusive use of Federal officials connected with the port. A suitable surfaced loading area shall, in each case, be provided by the airport at a convenient location with respect to such office space. Such loading area shall be reserved for the use of aircraft entering or clearing through the airport.

(f) Airports of entry shall be open to all aircraft for entry and clearance purposes and no charge shall be made for the use of said airports for such purposes. However, in cases where airports of entry authorize any such aircraft to use such airports for the taking on or discharging of passengers or cargo, or as a base for other commercial operations or for private operations, this paragraph shall not be interpreted to mean that charges may not be made for such commercial or private use of such airports.

(g) All aircraft entering or clearing through airports of entry shall receive the required servicing by airport personnel promptly and in the order of arrival or preparation for departure without discrimination. The charges made for such servicing shall in no case exceed the schedule of charges prevailing at the airport in question. A copy of said schedule of charges shall be posted in a conspicuous place at the office space provided for the use of Federal officials connected with the port.

(h) Airports of entry shall adopt and enforce observance of such requirements for the operation of airports, including airport rules, as may be prescribed or recommended by the Civil Aeronautics Administration.

§ 116.51 *Inclusion of other regulations.* The following sections of this part include as a part thereof the definitions in the preceding sections of this part and any amendments which may be made thereto.

§ 116.52 *Aircraft; how considered.* Aircraft arriving on a trip which originated in foreign contiguous territory, or departing destined thereto shall, for the purposes of the immigration laws and regulations, except as otherwise provided in this part, be regarded the same as other common carriers arriving or departing over the land borders. All other aircraft operating in foreign commerce or between areas of the United States shall for the purposes of the immigration laws and regulations be subject to the same requirements and liabilities as are vessels (operating on water) except as otherwise provided in this part or by statute specifically relating to aircraft. Aliens on aircraft arriving overland in foreign contiguous territory on journeys which did not begin outside of North or South America or islands belonging to countries or to political subdivisions of these continents shall not be held to be subject to section 23 of the Immigration Act of 1917 (8 U. S. C. 162) or section 17 of the Immigration Act of 1924 (8 U. S. C. 217). The term "foreign contiguous territory" as used in this section and as used in the two sections of law mentioned in this section means Mexico, Canada, Newfoundland, and the French islands of St. Pierre and Miquelon.

§ 116.53 *Airmen; how considered.* Any alien employed in any capacity on board an aircraft arriving in the United States from any place outside thereof shall be considered as a seaman, and the provisions of the immigration laws and

[1] At airports where the hazard of introducing disease-carrying insects exists, it is the policy of the United States Public Health Service to conduct "entomological surveillance" of the airport area. This surveillance consists of periodic entomological surveys carried on by entomologists or trained representatives for the purpose of the early detection and prompt eradication of any insect which may unknowingly have been introduced by aircraft.

[2] With respect to other laws and regulations relating to aircraft, inquiry may be made of the collector of customs.

regulations applicable to vessels and alien seamen shall apply, except as otherwise provided in this part, to such aircraft and alien airmen. An alien whose occupational status as airman is established shall be regarded for the purposes of such laws and regulations, the same as an occupational alien seaman. In any case in which a seaman would be ordered detained on board, the airman may be released in such appropriate custody as in the opinion of the immigration officer in charge will insure the airman's prompt departure from the United States.

CROSS REFERENCE: For members of the crew of airships, see Part 177 of this chapter. For alien seamen, see Part 120 of this chapter. For head tax, see Part 105 of this chapter.

§ 116.54 *Inspection of aliens arriving by aircraft.* Any alien arriving by aircraft in any area from any foreign place or any take-off outside the United States or from any other area except the mainland shall not be considered as having legally entered the United States unless and until he has been inspected and lawfully admitted.

§ 116.55 *Deportation of aliens arriving by aircraft who are excluded.* Any alien excluded from admission to the United States shall be returned to the country or area of the United States (except the mainland) whence he came, at the expense of the owner, agent, lessee, or operator of the aircraft by which the alien came; and such owner, agent, lessee, or operator shall be liable for the expenses of detention and other expenses referred to in sections 15 and 18 of the Immigration Act of 1917, as amended (39 Stat. 885, 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 151, 154), to the same extent as if the aircraft were a vessel operating on water.

§ 116.56 *Crew lists.* The provisions of section 36 of the Immigration Act of 19..7 (39 Stat. 896; 8 U. S. C. 171) shall be complied with as required by § 116.8, § 116.9, or § 116.10 as to aliens employed on board any aircraft arriving in the United States from any place outside thereof and as to such aliens not on board at the time the aircraft departs from any such place and as to aliens leaving the United States as employees on an aircraft who were not such when it last arrived. Any failure to comply with any provision of this section shall constitute a violation of section 36, above, for each alien concerning whom there is such failure. Immigration lists containing the name of any employee shall be filed for permanent record.

§ 116.57 *Manifests of passengers.* The provisions of sections 12, 13, and 14 of the Immigration Act of 1917 (39 Stat. 882–884; 8 U. S. C. 148, 149, 150) shall be complied with as required by §§ 116.8 and 116.9 as to passengers arriving or departing on aircraft. Passengers carried between the Virgin Islands of the United States and Puerto Rico shall be listed only on the same declaration of aircraft commander as required for listing merchandise so carried. In every case the lists must be accompanied by information sheets as required by §§ 116.8 and 116.9. Any failure to comply with the foregoing provisions of this section shall constitute a violation of section 14, above, for each person concerning whom there is such failure. Immigration lists containing the name of any passenger and the information sheets shall be filed for permanent record.

§ 116.58 *Preexamination in Canada of aircraft passengers.* The endorsement on forms issued by officers of the Immigration and Naturalization Service to persons preexamined in Canada who travel to the United States by aircraft shall be as prescribed in §§ 114.1–114.4 of this chapter, and the period of validity of said forms shall be as prescribed therein. Upon surrendering such properly endorsed forms at the airport of entry for aliens, the rightful holders will be admitted, provided their status has undergone no change between the time of issuance of the forms and the arrival of the holder at the airport of entry. The airport of entry at which persons preexamined in Canada actually enter the United States shall be the "record" port of entry for all purposes. Aliens excluded from admission to the United States upon preexamination in Canada shall be accounted for as heretofore by the office at which exclusion occurs.

§ 116.60 *Penalties.* (a) Any person who violates any provision of this part which relates to immigration shall be subject to the civil penalty of $500 authorized by section 11 (b), Air Commerce Act of 1926, as amended (49 U. S. C. 181 (b)), except that where such offense in connection with an aircraft would be a violation of the immigration laws and general regulations if the aircraft were a vessel (operating on water), the penalty shall be the same as would apply in the case of a vessel.

(b) In the collection of the penalties the procedure prescribed in the general immigration regulations for the imposition and collection of fines (involving vessels) or for prosecutions under section 10 of the Immigration Act of 1917, as amended (39 Stat. 881, 43 Stat. 167; 8 U. S. C. 146), as the case may be, will initially be followed.

(c) Remission or mitigation of a penalty will be considered only in case of application therefor. If the deposit of the amount of the proposed penalty is not made with the collector of customs or acceptable bond is not furnished providing for the payment of such penalty, or so much thereof as may not be remitted or mitigated by the Attorney General, clearance of the aircraft shall be withheld by the collector of customs, and in case the violation is by the owner or person in command of the aircraft the penalty shall be a lien against the aircraft, which shall be seized by an immigration officer or inspector designated by the Attorney General and placed in the custody of the customs officer in charge at the airport of landing if seizure was made thereat. Similar action will be taken if seizure is made at any place other than an airport of landing. If the owner or owners of the airport and the seized aircraft are identical, the aircraft should, if practicable, be removed to another available hangar or other suitable place for storage. Seizure will not be made of any such aircraft apparently damaged beyond the recovery of the amount of the statutory penalty. Immediately after the authorized seizure, or prior thereto if circumstances permit, a full report in the case shall be submitted by the immigration officer in charge to the United States attorney for the district in which the seizure was made, for the possible further action prescribed by the statute. The report shall note the cost incurred in seizing and guarding the aircraft, and an estimate of the further cost likely to be incurred.

§ 116.61 *Designation of airports of entry for aliens.* Application for designation of an airport as a port of entry for aliens shall be made to the Attorney General and shall state whether the airport has been approved by the Secretary of Commerce as a properly equipped airport and has been designated by the Secretary of the Treasury as a port of entry for civil aircraft. An airport will not be designated by the Attorney General as an airport of entry for aliens without such prior approval and designation, and unless it appears to the satisfaction of the Attorney General that conditions render such designation necessary or advisable, and unless adequate facilities have been or will be provided, thereat, without cost to the Federal Government, for the proper inspection and disposition of aliens, including office space and temporary detention quarters found necessary.

CROSS REFERENCE: For list of airports of entry for aliens, see § 110.3 of this chapter.

§ 116.62 *Withdrawal of designation of airport of entry for aliens.* The designation of an airport of entry as an airport of entry for aliens may be withdrawn whenever, in the judgment of the Attorney General, there appears just cause for such action.

C. 133t; 8 CFR, 90.1. Statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

§ 120.1 *Alien seaman defined.* The term "alien seaman" shall include every alien signed on the ship's articles and employed in any capacity on board any vessel arriving in the United States from any foreign port or place. Only such aliens who come within this definition shall be treated in the special manner specified in this part. (Sec. 1, 39 Stat. 874; 8 U. S. C. 173)

§ 120.2 *Bona fide alien seamen defined.* As used in section 3 (5) of the Immigration Act of 1924 (43 Stat. 154; 8 U. S. C. 203), the term "bona fide alien seaman" means any alien who in good faith is signed on the articles of a vessel arriving at a port of the United States from any place outside thereof, employed in any capacity on board such vessel, and seeking to enter the United States temporarily solely in the pursuit of his calling as a seaman, with the intention of departing with the vessel or reshipping on board any other vessel for any foreign port or place.

§ 120.3 *Arriving from any foreign port or place defined.* "Arriving in the United States from any foreign port or place" means arriving in "the United States, and any waters, territory, or other place subject to the jurisdiction thereof, except the Isthmian Canal Zone," from any port or place in a foreign country or in the Canal Zone (secs. 1, 19, 31, and 33 to 36 of the Immigration Act of February 5, 1917 (39 Stat. 874 ff.); 8 U. S. C. 173, 155, 165, 166, 168, 169, 171). Ports of the Isthmian Canal Zone shall be deemed foreign ports, and any vessel entering and clearing from any such ports shall be subject to all the immigration laws and regulations applicable to vessels arriving in the United States from any foreign port or place.

§ 120.4 *Foreign defined.* In the expression "reship foreign" and similar expressions used in this part, the word "foreign" includes the Canal Zone in all cases. (Sec. 1, 39 Stat. 874; 8 U. S. C. 173)

§ 120.5 *Arrival in ports defined.* The expression "arrival in ports of the United States" (act of December 26, 1920 (41 Stat. 1082; 8 U. S. C. 170)) shall be taken to mean arrival at ports in the United States from a foreign port or place. If a vessel arrives foreign at a port of the

United States and later on the same voyage touches at other ports of the United States, she will for the purpose of this definition be regarded as arriving foreign at such other ports.

§ 120.6 *Reasonable time defined.* The expression "reasonable time" (act of December 26, 1920 (41 Stat. 1082; 8 U. S. C. 170)) shall be regarded in no instance as a period exceeding 30 days. What shall constitute a "reasonable time" within a period of 30 days will be left to the determination of the officer in charge of the port, which determination shall be based upon a consideration of the views of the appropriate medical officer in charge of the hospital (evidenced by a certificate), as well as all the facts presented in and the circumstances attendant upon each individual case.

§ 120.7 *Listing of alien seamen.* Arriving and departing seamen shall be listed on the blank forms hereinafter provided for in accordance with the terms of section 36 of the act of February 5, 1917 (39 Stat. 896; 8 U. S. C. 171). When an arriving seaman is a "workaway," a notation to that effect should be made upon the list.

§ 120.8 *Listing of aliens employed on vessel; manner of; forms.* The lists provided for by section 36 of the act of February 5, 1917 (39 Stat. 896; 8 U. S. C. 171), to be delivered upon arrival, containing the names of all aliens employed on the vessel and other information concerning them, shall be typewritten or printed in the English language on white commercial ledger paper 18½ by 36 inches, basis 50 pounds, in sheets 18 by 18 inches, and according in every respect to Form I–480 now in use and approved by the Commissioner of Immigration and Naturalization, or in such form or forms as may hereafter be prescribed: *Provided*, That such lists may be written in longhand whenever it is impracticable to typewrite or print them: *Provided further*, That such lists may be furnished on Form I–481 in the cases of vessels of United States, Canadian, or British registry, enrollment, or license engaged solely in traffic between the United States and Canada and traveling solely over one or more of the following waterways: Great Lakes, waterways connecting the Great Lakes, St. Lawrence River, St. Croix River, Passamaquoddy Bay, Lake Memphremagog, Lake Champlain, Rainy Lake, Rainy River, and Lake of the Woods. The statement of the master of the vessel regarding changes in the crew as provided for by said section 36, which is to be made prior to departure, shall be typewritten or printed in the English language on white writing paper 21 by 32 inches, basis 43 pounds, and 100 percent rag, in sheets 16 by 10½ inches, and folded once and according in every respect to Form I–489 now in use and approved by the Commissioner of Immigration and Naturalization, or in such form or forms as may hereafter be prescribed. The forms herein provided for shall be furnished by the owner, agent, consignee, or master of the vessel having such aliens on board at the expense of such owner, agent, consignee, or master and according to the specifications herein set out.

§ 120.9 *Listing of alien employees; term "first" to be used.* In preparing Form I–480 the owner, agent, consignee, or master of any vessel arriving in the United States from any foreign port or place shall insert the word "first" before the name of each alien seaman who was not employed on such vessel on her last preceding voyage to the United States. (Sec. 36, 39 Stat. 896; 8 U. S. C. 171)

§ 120.10 *List of arriving seamen; to whom delivered; changes, how reported.* When a vessel calls at several United States ports the list of arriving seamen, required by section 36 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 171), shall be delivered to the official in charge at the port of arrival, who will give his receipt therefor to the master; the report of illegal landings required by said section shall be made to the official in charge at the port of arrival or call where the illegal landing occurs; and the list of departing, deserted, and landed seamen required by said section shall be delivered to the official in charge at each port of call. The official in charge at any port of call or final clearance foreign shall promptly notify the official in charge at the port of initial entry (where the incoming crew list is filed) of any and all changes occurring in the crew of any vessel subsequent to departure from such initial port of arrival; and such report shall be filed with the crew list to which it refers.

§ 120.11 *Crew list; notation of treatment during voyage.* When any alien member of the crew shall have been treated or furnished with medicine during the voyage for any of the diseases or disabilities specified in section 35 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 169), the master or other officer of the vessel shall make notation of such fact in the appropriate column of the crew list opposite the name of the seaman receiving such treatment or medicine.

§ 120.12 *Lists of alien employees; when clearance of vessel denied.* Clearance shall not be granted any vessel until the lists required by section 36 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 171) have been furnished, and not then unless notice of liability to the administrative fine prescribed by said section or to that prescribed by section 35 of said act (39 Stat. 896; 8 U. S. C. 169) having been served, the deposit specified in §§ 160.13–160.17 of this chapter has been made.

§ 120.13 *Illegal landing of alien; notice.* The notice required by section 36 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 171) to be furnished regarding any alien who may have "illegally landed" while the vessel has been in port should consist of a letter reporting the fact and giving the name, number of identification card, nationality, and description of the alien and "any information" within the knowledge of the master or officers of the ship or transportation line "likely to lead to his apprehension."

§ 120.14 *Seaman's identification card; application.* An alien who has been lawfully admitted to the United States for permanent residence, who intends to follow or continue following the calling of a seaman in the coastwise trade or on American passenger vessels operating under subsidy in accordance with the Merchant Marine Act, 1936 (49 Stat. 1985), and who has not been issued an immigrant identification card, or a certificate of registry, or who has not, subsequent to June 30, 1929, declared his intention to become a citizen of the United States, may file an application (Form I–198) for a seaman's identification card as evidence of his status as an alien who has been lawfully admitted to the United States for permanent residence.

§ 120.15 *Seaman's identification card; qualifications.* A seaman's identification card (Form I–199) shall be issued by the immigration and naturalization officer in charge to an applicant only upon the submission of satisfactory evidence that the applicant (a) is an alien who was lawfully admitted to the United States for permanent residence; (b) intends to follow or continue following the calling of seaman in the coastwise trade or on American passenger vessels operated under subsidy in accordance with the Merchant Marine Act, 1936 (49 Stat. 1985); and (c) has not been issued an immigrant identification card, a certificate of registry, or did not, subsequent to June 30, 1929, declare his intention to become a citizen of the United States.

§ 120.16 *Seaman's identification card; execution of; disposition of duplicate.* In order that such seaman's identification card may not be transferred from one person to another, a photograph of the alien shall be attached thereto and the impress of the seal of the Immigration and Naturalization Service made partly on the photograph and partly on the card. In addition, the signature of the issuing officer shall be written partly on the card and partly on the photograph. A duplicate of every seaman's identification card issued shall be transmitted to the Commissioner of Immigration and Naturalization, Washington, D. C.

§ 120.17 *Primary inspection of seamen.* In addition to the medical examination hereinafter provided for, all seamen arriving in ports of the United States shall be regularly inspected by immigrant inspectors. (Sec. 16, 39 Stat. 885; 8 U. S. C. 152)

§ 120.18 *Seaman previously excluded; when instruction to be sought.* Whenever it is ascertained that a seaman applying for either permanent or temporary admission belongs to the excluded class (section 3 of the Immigration Act of 1917, as amended by the act of March 4, 1929, 39 Stat. 875, 1 (d), 45 Stat. 1551; 8 U. S. C. 136 (j), (q)), "Persons who have been excluded from admission and deported in pursuance of law, and who may again seek admission within one year from the date of such deportation, unless prior to their reembarkation at a

place outside the United States or their attempt to be admitted from foreign contiguous territory the Attorney General had consented to their reapplying for admission," the case shall promptly be brought to the attention of the Department with request for instruction. (Sec. 19, 43 Stat. 164; 8 U. S. C. 166)

§ 120.19 *Alien seaman previously deported or removed; not permitted to land except under certain conditions.* It shall be the duty of the inspector to order detained on board, in accordance with the provisions of sections 19 and 20 of the Immigration Act of 1924 (43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 166, 167), (a) any alien seaman who has been heretofore or is hereafter arrested and deported in pursuance of law and is found employed on any vessel arriving in the United States, unless he has obtained from the Attorney General, in conformity with law, permission to reapply for admission and arrives at least one year after the date of deportation; and (b) any alien seaman found subject to exclusion from admission to the United States under section 23 of the Immigration Act of 1917, as amended by the act of May 14, 1937 (39 Stat. 892, 50 Stat. 164; 8 U. S. C. 102), because he was removed from the United States subsequent to May 13, 1937, in the manner provided in the last mentioned statutes, unless permission to apply for readmission has been granted to such alien by the Secretary of State and the Attorney General. In emergent cases seamen covered by this section may be accorded hospital treatment as provided in the regulations relating to seamen. (Sec. 1 (a), (b), (c), 45 Stat. 1551, 46 Stat. 41, sec. 7, 47 Stat. 166; 8 U. S. C. 180, 181)

§ 120.20 *Alien seamen seeking entry as immigrants.* (a) An alien seaman seeking to enter the United States as an immigrant under any provision of law other than section 4 (b) of the Immigration Act of 1924 shall be subject to all the laws, regulations, and Executive orders applicable to immigrants generally.

(b) An alien seaman who, previously, has been lawfully admitted for permanent residence and who is returning to an unrelinquished domicile in the United States may, if otherwise admissible, be permitted to enter as a returning resident under section 4 (b) of the said act without a nonquota immigration visa or reentry permit if the name of such alien appears on the crew list of the vessel on which he arrives and is included in the visa thereof, if such visa is required under any applicable Executive order prescribing the necessity for crew list visas. If the name of such an alien is not included in a required crew list visa, his case shall be submitted to the Central Office for consideration of obtaining a waiver of the documentary requirements for entry. (Secs. 4 (b), 13, 43 Stat. 155, 161; 8 U. S. C. 204 (b), 213)

§ 120.21 *Alien seamen seeking entry in pursuit of calling; when ordered detained; waiver of crew list visa.* (a) Any alien who upon arrival establishes that he is a bona fide seaman as defined in § 120.2, is admissible as a nonimmigrant under section 3 (5) of the Immigration Act of 1924 and is not inadmissible under the other provisions of this part and of Part 175, may be temporarily admitted for such period of time as the examining immigrant inspector shall designate, not to exceed, however, the time the vessel on which the alien arrives remains in the United States and in no event to exceed 29 days, if:

(1) His name appears on the duly visaed crew list of the vessel on which he arrives, unless such vessel is excepted from the requirement of submitting a visaed crew list under the applicable Executive order and regulations prescribing the requirements for crew list visas; and

(2) He is in possession of a passport, or some other document in lieu thereof, which is acceptable under the applicable Executive order and regulations prescribing the documents required of alien seamen and which satisfactorily establishes his identity and nationality.

(b) Extensions of such a temporary admission may be granted by the officer in charge at the port of arrival if exceptional circumstances exist which justify such extensions, but the officer in charge shall in no event grant an extension or extensions which will authorize the alien seaman to remain in the United States for a period more than 90 days after his arrival. Any request for an extension beyond that period shall be referred to the Central Office for decision. No extension of the period of an alien seaman's admission which will permit him to remain in the United States for 30 days or longer shall be granted until he has been registered and fingerprinted in accordance with the applicable provisions of Part 170 of this chapter.

(c) The period of temporary admission of any seaman admitted for the period of time the vessel on which he arrives remains in the United States shall be deemed to be terminated if such vessel fails to depart to a foreign port or place within 29 days after its arrival at the port where the seaman was admitted, unless an extension of the alien's period of admission beyond 29 days from the date of the arrival of the vessel has been granted.

(d) An alien seaman whose name is not included in the visa of an alien crew list, or who is not in possession of an acceptable passport or document in lieu thereof, may nevertheless be admitted temporarily if otherwise entitled to such admission, if permission of the Secretary of State is obtained.

(e) Where the immigration officer is not satisfied that an alien applying for temporary admission as a bona fide alien seaman is entitled thereto, the immigration officer shall order the owner, charterer, agent, consignee, or master of the vessel on which such seaman arrived to detain him on board and deport him in the manner provided by law. (Sec. 33, 39 Stat. 896, secs. 3 (5), 14, 15, 20, 43 Stat. 154, 162, 164, 47 Stat. 524, 58 Stat. 817, sec. 32 (c), 54 Stat. 674; 8 U. S. C. and Sup., 168, 203, 214, 215, 167, 453)

§ 120.22 *Medical examination of alien seamen required.* All alien seamen arriving in ports of the United States shall be medically examined, as far as practicable, aboard ship each time they arrive. Such examination shall be similar to that made in cases of alien passengers. (Sec. 16, 39 Stat. 885, 58 Stat. 714, 60 Stat. 1049, sec. 20 (a), 43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 152, 167 (a))

§ 120.23 *Medical examination of alien seamen; by whom conducted; removal of seamen at later port.* Physical and mental examination of alien seamen shall be conducted by physicians of the Public Health Service, and, when practicable, immediately upon arrival from a foreign port or place of a vessel at a port of the United States: *Provided*, That if a vessel so arriving should later, on the same voyage, proceed coastwise, any "afflicted seaman" or alien suspected of being an "afflicted seaman" then aboard, whose disability was not detected upon arrival foreign, may be removed for treatment or observation thereafter upon touching at another port of the United States, in the manner provided for and under the conditions applicable to such cases generally. (Sec. 16, 39 Stat. 885, 58 Stat. 714, 60 Stat. 1049, sec. 20 (a), 43 Stat. 164, 58 Stat. 817, 41 Stat. 1082; 8 U. S. C. and Sup., 152, 167 (a), 170)

§ 120.24 *Medical examination of alien seaman; mandatory exclusion; right of appeal.* If any such seaman shall be found, as the result of examination on board or elsewhere, to be afflicted with any mental defect or physical disease or affection which by operation of the certificate alone places him within any class of aliens mandatorily excluded by section 3 of the Immigration Act of 1917 (39 Stat. 875; 8 U. S. C. 136), he shall be so certified, and shall be allowed to appeal to a board of surgeons, and, in mental cases, to introduce an expert witness of his own choice before such board, if he so desires, the time and place of the convening of the board to be fixed by the medical officer in charge. (Secs. 16, 34, 39 Stat. 885, 896, 58 Stat. 714, 60 Stat. 1049, secs. 19, 20 (a), 43 Stat. 164, 58 Stat. 817; 8 U. S. C., and Sup., 152, 166, 167 (a))

§ 120.25 *Medical certificates as to seamen; form; content; to whom delivered.* A separate certificate shall be issued by the medical examiner conducting the examination as to each and every "afflicted seaman" or alien seaman suspected of being an "afflicted seaman," which certificate shall conform generally to medical certificates customarily rendered in respect to mentally or physically defective alien applicants for admission or alien applicants suspected of being so defective. These certificates shall in every case of disability, the nature of which is definitely ascertained, state whether the same can likely be cured within 30 days. Certificates rendered in suspected cases will state, when the circumstances permit, the nature of the disability suspected and approximately the period of observation believed necessary to final determination of the nature of the disability. When practicable, medical certificates shall be rendered as soon as examination of the crew is completed and at once delivered to the immigration boarding officer or in his absence to the officer in charge of the port. (Sec. 35, 39 Stat. 896, 41 Stat. 1082; 8 U. S. C. 169, 170)

§ 120.26 *Afflicted seamen; treatment; notice of liability to master.* An alien afflicted with idiocy, imbecility, insanity, epilepsy, tuberculosis in any form, or a loathsome or dangerous contagious disease who is employed on board any vessel, including vessels of American registry operating between a port of the United States and a port of a foreign country, shall, upon arrival at the first or subsequent ports in the United States, be detained and treated in a hospital under supervision of the proper immigration official at the expense of the vessel bringing such alien to the United States. In the case of any such vessel carrying passengers where the medical officer certifies that such alien was so afflicted at the time he was shipped or engaged and taken on board such vessel and that the existence of such affliction might have been detected by means of a competent medical examination at such time, the official in charge at the port of arrival shall serve or cause to be served on the owner, agent, consignee, or master of such vessel a notice in writing that liability for the fine imposed by section 35 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 169) has been incurred in respect of each alien so certified. (41 Stat. 1082; 8 U. S. C. 170)

§ 120.27 *Afflicted seamen; when landing permitted; when treated at vessel's expense.* No seaman afflicted with idiocy, imbecility, insanity, epilepsy, tuberculosis in any form, or a loathsome contagious or dangerous contagious disease shall be permitted to land permanently in a port of the United States, and a seaman so afflicted shall be permitted to land temporarily only in the event that he is entitled to receive, or the circumstances are such as to require for humane or sanitary reasons that he shall be afforded, treatment in either a public-health or other hospital. (Section 35 of the Immigration Act of 1917, and section 19 of the Immigration Act of 1924, 39 Stat. 896, 43 Stat. 164; 8 U. S. C. 169, 166.) If a certificate requiring the vessel to be fined is issued in accordance with section 35 of the Immigration Act of 1917, the seaman shall be detained and treated in a hospital designated by the official in charge "at the expense of the vessel." (41 Stat. 1082; 8 U. S. C. 170)

§ 120.28 *Afflicted seamen; procedure.* An "afflicted seaman" or alien seaman suspected of being an "afflicted seaman" arriving foreign and duly certified shall be ordered by the examining immigration officer immediately removed for hospital treatment or observation, as the case may be, which order shall, in the case of an "afflicted seaman" designate the hospital, and in the case of an alien suspected of being an "afflicted seaman" the immigration station or other appropriate place to which removal shall be effected: *Provided*, That in the event appropriate facilities for treatment or observation, as the case may be, are not available, removal from vessel will not be ordered except in emergency cases so certified by a Public Health surgeon; instead, the examining immigration officer will serve notice on the master, agent, owner, or consignee of the vessel to detain such "afflicted seaman" or alien suspected of being an "afflicted seaman" on board the vessel, and the officer in charge will notify the officer in charge at the first port of call possessing such facilities (if the vessel is proceeding coastwise) of the presence on said vessel of said alien. The latter official will proceed in the manner hereinbefore provided upon the arrival of the vessel at such port of call to have the alien removed for hospital treatment or observation, as the case may require. If the vessel bringing an "afflicted seaman" or alien suspected of being an "afflicted seaman" arrives at a port at which there are no proper facilities for hospitalization or observation, as the case may be, and no arrangements for hospitalization or observation elsewhere are practicable, and such vessel is not proceeding coastwise to a port possessing such proper facilities or is proceeding directly foreign, then the master, agent, owner, or consignee shall be served with notice to detain such "afflicted seaman" or alien suspected of being an "afflicted seaman" safely on board under proper treatment and conditions of segregation or observation until such vessel sails foreign. (Sec. 35, 39 Stat. 896, 41 Stat. 1082; 8 U. S. C. 169, 170)

§ 120.29 *When clearance of vessel withheld; procedure.* Vessels liable for expenses of hospitalization or observation, and for expenses incident thereto, will not be permitted to clear until all such expenses, including those of burial in the event of death, are paid or satisfactorily guaranteed. Guaranties of payment may be accepted by the officer in charge of the port when submitted in form and by guarantors satisfactory to him. In the event of the failure of the master, agent, owner, consignee, or other responsible person to pay such expenses, or to furnish such satisfactory guaranty, the officer in charge of the port shall immediately request the collector of customs to withhold clearance. Such requests, if made informally, must be promptly confirmed in writing. (41 Stat. 1082; 8 U. S. C. 170)

§ 120.30 *Afflicted seamen; when discharged from hospital; further procedure.* If, prior to the expiration of 30 days (or at any time thereafter, if longer detained at the request of the master, agent, owner, consignee, or proper guarantor), the appropriate surgeon of the Public Health Service certifies that an alien removed for hospitalization or observation is cured, or that his mental and physical condition is such that he can resume his calling without danger to himself or others, the officer in charge shall discharge the alien from the hospital, following which his admissibility shall be determined in the same manner as that of arriving alien seamen generally. If such an alien seaman is found eligible to temporary admission under § 120.21, he may, if the vessel on which he arrived has departed, be granted a period not exceeding 29 days within which to reship. Extensions of such admission may be granted in the same manner as granted to other alien seamen. If such an alien seaman is found not entitled to admission, he shall be detained and his deparfure enforced at the expense of the vessel on which he arrived. (41 Stat. 1082; 8 U. S. C. 170)

§ 120.31 *Afflicted seamen; procedure where recovery not certifiable at expiration of 30 days.* If the mental or physical condition of an interned alien seaman is such at the expiration of 30 days that he cannot be certified, as provided in § 120.30, then the officer in charge shall return the alien seaman to the vessel on which he arrived, provided said vessel is promptly sailing foreign and a certificate is issued by the Public Health surgeon that the alien can be placed on board and removed by said vessel without danger to his life. If for any reason it is impossible or impracticable to have such an interned seaman promptly returned foreign on board the vessel by which he was brought to the United States, then and in that event he shall be returned foreign on board another vessel of the same line promptly sailing foreign, carrying a ship's surgeon, or if that is impracticable, then such alien shall be returned foreign as a passenger on any passenger vessel carrying a ship's surgeon: *Provided*, That in every case where such a seaman is returned foreign the master, agent, owner, or consignee of the vessel by which he is returned, or other responsible party, shall furnish a guaranty satisfactory to the appropriate immigration officer that the seaman will receive proper medical treatment and be segregated from members of the crew and passengers, if there be any of the latter, and that every precaution will be employed to prevent the spread of contagion during the ocean voyage, and (if removal is effected by the vessel which brought the alien, or by one of the same line) that the alien will not be returned to the United States by said vessel, or another one of the same line, unless and until cured: *Provided further*, That if the vessel by which an "afflicted seaman" arrived is not sailing foreign at the expiration of 30 days said "afflicted seaman" may be permitted (upon written request of the master, agent, owner, consignee, or other acceptable guarantor promising to assume all expenses involved) to remain in hospital until such ship sails foreign. (41 Stat. 1082; 8 U. S. C. 170)

§ 120.32 *Afflicted seamen; periodic check concerning.* All officers in charge will see to it that a careful, systematic, and periodical check is maintained of all hospitalized or observation cases to the end that they shall be promptly and properly disposed of pursuant to law and the terms of the regulations in this part. (41 Stat. 1082; 8 U. S. C. 170)

§ 120.33 *Violations of act providing for treatment of alien seamen to be promptly reported.* All violations of the act entitled "An act to provide for the treatment in hospital of diseased alien seamen," approved December 26, 1920 (41 Stat. 1082; 8 U. S. C. 170), coming to the attention of the immigration officers shall be promptly reported to the Central Office.

§ 120.34 *Detention of seamen pending inspection.* The owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof shall detain on board such vessel all alien seamen employed thereon pending the inspection and examination of such alien seamen by the proper immigration and naturalization officials. For the purpose of such inspection and examination, the owner, charterer, agent, consignee, or master of such vessel may be required by such immigration and naturalization official to muster all aliens employed thereon. The failure or refusal of the owner, charterer, agent, consignee, or master of such vessel to detain any such alien seamen on board until such seamen have been inspected and examined shall be deemed a violation of section 20 of the Immigration Act of 1924. (Sec. 20 (a), 43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 167 (a))

§ 120.35 *Notice to detain or deport alien employee of vessel; verification of departure.* Where, for any cause, the immigration and naturalization official in charge of any port of arrival finds that any alien employed on board any vessel arriving in the United States from any place outside thereof should be detained on such vessel or deported, he shall forthwith serve or cause to be served on the owner, charterer, agent, consignee, or master of such vessel a notice in writing to detain or deport such alien. The notice shall set forth the full name of such alien. In every such case an officer of the Immigration and Naturalization Service shall be detailed to verify the departure of such alien. (Sec. 20 (a), (b), 43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 167 (a), (b))

§ 120.36 *Detained seamen; when removal permitted.* Alien seamen ordered detained on board or deported pursuant to section 20 (a) of the Immigration Act of 1924 (43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup., 167 (a)) shall not be removed to immigration stations or other places for safekeeping, except in cases of emergency, and in such cases only when the master, agent, owner, charterer, or consignee of the vessel involved shall give satisfactory guaranty that all costs of such removal, including maintenance charges, and damage done by such seamen to the station or place to which removed, including damage to equipment, shall be paid by such master, agent, owner, charterer, or consignee. If the district director, or officer in charge at the port of arrival, finds that deportation of the alien seaman on the vessel on which he arrived would cause undue hardship to such seaman, he may cause him to be deported on another vessel at the expense of the vessel on which he arrived, and such vessel shall not be granted clearance until such expense has been paid or its payment guaranteed to the satisfaction of the district director or officer in charge. (Secs. 19, 20 (c), 43 Stat. 164; 8 U. S. C. 165, 167 (c))

§ 120.37 *Arrest and deportation of seamen; procedure.* (a) An alien temporarily admitted as a bona fide seaman pursuant to section 3 (5) of the Immigration Act of 1924 for the time and under the conditions stated in § 120.21 of this part shall be deemed to have remained in the United States for a longer time than permitted by the terms of his admission or to have failed to maintain the status under which he was admitted if:

(1) He is found in the United States after the expiration of the time for which he was temporarily admitted or the expiration of any authorized extension of such period; or

(2) He engages in or seeks employment ashore for hire; or

(3) He engages in or seeks employment in the coastwise trade; or

(4) He engages or seeks to engage, for profit, in any business not connected with his calling as a seaman; or

(5) He evidences an intention, by any other conduct or by spoken word, to violate the conditions of his temporary admission or to remain in the United States for a longer period than that for which he was admitted, although the period of his temporary admission has not expired; or

(6) He violates or is found to have violated in any way the terms and conditions under which he was admitted, as prescribed by the regulations in force and effect at the time of his admission.

(b) Any such alien shall be taken into custody and deported in accordance with the provisions of section 14 of the Immigration Act of 1924: *Provided, however*, and notwithstanding any other provisions of this chapter, that any such alien, upon indicating a willingness and ability to reship foreign may, in the discretion of the officer in charge, be placed on board any vessel for reshipment foreign at any time prior to the issuance of a warrant of deportation. (Sec. 33, 39 Stat. 896, secs. 3 (5), 14, 15, 20, 43 Stat. 154, 162, 164, 47 Stat. 524, 58 Stat. 817; 8 U. S. C. and Sup., 167, 168, 203, 214, 215)

§ 120.38 *Seamen returned to the United States by American consuls*—(a) *Applicable regulations.* Certain aliens employed as seamen on vessels of American registry are entitled under the navigation laws and American consular regulations to various privileges, including being returned to the United States when discharged in a foreign port on account of injury or illness or when they become destitute under certain circumstances in foreign countries. The cases of such seamen, whether returned to the United States as members of the crew or as passengers or workaways, shall be handled in accordance with the provisions of this section, Part 175, and any applicable Executive order prescribing the conditions for admission of alien seamen to the United States.

(b) *Evidence required.* In every instance of a vessel arriving from a foreign port having on board American seamen (aliens) who are returned by United States consular officials, the master, purser, or other responsible officer of the vessel, or such seamen, shall present to the immigration officials documentary or other satisfactory evidence indicating that they are bona fide American seamen (aliens) returned under American consular regulations.

(c) *Admission of returned seamen.* Aliens returned to the United States under American consular regulations who arrive as members of the crew shall be treated in the same manner as any other arriving seamen, except as specified in paragraphs (d) and (e) of this section. Aliens so returned, whose occupational status as seamen is found to be bona fide and who seek to enter the United States solely in pursuit of their calling as seamen but who arrive as passengers or workaways, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman. Any such returned seaman who arrives as a passenger or workaway and who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman shall be treated as any other arriving alien passenger, except as specified in paragraphs (d) and (e) of this section.

(d) *Procedure when afflicted.* When any such seaman, regardless of the manner of his arrival, shall be found to be afflicted with any of the disabilities enumerated in section 35 of the Immigration Act of 1917, imigration officials shall inform the master, or other responsible officer, that the seaman is entitled to hospitalization in a marine hospital at the expense of the appropriation for the maintenance of such hospitals, and that he must be delivered to authorities of the United States Public Health Service for such hospitalization. Upon his discharge from the hospital, he shall be examined and his case disposed of in accordance with paragraph (c) of this section.

(e) *When vessel exempted from liability; immigration appropriation not available for hospital treatment.* Under the navigation laws all masters of vessels of American registry bound to a port of the United States are required to take destitute American seamen (aliens) on board their vessels when so requested by American consular officials and to transport them to the United States port to which the vessel is bound, and every such master who refuses to receive and transport such seamen on the request or order of the American consular official is liable to the United States in a penalty of $100 for each such seaman so refused. Moreover, masters of vessels of foreign registry accept such seamen as an act of courtesy extended to American consuls. Vessels transporting such seamen shall be exempted from the payment of head tax, hospital, and maintenance expenses, and liability for the penalties prescribed by the immigration laws, provided the transportation lines furnish satisfactory proof that the seamen were accepted at the request of American consuls. Under no circumstances shall hospital bills incurred on account of American seamen (aliens) returned under consular regulations be paid from the immigration appropriations. However, maintenance expenses incurred pending final determination of

the status of such aliens may be paid from said appropriations.

§ 120.39 *Shipwrecked or castaway seamen*—(a) *Admission as seamen.* Aliens whose occupational status as seamen is found to be bona fide, who, as shipwrecked or castaway seamen, are rescued by or transferred at sea to a vessel bound directly for the United States, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman. Any such alien who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman, shall be treated as any other arriving alien passenger, except as specified in paragraph (d) of this section.

(c) *Payment of expenses.* If expenses are incurred in connection with the detention and deportation of such seamen, they shall be collected from the apropriate foreign consuls or from the owners, agents, or consignees of the wrecked vessel, if practicable. If this cannot be done, then such expenses shall be paid from the appropriation for the enforcement of the immigration acts.

(d) *Procedure when afflicted.* If any such seaman shall be found to be afflicted with any of the disabilities enumerated in section 35 of the Immigration Act of 1917, and is found to be entitled to treatment in a marine hospital at the expense of the appropriation for the maintenance of such hospitals, he shall be delivered into the custody of the United States Public Health Service authorities for care and treatment in such a hospital. Any such afflicted seaman who is found not to be entitled to such treatment may be granted treatment at the expense of the wrecked vessel if the appropriate foreign consul or other responsible person satisfactorily guarantees the expenses thereof. If this cannot be arranged, the alien may be hospitalized at the expense of the immigration appropriation if his condition is such as to require emergency treatment.

(e) *Final inspection.* The final inspection of any hospitalized seaman shall be deferred until his discharge from the hospital, when his admission shall be determined in accordance with the provisions of this section, Part 175, and any applicable Executive order prescribing the conditions for admission of alien seamen to the United States.

§ 120.40 *Alien seamen who were members of the crew of an American vessel which has been sold or delivered abroad who are being returned to the United States as passengers or workaways in accordance with the terms of the contract of employment of the outbound voyage or the laws of the United States.* (a) Aliens of this class whose occupational status as seamen is found to be bona fide and who seek to enter the United States solely in pursuit of their calling as seamen, may be admitted for a period not to exceed 29 days for the same purposes and under the same conditions with regard to maintenance of status as if they were arriving as alien seamen. Any extension of the original period of admission of such an alien shall be granted in the same manner as if the alien had arrived and been admitted as an alien seaman. Any such alien who seeks entry as a returning legal resident or for any purpose other than to continue in pursuit of his calling as a seaman, shall be treated as any other arriving alien passenger except as specified in paragraph (b) of this section.

(b) Any such arriving alien who is found to be afflicted with any of the disabilities enumerated in section 35 of the Immigration Act of 1917 and who is found to be entitled to treatment in a marine hospital at the expense of the appropriation for the maintenance of such hospitals, shall be delivered into the custody of the authorities of the United States Public Health Service for such treatment. Aliens so afflicted who are not entitled to such treatment at Government expense, may be hospitalized if the expenses incident to such hospitalization are satisfactorily guaranteed.

(c) The final inspection of any hospitalized seaman of this class shall be deferred until his discharge from the hospital when his admission shall be determined in accordance with the provisions of this section, Part 175, and any applicable Executive order prescribing the conditions for admission of alien seamen to the United States.

§ 120.42 *Disabled seamen; conditions for passing in transit; immigration officials to confer with appropriate officers.* A disabled alien seaman, who nevertheless does not intend to relinquish his calling, but whom the master of the vessel is obliged under the navigation laws of the country to which the vessel belongs to return to the country where he embarked, may, under such regulations as the officer in charge deems proper to carry out the purposes of this section, pass through the United States in transit to such country by the most expeditious and direct route. Where he is suffering from a loathsome, contagious, or dangerous contagious disease, or with tuberculosis in any form, or from a mental disability, or is in such physical or mental condition as to render him a person likely to become a public charge, the master must make arrangements for his proper care while in transit and furnish a sum of money sufficient to defray the expenses thereof. These provisions are made in the interest of trade and because of the peculiar position occupied by seamen under principles of international comity; and in all cases to which they apply the immigration officials shall confer not only with the master but with the consular representative of the country to which the vessel belongs. (Sec. 19, 43 Stat. 164, sec. 3, 43 Stat. 154, 47 Stat. 524; 8 U. S. C. 166, 203, 215)

§ 120.43 *Afflicted seamen; expense of telegrams concerning.* All telegrams sent in behalf of masters, agents, owners, consignees, or guarantors in respect of "afflicted seamen" or aliens suspected of being "afflicted seamen" shall, whenever practicable, be at the expense of the responsible master, agent, owner, consignee, or guarantor. (Sec. 35, 39 Stat. 896, 41 Stat. 1082; 8 U. S. C. 169, 170)

PART 122—LABORERS FROM COUNTRIES GRANTING LIMITED PASSPORTS

Sec.
122.1 Regulations governing alien laborers prescribed by Executive Order 1712, Feb. 24, 1913.
122.2 Effect of Executive Order No. 1712
122.3 When certain laborers admitted; proof required.
122.4 Absence of passport of certain laborers; presumptions.
122.5 Passports of certain laborers; endorsement.
122.6 Excluded laborers; appeal.

AUTHORITY: §§ 122.1 to 122.6, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 122.1 to 122.6, inclusive, interpret and apply 6th proviso, sec. 3, 39 Stat. 875; 8 U. S. C. 136 (h).

§ 122.1 *Regulations governing alien laborers prescribed by Executive Order 1712, Feb. 24, 1913.* The President's Executive order on this subject, issued February 24, 1913, reads as follows:

Whereas by the Act entitled "An act to regulate the immigration of aliens into the United States" approved February 20, 1907 whenever the President is satisfied that passports issued by any foreign government to its citizens to go to any country other than the United States or to any insular possession of the United States or to the Canal Zone, are being used for the purpose of enabling the holders to come to the continental territory of the United States to the detriment of labor conditions therein, it is made the duty of the President to refuse to permit such citizens of the country issuing such passports to enter the continental territory of the United States from such country or from such insular possession or from the Canal Zone; and

Whereas, upon sufficient evidence produced before me by the Department of Commerce and Labor, I am satisfied that passports issued by certain foreign governments to their citizens or subjects who are laborers, skilled or unskilled, to proceed to countries or places other than the continental territory of the United States, are being used for the purpose of enabling the holders thereof to come to the continental territory of the United States to the detriment of labor conditions therein:

I hereby order that such alien laborers, skilled or unskilled, be refused permission to enter the continental territory of the United States.

It is further ordered that the Secretary of Commerce and Labor be, and he hereby is, directed to take, through the Bureau of Immigration and Naturalization, such measures and to make and enforce such rules and regulations as may be necessary to carry this order into effect.

§ 122.2 *Effect of Executive Order No. 1712.* The Executive order requires that laborers, skilled or unskilled, who are citizens of a country which grants to its laborers proceeding abroad limited labor passports only, and who present at a continental port a passport entitling them only to admission to countries or places other than continental United States, shall be rejected. It does not in any particular relieve such aliens from examination under the general provisions of the law.

§ 122.3 *When certain laborers admitted; proof required.* If a laborer described in §§ 122.1, 122.2 applies for admission and presents a passport entitling him to enter continental United States, or not limited to some country or place other than continental United States, he shall be admitted, unless he belongs to one of the classes excluded by the general provisions of the law. If he presents such a limited passport, but claims that he is not a laborer, satisfactory proof of such claim shall be required.

§ 122.4 *Absence of passport of certain laborers; presumptions.* If a laborer described in §§ 122.1, 122.2 applies for admission and presents no passport, it shall be presumed (a) that when he departed from his own country he did not possess a passport entitling him to come to continental United States, and (b) that at that time he did possess a passport limited to some country or place other than continental United States.

§ 122.5 *Passports of certain laborers; endorsement.* Passports presented by aliens covered by § 122.3 shall be plainly endorsed, in indelible ink, in such a manner as to show the fact and date of admission or rejection. The passport shall be returned to the presenter.

§ 122.6 *Excluded laborers; appeal.* All laborers excluded under §§ 122.1–122.5 shall be advised not only of their right of appeal, where one lies, but also that they may communicate by telegraph or otherwise with any diplomatic or consular officer of their government, and they shall be afforded opportunity for doing so.

(a) The alien shall satisfy the immigrant inspector that he is coming temporarily to the United States as (A) a representative of a foreign government in or to an international organization designated by the President by Executive order as entitled to enjoy privileges, exemptions, and immunities as an international organization under the International Organizations Immunities Act (59 Stat. 669; 22 U. S. S. C., Sup., 288e): *Provided further*, That if the alien ceases to maintain the status of an alien not amenable to the registration and fingerprinting requirements, he shall within 30 days of such cessation apply for registration and to be fingerprinted.

(b) The alien shall not be required to furnish bond.

(c) The alien shall be entitled to the benefit of the provisions of the tenth proviso to section 3 of the Immigration Act of February 5, 1917 (39 Stat. 875; 8 U. S. C. 136 (r)), including the head tax exemption prescribed in § 105.3 (p) of this chapter.

§ 127.6 *Acquisition of permanent resident status.* An alien who has been lawfully admitted to the United States for a temporary period of time under the act and who is, or becomes, eligible for admission to the United States as a nonquota immigrant under the provisions of the act of December 28, 1945 (59 Stat. 659; 8 U. S. C., Sup., 232), may apply for the privilege of permanent residence under the provisions of § 126.4 (e) of this chapter.

§ 127.7 *Violation of status.* (a) An alien admitted to the United States under the provisions of this part shall be deemed to have remained in the United States for a longer time than permitted by the conditions of her admission or to have failed to maintain the status under which admitted if she remains in the United States after the expiration of the time for which she was temporarily admitted, or after the expiration of any authorized extension or extensions of such period, without having during such period concluded a valid marriage to a citizen of the United States who is serving in or who has been honorably discharged from the armed forces of the United States during World War II and without having during that period or any authorized extension thereof acquired the status of a lawful permanent resident.

(b) Any such alien shall be made the subject of deportation proceedings in accordance with the provisions of section 14 of the Immigration Act of 1924 (43 Stat. 162; 8 U. S. C. 214) and the provisions of Part 150 of this chapter.

128.3 Admission to mainland of aliens described in §§ 128.1 and 128.2.
128.4 Failure to present unexpired documents; presumption; procedure.
128.5 Citizens of United States residing in Hawaii; issuance of certificates.
128.6 Hawaiian certificates; applications.
128.7 Hawaiian certificates; lost or destroyed.
128.8 Hawaiian certificates; form of; preparation.
128.9 Hawaiian certificates; duplicates retained.
128.10 Hawaiian certificates; cancellation.

Authority: §§ 128.1 to 128.10, inclusive, contained in sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 128.1 to 128.10, inclusive, interpret and apply sec. 1, 39 Stat. 874, sec. 28 (a), 43 Stat. 168; 8 U. S. C. 173, 224 (a).

§ 128.1 *Nonimmigrant arriving at Hawaii and proceeding to mainland; examination.* Nonimmigrant aliens arriving in Hawaii who intend later to proceed directly to the mainland of the United States may be admitted at Hawaiian ports for temporary stay or as incident to their transit through the United States to a foreign country (section 3 (2) and (3), Immigration Act of 1924 (43 Stat. 154; 8 U. S. C. 203)), and when so admitted their passports, or documents accepted in lieu of passports, shall be stamped and endorsed. Such aliens need not appear before the officer in charge at Honolulu for any further endorsement of status, when about to proceed directly to a port of continental United States, provided, the time of their proposed departure from continental United States will be within the period granted, and such departure can reasonably be accomplished.

§ 128.2 *Alien residents of Hawaii proceeding to mainland; alien certificates.* Aliens residing in Hawaii pursuant to lawful admission for permanent residence who signify to the officer in charge at Honolulu an intention to proceed directly to the mainland of the United States, and who are legally entitled to do so, shall be furnished alien certificates (Form I–146) by the said official as evidence of such residence, which certificates shall show date and status of such admission.

§ 128.3 *Admission to mainland of aliens described in §§ 128.1 and 128.2.* Aliens of the classes described in §§ 128.1 and 128.2 arriving at a continental United States port directly from Hawaii shall be admitted upon identification: *Provided,* That the period for which the alien visitors referred to in § 128.1 were originally admitted, or for which such admission has been extended, has not expired; that the period of time for transit has not expired; and that sufficient time remains to permit of departure from the United States within the period specified; and: *Provided further,* That such aliens shall surrender to the appropriate immigration officer the certificates issued under § 128.2.

§ 128.4 *Failure to present unexpired documents; presumption; procedure.* When aliens of the classes mentioned in §§ 128.1 and 128.2 arrive at a continental United States port from Hawaii and fail to present the stamped and endorsed passports, or documents accepted in lieu thereof described in § 128.1, or the certificates described in § 128.2, it shall be presumed that they were not examined when entering Hawaii and, unless they satisfactorily establish lawful admission to Hawaii, shall be reported for arrest on such grounds as may be found applicable. As to those aliens who arrive at a continental United States port subsequent to the expiration of the period for which temporarily admitted, or whose departure will not occur within the period fixed upon for their departure, the examining officers, if satisfied that it is the intention of such aliens only to remain temporarily in the United States, shall advise them of the necessity for and the manner of making application for extension of their stay. Where there is reason to believe that aliens of the class covered by this part are seeking to remain permanently in the United States, warrant proceedings will be instituted.

§ 128.5 *Citizens of United States residing in Hawaii; issuance of certificates.* A resident of Hawaii who intends to depart temporarily from that Territory shall be granted a "Certificate of Citizenship—Hawaiian Islands" by the officer in charge at Honolulu, Hawaii, upon proving to the satisfaction of that official that he is a citizen of the United States, a bona fide resident of the Territory of Hawaii, and that he actually intends to depart temporarily. Such certificate may be retained by the person to whom issued. If the officer in charge at Honolulu is not satisfied that the applicant is entitled to this certificate, the application shall be denied and the applicant notified that he may appeal to the Attorney General from the adverse decision. Ten days will be allowed within which to file notice of appeal with such immigration officer. All evidence which was submitted in support of the application shall constitute the record and shall be forwarded to the Central Office in cases where appeals are taken.

§ 128.6 *Hawaiian certificates; applications.* Applications for the certificates shall be submitted on Form 108 in duplicate to the officer in charge at Honolulu.

§ 128.7 *Hawaiian certificates; lost or destroyed.* Duplicate certificates may be issued by the officer in charge at Honolulu upon satisfactory proof that the certificates have been unavoidably lost, destroyed, or mutilated, the Central Office to be advised in each case of the issuance of a duplicate.

§ 128.8 *Hawaiian certificates; form of; preparation.* In issuing the certificates described in § 128.5, care shall be exercised to have the original and duplicate

correspond in every detail. The certificate shall be prepared upon typewriter. The seal of the issuing officer should be impressed partly upon the photograph, but in such a manner as not to obscure any part of the face. All blank spaces remaining after writing in the data required to complete the identification of the person to whom the certificate is issued shall be covered by ruled lines so as to prevent the insertion of any additional word or words. Applicants for these certificates shall be required to furnish two suitable unmounted photographs of themselves, printed from the same negative that has not been retouched, representing the subject without hat, full front view, showing both ears, and measuring 2 by 2 inches, the distance from top of head to point of chin to be approximately 1¼ inches. The photographs should be attached to the original and duplicate of the certificate with care to assure permanency and prevent warping. The height shall be carefully taken and inserted in feet and inches, and in recording physical marks and peculiarities those which are the most prominent and least likely to be obliterated by lapse of time shall be selected.

§ 128.9 *Hawaiian certificates; duplicates retained.* The duplicates of the certificates shall be filed in the office of the officer in charge at Honolulu, Hawaii, in such order that they may always be accessible for reference.

§ 128.10 *Hawaiian certificates; cancellation.* These certificates are issued for the purpose of facilitating travel and are to be presented by the person to whom issued to immigration officers as evidence in proof of citizenship for immigration purposes. The proper holders of such certificates will be admitted at any immigration port of entry. When it is ascertained that such a certificate is in the possession of a person to whom it was not issued, as shown by a comparison of such person with the photograph and personal description appearing thereon, or if at any time it should develop that such certificate was secured through fraud, the certificate shall be taken up and forwarded to the Central Office, with a report of the circumstances and recommendation as to whether it should be canceled. If it should be found that cancellation is proper, the certificate shall be returned to the officer in charge at Honolulu with instructions to mark both the original and duplicate thereof "Canceled" and to file the canceled certificate and duplicate for reference.

PART 130—BOARDS OF SPECIAL INQUIRY

Sec.
130.1 Organization.
130.2 Hearings; representation; procedure.
130.3 Development of facts relating to penalties incurred by transportation company.
130.4 Medical examiner as witness.
130.5 Record in illiteracy cases.
130.6 Excluded alien; informed of rights.
130.7 Alien excluded for removable cause; reopening of case.
130.8 Alien certified for mental condition; right of medical appeal.

AUTHORITY: §§ 130.1 to 130.8, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 130.1 to 130.8, inclusive, interpret and apply secs. 16, 17, 39 Stat. 885, 887, secs. 6, 7, 60 Stat. 240, 241; 8 U. S. C. 152, 153, 5 U. S. C., Sup., 1005, 1006.

§ 130.1 *Organization.* Each of the three members of a board of special inquiry prescribed by section 17 of the Immigration Act of 1917 (39 Stat. 887; 8 U. S. C. 153) shall be a person qualified for such membership as provided by § 60.29 of this chapter. The officer in charge shall designate one of the members as chairman. One of the members may act as secretary for the purpose of keeping the complete permanent record of the proceedings before the board and of all such testimony as may be produced before it.

§ 130.2 *Hearings; representation; procedure.* Boards of special inquiry shall determine all cases as promptly as circumstances permit, due regard being had to the necessity for giving the alien a fair hearing. Hearing before the boards shall be separate and apart from the public. At the hearing the alien shall be accorded the right to be represented by an attorney or other person qualified to appear in accordance with the provisions of Part 95 of this chapter. The alien shall also be accorded the right to have one friend or relative present: *Provided*, That, if such friend or relative is a witness, he has already completed his testimony. During the preliminary part of the hearing the alien shall be advised of these rights and there shall be entered in the record the exact language in which he is so advised and of his reply. If the alien desires to have counsel or a friend or relative present, he shall be given a reasonable, fixed period of time within which to arrange for such presence. No further time for that purpose shall be granted except upon showing of good and sufficient cause therefor. The board of special inquiry may examine the alien and any witnesses for the Government, cross-examine any witnesses produced in behalf of the alien, rule upon objections, introduce material and relevant evidence in behalf of the Government or the alien, and otherwise regulate the course of the hearing and exercise such other powers and authority as are conferred upon such boards by law and regulations. During the course of the hearing, the attorney, or other person qualified to represent the alien as herein prescribed, shall be permitted to examine the alien and he, or the alien, shall be permitted to examine any witnesses offered in the alien's behalf, to cross-examine any witnesses called by the Government, to offer evidence material and relevant to any matter in issue, and to make objections, which shall be stated succinctly and entered on the record. Argument in support of objections and any irrelevant, immaterial, or unduly repetitious evidence shall be excluded from the record.

§ 130.3 *Development of facts relating to penalties incurred by transportation company.* In all cases in which there is any reason, other than the issuance of a surgeon's certificate, for believing that any one of the administrative fines prescribed by the law, and specified in Part 160, may have been incurred, boards shall be careful to develop in the course of their hearings all facts and circumstances material to a determination of the transportation company's liability to such fine.

§ 130.4 *Medical examiner as witness.* Where the certificate of the medical examiner fails to describe particularly the nature, character, and extent of the physical defect which it is certified may affect the ability of the alien to earn a living, boards of special inquiry shall call such examiner as a witness and interrogate him fully as to the particular nature, character, and extent of the affliction certified. Such testimony shall be made a part of the record.

§ 130.5 *Record in illiteracy cases.* In all cases where the reading test is applied and aliens are rejected as unable to read, the board record shall, in addition to the card number, clearly set forth (a) that the alien designated the particular language used in the test, (b) the complete English text appearing on the card, (c) the definite finding by the board as to the degree in which the alien failed to read, and (d) if the alien claims to be within any class exempted from the test, a definite finding by the board as to the validity of such claim.

§ 130.6 *Excluded alien; informed of rights.* Where an alien is excluded by a board of special inquiry, he shall be advised of the decision of said board and the reason therefor, and when entitled to appeal to the Commissioner of Immigration and Naturalization, he shall be so advised: *Provided*, That the exact language employed in advising the alien of his right to appeal, together with a full and accurate transcript of the alien's reply, shall be inserted in the record and made a part thereof. An excluded alien shall be informed that the return voyage is at the expense of the transportation company which brought him and that such transportation company must return him in the same class in which he came. The fact that he has been so informed shall be entered in the record.

§ 130.7 *Alien excluded for removable cause; reopening of case.* Where an alien is excluded merely because of nonpossession of a visa, or for any cause which can readily be removed or overcome, the case may be reopened within a period of six months from the date of original exclusion without the alien being required to obtain the permission to reapply for admission prescribed in § 110.51 of this chapter. For statistical purposes, the case of an alien excluded for removable causes shall be considered as a completed case at the time of exclusion and any case reopened within six months shall be considered as a new case.

§ 130.8 *Alien certified for mental condition; right of medical appeal.* An alien certified for insanity or mental defect shall be advised of his right to appeal to a board of medical officers of the United States Public Health Service, and that he may introduce before such board one expert medical witness at his own cost and expense. The exact language employed in so informing the alien of his rights, together with a full and accurate transcript of his reply, shall be inserted in the record and made a part thereof. In the event the alien desires to appeal to such medical board the officer in charge at the port, in conformity with regulations prescribed by the United States Public Health Service, shall make such arrangements with the office of the Surgeon General as may be necessary for the convening of such medical board without the case being first reported to the Central Office.

PART 132—READMISSION AND TEMPORARY ADMISSION

Sec.
132.1 Aliens returning to unrelinquished domicile; domicile defined.
132.2 Temporary admission from contiguous territory; medical treatment; mandatorily excludable alien.
132.3 Temporary admission or transit denied, without advance consent, to certain aliens.
132.4 Excludable aliens applying at seaports for temporary admission without advance consent; procedure.
132.5 Aliens imported to perform labor during wartime.

AUTHORITY: §§ 132.1 to 132.5, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 132.1 to 132.5, inclusive, interpret and apply sec. 3, 39 Stat. 875; 8 U. S. C. 136 (p), (q).

§ 132.1 *Aliens returning to unrelinquished domicile; domicile defined.* Aliens returning after a temporary absence to an unrelinquished United States domicile of seven consecutive years may be admitted in the discretion of the Attorney General and under such conditions as he may prescribe. In such case satisfactory proof of domicile in the United States for seven consecutive years, and of departure therefrom with the intention of returning thereto, will be exacted. Every case of exclusion for any cause in which the alien has given such proof, shall be promptly brought by the official in charge to the attention of the Attorney General, through the usual official channels, with a complete report of the reasons for the alien's exclusion and of the proof which has been offered of continuous and unrelinquished domicile, together with a statement of the duration of the absence. Domicile, for the purposes of this section, means that place where a person has his true, fixed, and permanent home, and principal establishment, to which, whenever he is absent, he has the intention of returning.

§ 132.2 *Temporary admission from contiguous territory; medical treatment; mandatorily excludable alien.* Aliens mandatorily excluded and seeking temporary admission from foreign contiguous territory for the purpose of undergoing medical or surgical treatment in the United States may be admitted for such purpose when it appears to the satisfaction of the officer in charge that an emergency exists for immediate medical or surgical aid, and if such alien shall furnish satisfactory guaranty or a bond with approved surety in the penal sum of not less than $500 conditioned that he will depart from the United States when such medical or surgical treatment is completed. Aliens of the class referred to, seeking temporary admission for the purpose of entering a private or public hospital, sanitarium, or medical institution for treatment, may be admitted for such purpose when it satisfactorily appears to the officer in charge that the designated private or public hospital or sanitarium or medical institution which the alien has arranged to enter for treatment has on file with the Central Office a bond covering such case and properly conditioned that aliens treated in such designated hospital, sanitarium, or institution, will depart from the United States when such treatment is completed. In either case above referred to the alien may be required in the discretion of the officer in charge to submit in duplicate an unmounted photograph of himself 2 by 2 inches in size, the distance from the top of head to point of chin to be approximately 1¼ inches. All other applications made by the mandatorily excluded classes for temporary admission from foreign contiguous territory shall be submitted to the Central Office for special ruling.

§ 132.3 *Temporary admission or transit denied, without advance consent, to certain aliens.* Temporary admission to the United States, or for the purpose of proceeding in transit through the United States, or to proceed from a port thereof directly or by way of any other United States port or ports to a foreign port, will not be granted in the case of any alien brought to a seaport of the United States (or in the case of a transit alien who is brought to a designated Canadian seaport), who at the time of arrival is within any of the classes of aliens hereafter described in this section, unless prior to departure from abroad consent shall have been obtained from the Attorney General for the alien's temporary admission to the United States, and if upon arrival he is found not to be within any of such classes other than as stated in the application for such consent; any alien afflicted with idiocy, insanity, imbecility, feeble-mindedness, epilepsy, constitutional psychopathic inferiority, chronic alcoholism, tuberculosis in any form, or a loathsome or dangerous contagious disease, if it appears to the satisfaction of the Attorney General that the alien was so afflicted at the time of foreign embarkation and that the existence of such disease or disability might have been detected by means of a competent medical examination at the time of foreign embarkation, or any alien who is found to be excludable under the provisions of section 3 of the Immigration Act of 1917 (39 Stat. 875; 8 U. S. C. 136), because found to be unable to read, or as a native of that portion of the continent of Asia and the islands adjacent thereto described in said section, if it appears to the satisfaction of the Attorney General that these disabilities might have been detected by the exercise of reasonable precaution prior to the departure of such alien from abroad.

§ 132.4 *Excludable aliens applying at seaports for temporary admission without advance consent; procedure.* The cases of all aliens of the excludable classes brought to seaports of the United States who apply for temporary admission, except cases within § 132.3, shall be submitted to the Department for special ruling.

§ 132.5 *Aliens imported to perform labor during wartime.* (a) Any alien who applies for temporary admission into the United States under Title VII of Public Law 373 of June 28, 1944 (58 Stat. 547), shall establish to the satisfaction of the examining immigrant inspector:

(1) That he is seeking admission as one of a specific group of workers who are being imported by the War Manpower Commission for employment in the continental United States with industries and services essential to the war effort; he shall present an alien laborer's identification card (Form I–100) identifying him as such; such card shall be prepared either prior to embarkation or at the port of entry;

(2) That he is a native-born resident of a foreign country within the Western Hemisphere and that he is not an enemy alien, by the furnishing of a birth certificate or other acceptable evidence;

(3) That he is in all respects admissible under the provisions of the immigration laws except:

(i) The provisions of section 3 of the Immigration Act of February 5, 1917, relating to contract laborers, the requirements of literacy, and the payment of passage by corporations, foreign governments, or others;

(ii) The provisions of section 3 of the Immigration Act of February 5, 1917, and section 1 of the act of March 4, 1929, requiring permission of the Attorney General to reapply for admission in the case of any alien previously arrested and deported or excluded and deported solely because of illegal entry or absence of required documents, if such deportation has not occurred on more than one occasion, and such alien establishes that he is otherwise entitled to temporary admission as a worker under the provisions of this section;

(iii) The requirements of section 2 of the Immigration Act of February 5, 1917, relative to the payment of head tax;

(iv) The prohibitions contained in sections 5 and 6 of the Immigration Act of February 5, 1917;

(v) The provisions of the laws and regulations relating to documents required of aliens entering the United States; and

(vi) The provisions of Title III of the Alien Registration Act of 1940 relating to the registration of aliens.

(4) That if admitted he will comply with the conditions of such admission.

(b) An alien found admissible under the provisions of this section shall be fingerprinted as provided in § 115.3 of this chapter relating to agricultural workers.

(c) Any such alien shall be admitted, without any requirement of bond, for the period of the validity of his contract entered into pursuant to an agreement between the government of the United

States and the government of the country of which he is a native-born resident, but not exceeding one year, on condition that he maintain the status of a worker under the terms of the contract, and depart from the United States at the expiration of his admission or any extension thereof.

(d) An alien admitted under the provisions of this section who fails to maintain the status under which he was admitted or who fails to depart from the United States in accordance with the conditions of his admission, shall be deemed to be unlawfully in the United States and shall be taken into custody and deported in accordance with the applicable provisions of Part 150 of this chapter.

PART 134—ASSISTANCE TO ADMITTED ALIENS

§ 134.1 *Admitted alien assisted; when.* Notwithstanding admission, and for reasons satisfactory to the officer in charge, any alien may remain a few days at an immigration station upon payment of actual expenses. If in such a case the delay in leaving the immigration station is due to accident or other unavoidable circumstances and the alien is without sufficient means to defray the expenses incident thereto, the immigration officer in charge, in his discretion, may authorize such expense, reporting the case promptly to the Central Office with full reasons for his action and requesting that the authorization be ratified. (Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1)

PART 136—APPEALS FROM DECISIONS BY BOARD OF SPECIAL INQUIRY

Sec.
136.0 Definitions.
136.1 Who may appeal.
136.2 When no appeal lies.
136.3 Time for filing appeal.
136.3a Manner of taking an appeal.
136.3b Findings and conclusions; brief.
136.4 Forwarding appeal record.
136.5 Cases reopened by Central Office or Department.
136.6 Reopening of hearing.
136.7 Notice of decision on appeal; appeal from order of Commissioner; abandoned applications for admission.
136.8 Waiver of rights.

AUTHORITY: §§ 136.0 to 136.8, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, 37 (a), 54 Stat. 675, sec. 1, 54 Stat 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 136.0 to 136.8, inclusive, interpret and apply secs. 16, 17, 39 Stat. 885, 887, sec. 8 (b), 60 Stat. 242; 8 U. S. C. 152, 153, 5 U. S. C., Sup., 1007.

§ 136.0 *Definitions.* The term "appeal" when used in §§ 136.1 to 136.6, inclusive, means an appeal taken from the decision of a board of special inquiry. The term "appeal" when used in § 136.7 means an appeal taken from the decision of a board of special inquiry or an appeal taken from an order of the Commissioner entered in exclusion proceedings, whichever is indicated.

§ 136.1 *Who may appeal.* An alien desiring to appeal may do so individually or through any society admitted to an immigration station or through any relative or friend or through any person, including attorneys permitted to practice before the immigration authorities. Where such an appeal has been taken, any further appeal shall be disregarded. Appeals purporting to be filed on behalf of an alien but without his knowledge or consent previously obtained may be ignored. A board member who dissents from a majority vote also may take an appeal. In such a case the alien shall be allowed the same opportunity for representation as though the appeal were his, but his brief or argument must be submitted at the same time that the board member's appeal is forwarded to the Central Office. When an alien is certified for a physical defect other than tuberculosis in any form or a loathsome contagious or dangerous contagious disease, the board of special inquiry must decide on the basis of all the evidence (including the medical certificate) whether or not such certified defect may affect his ability to earn a living. An alien rejected on said ground is entitled to appeal.

§ 136.2 *When no appeal lies.* No appeal lies where the decision of a board of special inquiry, based upon the certificate of the examining medical officer, as required by section 17 of the Immigration Act of 1917 (39 Stat. 887; 8 U. S. C. 153), rejects an alien because (a) he is afflicted with tuberculosis in any form or a loathsome contagious or dangerous contagious disease, or (b) he is an idiot or an imbecile or an epileptic or is insane or feeble-minded, or (c) he is afflicted with constitutional psychopathic inferiority or has any mental defect or is a chronic alcoholic.

§ 136.3 *Time for filing appeal.* Appeals must be filed promptly. The officer in charge may refuse to accept an appeal filed after the alien has been removed from an immigration station for deportation, provided the alien has had a reasonable opportunity to appeal before such removal. Any appeal filed more than 48 hours after the time of an excluding decision may be rejected by the officer in charge in his discretion.

§ 136.3a *Manner of taking an appeal.* An alien may, except as prohibited by § 136.2, take an appeal from the excluding decision of a board of special inquiry and shall be informed that he may appeal merely by stating for the record, as prescribed in § 130.6 of this chapter, that he desires to appeal. If, during the examination by the board of special inquiry, he states that he does not desire to appeal or that he will decide later whether to appeal, he shall be informed that any subsequent notice of appeal shall be sufficient if made in writing and made in accordance with the applicable provisions of this part and Part 130 of this chapter. A notation of any such notice shall be entered in the record of the examination.

§ 136.3b *Findings and conclusions; brief.* The board of special inquiry shall, in all cases, at the time of announcing its decision make a brief statement for the record of its findings of material and relevant facts and conclusions of law upon which its decision rests. Where an allowable appeal is properly entered, a transcript of the record of proceedings, including a full statement of the findings of fact and conclusions of law necessary to a consideration of the record on appeal, shall be made and the alien or his counsel or a dissenting member of the board who takes such an appeal shall be lent a copy of such transcript and allowed by the officer in charge at the port a reasonable time, as prescribed in § 136.4, in which to file exceptions to the findings, conclusions, and decision of the board and a brief.

§ 136.4 *Forwarding appeal record.* The complete appeal record, including the immigration visa or permit to reenter the United States, and any brief or argument filed by the appellant, his attorney, or his representative shall be forwarded promptly to the Commissioner of Immigration and Naturalization. The officer in charge shall in his discretion allow whatever time is reasonable, as indicated by the nature of the case, for the preparation and filing of briefs or arguments.

§ 136.5 *Cases reopened by Central Office or Department.* Whenever a case is referred back to a board of special inquiry in order that additional evidence may be taken, such case is thereby reopened; and after the new evidence has been taken, the board of special inquiry shall render a new decision, in which it may, in its discretion, reaffirm, alter, or reverse its previous decision. The mere action of referring back a case under such circumstances is not to be taken as an indication of any disapproval of the decision of the board of special inquiry or of what the new decision should be.

§ 136.6 *Reopening of hearing.* (a) After a final order by either the Commissioner or the Board of Immigration Appeals, the hearing shall be reopened only in accordance with §90.10 (a) or § 90.11 (b) of this chapter, except that where a final order affirming an excluding decision has been entered, local immigration officials may stay deportation and request permission to reopen the case upon learning of new evidence which in their opinion is of such relevancy and materiality as, in justice to the alien or the United States, requires consideration by the board of special inquiry. Any such request of the local immigration officials shall contain a brief statement of the general nature of the new evidence and shall be submitted to the Commissioner. He shall act upon the request unless the final order has been entered by the Board of Immigration Appeals, in which event the request shall be acted upon by the Board.

(b) Where a final order has not been entered, either the alien, his counsel or representative, or the local immigration officials may request reopening of the hearing. Any such requests shall contain a brief statement of the general nature of the new evidence. The request shall be acted upon by the officer in charge if the record has not been forwarded to the Commissioner. If the record has been forwarded, the Commissioner shall act upon the request if the case is pending before him. If the case is pending before the Board of Immigration Appeals, the Commissioner shall forward the request to the Board. The Board shall consider the request and either remand the case for further hearing or deny the request and render a decision on the record. Upon receipt of permission to reopen the hearing, the board of special inquiry shall again acquire full control of the case as provided in § 136.5.

§ 136.7 *Notice of decision on appeal; appeal from order of Commissioner; abandoned applications for admission.* (a) The Commissioner, or officers designated by him in accordance with § 90.1 of this chapter, shall consider and determine all appeals entered from decisions of boards of special inquiry. The Commissioner shall notify the appropriate field office of his decision and shall, in accordance with § 90.9 of this chapter, serve his decision and order upon the alien or his counsel or representative. Further proceedings shall be had in accordance with the provisions of Part 90 of this chapter.

(b) If the decision on appeal provides for the reopening of the case or for the admission of the alien and he is in contiguous territory and does not appear for the reopened hearing or for admission to the United States within whatever period of time is specified in the decision or, where no such period is specified, within 60 days after the date of the notice addressed to him at his last known address, he shall be regarded as having abandoned his application for admission to the United States and the proceedings in his case shall be closed without prejudice to any future application. Any subsequent application for admission shall be considered as a new application.

§ 136.8 *Waiver of rights.* An alien or his counsel may waive any of the rights which accrue to the alien under the provisions of Part 130 of this chapter or this part and any such waiver shall be noted in the record of the proceedings before the board of special inquiry.

C. and Sup., 151, 152, 159.

§ 140.1 *Medical officers; to whom responsible.* Medical officers detailed for any duty under the immigration law shall, in matters of administration, be under the direction of the officer in charge at the port to which they may be detailed. In considering and determining medical questions such officers are to be guided by the instructions issued by the Surgeon General of the Public Health Service.

§ 140.11 *Contagious disorder of alien wife or minor child of naturalized citizen or permanent resident alien.* Where an alien, otherwise admissible, is certified upon arrival to be afflicted with any contagious disorder and is (a) the wife or minor child of an alien who is shown to have taken up his permanent residence in the United States; (b) the alien wife of a naturalized citizen married to him abroad prior to his naturalization; or (c) the minor child of a naturalized citizen born abroad to him prior to his naturalization, such alien shall be held until it is ascertained whether the disorder will be easily curable or whether landing can be permitted without danger to others. Deportation shall occur promptly with respect to such wife and minor child when it is ascertained that the disorder is not easily curable or that the alien cannot be landed without danger to others, but if it shall be determined that the disorder is easily curable, and the husband or father or other responsible person is willing to bear the expense of treatment, such alien, if otherwise admissible and upon proper application under section 22 of the Immigration Act of 1917 (39 Stat. 891; 8 U. S. C. 159), may be accorded treatment in a hospital until cured and thereupon admitted. Examining surgeons shall include, so far as possible, in their certificate for contagious disorder, statement as to whether or not the disorder will be easily curable and whether or not the person certified can be permitted to land without danger to other persons.

§ 140.12 *Hospital treatment of wife or minor child of naturalized citizen; conditions.* No application for hospital treatment on behalf of the wife or minor child of a naturalized citizen shall be considered unless it affirmatively appears in such application that the applicant or someone in his behalf has deposited with the proper hospital official a sum sufficient to defray the cost of such treatment for a period of 60 days or for a less period if it is estimated that a cure may possibly be effected in less than 60 days, and that a bond has been furnished on Form I–355 with approved surety in the sum of not less than $500 conditioned that at least 15 days prior to the expiration of the period above referred to a further deposit of cash will be made sufficient to cover the cost of treatment for an additional period of 30 days; and that a remittance of a similar amount every 15 days prior to the expiration of the period covered by such deposit shall be made until the alien is cured and permanently landed or the case otherwise disposed of; and that a sum sufficient to defray the cost of forwarding such alien to final destination will be furnished when and if needed, and, in the event such alien is a person who, from infancy or other cause, will require an attendant to accompany him to final destination if landed, or to the country of origin if eventually deported, that such an attendant, or funds sufficient to defray the cost of employing one, will be furnished: *Provided*, That where it affirmatively appears to the satisfaction of the Department that the husband or father is unable to pay the expense of the hospital treatment, such treatment may be accorded at the expense of the appropriation for the enforcement of the Immigration Act.

NOTE: § 140.12, as set forth above, has been amended effective Sept. 1, 1947.

§ 140.13 *Hospital treatment of wife or minor child of resident alien; conditions.* No application made on behalf of the wife or minor child of an alien who shall have taken up his permanent residence in the United States shall be considered unless the cash deposit and bond provided for in § 140.12 are furnished as required in said section.

§ 140.14 *Hospital treatment; to prevent unusual hardship or suffering.* No application for hospital treatment made on behalf of an alien certified by the proper medical officer to be suffering from tuberculosis in any form or from a loathsome contagious or dangerous contagious disease, other than one of quarantinable nature, as provided in section 18 of the Immigration Act of 1917 (39 Stat. 887; 8 U. S. C. 154), shall be considered unless it affirmatively appears to the satisfaction of the Department that to refuse such hospital treatment would be inhumane or cause unusual hardship or suffering: *Provided*, That if, upon arrival, the condition of the alien is such as to require immediate hospital treatment, such hospital treatment may be accorded when, in the opinion of the official in charge, a denial of such treatment, pending authorization therefor by the Department, will cause unusual hardship or suffering: *And provided further*, That in such case the action of such official shall be reported forthwith to the Department for the necessary authorization.

§ 140.15 *Application for hospital treatment for wife or minor child.* Application for hospital treatment arising under the provisions of section 22 of the Immigration Act of 1917 (39 Stat. 891; 8 U. S. C. 159), made in behalf of the wife or minor child of a naturalized citizen or in behalf of the wife or minor child of an alien having a permanent residence in this country, or application for hospital treatment arising under the provisions of section 18 of said act (39 Stat. 887; 8 U. S. C. 154), shall be made to the officer in charge within the time allowed for filing appeals and by such officer immediately forwarded to the Central Office for presentation to the Department.

§ 140.16 *Naturalization; proof.* The presentation of a naturalization certificate and identification of the presenter as the rightful holder thereof shall be accepted as satisfactory proof of naturalization.

§ 140.17 *Permanent residence; definition.* The term "permanent residence" in §§ 140.11, 140.13, and 140.15, shall be understood to mean that place where a person has his true, fixed, and permanent home and principal establishment to which, whenever he is absent, he has the intention of returning, and shall be established by evidence satisfactory to the Department.

§ 140.18 *Hospital treatment; documents to accompany application.* The official in charge shall forward with the application a transcript of the board hearing and a certificate of a Public Health Service Surgeon showing the character and extent of the alien's affliction and estimating the duration of treatment required to effect a cure, and may make such recommendation as he deems proper.

§ 140.19 *Breach of conditions of bond; consequences.* If the application is granted and there is a failure to observe the terms of the bond exacted, report thereof shall be made to the Central Office, to the end that the conditions of the bond may be enforced and the alien deported. Any balance of a deposit remaining unexpended when the alien is cured or released shall be returned to the depositor. The cost of hospital treatment may be charged against the deposit from the time the petition was filed and until the alien has been either admitted or deported.

§ 140.20 *Alien's right, and transportation company's liability, not affected by hospital treatment.* The treatment of an alien under §§ 140.11–140.21, shall not be construed to alter in any manner the status of the alien with reference to his right to enter or remain in the United States, nor to affect in any manner the liability of transportation companies under the Immigration Act of 1917 (39 Stat. 874), and the rules and regulations made in pursuance thereof.

§ 140.21 *Citizens treated as aliens; payment of hospital expense.* If any arriving passenger apparently an alien is placed in hospital under any provision of §§ 140.11–140.21 that does not require expenses of hospital treatment to be paid by other than transportation companies, and it is subsequently shown that such passenger is in fact a United States citizen, the expense of treatment up to the time satisfactory proof of citizenship is furnished shall be borne by the transportation company or by the vessel on which such passenger arrived.

§ 142.1 *Preexamination; who may apply.* An alien who is a member of any of the following classes and who intends to apply to a consular officer of the United States in Canada for an immigration visa for entry into the United States for permanent residence may, subject to the provisions of this part, apply for the privilege of a preexamination by officers of the Immigration and Naturalization Service for the purpose of determining in advance his admissibility into the United States for permanent residence when in possession of an unexpired immigration visa:

(a) An alien—other than a citizen of Canada, Mexico, or any of the islands adjacent to the United States—who has been within the United States for a period of one year or more and who has a spouse, parent, or minor child, who is in the United States and is a citizen thereof or is a lawfully permanent resident alien;

(b) An alien—other than a citizen of Canada, Mexico, or any of the islands adjacent to the United States—who has resided in the United States for a period of five years or more; or

(c) An alien—other than a citizen of Canada—whose case is found to be an exceptionally meritorious case.

§ 142.2 *Preexamination; aliens eligible.* Preexamination shall not be authorized unless it appears to the officer granting such authorization that the alien is:

(a) Admissible to Canada;

(b) Of good moral character;

(c) Registered and/or fingerprinted as required by the Alien Registration Act, 1940; and

(d) Able to obtain the prompt issuance of an immigration visa in case it is determined that he is admissible to the United States for permanent residence.

§ 142.3 *Preexamination; application; where deportation proceedings have not been instituted.* Application for preexamination shall be made in triplicate on Forms I–255 and I–55 and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The application may be filed separately or in conjunction with a petition on Form I–133 for nonquota or preference quota status under § 165.1 of this chapter. Where the application for preexamination is filed at a field office, either separately or with Form I–133, the field office shall retain the triplicate copies of Forms I–255 and I–55 and forward the rest of the forms to the Central Office.

§ 142.4 *Preexamination; application; where deportation proceedings have been instituted.* Where the applicant is the subject of deportation proceedings, the application shall be filed as provided in § 150.6 (g) of this chapter.

§ 142.5 *Preexamination; authorization.* The Commissioner or a designated official in the Central Office shall have authority to authorize the preexamination of any alien eligible under the provisions of § 142.2.

§ 142.7 *Preexamination; notification of authorization.* The Central Office shall in all cases furnish notice of the decision to the field office, which shall in turn notify the applicant in writing of the decision and shall, where the decision is that preexamination is authorized, at the same time notify him that preexamination will not be accorded him unless or until he has submitted to the United States consul to whom he intends to apply for a visa the necessary documents in support of his visa application and has received from the consular officer written assurance that such documents appear sufficient and satisfactory on their face and that a visa will be promptly available if, upon personal examination by the consul, he is found to be eligible for a visa.

§ 142.8 *Preexamination; place and time.* The immigration office at which the alien may present himself for preexamination shall be designated in the authorization; and the preexamination shall be conducted as soon as practicable after authorization and after the alien has complied with the provisions of § 142.7. In the event that the alien fails within a reasonable time to meet the conditions of § 142.7, or to present himself for preexamination after having done so, the officer in charge of the designated office shall report to the Central Office, and may recommend that the authorization be revoked.

§ 142.9 *Preexamination; documents to be presented.* When presenting himself for preexamination, an alien shall produce:

(a) The notification in writing that preexamination has been authorized.

(b) Written assurance from the consul to whom he intends to apply for an immigration visa that his documents appear sufficient and satisfactory on their face and that a visa will be promptly available for issuance to the alien if, upon personal examination by the consul, he is found to be eligible therefor.

(c) Four photographs of himself, size 2 inches by 2 inches, the distance from the top of head to point of chin to be approximately 1¼ inches, unmounted, printed on thin paper with a light background clearly showing a full front view of the features of the alien without hat, which photographs shall have been taken within 30 days of the date when they are furnished.

§ 142.10 *Preexamination; medical examination.* (a) Any alien presenting himself for preexamination shall be examined by medical officers authorized to conduct the physical and mental examination of arriving aliens under the provisions of section 16 of the Immigration Act of 1917 who shall certify for the information of the immigration officers and the boards of special inquiry any and all physical or mental defects or diseases observed by such medical officers in any such alien. Any alien certified for insanity or mental defect may appeal to the board of medical officers of the United States Public Health Service as provided in section 16 of the Immigration Act of 1917.

(b) Where the preexamination is to be conducted at a place where no officers of the United States Public Health Service are detailed for the purpose, a certificate from a civil physician of not less than four years' professional experience, preferably one designated by the United States Public Health Service or Veterans' Administration, may, in the discretion of the officer in charge, be accepted. The officer in charge shall note in writing on the face of the certificate his approval of such acceptance.

§ 142.11 *Preexamination; primary inspector.* The preexamination shall be conducted in the first instance by an immigrant inspector, known as the primary inspector. It shall consist of a thorough examination into the admissibility of the alien into the United States when in possession of an unexpired immigration visa. The primary inspector shall prepare in duplicate Form I–448, "Manifest Data," which together with the application for preexamination, medical certificate, documents required in § 142.9, and other pertinent documents presented, shall constitute the record in the case. If the primary inspector is not satisfied that the alien is clearly and beyond a doubt entitled to admission when in possession of an unexpired visa, he shall certify the record to the officer in charge of the office with a recommendation that a board of special inquiry be convened.

§ 142.12 *Preexamination; board of special inquiry.* A board of special inquiry may be convened at any immigration office whenever necessary to determine the admissibility of an alien when such determination is requested by a primary inspector in preexamination proceedings. The appointment and procedure of such boards of special inquiry shall be governed by section 17 of the Immigration Act of 1917 and by Part 130 of this chapter. The board of special inquiry shall enter, as an exhibit in its record, the entire record before the primary inspector and shall conduct whatever further examination is necessary to determine the alien's admissibility into the United States.

§ 142.13 *Preexamination; where alien found unqualified.* In all preexamination proceedings the primary inspector or the board of special inquiry, as the case may be, shall first inquire into the question of whether or not the alien is qualified for preexamination under the provisions of §§ 142.1 and 142.2. If it shall appear that the alien is not entitled to the privilege of preexamination, further examination shall be suspended and the record transmitted to the Central Office accompanied in appropriate cases by an application for a warrant of arrest.

§ 142.14 *Preexamination; where alien found inadmissible.* Where an alien is held inadmissible by a board of special inquiry in preexamination proceedings (for cause other than the lack of an unexpired immigration visa), the alien may appeal from the decision to the Commissioner of Immigration and Naturalization and further proceedings shall be had in accordance with the provisions of Part 90 of this chapter: *Provided, however,* That the decision of a board of special inquiry shall be based upon the certificate of the examining medical officer and except as provided in section 21 of the Immigration Act of 1917, shall be final as to the rejection of aliens afflicted with tuberculosis or with a loathsome or dangerous contagious disease, or with any mental or physical defect which would bring such aliens within any of the classes excluded from admission to the United States under section 3 of that act.

§ 142.15 *Preexamination; appeal by dissenting inspector.* Subject to the limitations in the proviso in § 142.14, a dissenting inspector may appeal from the decision of a board of special inquiry to the Commissioner of Immigration and Naturalization and further proceedings shall be had in accordance with the provisions of Part 90 of this chapter. In the event of an appeal by a dissenting inspector, no further proceedings shall be taken in the case pending the outcome of the appeal.

§ 142.16 *Preexamination; where alien found admissible.* An alien found in preexamination proceedings to be admissible to the United States when in possession of an unexpired immigration visa shall be furnished with a sealed communication to the Canadian immigration officer in charge of the Canadian port at which he intends to apply for admission to Canada, and with a border crossing card Form No. I–165, bearing a photograph and description of the alien and valid for a single reentry to the United States if the alien is admitted to Canada within four months from the date of issuance specified on the card. The letter to the Canadian officer shall state the purpose of the alien's visit; shall guarantee that the alien, if admitted to Canada while in possession of an unexpired border crossing card, will be readmitted to the United States; and shall have the alien's photograph securely attached. The border crossing card issued to the alien shall be taken up by the United States immigration officer at the port of reentry to the United States. If reentry is to be made at a place other than that where the preexamination was conducted, Form I–448 in duplicate, a copy of the Canadian letter, and duplicate copy of the border crossing card with photograph attached, shall be sent to the port of proposed reentry prior to the alien's departure to Canada.

§ 142.17 *Preexamination; readmission with immigration visa.* Any alien found admissible in preexamination proceedings to whom an immigration visa has been issued shall be admitted to the United States for permanent residence upon presentation of such visa and of his border crossing card, unless for reasons developed subsequently to the preexamination it shall appear that he is inadmissible in which event he shall be permitted to reenter for the sole purpose of being taken into custody by the immigration officers at the port of reentry who shall make a record of such limited reentry and at once apply to the Central Office for a warrant of arrest in deportation proceedings.

§ 142.18 *Preexamination; readmission without immigration visa.* Any alien found admissible in preexamination proceedings to whom an immigration visa has been thereafter denied shall be permitted to reenter the United States at the designated port of reentry upon presentation of his border crossing card; but such alien, if not in possession of documents authorizing his temporary residence in the United States, shall be taken into custody by the immigration officers at the port of reentry who shall make a record of such limited reentry and at once apply to the Central Office for a warrant of arrest in deportation proceedings.

§ 142.19 *Preexamination; reports.* The port of reentry shall inform the Canadian officers in charge at the port of entry into Canada as to the readmission of all aliens admitted pursuant to the provisions of this part.

§ 142.20 *Preexamination; repeal of prior regulations and instructions.* All regulations, rules and instructions heretofore issued which are inconsistent with this part are hereby repealed: *Provided, however,* That such repeal shall not affect any proceedings or parts of proceedings which have taken place prior to the effective date of this part as here promulgated.

§ 145.3 *Notice to immigration officer of sailings.* At least 24 hours' advance notice of the time of sailing of every vessel which has brought aliens to the United States shall be given the officer in charge in order that he may have the opportunity to place on board the aliens to be deported by such vessel.

AUTHORITY: §§ 150.1 to 150.13, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. § 150.1 *Investigations*—(a) *Aliens reported, or believed, to be subject to deportation.* The case of every alien reported, or believed, to be subject to arrest and deportation, shall be thoroughly investigated by such officer as may be designated for that purpose.

(b) *Purpose.* The purpose of the investigation shall be to discover whether or not a prima facie case for deportation exists; that is, whether there is credible evidence reasonably establishing (1) that the person investigated is an alien, and (2) that he is subject to deportation.

(c) *Interrogation of aliens under investigation.* All statements secured from the alien or any other person during the investigation, which are to be used as evidence, shall be taken down in writing; and the investigating officer shall ask the person interrogated to sign the statement. Whenever such a recorded statement is to be obtained from any person, the investigating officer shall identify himself to such person and the interrogation of that person shall be under oath or affirmation. Whenever a recorded statement is to be obtained from a person under investigation, he shall be warned that any statement made by him may be used as evidence in any subsequent proceeding.

(d) *Refusal to make recorded statement under oath or affirmation.* Whenever, in the course of an investigation, admissions or statements are obtained from an alien or statements are made by any other person which indicate that the alien may be subject to arrest and deportation, but the alien or other person refuses to make a recorded statement under oath or affirmation or refuses or is unable to sign the recorded statement by name or by mark, the investigating officer shall make a report in writing to the officer in charge, setting forth the facts admitted or stated as to the alien's status under the immigration laws. This report may be used in support of an application for a warrant of arrest, when the investigating officer certifies that no other evidence to establish the facts stated in the report can be readily obtained. Statements obtained in confidence may be included in such report, without disclosure of their source, only if the officer in charge certifies that in his belief such statements are trustworthy.

(e) *Anonymous information.* Information received from a person whose name or address is not disclosed to the investigating officer or is known or appears to be fictitious shall not be used to support an application for a warrant of arrest. Such information shall be used only as a guide to obtaining competent evidence to support the facts alleged.

(f) *Extent of interrogation.* Where an alien under investigation, after reasonable questioning, makes no admissions which bring him within a deportable class, interrogation shall cease, and the investigating officer, if he still believes that the alien is subject to deportation, shall attempt to secure from other sources the necessary evidence.

§ 150.2 *Applications for warrants of arrest*—(a) *Submission.* Whenever it is found, after preliminary investigation, that a prima facie case for the deportation of an alien exists, application for a warrant of arrest shall be made. The application shall be in writing, shall set forth the grounds upon which it is made and shall be accompanied by the supporting evidence and, if available, by the alien's registration number under the Alien Registration Act, 1940.

(b) *Verification of landing.* In all cases in which official records of an alien's arrival exist, and in which there is a time limitation as to the institution of deportation proceedings, or in which knowledge of the time, place and manner of the alien's last entry is necessary for a proper determination of the case, the application shall be accompanied by a certificate of admission obtained from the officer in charge at the port where landing occurred. Where in such cases a certificate of admission is not promptly procurable, the application for a warrant may be submitted without the certificate of admission, but the reason therefor shall be reported and the certificate forwarded as soon as obtained.

(c) *Criminal cases.* Whenever an application for a warrant of arrest is based on conviction for crime in the United States, it shall be accompanied by a certified copy of the record of conviction and sentence and, if it is deemed necessary in order to establish that the crime involves moral turpitude, by a certified copy of the information, indictment or complaint, upon which the alien was convicted.

(d) *Public charge cases.* Whenever an application for a warrant of arrest includes the charge that the alien has become a public charge within five years from the date of entry from causes not affirmatively shown to have arisen subsequent thereto, the application shall be accompanied by a certificate of the official in charge of the institution in which the alien is or has been confined, or if the alien is not or has not been confined, by the certificate of a responsible public official having knowledge of the facts, showing that the alien is being or has been maintained at public expense. If the alien became a public charge because of a mental or physical condition, there shall also be submitted, if available, a clinical history of the case prepared by the institution where the alien is or has been confined.

(e) *Telegraphic applications.* A telegraphic application for a warrant of arrest shall be resorted to only when there is likelihood that the alien will leave for parts unknown before a formal warrant can be obtained or when necessary to avoid undue expense to the Government, as where the alien is found and the investigation is conducted at a considerable distance from the nearest immigration office. Such telegraphic application shall state the name of the alien, the grounds for deportation charged, the date and place of the alien's entry and enough of the supporting proof to enable the Central Office to exercise a judgment as to probable cause for the issuance of a warrant. The code supplied by the Central Office shall be used whenever practicable.

§ 150.3 *Issuance of warrants of arrest.* (a) If it is determined that a prima facie case for deportation has been established, a warrant of arrest shall be issued by the designated official in the Central Office, except that any officer in charge of a district shall have power to issue a warrant of arrest:

(1) In any case within the purview of §§ 150.10 and 150.11 and as provided therein; or

(2) In any other case in which it appears to the satisfaction of such officer that the alien may escape arrest unless the warrant is issued immediately.

(b) In any case where the officer in charge of a district issues a warrant of arrest under paragraph (a) of this section, a copy of the warrant of arrest and of all of the evidence in support thereof shall be immediately forwarded to the Central Office.

(c) Warrants of arrest may, where necessary, be transmitted by telegraph, such telegraphic warrant to be followed by the formal warrant of arrest.

(d) In any case where the officer in charge of District No. 13, with headquarters at San Francisco, California, has authority to issue a warrant for the arrest of an alien in the Territory of Hawaii, the warrant of arrest may be issued by the officer in charge at Honolulu and a copy of the warrant and of all of the evidence in support thereof forwarded immediately to the Central Office and to the officer in charge of the district.

§ 150.4 *Execution of warrant of arrest*—(a) *Service upon alien.* Upon receipt of a telegraphic or formal warrant of arrest, the warrant shall be served upon the alien, and he shall be taken into custody thereunder and fully advised of the cause for his arrest. Copy of the formal warrant of arrest, if arrest is accomplished thereunder, shall be furnished to the alien. Where the arrest is accomplished under a telegraphic warrant, the alien shall be fully advised of the cause for his arrest, given a decoded copy of the warrant of arrest, and furnished with a copy of the formal warrant of arrest as soon as received. If the alien is confined in a penal institution, a copy of the formal warrant shall be filed with the officer in charge of the institution. In cases of mental incompetency, or of children under 16 years of age, a copy of the warrant shall be served upon the alien's guardian, near relative, or friend whenever possible.

(b) *Notice to alien of right to counsel and release under bond.* The alien, immediately upon being taken into custody, shall be advised of his right to representation by counsel at the hearing to be held under the warrant and of the amount of bail under which he may be released from custody. Similar advice shall be given to the guardian, near relative, or friend, in cases involving mentally incompetent aliens or aliens under 16 years of age.

(c) *Identification card to be lifted when alien arrested.* If an arrested alien is found to be in possession of a border crossing identification card, such card shall be taken up and retained in the immigration office where the hearing is conducted until the final decision is made in the case.

§ 150.5 *Custody of arrested aliens*—(a) *Release on bond or personal recognizance.* An alien arrested in deportation proceedings may, pending final disposition of his case and in the discretion of the officer in charge of the office having custody of the alien, be released under bond, or on his own personal recognizance, or on parole, unless specific instructions to the contrary covering individual aliens or classes of aliens shall have been issued by the Central Office. When release is directed by the officer in charge of the office having custody of the alien under conditions other than those stated in the warrant of arrest, such officer shall make immediate report thereof in writing to the Central Office giving the reasons for the action taken.

(b) *Detention without bond.* If, in any case where the Central Office has not authorized detention without bond, the officer in charge of an office having custody of an alien has reason to believe that release should not be authorized under any condition, such alien may be continued in custody but a report shall promptly be made to the Central Office giving reasons for the action taken.

(c) *Delivery bonds.* If a delivery bond is required and accepted, the bond shall be in an amount that will insure the alien's appearance when wanted, but not less than $500.

NOTE: Paragraph (c) of § 150.5, as set forth above, becomes effective Sept. 1, 1947.

CROSS REFERENCE: For approval and cancellation of delivery bonds, see 8 CFR Part 169.

(d) *Detention facilities.* An alien under deportation proceedings not released on bond, or on personal recognizance, or on parole, may be confined only in a detention facility operated by the Service, or in a jail which has been approved by the Service as a detention facility or, upon approval from the Central Office, in some other suitable quarters. Children under 18 years of age and women shall not be held in custody in jails unless absolutely unavoidable. Such aliens, when detention is necessary, may be detained in a private or other home or facility operated under contract with the Service for the maintenance of aliens, or in a home or other facility operated by a social welfare or philanthropic agency. Where detention of such aliens in a jail is unavoidable, a report thereof with the reasons therefor, shall be immediately submitted to the Central Office.

(e) *Institutional cases.* An alien confined in an institution shall not be removed therefrom, in the absence of special instructions, until a warrant of deportation has been served and the Service is completely ready to deport, except in the case of a criminal alien who has served his sentence and is subject to discharge from imprisonment.

(f) *Cost of maintenance pending deportation.* The cost of maintaining aliens in custody after arrest and pending deportation may be borne by the Government, except that where an alien is an inmate of a public or private institution at the time of the institution of deportation proceedings no expense shall be incurred by the Government until he is taken into physical custody by immigration officers.

§ 150.6 *Hearing*—(a) *When to be accorded under warrant.* After the alien has been taken into custody under a warrant of arrest and has been given a reasonable time to arrange for his defense, including, if desired, representation by counsel, and after the formal warrant of arrest has been received, if arrest was accomplished under a telegraphic warrant, the alien shall be granted a hearing to determine whether he is subject to deportation on the charges stated in the warrant of arrest. A hearing under a telegraphic warrant of arrest, and prior to the receipt of the formal warrant of arrest, shall be held only on the request of the alien or his counsel, or when, in the discretion of the officer in charge, it is deemed impracticable to await the receipt of the formal warrant. The alien shall be informed of his right to request a hearing upon a telegraphic warrant prior to the receipt of the formal warrant.

(b) *Presiding inspector to be other than investigating officer.* The immigrant inspector assigned to conduct a hearing under a warrant of arrest shall be referred to as the "presiding inspector." The immigrant inspector who

conducted the investigation in the case shall not act as presiding inspector unless the alien consents thereto. The presiding inspector shall rule upon all objections to the introduction of evidence or motions made during the course of the hearing. In cases to which no examining inspector has been assigned pursuant to the provisions of paragraph (n) of this section, the presiding inspector shall conduct the interrogation of the alien and the witnesses in behalf of the Government and shall cross-examine the alien's witnesses and present such evidence as is necessary to support the charges in the warrant of arrest. The presiding inspector shall see that all documentary or written evidence is properly identified and introduced into the record as exhibits by number, unless read into the record. He shall further make sure that, subject to the provisions of paragraphs (d), (e), and (g) of this section, the record is a verbatim report of everything that is stated during the course of the hearing, including the oaths administered, the warnings given to the alien or the witnesses, and the rulings on objections, except statements made off the record with the consent of the alien or his counsel.

(c) *Procedure; notice of charges.* At the beginning of a hearing under a warrant of arrest, the presiding inspector shall (1) permit the alien to inspect the warrant of arrest and inform him of the charges contained therein by repeating them verbatim and explaining them in language which will clearly convey to the alien the nature of the charges he must answer; (2) apprise the alien, if not represented by counsel, that he may be so represented if he desires and require him to state then and there for the record whether he desires counsel; (3) place the alien under oath or affirmation; (4) advise the alien of the penalty for perjury; and (5) enter of record as an exhibit, identified by number, the formal warrant of arrest, or a decoded copy of the telegraphic warrant if hearing is held thereunder. The presiding inspector shall further advise the alien of the provisions of paragraph (g) of this section concerning applications for the privilege of departure in lieu of deportation or for suspension of deportation under the provisions of section 19 (c) of the Immigration Act of 1917, as amended, in all cases except those in which the alien is charged with being subject to deportation upon one of the grounds mentioned in section 19 (d) of the said act. A continuance of the hearing for the purpose of obtaining counsel shall not be granted more than once, unless sufficient cause for the granting of more time is shown.

(d) *Representation by counsel.* If counsel be selected, he shall be permitted to be present during the hearing, to offer evidence to meet any evidence presented or adduced by the Government, and to cross-examine witnesses called by the Government. Counsel shall be permitted to state his objections succinctly, and they shall be entered on the record. Argument of counsel in support of his objections shall be excluded from the record. Counsel, however, may submit such argument in the form of a brief to accompany the record.

(e) *Where representation by counsel waived.* If representation by counsel be waived, the alien shall be permitted to offer evidence to meet any evidence presented or adduced by the Government, to cross-examine witnesses called by the Government, and to make objections, which shall be entered on the record, but his arguments in support of the objections may, in the discretion of the presiding inspector, be excluded from the record, in which event, however, the alien shall be permitted to submit such argument in writing to accompany the record.

(f) *Interpreters.* Where the services of an interpreter are found necessary in the conduct of a hearing, the interpreter, if not an employee of the Service, shall be sworn to interpret and translate accurately.

(g) *Application for suspension of deportation, for departure in lieu of deportation, or for preexamination.* At any time during the hearing the alien may apply, under the provisions of section 19 (c) of the Immigration Act of 1917, as amended (39 Stat. 889, 54 Stat. 671, 56 Stat. 1044, 8 U. S. C. 155 (c)):

(1) On Form I–55 in triplicate, for suspension of deportation; or

(2) On Form I–255 in triplicate, for the privilege of departing the United States at his own expense in lieu of deportation; or

(3) On Form I–255 in triplicate, for the privilege of departing the United States at his own expense in lieu of deportation and the privilege of preexamination under Part 142 of this chapter. The alien may apply simultaneously for more than one of these three reliefs. The alien shall be warned that any statements made by him in such applications may be considered as evidence in any proceedings to determine his right to enter, reenter, pass through, or reside in the United States, and that false answers to any of the questions in such applications may bar him from the relief which he requests. Any such applications shall then be introduced into evidence and made a part of the record.

(h) *Order in which evidence shall be presented.* The presiding inspector or examining inspector, when interrogating the alien at the hearing, shall develop in order (1) the facts relating to alienage and nationality; (2) the facts relating to the charges in the warrant of arrest or to any additional charges applicable; (3) the facts relating to the alien's eligibility for any relief applied for under paragraph (g) of this section; (4) the personal history data required by paragraph (j) of this section; and (5) other pertinent information not already obtained for the record.

(i) *Use of statements or admissions made during investigation.* A recorded statement made by the alien (other than a General Information Form) or by any other person during an investigation may be received in evidence only if the maker of such statement is unavailable or refuses to testify at the warrant hearing or gives testimony contradicting the statements made during the investigation. An affidavit of an inspector as to the statements made by the alien or any other person during an investigation may be received in evidence, otherwise than in support of the testimony of the inspector, only if the maker of such statement is unavailable or refuses to testify at the warrant hearing or gives testimony contradicting the statement and the inspector is unavailable to testify in person.

(j) *Record to contain personal history.* All records of hearings shall fully set forth, either in the General Information Form if filed or otherwise, the name or names of the alien (correctly spelled); place of the alien's birth; the name of the nearest town of importance to such place of birth; the province and country in which such place is located; the alien's religion; the names and locations of churches or schools he has attended; the last address of the alien in his native country, in the country of which he is a citizen or subject, and in the country in which he has last resided; the country in which he embarked for the United States or for foreign contiguous territory; correct names and addresses and the citizenship or nationality of the alien's nearest relatives residing in the country of his birth, and correct names and addresses of all near relatives residing in the United States.

(k) *Physical or mental disability cases; record to contain medical certificate.* The record of the hearing accorded an alien who is suffering from any mental or serious physical disability shall be supplemented by a medical certificate showing (1) whether such alien is in condition to be deported without danger to life or health and (2) whether he will require special care and attention in case of deportation overseas.

(l) *Additional charges.* If, during the hearing, it shall appear to the presiding inspector that there exists a reason additional to those stated in the warrant of arrest why the alien is subject to deportation, he shall notify the alien that such additional charge is lodged against him, and shall proceed with the hearing upon such charge in like manner as on charges contained in a warrant of arrest.

(m) *Alien to be warned of disabilities respecting reentry to the United States.* Before the hearing is concluded, the alien shall be warned by the presiding inspector that the act of March 4, 1929, as amended, provides that any alien who, after arrest and deportation or departure from the United States in pursuance of an order of deportation, enters or attempts to enter the United States, shall be guilty of a felony, and upon conviction shall be liable to imprisonment for not more than two years or a fine of not more than $1,000, or both such fine and imprisonment, unless such entry or attempted entry is made after one year from the date of such departure or deportation, and the alien, prior to his reembarkation at a place outside of the United States or prior to his application in foreign contiguous territory for admission to the United States, has been granted by the Attorney General permission to reapply for admission to the United States.

(n) *Assignment of examining inspector in addition to presiding inspector; duties of inspectors.* The officer in charge of the district in which the hearing is to be held may, in his discretion, assign a second immigrant inspector to act at the hearing as the "examining inspector." The examining inspector shall conduct the actual interrogation of the alien and of the witnesses in behalf of the Government and the examination or cross-examination of the alien's witnesses, present such evidence as is necessary to support the charges in the warrant of arrest, lodge such additional charges as he may find to be applicable in the manner hereinbefore directed, and, if the alien has applied for the privilege of departure in lieu of deportation or for suspension of deportation as provided in § 150.6 (g), § 150.8 (b), or § 150.10, inquire thoroughly into the alien's eligibility for such relief. The presiding inspector in such cases, shall exercise all functions not herein assigned to the examining inspector, and he may, in addition, take such part in the interrogation of the alien and witnesses as he may deem necessary to assure that a proper hearing is accorded to the alien.

§ 150.7 *Proposed findings, conclusions, and order*—(a) *Preparation by presiding inspector.* As soon as practicable after the hearing has been concluded, the presiding inspector shall prepare a memorandum setting forth a summary of the evidence adduced at the hearing, his proposed findings of fact and conclusions of law, and a proposed order.

(b) *Eligibility for departure in lieu of deportation or for suspension of deportation.* If the alien has applied for the privilege of departure in lieu of deportation or for suspension of deportation as provided in § 150.6 (g), § 150.8 (b), or § 150.10, the presiding inspector shall follow his conclusions of law as to the alien's deportability with a discussion of the evidence relating to the alien's eligibility for such relief and of his reasons for his proposed order. He shall then state in numbered paragraphs his proposed findings of fact and his proposed conclusions of law as to the alien's eligibility for the relief requested.

(c) *Proposed order.* In the proposed order the presiding inspector shall recommend cancellation of the proceedings, deportation, departure under order of deportation, departure in lieu of deportation, or suspension of deportation in accordance with the judgment he has made on the basis of the evidence adduced at the hearing.

(d) *Service of findings of presiding officer.* A copy of the presiding inspector's memorandum containing his discussion of the evidence, proposed findings of fact, proposed conclusions of law and proposed order shall be furnished to the alien or his counsel in all instances by personal service, if practicable, otherwise by registered mail, and a return receipt therefor shall be obtained. A copy also shall be furnished to the examining inspector, if an examining inspector has been assigned to the case.

(e) *Filing of exceptions.* (1) The alien or his counsel or representative shall be allowed by the officer in charge a reasonable time (not to exceed 10 days except on showing of good cause that more time is necessary) in which to file exceptions to the proposed findings, conclusions, and order of the presiding inspector and to submit a brief, if desired. Reasonable extensions of time for the filing of exceptions or brief may be granted in the discretion of the officer in charge The examining inspector shall promptly file exceptions to the proposed findings, conclusions, and order of the presiding inspector, or state in writing that he waives the filing of exceptions.

(2) For the duration of the War which the United States declared existed against Japan on December 8, 1941, and against Germany and Italy on December 11, 1941, alien seamen who entered the United States on or after September 1, 1939, or who shall hereafter enter the United States and against whom deportation proceedings have been or may be instituted shall be allowed a period of three days in which to file exceptions or waive the filing of exceptions to the proposed findings, conclusions, and order of the presiding inspector and to submit a brief, if desired, in lieu of the time specified in subparagraph (1) of this paragraph.

§ 150.8 *Reopening the hearing.* At any time prior to the forwarding of the record of hearing to the Commissioner, the officer in charge of a district or suboffice may direct that a case be reopened for proper cause. The Commissioner may direct a reopening of the record of hearing for proper cause at any time prior to such time as an appeal from his order may be entered in accordance with the provisions of § 90.3 (a) of this chapter. Requests by aliens or their representatives for a reopening of a hearing prior to entry of a final order shall be in writing, state the new facts to be proved, and be supported by affidavits or other evidentiary material. All requests for reopening must be filed with the appropriate field office of the Immigration and Naturalization Service. If the record of hearing has been forwarded to the Commissioner from that office, the request for reopening shall be forwarded to the Commissioner. The Commissioner shall grant or deny the request if the case is pending before him. If the case is pending before the Board of Immigration Appeals, the request shall be forwarded to the Board. The Board shall consider the request and either remand the case for further hearing or deny the request and render a decision on the record.

§ 150.9 *Forwarding record to Central Office.* Upon receipt of exceptions and brief, if any, of the alien or his counsel, or upon the expiration of the time allowed for the submission of exceptions or brief, the entire record, including all copies of Forms I–55 and I–255 filed by the alien, the presiding inspector's proposed findings, conclusions, and order, exceptions and brief, including the exceptions of the examining inspector, if any, shall be forwarded to the Commissioner.

§ 150.10 *Special procedure; application by an alien prior to arrest for suspension of deportation*—(a) *Who may apply.* Any alien who believes himself to be subject to deportation and against whom deportation proceedings have not been instituted by the issuance of a warrant of arrest, as provided in § 150.3 or § 150.11 (a) may voluntarily submit himself to the jurisdiction of the Immigration and Naturalization Service and make written application for suspension of deportation. Such application may be made by filing Forms I–256 and I–55, properly filled in and executed in triplicate, at the office of the Immigration and Naturalization Service having jurisdiction over the applicant's place of residence.

(b) *Eligibility.* An alien is eligible to be considered for suspension of deportation if:

(1) He is deportable under any law of the United States except:

(i) The act of October 16, 1918, as amended (anarchist and similar classes); or

(ii) The act of May 26, 1922 (narcotic); or

(iii) The act of February 18, 1931, as amended (narcotic); or

(iv) Any of the provisions of section 19 (a) of the act of February 5, 1917, as amended, as relates to criminals, prostitutes, procurers, or other immoral persons, the mentally and physically deficient, anarchists, and similar classes; or

(v) Section 19 (b) of the act of February 5, 1917, as amended (smuggling of aliens, unlawful possession of weapons, violation of Title I, Alien Registration Act, 1940); and

(2) He has proved good moral character for the preceding five years; and

(3) He is not racially inadmissible or ineligible to naturalization; and

(4) It is found that such deportation would result in serious economic detriment to a citizen or legally resident alien who is the spouse, parent, or minor child of such alien.

(c) *Issuance of warrant of arrest.* If, upon the filing of Forms I–256 and I–55, the officer in charge of the district believes from the facts set forth therein that the alien is subject to deportation, and finds that there is no warrant of arrest outstanding, such officer shall issue a warrant of arrest stating the charges upon which he believes the alien to be subject to deportation. If a warrant issues under this paragraph, one copy each of such warrant and of Forms I–256 and I–55 shall be immediately forwarded to the Central Office.

(d) *Documents and investigation required.* Where a warrant of arrest has been issued under this section and Forms I–256 and I–55 have been accepted as a prima facie showing of eligibility for suspension of deportation, the alien shall be advised (1) to obtain promptly and furnish the officer in charge, official certifications to establish his relationship to those he claims would suffer economic detriment by his deportation, and if such persons are citizens of the United States, evidence of their citizenship, and (2) submit the affidavits of two witnesses, preferably citizens, and if the alien is employed, one from his employer, who can vouch for the alien's good moral character for the preceding

five years. The officer in charge shall obtain verifications of such entries of the alien and other persons as are pertinent to the case and shall also cause an investigation to be conducted for the purpose of obtaining facts which will bear upon the alien's claim to eligibility for relief under the provisions of paragraph (b) of this section. The investigating officer shall make a written report of his investigation to be included in the record.

(e) *Notice to appear for hearing; counsel.* When the necessary entries have been verified and the documents required of the alien and the report of the investigating officer have been submitted, the alien shall be notified to appear for a hearing at a time and place to be designated by the officer in charge. If the alien is married and suspension of deportation is sought on the ground of economic detriment to the spouse, the alien shall be required to produce such spouse at the hearing. The alien shall also be informed that he may be represented at the hearing by counsel.

(f) *Hearing and record.* Upon the alien's appearance and the service on him of the warrant of arrest, if not previously served, the alien shall be granted a hearing to establish his deportability and eligibility for suspension of deportation. The presiding inspector assigned to conduct the hearing shall not be the same officer who conducted the investigation except in cases of necessity as determined by the officer in charge. The presiding inspector shall (1) apprise the alien that the purpose of the hearing is to establish the facts as to his deportability and eligibility for suspension of deportation, (2) place the alien under oath or affirmation, (3) advise the alien of the penalty for perjury and that any false answers to any of the questions in the application or General Information Form or at the hearing, may bar him from the relief he requests, and (4) enter of record as exhibits identified by number, copy of the formal warrant of arrest, Form I–256 and I–55, certifications and affidavits submitted by the alien, the written report of the investigation, and the reports as to records of the alien's entries and of the entries of such other persons as are material to the case. If the alien is married, the spouse shall be questioned for the purpose of determining whether the alien is eligible for suspension of deportation. The presiding inspector may question the alien and, in his discretion, require presentation of other witnesses for examination as to the deportability of the alien or his eligibility for suspension of deportation. At the hearing the alien should be afforded an opportunity to present any evidence he desires in support of his application. The presiding inspector, by questioning the alien and the witnesses, shall attempt to reconcile any discrepancies of fact occurring in the record.

(g) *Memorandum of the presiding inspector.* If, on the basis of the evidence presented as provided in paragraph (f) of this section, the presiding inspector is satisfied of the alien's deportability and that he is entitled to the relief sought, he shall prepare a memorandum, stating therein only the grounds for the alien's deportability and that he appears eligible for suspension of deportation under section 19 (c) (2) of the Immigration Act of 1917, as amended. A copy of the memorandum shall be furnished the alien. The entire record shall then be delivered to the officer in charge of the district for transmittal to the Central Office.

(h) *Termination of special procedure.* The special procedure provided for in paragraphs (f) and (g) of this section may be terminated forthwith (1) by the officer in charge of the district at any time prior to the transmittal of the record to the Commissioner, upon a determination that the alien may leave for parts unknown, or is failing without cause to prosecute his application, or that the alien's eligibility for suspension of deportation is questionable; or (2) by the Commissioner at any time. If such special procedure has been terminated as herein provided, the alien may be released under bond or on his own recognizance and his case shall be handled as other deportation cases under §§ 150.4 to 150.9, inclusive, commencing with the proceedings immediately following the service of the warrant of arrest. The removal of any case from the procedure provided in this section shall be without prejudice to the alien's application for suspension of deportation.

§ 150.11 *Special deportation procedure*—(a) *In cases involving recent illegal entrants and alien seamen; when permissible.* Notwithstanding any other provisions of this part, any officer in charge of a district shall have power to issue warrants of arrest upon application made direct to such officer by an investigating officer:

(1) In any case in which an alien is believed to have entered the United States illegally from foreign contiguous territory or adjacent islands within one year preceding the application for warrant of arrest, and one of the grounds of deportation upon which the application for warrant of arrest is based is:

(i) That the alien entered the United States by water at any time or place other than as designated by immigration officials; or

(ii) That the alien entered the United States by land at any place other than one designated as a port of entry for aliens by the Commissioner of Immigration and Naturalization; or

(iii) That the alien entered the United States at any time not designated by immigration officials; or

(iv) That the alien entered the United States without inspection.

(2) In any case in which an alien seaman is believed to have entered the United States on or after September 1, 1939, in an illegal manner, or after having been admitted to the United States on or after that date as a seaman in pursuit of his calling under the provisions of section 3 (5) of the Immigration Act of 1924, is believed to have remained in the United States for a longer period of time than permitted under the regulations in effect at the time of his admission, and one of the grounds of deportation upon which the application for a warrant is based is:

(i) That the alien, at the time of his entry, was an immigrant not in possession of a valid immigration visa and not exempted from the presentation thereof by said act or regulations made thereunder; or

(ii) That the alien, after admission as a seaman, has remained in the United States for a longer period of time than permitted under said act or regulations made thereunder.

(b) *In cases involving recent illegal entrants and alien seamen; investigations and applications for warrants of arrest.* Investigations and applications for warrants of arrest in cases within the purview of paragraph (a) of this section shall be made in accordance with the provisions of §§ 150.1 and 150.2.

(c) *In cases involving recent illegal entrants and alien seamen; issuance and execution of warrants of arrest; release or detention of alien.* When an application for issuance of a warrant of arrest has been made in a case falling within the provisions of paragraph (a) of this section, the officer in charge of the district shall issue the warrant if he is satisfied from the supporting evidence that a prima facie case for deportation has been established. The warrant shall state the grounds upon which the officer in charge of the district believes the alien to be subject to deportation, and, in appropriate cases, may provide for the alien's release under bond in a sum of not less than $500 or on his own recognizance pending further proceedings. The warrant shall be executed in the same manner as though issued by the Central Office.

(d) *In cases involving recent illegal entrants and alien seamen; hearing and procedure thereunder.* The hearing and all further proceedings in the case of an alien arrested upon a warrant issued and executed in accordance with paragraph (c) of this section shall be conducted in the manner prescribed in §§ 150.6 and 150.7 with the following exceptions:

(1) Any alien who desires the privilege of departure in lieu of deportation may make such request at any time during the hearing and such request may be acted upon without the necessity of filing Forms I–55 and I–255. The presiding inspector shall require the alien to furnish such information as may be available in support of such request.

(2) The presiding inspector, immediately before the hearing is concluded, shall state for the record in the presence of the alien his findings of fact, conclusions of law, and recommendation as to the disposition of the case, and

(3) The alien shall be required then and there to state whether or not he takes exception to such findings of fact, conclusions of law, and recommendation as to the disposition of the case; and he shall be informed that if he does take exception, the record will be submitted to the Commissioner for decision, and

(4) The transcript of the record, including the findings of fact, conclusions of law, and proposed order of the presiding inspector as stated in the record shall be presented to the officer in charge of the district in which the hearing is held.

(e) *In cases involving recent illegal entrants and alien seamen; issuance of warrant of deportation.* In any case conducted in accordance with the provisions of this section, in which the alien has made an exception to the proposed findings, conclusions, and order of the presiding inspector, or in which the alien has applied for suspension of deportation under the provisions of section 19 (c) of the Immigration Act of 1917, as amended, or in which the recommendation of the presiding inspector is for any action other than the deportation of the alien, the transcript of the record shall be forwarded to the Commissioner for decision. Any other case shall be referred for determination to the officer in charge of the district. If such officer in charge is not satisfied beyond a doubt that the alien is subject to deportation and that his case falls within the provisions of paragraph (a) of this section, he shall forward the record to the Commissioner, with a statement of his reasons for so doing. If the officer in charge of the district is satisfied beyond a doubt that the alien is subject to deportation and that the case falls within the provisions of paragraph (a) of this section, he may issue a warrant directing the deportation of the alien upon the charges which have been established by the record. In all cases where a warrant of deportation is issued, a complete copy of the record and of the order of deportation shall be forwarded to the Commissioner within two business days. Deportation of an alien ordered deported by an officer in charge of a district shall be effected in the same manner as though deportation had been directed by the Commissioner. Any alien who has been ordered deported by an officer in charge of a district may, within five days after such order, if deportation has not been sooner effected, file an exception to the order of deportation giving his reasons in support thereof, and may request that his case be referred to the Commissioner for decision. Upon the filing of such exception and request, deportation of the alien shall be stayed and the request of the alien, accompanied by the entire record if not previously transmitted, shall be forwarded to the Central Office for review and decision by the Commissioner. If the warrant of deportation issued by the officer in charge of the district is confirmed by the Commissioner, deportation shall proceed upon the warrant issued by the officer in charge unless the respondent appeals to the Board of Immigration Appeals within the time specified in § 90.9 of this chapter. If, on appeal, the Board of Immigration Appeals affirms the order of the Commissioner, deportation shall proceed upon the warrant issued by the officer in charge of the district as soon as notification of such affirmance is received.

(f) *Limitation as to alien seamen.* The provisions of paragraph (a) (2) of this section relating to alien seamen shall be operative only for the duration of the war which the United States declared existed against Japan on December 8, 1941, and against Germany and Italy on December 11, 1941.

§ 150.11a *Special procedure; voluntary departure permitted by officers in charge.* Notwithstanding any other provisions of this part, the authority conferred upon the Attorney General by subsection (c) (1) of section 19 of the Immigration Act of 1917, as amended (39 Stat. 889, 54 Stat. 671; 8 U. S. C. 155 (c)), to permit certain deportable aliens to depart from the United States to any country of their choice at their own expense in lieu of deportation, may be exercised by any officer in charge of a district or suboffice: *Provided,* (a) That the alien concerned is a citizen of either Canada or Mexico and desires to depart immediately from the United States for whichever of such countries he is a citizen; (b) That the alien is willing and able to pay his own transportation expenses and will apparently be admitted to the country of destination with little or no delay; and (c) That the immediate departure of the alien without the issuance of a warrant of arrest or without the completion of proceedings on a warrant of arrest will be advantageous to the Government.

§ 150.11b *Requests for extension of time within which to depart voluntarily from the United States.* (a) Where an order has been entered by the Commissioner or by the Board of Immigration Appeals granting an alien permission to depart voluntarily from the United States at his own expense, a request for extension of time within which to effect departure shall be addressed to the Commissioner and filed in triplicate with the appropriate field office. The Commissioner shall act upon the request and, if denied, shall serve notice of his order and decision upon the alien or his counsel or representative, as provided in § 90.9 (a) of this chapter. Further proceedings shall be conducted in accordance with §§ 90.3 and 90.9 (b) of this chapter.

(b) If an alien does not depart from the United States within the time granted or any extension thereof, the field office shall serve a notice upon the alien and his counsel or representative, if any, advising him that it proposes to recommend to the Commissioner that an order of deportation be entered. The notice to the alien and his counsel or representative shall further advise him of his right to file exceptions within such time, but not less than five business days, as the field office deems reasonable. At the expiration of the period granted or any extension thereof, a copy of the notice together with the exceptions filed, if any, shall be forwarded to the Commissioner. The Commissioner shall act upon the recommendation and serve notice of his decision and order upon the alien or his counsel or representative, as provided in § 90.9 (a) of this chapter. Further proceedings shall be conducted in accordance with §§ 90.3 and 90.9 (b) of this chapter.

§ 150.12 *Execution of warrant of deportation*—(a) *Taking an alien into custody.* Upon the issuance of a warrant of deportation or as soon thereafter as the circumstances of the case may require, the alien, if not already in custody, shall be taken into custody thereunder and deported.

(b) *Aliens confined in penal institutions.* No alien sentenced to imprisonment shall be deported under any provision of law until the termination of the imprisonment. Imprisonment shall be considered as terminated upon the release of an alien from confinement whether or not he is subject to rearrest or further confinement in respect of the same offense. Release of an alien from confinement on parole shall be considered as a termination of imprisonment.

(c) *Aliens discharged from United States Narcotic Farms.* Any alien who has been sentenced to imprisonment and has been ordered deported and who has been transferred as an alien addict to a United States Narcotic Farm provided for in the act of January 19, 1929, shall, at the time of his discharge from the farm, be taken into custody direct from the farm and deported instead of being returned to the penal institution from which he came.

(d) *Departure at alien's expense.* Where an alien has been ordered deported, the officer in charge of the district within which the alien is located or where the alien is in custody may, in the absence of express directions to the contrary in the warrant of deportation, permit the alien to depart to any country of his choice by reshipping foreign one way as a seaman, or by any other method at the alien's expense. When such departure is permitted and effected, the facts shall be recorded on the warrant of deportation. Any alien who is permitted to depart from the United States at his own expense under a warrant of deportation shall be notified of the issuance of such warrant and again warned concerning the provisions of the act of March 4, 1929, as amended, as set forth in § 150.6 (m).

(e) *Stay of deportation by the officer in charge.* Where an alien has been ordered deported and is about to be joined to a deportation party or his deportation is otherwise imminent and some serious emergency arises, or where new and material evidence is discovered, the district director within whose district the alien is located may, in his discretion, stay the deportation. All the facts and circumstances in such cases shall be reported immediately to the Central Office, and the further action taken shall be subject to the direction of the Central Office.

§ 150.13 *Deportation*—(a) *Manner of.* If deportation is to be effected by vessel or airplane, notice of the proposed deportation of any alien shall be given to the transportation company concerned, together with a brief description of the alien and any other appropriate data, including the cause of deportation, physical and mental condition, and destination. Any request from the transportation lines to defer delivery of the alien for deportation shall be accompanied by a written agreement from the line concerned that it will be responsible for all detention expenses resulting from such deferment.

(b) *To foreign contiguous territory.* Aliens ordered deported to foreign contiguous territory shall be returned across the border at the nearest port unless humanitarian or other reasons render it advisable to effect deportation through some other port. Deportation to a sea-

port shall be authorized when that course is deemed advisable or more economical than deportation across the land boundary. In cases involving deportation to foreign contiguous territory pursuant to the provisions of § 150.11, the officer in charge of the district within which the hearing was held shall determine through which port deportees shall be deported. In all other such cases officers in charge shall include in their letters transmitting the records of warrant hearings a recommendation as to the port through which such deportees should be deported.

PART 153—DEPORTATION OF INSANE AND DISEASED ALIENS

Sec.
153.1 Special care and attention for aliens; duty of steamship company.
153.2 Delivery of alien to steamship officer; procedure.
153.3 Delivery of alien at foreign port or destination; procedure.
153.4 Failure of steamship company to provide special care; alternative.
153.5 Lepers; deportation; procedure.

AUTHORITY: §§ 153.1 to 153.5, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 153.1 to 153.5, inclusive, interpret and apply sec. 18, 39 Stat. 887, 45 Stat. 1551, 58 Stat. 816, sec. 20, 39 Stat. 890, 57 Stat. 553; 8 U. S. C. and Sup., 154, 156.

§ 153.1 *Special care and attention for aliens; duty of steamship company.* When the immigration officials find that an alien about to be deported, whether after rejection by a board or on Department warrant, requires special care and attention, the steamship company concerned shall provide such care and attention as his condition requires, not only during the ocean voyage but also as hereinafter provided in § 153.3 during the foreign inland journey.

§ 153.2 *Delivery of alien to steamship officer; procedure.* The alien shall be delivered to the master or first or second officer of the vessel on which deportation is to occur, who shall be given the appropriate Form I–287 and a duplicate carbon sheet A thereof. The receipt and sheet A shall be filled out except as to signature by an immigration officer. The receipt attached to sheet A shall be signed by the ship's officer to whom the alien has been delivered and returned forthwith to the immigration officer making delivery. Sheets B and C shall be retained by the ship's officer and in due course filled out by the agents or persons therein designated and by them returned by mail as herein provided.

§ 153.3 *Delivery of alien at foreign port or destination; procedure.* From the foreign port of disembarkation the steamship company shall at its own expense forward the alien to destination in charge of a proper attendant except only in cases where foreign public officials decline to allow such attendants to proceed and themselves take charge of the alien, which fact must be shown by signing the form, provided in the lower half of sheet C of Form I–287. If the foreign public officials do not take charge at the port of disembarkation, but at an interior frontier, both forms on sheet C must be filled out, the former in relation to the inland journey as far as such frontier.

§ 153.4 *Failure of steamship company to provide special care; alternative.* Whenever a steamship company fails, refuses, or neglects to provide personal care and attendance for a deported alien requiring such care and attention, or when such company fails, refuses, or neglects to return sheets B and C of Form I–287 properly executed within 90 days after the departure of such alien, or otherwise fails, refuses, or neglects to comply with the provisions of this part, the Attorney General shall thereafter and without notice employ suitable persons, at the expense of such company, to accompany aliens requiring personal care and attendance when deported on any vessel of such company.

§ 153.5 *Lepers; deportation; procedure.* In cases of deportees who are afflicted with leprosy and who are subjects of Mexico or other contiguous territory, the matter of obtaining permission for the return of such aliens to their respective countries shall be taken up with the competent authorities of the country of which the alien is a subject, by the officer in charge of the district in which the case arises, through the United States immigration officers at the border port through which such aliens are to be deported. As soon as it is determined that such aliens are deportable, the Central Office will obtain travel permits for the aliens' passage from the State of origin into the State from which deportation is to be effected, said travel permits being obtained through the office of the Surgeon General, United States Public Health Service, Washington, D. C. Negotiations with appropriate common carriers shall be started by the officer in charge of the district in which such cases arise, immediately upon finding that the victim of the disease is deportable, for the purpose of arranging for the transportation of such aliens in the most economical manner possible, in keeping with the State health laws and the rules of the United States Public Health Service. Other cases of deportable aliens afflicted with leprosy shall be disposed of in accordance with governing circumstances and with the assistance and under the direction of the Central Office.

PART 154—HOLDING AS WITNESSES ALIENS ORDERED DEPORTED

Sec.
154.1 Deportation of witness stayed; conditions, expenses, release.
154.2 Witnesses; when warrant withheld.

AUTHORITY: §§ 154.1 and 154.2 issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 154.1 and 154.2 interpret and apply sec. 18, 39 Stat. 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. and Sup., 154.

§ 154.1 *Deportation of witness stayed; conditions, expenses, release.* The Department may stay the deportation "of any aliens found to have come in violation of any provision" of the Immigration Act of 1917 (39 Stat. 874) when the testimony of such aliens is necessary on behalf of the United States in the prosecution of offenders against the Immigration Act of 1917 or any other laws of the United States, and the cost of maintenance and a witness fee in the sum of $1 per day may be paid by the Department in each such case, or the alien witness may be released under bond of not less than $500 conditioned for his production when required as a witness or for deportation. Therefore, the alien to be detained must have come to the United States in violation of the Immigration Act of 1917, and his deportation must have been stayed by the Department, before detention charges and witness fees, or release under bond, can be authorized; and such authorization can be given only in cases in which at least one cause for the proposed deportation of the alien arose prior to entry. Such cases should be reported promptly to the Central Office, with a statement of all facts and circumstances material to decision of the question whether the authorization desired shall be granted. Vouchers for witness fees should be prepared in favor of each witness and submitted at the close of each month or, if detention is for less than one month, at the conclusion of such detention. Maintenance charges will be vouchered in the regular way applicable to such bills.

§ 154.2 *Witnesses; when warrant withheld.* Cases in which there exists no cause for deportation arising prior to entry (for example, cases in which aliens have become members of the immoral or criminal classes after landing) are not within the purview of § 154.1. In such cases, therefore, when it becomes necessary to hold an alien as a witness, arrangements therefor must be made with the appropriate United States attorney. The issuance of warrants of deportation in these classes of cases will be withheld pending the termination of judicial proceedings, so that the witnesses may be bound over and detention expenses and witness fees paid by the Department of Justice.

PART 155—DETENTION EXPENSES

Sec.
155.1 Liability of transportation companies for removal and care of alien.
155.2 Liability of transportation companies for expense of attendant or accompanying alien.
155.3 Expense bills; presentation to steamship companies.
155.4 Payment; advance assurance; failure.
155.5 Expenses when borne by other than transportation company.
155.6 Burial expenses of aliens; when borne by the Government.

AUTHORITY: §§ 155.1 to 155.6, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1.

§ 155.1 *Liability of transportation companies for removal and care of alien.* The owners, masters, agents, and consignees of vessels bringing aliens shall pay all expenses incident to or involved in their removal from the vessel or their detention as mentioned in Part 110 of this chapter (excepting only in cases in which it is otherwise provided by sections 15 and 18 of the Immigration Act of 1917, as amended (39 Stat. 885, 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 151, 154), or in which detention occurs under the terms of section 22 of said act (39 Stat. 891; 8 U. S. C. 159)), irrespective of whether the aliens removed or detained are subsequently admitted or deported; such expenses to include those of maintenance, medical treatment in hospital or elsewhere, burial in the event of death, and transfer to the vessel in the event of deportation; also all expenses of hospital treatment where granted under section 18, Immigration Act of 1917 (39 Stat. 887; 8 U. S. C. 154), and § 140.15. When aliens are fed under an exclusive privilege (section 26, act of February 5, 1917 (39 Stat. 894; 8 U. S. C. 115)), the expenses of maintenance generally shall be deemed the charges at which the privilege holder agrees to furnish them food. At ports where the Immigration and Naturalization Service maintains hospitals, the hospital expenses shall be such as are fixed by the Department, and at other hospitals they shall be as are fixed by the authorities thereof.

§ 155.2 *Liability of transportation companies for expense of attendant or accompanying alien.* If in the judgment of the officer in charge, based upon the expressed opinion of a surgeon, it is necessary for the proper care of an alien removed to hospital or as a measure of humanity to place with him there an attendant or accompanying alien, the cost of the latter's detention in hospital must be borne in the same manner as is the cost of treating the disabled alien.

§ 155.3 *Expense bills; presentation to steamship companies.* Bills pertaining to any of the expenses in this part shall be presented to the responsible steamship companies monthly or oftener at the option of the officer in charge, and, if not promptly paid, action shall be taken immediately, as prescribed by Part 160 of this chapter.

§ 155.4 *Payment; advance assurance; failure.* Immigration officers are under no obligation to order the removal of aliens from a vessel for inspection or hospital treatment (excepting only in cases in which it is otherwise provided by section 18, Immigration Act of 1917 (39 Stat. 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 154), or in which detention occurs under the terms of section 22 of said act (39 Stat. 891; 8 U. S. C. 159)) until the steamship companies have obligated themselves in a manner satisfactory to such officers for the payment of the expenses referred to in §§ 155.1 and 155.2, and at their option they may require payment in advance, or security, for each and every one thereof; and for failure on the part of a steamship company at any time during the course of detention to pay such expenses, the aliens may be returned to the vessel.

§ 155.5 *Expenses when borne by other than transportation company.* Detention expenses shall be borne by the Government in cases of (a) aliens held as witnesses under section 18, Immigration Act of 1917 (39 Stat. 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 154); (b) insane aliens whose health or safety would be unduly imperiled by immediate deportation (said section 18); (c) in cases in which the wives and minor children of naturalized citizens are accorded treatment under section 22 of said act (39 Stat. 891; 8 U. S. C. 159), and §§ 140.11 to 140.15, inclusive, of this chapter, when it is satisfactorily shown that the husband or father is unable to pay such expenses; and (d) aliens who arrived in possession of unexpired visas issued by United States consuls within 60 days of the aliens' foreign embarkation if the sole cause of exclusion is one arising under section 13 (a) (1) or (3) of the Immigration Act of 1924, as amended (43 Stat. 161, 50 Stat. 165; 8 U. S. C. 213 (a)). They shall be borne by the husband or father of the alien when he is able to pay them, in cases in which treatment of a wife or minor child is authorized under said provision of law and sections of regulations; and always by the husband or father when he is merely a permanent resident, not a naturalized citizen of the United States whose wife and child are allowed treatment under section 22 of said act and § 140.13 of this chapter. Preferably, they shall be paid by the alien, but may be paid from the immigration appropriation under special authority where it is necessary to hold the alien after admission in accordance with § 134.1 of this chapter, and in the cases of wives and minor children of naturalized citizens accorded treatment under section 22 of said act and §§ 140.11 to 140.15, inclusive, of this chapter. If a final order of exclusion be entered in the case of an alien in class (d) of this section and if the officer in charge at the port orders the transportation line to return the alien, the detention expenses contemplated in sections 15 and 18 of the Immigration Act of 1917, as amended (39 Stat. 885, 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 151, 154), and all expenses incidental to detention shall continue to be borne by the Government only until the next departure of a vessel of the transportation line, which brought the alien to the United States, for the place where the alien embarked for the United States. If the alien is not removed from the United States at the time of such departure, thereafter all expense of detention shall be borne by the transportation line.

§ 155.6 *Burial expenses of aliens; when borne by the Government.* The burial expenses of aliens who die while in the lawful custody of the Immigration and Naturalization Service may be borne by the Government, except in those cases in which it is otherwise provided by section 15 of the Immigration Act of 1917 (39 Stat. 885, 58 Stat. 816; 8 U. S. C. 151), and said burial expenses may include the payment of not exceeding $10 in any case for the services of a minister of any recognized religious denomination.

PART 157—REMOVAL OF DISTRESSED ALIENS FROM THE UNITED STATES

Sec.
157.1 Removal of distressed aliens; who may apply.
157.2 Application for removal; how made; necessary data.
157.3 Application for removal; examination and investigation.
157.4 Record; recommendation; review.
157.5 Final disposition.
157.6 Application for readmission; form and contents.
157.7 Application for readmission; delivery; validity of approved application for subsequent entries.

AUTHORITY: §§ 157.1 to 157.7, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166; sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 157.1 to 157.7, inclusive, interpret and apply sec. 23, 39 Stat. 892, 50 Stat. 164; 8 U. S. C. 102.

§ 157.1 *Removal of distressed aliens; who may apply.* Any alien who, at any time after entry, falls into distress or is in need of public aid from causes arising subsequent to his entry may apply for removal to his native country, or the country from which he came, or to the country of which he is a citizen or subject.

§ 157.2 *Application for removal; how made; necessary data.* Application for removal shall be made in duplicate on Form I–243 (Application for Removal) and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. A separate Form I–243 shall be filed by each alien, except that the application of a child under 14 years of age may be included in the application of a parent. The application shall be signed by the applicant, or in the case of a child under the age of 18 years by his parent or guardian, when submitted, but shall not be subscribed and sworn to or affirmed until the applicant appears before an officer of the Immigration and Naturalization Service for examination upon the merits of his application. In the application the alien shall state his name; the date and place of his birth; the country to which removal is desired; the place, date, and manner of his arrival in the United States; and the name, age, and address of his dependents, if any. If the applicant has received assistance from a public or charitable institution or association, the application shall show the name and address of such institution or association and shall be accompanied by a certificate of the accredited representative thereof indicating the nature and extent of the aid furnished to the alien. If the alien has not received public aid, the application shall show the financial conditions which cause him to need public aid. Any other information called for by the application form shall be furnished. The applicant shall be notified when and where to appear for examination upon the merits of his application.

§ 157.3 *Application for removal; examination and investigation.* The examining officer shall orally review the application with the applicant, or in the case of a child under the age of 18 years with the parent or guardian, before administering the oath. Any necessary changes in the application shall be consecutively numbered and acknowledged in writing by the applicant or the parent or guardian. The applicant or the parent or guardian shall then be questioned under oath by the examining officer for the purpose of identification and of de-

termining whether the applicant is eligible to be removed from the United States as provided in § 157.1. If such action is deemed necessary, additional investigation shall be made. During the examination the applicant shall be informed that if he is removed from the United States, he will forever be ineligible for readmission except upon the approval of the Secretary of State and the Attorney General. Such notification by the examining officer and the applicant's response shall be incorporated verbatim in the record. If the applicant is suffering from any mental or serious physical disability, a medical certificate shall be obtained showing (a) whether the applicant is in condition to be removed from the United States without danger to life or health and (b) whether he will require special care and attention in case of removal overseas.

§ 157.4 *Record; recommendation; review.* Upon completion of the examination and investigation, the examining officer shall prepare a report of his findings on Form I–273 (Report of Examining Officer in Removal Proceedings), together with his recommendation and any comment he may deem necessary. The record and the findings and recommendation of the examining officer shall then be forwarded to the district director. The district director or an officer designated by him shall review the record and shall add his recommendation on the Form I–273. If such review leads to a different recommendation from that of the examining officer, the reasons shall be stated in writing. The entire record shall then be submitted to the Central Office.

§ 157.5 *Final disposition.* If the Commissioner or officer designated by him is satisfied after review of the record that the applicant is eligible to be removed from the United States as provided in § 157.1, an order for removal will be entered. Authorization for the applicant's removal shall be issued by the Commissioner or a designated officer in the Central Office on Form I–202 (Authorization for Removal). Upon the issuance of the authorization for removal or as soon thereafter as practicable, the applicant may be removed from the United States at Government expense.

§ 157.6 *Application for readmission; form and contents.* An alien removed from the United States after May 13, 1937, is ineligible for readmission except upon the approval of the Secretary of State and the Attorney General. Application for permission to apply for readmission after removal may be made at any time after the alien's departure. The application shall be made by letter addressed to the Secretary of State and the Attorney General, shall be prepared in triplicate, and shall show the name of the alien; the date and place of his birth; the date of removal from the United States; the address in the United States at the time of removal; the port through which removed; country to which removed; the purpose in applying for readmission to the United States; the alien's financial resources and proposed manner of support in the United States; and the port through which the alien proposes to reenter the United States. The application shall be accompanied by documentary evidence in substantiation of the alien's allegations as to his financial resources and proposed manner of support in the United States.

§ 157.7 *Application for readmission; delivery; validity of approved application for subsequent entries.* The application for readmission described in § 157.6 shall, wherever practicable, be delivered to the American consul to whom the alien desires to apply for a visa. If delivery cannot be made to the American consul or no visa is required, the application may be mailed direct to the Commissioner of Immigration and Naturalization or mailed to the immigration officer in charge at the proposed port of entry for transmittal to the Commissioner. A parent or legal guardian shall make application on behalf of a child under 18 years of age. If the Secretary of State and the Attorney General approve the application, the alien's eligibility for readmission on any number of occasions thereafter will not be affected by the prior removal.

§ 160.2 *Liability for bringing certain aliens afflicted otherwise than as described in § 160.1* In the case of an alien afflicted with any mental defect other than those specifically named in section 9 of the Immigration Act of 1917, as amended by the Immigration Act of 1924 (43 Stat. 166; 8 U. S. C. 145), or physical defect of a nature which may affect ability to earn a living, when certified as in § 160.1, the vessel or transportation agency shall pay to the collector of customs (under notice of intention to fine) $250 for each of said aliens and in addition a sum equal to that paid by such alien for his transportation from the initial point of departure, indicated in his ticket, to the port of arrival.

§ 160.3 *Liability for diseased seamen on passenger-carrying vessels.* Whenever the medical examiner certifies that an alien seaman found employed on board any vessel carrying passengers between a port of the United States and a port of a foreign country is afflicted with any of the diseases or disabilities mentioned in section 35 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 169), such vessel or transportation agency shall pay to the collector of customs (under notice of intention to fine) $50 for each such seaman.

§ 160.4 *Liability for bringing illiterate or barred-zone aliens.* Where aliens excluded as illiterate or as natives of that portion of the continent of Asia and the islands adjacent thereto described in section 3 of the Immigration Act of 1917 (39 Stat. 875; 8 U. S. C. 136), are brought to the United States in violation of section 9 of said act as amended by the Immigration Act of 1924 (43 Stat. 166; 8 U. S. C. 145), the vessel or transportation agency bringing them shall pay to the collector of customs (under notice of intention to fine) $1,000 for each of such aliens and in addition a sum equal to that paid by such alien for his transportation from the initial point of departure, indicated in his ticket, to the port of arrival.

§ 160.5 *Liability for bringing solicited aliens.* When aliens have been brought to the United States after having been solicited, invited, or encouraged to come in violation of section 7 of the Immigration Act of 1917 (39 Stat. 879; 8 U. S. C. 143), the vessel or transportation agency bringing them shall pay to the collector of customs (under notice of intention to fine) $400 for each and every such violation.

§ 160.6 *Liability for failure to supply manifest.* Where the master or commanding officer of a vessel bringing aliens into or carrying aliens out of the United States refuses or fails, in violation of section 14 of the Immigration Act of 1917 (39 Stat. 884; 8 U. S. C. 150), to deliver the accurate and full manifests or statements or information, required by section 12 of the Immigration Act of 1917 (39 Stat. 882; 8 U. S. C. 148), regarding aliens brought into or carried out of the United States, such masters or commanding officers shall pay to the collector of customs (under notice of intention to fine) $10 for each alien concerning whom proper manifest or statement or information is not furnished at the time of arrival with respect to incoming aliens and before the time of the departure of the vessel with respect to outgoing aliens, except that with respect to outgoing aliens such fine shall not be imposed in cases where such manifest or statement or information is delivered after the departure of the vessel and within the time and under the conditions prescribed in § 107.11 of this chapter. The notice of intention to fine required by this section shall be served on the master or commanding officer or person authorized by the master or commanding officer to receive such notice.

CROSS REFERENCE: For information regarding form and preparation of manifests, see Part 107 of this chapter.

§ 160.7 *Liability to meet specified expenses.* Whenever a vessel or transportation agency fails or refuses to defray any of the expenses specified in section 15 of the Immigration Act of 1917 (39 Stat. 885, 58 Stat. 816; 8 U. S. C. 151), such vessel or transportation agency shall pay to the collector of customs (under notice of intention to fine) $300 for each and every violation of said section.

§ 160.8 *Liability for failure to receive and deport excluded alien; accepting security for return expenses; bringing alien previously excluded or deported.* Whenever there has been any refusal or failure by any master, purser, person in charge, agent, owner, or consignee of the kind specified in section 18, Immigration Act of 1917 (39 Stat. 887, 45 Stat. 1551, 58 Stat. 816; 8 U. S. C. 154), or any such person has made any charge or taken any security covering return expenses of an alien, or taken any consideration to be returned in case alien is landed, or knowingly brought to the United States in violation of said section, (a) any alien excluded and deported within a year previously, unless said alien has received from the Attorney General permission to reapply, (b) any alien arrested and ordered deported who thereafter has been deported in pursuance of law or has left the United States, unless such alien was arrested and deported prior to March 4, 1929, and in whose case prior to his reembarkation at a place outside the United States, or his application in foreign contiguous territory for admission to the United States, and prior to March 4, 1929, the Attorney General has granted such alien permission to apply for readmission, such master, purser, person in charge, agent, owner, or consignee shall pay to the collector of customs (under notice of intention to fine) $300 for each and every violation of any provision of said section. For the purposes of this part, whenever applicable, the Philippine Islands shall be considered to be foreign country.

§ 160.9 *Liability for failure to deport alien as directed.* Whenever any master, agent, owner, or consignee of any vessel fails or refuses to take on board, guard safely, and transport to specified destination (in violation of section 20 of the Immigration Act of 1917 (39 Stat. 890, 57 Stat. 553; 8 U. S. C. 156)), any alien presented for deportation, such master, owner, or consignee shall pay to the collector of customs (under notice of intention to fine) $300 for each and every violation of any provision of said section.

§ 160.10 *Liability for bringing immigrant without proper visa.* Where an alien is brought to the United States in violation of section 16 (a) of the Immigration Act of 1924 (43 Stat. 163; 8 U. S. C. 216 (a)), the vessel or transportation agency shall pay to the collector of customs (under notice of intention to fine) $1,000 for each immigrant so brought and, in addition, a sum equal to that paid by such alien for his transportation from the initial point of departure, indicated in his ticket, to the port of arrival: *Provided*, That such sums shall not be assessed or required for bringing into the United States any alien, if such alien holds an unexpired visa issued by a United States consul within 60 days of the alien's foreign embarkation.

§ 160.11 *Liability for failure to report desertion or landing or furnish required list of seamen.* Where the owner, agent, consignee, or master fails to report cases of desertion or landing or to deliver the lists required by section 36 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 171), such owner, agent, consignee, or master shall pay to the collector of customs (under notice of intention to fine) $10 for each alien concerning whom correct lists are not delivered or true report made as required by said section.

§ 160.12 *Liability for failure to detain or deport seamen.* The owner, charterer, agent, or consignee of a vessel who fails to detain on board any alien seaman until such seaman has been inspected, or fails to detain such seaman on board after such inspection, or deport when required to do so by the proper immigration officer or the Attorney General, as provided in section 20 (a) of the Immigration Act of 1924, as amended (43 Stat. 164, 58 Stat. 817; 8 U. S. C. 167 (a)), shall pay to the collector of customs (under notice of intention to fine), $1,000 for each alien seaman in respect of whom such failure occurs. Any such penalty in the case of a violation occurring subsequent to June 5, 1940, may upon application in writing therefor, be mitigated by the Attorney General to not less than $200 for each seaman involved, upon such terms as the Attorney General in his discretion shall think proper.

§ 160.13 *Notice of intention to fine for failure to detain seamen pending inspection; time for opposition; clearance of vessel.* When the ascertained facts indicate that the owner, charterer, agent, consignee, or master of the vessel arriving in the United States from any place outside thereof has failed to detain on board such vessel all alien seamen employed thereon pending the inspection and examination of such alien seamen by the proper immigration and naturalization official, including the muster of all aliens employed thereon, as required by the proper immigration and naturalization official, notice to the effect that the ascertained facts indicate that a fine should be imposed under section 20 of the Immigration Act of 1924 (43 Stat. 164, 58 Stat. 817; 8 U. S. C. 167) shall be served promptly upon the owner, charterer, agent, consignee, or master of the vessel and that he will be allowed 60 days from the date of service of the notice within which to submit evidence and be heard in reference to the matter. In the meantime the vessel involved, which is the subject of fine proceedings, will be granted clearance papers if there be deposited with the collector of customs, prior to the time of sailing, a sum equal to the fine specified in the said notice, or, where permitted by the act of May 26, 1924, a bond with sufficient surety approved by the collector of customs, as security for the payment of the fine in the event it should be imposed.

§ 160.14 *Notice of intention to fine for failure to detain and deport seamen, if required, after inspection; time for opposition; clearance of vessel.* When the ascertained facts indicate that the owner, charterer, agent, consignee, or master of any vessel arriving in the United States from any place outside thereof has failed or refused to detain or deport any alien seaman as required by the proper immigration officer, the immigration and naturalization official in charge shall forthwith serve or cause to be served upon such owner, charterer, agent, consignee, or master a notice in writing to the effect that the ascertained facts indicate that the fine provided for by section 20 of the Immigration Act of 1924 (43 Stat. 164, 58 Stat. 817; 8 U. S. C. 167) should be imposed for each alien in respect of whom such failure or refusal occurs; and that he will be allowed 60 days from the date of service of the notice within which to submit evidence and be heard in reference to the matter. In every case this notice shall be served upon the same party as was the notice to detain or deport. In the meantime the vessel involved, which is the subject of fine proceedings, will be granted clearance papers if there be deposited with the collector of customs, prior to the time of sailing, a sum equal to the fine specified in the said notice, or, where permitted by the act of May 26, 1924, a bond with sufficient surety approved by the collector of customs, as security for the payment of the fine in the event it should be imposed.

§ 160.15 *Notice of intention to fine in cases other than under §§ 160.6, 160.13, 160.14; time for opposition; clearance of vessel.* When the facts indicate that a fine should be imposed in cases other than those stated in § 160.6, § 160.13, or § 160.14 the immigration and naturalization officer in charge shall serve promptly upon the owner, charterer, agent, consignee, or master of the vessel a notice to the effect that the ascertained facts

indicate that a fine should be imposed under the section of law involved in the particular case; that he will be allowed 60 days from the date of service of the notice within which to submit evidence and be heard in reference to the matter. In the meantime the vessel involved, which is the subject of fine proceedings, will be granted clearance papers if there be deposited with the collector of customs, prior to the time of sailing, a sum equal to the fine specified in the said notice, or, where permitted by the Immigration Act of 1924 (43 Stat. 153), a bond with sufficient surety approved by the collector of customs, as security for the payment of the fine in the event it should be imposed; also, in cases arising under section 9 of the Immigration Act of 1917, as amended by the Immigration Act of 1924 (43 Stat. 166; 8 U. S. C. 145), or under section 16 of the Immigration Act of 1924 (43 Stat. 163, 58 Stat. 817; 8 U. S. C. 216), an additional sum equal to that paid by the alien involved for his transportation to this country from the initial point of departure, such additional sum to be held by the collector of customs as a special deposit and to be delivered to the deported alien through the American consul, if fine is imposed. When such alien is accompanied by another alien who is excluded from admission, a further sum equal to that paid by such accompanying alien for his transportation to this country from the initial point of departure shall be deposited with the collector of customs and delivered to the accompanying alien when deportation is effected.

§ 160.16 *Notice of intention to fine; procedure.* Notices prescribed in §§ 160.13–160.15 shall be prepared in quadruplicate. The original shall be served on the master, agent, owner, or consignee of the vessel by (a) delivering it to him in person, or (b) leaving it at his office, or (c) mailing it to him, whenever the immigration and naturalization officer in charge finds the other methods of service inconvenient. When service is made by delivery it shall be admitted in writing upon the duplicate and triplicate and the admission witnessed by the server. If admission be refused, or, in case of service by either of the other methods, the server shall note the method and date of service on the duplicate and triplicate. The duplicate shall be retained by the immigration and naturalization officer in charge. The triplicate shall be delivered to the collector of customs for the district wherein the port of arrival is located, who shall withhold clearance papers until deposit is made or bond furnished as required in §§ 160.13–160.15. The quadruplicate shall be forwarded to the Central Office when the matter of fine is presented for departmental consideration.

§ 160.17 *Hearings; submission of evidence and report.* If, within 60 days after service of the notice of liability (Form I–79), the party against whom proceedings have been instituted under this part demands that he be heard in reference to the matter or if at any time the Commissioner or the Board of Immigration Appeals so directs, the party shall be given an opportunity to be heard by an immigrant inspector for the purpose of presenting evidence concerning the alleged violation and, where the particular section of law provides for mitigation or remission of penalty, evidence of any mitigating circumstances. The party may be represented by counsel at the hearing. All evidence pertinent to the case, including the testimony of any witnesses, shall be incorporated into the record of hearing. Regardless of whether a hearing is accorded, the record in every case shall consist of evidence which is pertinent and which is to be considered by the Commissioner or, on appeal, the Board of Immigration Appeals in determining the case in behalf of the Attorney General. In every case the record should include such items as the medical certificate, if any; a copy of any record of hearing before a board of special inquiry where facts pertaining to liability for fine were developed as required by § 130.3 of this chapter; a copy of the notice of liability for fine (Form I–79); the evidence upon which such notice was based; the original duplicates of any notices to deliver, detain on board, or remove aliens (Form I–259); evidence as to whether any deposit was made or bond furnished in accordance with the requirements of this part; reports of any investigations conducted; the original of any protest or brief filed; and the application or evidence described in § 160.18 where that section is applicable. The complete record, with the recommendations and reasons therefor of the officer in charge of the port as to whether the fine should be imposed, as to whether any refund should be made, and as to whether any application, which has been filed, for mitigation or remission should be granted, shall be forwarded to the Commissioner either as soon as it is known that the proceeding will not be contested or, in any event, not later than 60 days after service of notice of liability or at the expiration of any authorized extension of that period. If no hearing has been accorded, only the original of the complete record shall be forwarded to the Commissioner, but if a hearing has been accorded, the original and a copy shall be forwarded.

§ 160.18 *Mitigation or remission of fines*—(a) *Mentally afflicted or diseased alien seamen.* The fine prescribed by section 35 of the Immigration Act of 1917 (39 Stat. 896; 8 U. S. C. 169) for bringing to United States ports as employees of vessels aliens afflicted with idiocy, imbecility, insanity, epilepsy, tuberculosis in any form, or a loathsome or dangerous contagious disease may be mitigated or remitted only upon a clear and convincing showing to the effect that the imposition of the full penalty or of any part thereof would be unjust or inequitable under the circumstances of the particular case, including the submission of satisfactory evidence that the seamen were subjected to a competent medical examination before being signed on as members of the crew. Any application for such mitigation or remission shall be submitted in triplicate to the officer in charge at the port where the violation is alleged to have occurred and he shall forward the original and duplicate to the Commissioner.

(b) *Seamen not detained on board or deported.* The fine prescribed by section 20 (a) of the Immigration Act of 1924, as amended (43 Stat. 164, 58 Stat. 817; 8 U. S. C. and Sup. 167 (a)), for failure to detain a seaman on board until inspection or for failure after inspection to carry out any order to detain and deport, may be mitigated in the discretion of the Attorney General. An application for such mitigation shall be submitted in triplicate to the officer in charge at the port where the violation is alleged to have occurred and he shall forward the original and duplicate to the Commissioner. Such application shall include information as to what diligence was exercised in detaining the seaman in compliance with the requirements of said section 20 (a) and what efforts were made to apprehend and return him to the vessel, and any other information pertinent to a showing that imposition of the full penalty would be unjust or inequitable. The application may be submitted in conjunction with a protest. After a final order as to liability for fine has been entered, any application solely for mitigation shall be decided by the Commissioner.

(c) *Time limitation.* An application for mitigation may be filed in conjunction with an appeal but an application for mitigation shall not in itself be regarded as an appeal. With respect to violations occurring on or after February 1, 1946, any application for mitigation shall be made within a reasonable time not to exceed 90 days after notice of decision has been furnished in accordance with § 160.19.

(d) *Form.* All applications for mitigation shall be in writing and, when based upon assertions of fact, shall be supported by the unqualified affidavit of the applicant. If, however, any assertions of fact are made solely upon information and belief, the application shall be supported by the affidavit of the applicant to the effect that the allegations in the application are true and correct to the best of his knowledge, information, and belief, and the application shall be accompanied by such supporting evidence as is available to the applicant.

§ 160.19 *Notice of decisions; appeal from Commissioner's order.* The Commissioner shall furnish notice of the decision in all cases to the appropriate field office, and shall, in accordance with § 90.9 of this chapter, serve a copy of his decision and order upon the party against whom the proceedings were instituted or his counsel or representative. The field office shall inform the collector of customs promptly in the event no penalty is imposed, and in all other cases upon the disposition of any appeal, or at the expiration of the time in which an appeal may be entered. The responsibility for such action as may be appropriate in carrying out the provisions of the decision lies with the collector of customs.

PART 163—SUBPENAING WITNESSES

Sec.
163.1 Subpena; authority for; when exercised.
163.2 Issuance and service of subpena; invoking aid of court; report.
163.3 Expenses of subpenaed witnesses; reports.

AUTHORITY: §§ 163.1 to 163.3, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 163.1 to 163.3, inclusive, interpret and apply sec. 16, 39 Stat. 885; 8 U. S. C. 152.

§ 163.1 *Subpena; authority for; when exercised.* District directors and inspectors in charge are authorized to subpena witnesses and require the production of books, papers, and documents touching the right of any alien to enter, reenter, reside in, or pass through the United States, and to that end they may invoke the aid of any court of the United States. The power to issue subpenas should be exercised only when absolutely necessary. Whenever an inspector conducting an investigation or a board of special inquiry holding a hearing has reason to believe that a certain witness whose testimony is deemed essential to a proper decision of the case will not appear and testify or produce books, papers, and documents unless commanded to do so, such inspector or the chairman of such board shall request the district director or inspector in charge to issue a subpena and have it served upon such witness. If an alien or his authorized representative requests that a witness be subpenaed, he shall be required, as a condition precedent to the granting of the request, to state in writing what he expects to prove by such witness or the books, papers, and documents indicated by him and to show affirmatively that the proposed evidence is relevant and material and that he has made diligent efforts without success to produce the same. The examination of the witness or of the books, papers, and documents produced by him shall be limited to the purpose specified in such written statement of the alien or his authorized representative. When a witness has been examined by the investigating officer and counsel has not had an opportunity to cross-examine such witness and it is apparent or is shown that such witness will not appear for cross-examination unless commanded to do so, a subpena shall issue.

§ 163.2 *Issuance and service of subpena; invoking aid of court; report.* Upon determining that a witness whose evidence is desired either by the Government or the alien will not appear and testify or produce written evidence unless commanded to do so, the district director or inspector in charge shall issue a subpena and have it served upon the witness by an immigration officer or employee, in conformity with this part, due record of such service to be made. If the witness neglects or refuses to respond to the subpena, the United States attorney of the proper district shall be requested so to report to the appropriate district court, and move that an order be issued requiring the witness to appear or to produce written evidence, as provided by section 16 of Immigration Act of 1917 (39 Stat. 885; 8 U. S. C. 152), or for action as therein specified in the event of continued neglect or refusal. District directors or inspectors in charge shall submit promptly to the Central Office a report of each subpena issued under the terms of this part.

§ 163.3 *Expenses of subpenaed witnesses; reports.* If a witness subpenaed at the request of the alien or his representative demands that he be recompensed for time lost from his employment, arrangements therefor must be made by the alien or his representative as a condition precedent to the issuance of the subpena. If a subpena is issued under authority of section 16 of the Immigration Act of 1917 (39 Stat. 885; 8 U. S. C. 152), at the request of an inspector or the chairman of a board, mileage and fees may be paid at rates not to exceed those usually allowed by the United States district court for the district in which the testimony is taken. Where the total amount of mileage and fees exceeds $25, specific authority must be obtained in advance from the Central Office.

§ 164.1 *Qualifications.* Any alien who is a lawful permanent resident of the United States and who is about to depart temporarily therefrom may make application for a permit to reenter the United States.

CROSS REFERENCE: For resident alien's border crossing identification card, see §§ 166.1–166.6 of this chapter.

§ 164.2 *Application; form; fee.* The application for a permit to reenter the United States shall be made, under oath, on Form I–131, which may be obtained from any office of the Immigration and Naturalization Service, and should be submitted at least 30 days before the proposed date of departure, to the Commissioner of Immigration and Naturalization or to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. A separate application must be made for each applicant. A parent or guardian may file an application in behalf of a child who is under the age of 14 years. Each application shall be accompanied by the statutory fee of $3, remitted as prescribed in § 60.30 (b) of this chapter. Each application shall also be accompanied by two photographs of the applicant, which shall meet the specifications in § 364.1 of this chapter. The application shall include—(a) name currently used; (b) time, place, and manner of last recorded arrival in the United States; (c) name used at time of entry; (d) father's name and mother's maiden name; (e) age, marital status, and occupation at time of entry; (f) place and date of birth; (g) last permanent residence and name and address of nearest relative in country whence alien came; (h) name and address of person to whom destined at time of last entry; (i) personal description as of date of filing application; (j) by whom accompanied at time of last entry; (k) address in the United States, and what temporary address abroad will be; (l) marital status at the date of filing application, and if married the name and address of husband or wife; (m) nature of business or employment and name of employer; (n) port and date of proposed departure, name of vessel on which sailing, length of proposed absence, and reasons for going abroad.

§ 164.3 *Action on application.* (a) An application accepted by a field office shall be examined as to execution. If the application is improperly executed, it may be returned to the applicant with instructions. If there is doubt as to the applicant's qualifications, the applicant may be interviewed. A written question-and-answer statement may be taken. The examining officer shall endorse the application to show whether any such interview or the examination of the application disclosed ground for denial. The application shall be forwarded to the Commissioner with the fee, photographs, and any statements taken. At the same time, in cases where the applicant's entry to the United States is not recorded in the Central Office, a verification of such entry shall be forwarded, or caused to be forwarded by use of Form I–423, to the Commissioner.

(b) An application accepted by the Commissioner shall be examined as to execution and as to the applicant's qualifications. Verification of the applicant's entry to the United States shall be made. If the application is improperly executed, it may be returned to the applicant with instructions. If there is doubt as to the applicant's qualifications, the application may be forwarded to the appropriate field office for interview of the applicant.

(c) Any claim made in addition to, or in substitution for, any of those contained in the original application must be made under oath and filed in the same manner as the original application and will be subject to the same interrogation and investigation as required for the original application.

§ 164.4 *Issuance; effect; delivery in United States.* (a) If the Commissioner of Immigration and Naturalization finds that the applicant has the qualifications specified in § 164.1 and that the application is made in good faith, he shall issue the permit and it shall be valid for the time therein specified, not to exceed one year. Such permit will, however, have no effect under the immigration laws except to show that the alien to whom it is issued is returning from a temporary visit abroad.

(b) The Commissioner shall forward the permit to reenter to the office designated by the applicant, and the appli-

cant shall secure it in person at such office prior to departure from the United States. Permits will not be delivered to one member of a family for another member or to one person for another. Before delivery of a permit is made, an immigrant inspector shall compare the photograph appearing thereon with the person calling for the permit and shall make delivery only upon satisfactory identification and where any minor discrepancies indicated by the Commissioner are satisfactorily explained. When a permit is delivered, the applicant shall sign it. All permits shall be endorsed, partly on the photograph and partly on the permit, by the officer making delivery. If it is concluded for any reason that the permit should not be delivered, it shall be returned to the Commissioner with a report of the facts.

(c) When an application for a permit to reenter the United States is denied, the fee shall be returned to the applicant.

§ 164.5 *Emergent cases; delivery outside United States.* Where the examining officer is satisfied at the time an application is submitted in person that an emergency exists which necessitates departure prior to the issuance of the permit, he shall require the foreign address of the applicant to be given in the application and shall affix a notation thereto concerning the nature of the emergency. Where such a request is made subsequent to the submission of the application, it shall be in the form of a sworn statement before an immigrant inspector setting forth the nature of the emergency and the foreign address to which it is desired the permit be mailed. The officer receiving the statement shall indicate thereon whether he is satisfied that an emergency exists and shall forward the statement to the Commissioner with a photograph of the applicant and with information as to the date on which the original application was mailed. In any emergent case, the Commissioner of Immigration and Naturalization may authorize the mailing of a permit to an applicant at a foreign address.

§ 164.6 *Extensions.* If the holder of a permit to reenter desires an extension thereof, he shall, prior to the expiration of the validity of such permit, file with the Commissioner of Immigration and Naturalization an application in writing stating (a) his name, and address in the United States; (b) when, where, and by what means he departed from the United States; (c) port of landing and date of arrival abroad; (d) countries visited in the order visited; (e) reason for requesting extension and period for which desired; and (f) applicant's foreign address to which permi is to be returned. The application should be executed under oath before an American consular officer. The application for extension shall be accompanied by the permit to reenter and by the statutory fee of $3, which shall be remitted as prescribed in § 60.30 (b) of this chapter and shall be payable in the United States in American money. If the application for extension is granted, such action shall be endorsed on the permit and the permit mailed to the applicant at his foreign address. If the extension is denied, the permit may be returned to the applicant if the remaining period of its validity permits of its use for return to the United States. On good cause, the validity of the permit to reenter may be extended for a period or periods not exceeding six months each. If an application for an extension is denied, the fee for the extension should be returned to the applicant.

§ 164.7 *Disposition at port of entry.* The action in disposing of an application for admission to the United States of an immigrant presenting a permit to reenter the United States shall be endorsed on the permit in the space provided thereon and the permit shall be transmitted to the Commissioner: *Provided*, That where final action results in the exclusion of the alien, a permit shall not be forwarded to the Commissioner until the deportation or return of the alien: *Provided*, That a permit surrendered at a support shall be forwarded directly to the Commissioner.

AUTHORITY: §§ 165.1 to 165.20, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. Statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

§ 165.1 *Petition for nonquota or preference quota immigration visa; requirements.* (a) Subject to the limitations described in paragraph (b) of this section, a citizen of the United States claiming that any immigrant is his relative and properly admissible to the United States as a nonquota immigrant, or that any immigrant is entitled to preference in the issuance of an immigration visa, shall, in order to establish such nonquota or preference status for such immigrant, file with the Commissioner of Immigration and Naturalization a typewritten petition in duplicate (Form I–133), alleging under oath (1) petitioner's name and address; (2) if a citizen by birth, date and place of birth; (3) if a naturalized citizen, date and place of admission to citizenship, name of court admitting him, and the number of the certificate of naturalization, if any; (4) name and address of petitioner's employer, length of time employed, nature and character of business or occupation, where located and net annual income derived therefrom; (5) if sole owner of unencumbered real estate, place located, and value; (6) petitioner's net worth; (7) degree of the relationship of the immigrant for whom petition is made, date and place of birth of such immigrant, and, if for a wife or husband, when, where, and by whom married; and (8) names of all the places where such immigrant has resided prior to and at the time when petition is filed: *Provided*, That where the petitioner alleges citizenship by birth a duly authenticated birth certificate or other documentary evidence showing birth in the United States shall be filed with the petition: *Provided further*, That where it is alleged that petitioner acquired citizenship through naturalization prior to the 27th day of September 1906, or in cases where naturalization has occurred within 90 days preceding the filing of the petition, certificate of naturalization shall be filed with the petition, and when a woman petitioner alleges citizenship through the naturalization of her husband prior to the marriage, a duly authenticated certificate of marriage or other documentary evidence showing when and where such marriage took place shall be filed with the petition: *And provided further*, That if the petitioner claims to have derived citizenship through his parent's naturalization or resumption of citizenship prior to 12 noon, e. s. t., May 24, 1934, documentary evidence of such naturalization or resumption during the petitioner's minority and of his entry into the United States prior to attaining majority shall be filed; and if petitioner claims that such citizenship was so derived after 12 noon, e. s. t., May 24, 1934, documentary evidence of facts bringing the case within section 2 of General Order 211, of August 2, 1934, shall be filed.

(b) No Chinese person as defined in section 5 (b) of the act of July 2, 1946 (60 Stat. 417; 8 U. S. C., Sup., 212c), is entitled to a nonquota or preference quota status solely because of his relationship to a citizen of the United States. A preference up to 75 per centum of the quota for the Chinese prescribed by section 2 of the act of December 17, 1943 (57 Stat. 601, 60 Stat. 975; 8 U. S. C., Sup., 212a), shall be given to Chinese persons born and resident in China. There are no other preferences in the issuance of immigration visas under the quota for the Chinese prescribed by section 2 of that act. An alien who is a Chinese person as defined in section 5 (b) of the act of July 2, 1946 (60 Stat. 417; 8 U. S. C., Sup., 212c), and who is seeking a preference in the issuance of an immigration visa under the said quota for the Chinese because of alleged birth and residence in China shall not be required to file an application for such preference with the Commissioner of Immigration and Naturalization but shall submit required proofs to the appropriate American consular officer. The quota for the Chinese authorized by section 2 of the act of December 17, 1943, does not affect the quota of 100 prescribed for China by the President's Proclamation No. 2283, of April 28 1938. Any citizen of the United States may proceed as described in paragraph (a) of this section in behalf of any relative, other than one who is a Chinese person as defined in section 5 (b) of the act of July 2, 1946 (60 Stat. 417; 8 U. S. C., Sup., 212c), who was born in China and is not ineligible to citizenship: *Provided*, That nothing in this section shall be construed to deprive a Chinese alien wife of a United States citizen of nonquota status which she may derive because of marriage to a United States citizen nor to prevent any citizen of the United States from proceeding in accordance with paragraph (a) of this section in behalf of a Chinese alien wife. (Sec. 9, 43 Stat. 157, 50 Stat. 164; 8 U. S. C. 209)

§ 165.2 *Nonquota or preference quota status; date of establishment; alteration of status.* The nonquota status of alien wives, husbands, and children of American citizens, under section 4 (a), or the preferential status of husbands and parents under section 6 (a) (1) (A) of the Immigration Act of 1924, as amended (43 Stat. 155, 45 Stat. 1009, 47 Stat. 656; 8 U. S. C. 204 (a), 206 (a)), will be established as of the date when a properly executed petition of the citizen is filed with the Immigration and Naturalization Service, except that when a petition for a preference status is approved while the beneficiary is in the United States, the priority to be accorded the alien will be adjusted at the time of his application for a visa to accord with the date of his departure from the United States, as determined by the consular officer. In all cases, however, nonquota or preference quota, the issuance of a visa will be withheld and approval of the petition may be revoked if it is ascertained that the petitioner has since lost his American citizenship, has died, or has become divorced from the beneficiary wife or husband; or, in the case of a child, if application for the visa is not made before reaching the age of 22 years, or if he has become married. In such cases report will be made by the consular officer in order that the Department may reconsider the approval theretofore granted. (Sec. 9, 43 Stat. 157, 50 Stat. 164; 8 U. S. C. 209)

§ 165.12 *Temporary stay in United States; extension; form of application and necessary data.* Applications to extend the time of temporary admission granted pursuant to the provisions of section 3 (2) of the Immigration Act of 1924 (43 Stat. 154; 8 U. S. C. 203), shall be made by the nonimmigrant alien under oath on Form I–539, and shall state the name, age, and occupation of the alien; whether married or single; and, if married, the name and present address of the husband or wife and children, if any; country of alien's birth; country of alien's present allegiance; place of residence abroad; number, date, and place of issue of passport visa; date passport expires; time, place, and manner of arrival in the United States; nonimmigrant class to which alien belongs as shown by passport visa; whether in possession of return passage or ticket; time originally fixed for departure from the United States; date and length of extensions previously granted, if any; residence in the United States; if visiting relatives or friends, names and addresses of such relatives or friends; if admitted for the transaction of business, the nature and character of such business; if employed, or engaged in business in the United States, when, where, and by whom employed, or the nature and character of the business engaged in and the monthly salary or income derived from such employment or business; and reasons in detail why the time fixed for alien's departure shall be extended: *Provided*, That a separate Form I–539 (application to extend time of temporary stay) shall be filed by each member of the family, with the exception that the father or mother may apply on the same form for children under 16 years of age, if such children were accompanied by the father or mother at time of entry. (Sec. 15, 43 Stat. 162, 47 Stat. 524, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 215)

§ 165.13 *Temporary stay in United States; extension; application; who may grant; conditions; limitations.* Applications to extend the time of temporary stay as provided for in § 165.12, shall be presented to the officer in charge at the port of arrival not less than 15 nor more than 30 days prior to the expiration of the time fixed for the departure of the alien from the United States, and where the officer in charge is satisfied clearly and beyond a doubt that the merits of the case are such that the applicant is entitled to remain longer in the United States, in pursuance of the purpose for which he originally entered, such application may be passed upon favorably without referring same to the district head. In no instance, however, shall the stay of an alien, admitted for a temporary visit, be extended by the officer in charge at the port of entry for a period in excess of one year from the date of original entry. Where the officer in charge concludes that the application should not be granted, or where the extension applied for is beyond the period of one year from the date of original entry, the application shall be forwarded to the district head for determination, the application to be accompanied by a statement of reasons for such reference. If the officer in charge is of the opinion that an extension should be granted but that the best interests of the Government require that a bond be given to insure maintenance of status, he shall refer such application to the district head with a statement of reasons. The district head shall pass upon all applications where the request involves a visit of more than one year but not more than two years from the date of entry, and he shall also pass upon all cases up to one year which are referred to him by inspectors in charge at the port of entry. He may require a bond in the sum of $500, requiring the applicant to maintain the status under which admitted and to voluntarily depart at the expiration of the time allowed. Where the district head concludes that the application should not be granted or the application is for a period in excess of two years from the original date of entry, he shall forward it to the Central Office for decision, with a statement of the reasons for his conclusion. Applications for extensions shall not be granted except in cases where the reasons given are persuasive and unless the applicant, if a passport would be required to accomplish deportation, is possessed of a passport valid 60 days after the expiration date of the requested extension. In no instance will an application be granted where an applicant, who has been admitted temporarily for business or pleasure, has taken up employment, or employment different from that for which admitted, or it is apparent that it is the applicant's desire to remain permanently in the United States. No extension beyond one year shall be granted a naturalized citizen of a country contiguous to the United States, unless he presents with the application a certificate from the consular representative of the country of which he is a citizen, indicating that he has registered with that consular representative for the purpose of retaining his citizenship. (Sec. 15, 43 Stat. 162, 47 Stat. 524, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 215)

§ 165.13a *Final authority of district directors to deny applications for extension of stay filed by aliens admitted for 29 days or less.* Notwithstanding the requirement in § 165.13 that certain cases be forwarded to the Central Office for decision, the district director shall have final authority to deny applications for extension of stay filed by aliens admitted to the United States for a period of 29 days or less under section 3 (2) or 3 (3) of the Immigration Act of 1924 (43 Stat. 154; 8 U. S. C. 203). Extensions of stay shall be granted to such aliens only in emergent or other extraordinary cases. (Sec. 15, 43 Stat. 162, 47 Stat. 524, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 215)

§ 165.14 *Visitors or tourists in United States; failure to maintain status.* Any alien admitted temporarily to the United States as a nonimmigrant under section 3 (2) of the Immigration Act of 1924 (43 Stat. 154; 8 U. S. C. 203) shall be considered as having failed to maintain his status as that term is used in section 15 of that act (47 Stat. 524; 8 U. S. C. 215) if after having been admitted as a tourist or visitor for pleasure he engaged in any business or occupation or employment, or if after having been admitted for business he engaged in any business or occupation or employment other than that given as a reason for his request for temporary admission. (Sec. 15, 43 Stat. 162, 47 Stat. 524, 54 Stat. 711, 59 Stat. 672; 8 U. S. C. and Sup., 215)

§ 165.20 *Verification of arrival of lawfully resident alien relative of applicant for visa.* In order that American consuls may be advised whether the husband, father, or mother of an alien applying for a visa under section 6 (a) (2) of the Immigration Act of 1924 (43 Stat. 155, 45 Stat. 1009; 8 U. S. C. 206), or any other relative of an applicant for a visa, has been lawfully admitted to the United States for permanent residence, a Form I–475 should be furnished to the husband, father, mother, or interested relative upon request therefor. The form should be filled out by such person and mailed to

the immigration and naturalization officer in charge at the port of his or her last entry, if arrival was before July 1, 1924, and to the Central Office, if arrival was after that date on an immigration visa or a reentry permit, or if arrival is based on a record of registry. The certification on the reverse of Form I–475 will be executed in every case where a record is found. A statement will be made under "Remarks" to show the character of the admission and any discrepancies observed between the statements in the Form I–475 and the facts shown by the record of admission. The Form I–475 will be mailed direct by the verifying office to the "Department of State, Washington, D. C." for transmittal to the appropriate American consul abroad. The date of verification and the consulate to which the form is to be sent should be noted on the record of admission. If no record of the alleged arrival can be found, the Form I–475 will be returned to the applicant with a statement to that effect, unless investigation is deemed necessary to determine the need for further action by the Service. In verifications made by ports of entry where the manifest record shows a permit number, a departure reference, a Central Office file number, or where the entry appears to be fraudulent, the request will be routed through the Central Office for checking and appropriate action.

AUTHORITY: §§ 166.1 to 166.15, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1. §§ 166.1 to 166.15, inclusive, interpret and apply sec. 30, 54 Stat. 673, 8 U. S. C. 451.

§ 166.1 *Resident alien's border crossing identification card; qualifications to obtain.* A resident alien's border crossing identification card may be issued to any alien who, upon application therefor, submits satisfactory evidence that he (a) has been legally admitted to the United States for permanent residence and has not relinquished the status of a permanent resident, (b) has complied with the applicable provisions of the Alien Registration Act, 1940, and (c) has a legitimate purpose and reasonable need to make a temporary visit or visits to Canada or Mexico, with no single visit to exceed a period of six months: *Provided, however,* That no such card shall be issued nor shall any such card previously issued be renewed unless the applicant or holder thereof is a person who is permitted to depart from the United States under the terms of laws, regulations, Executive orders, or other governmental restrictions regulating the departure of aliens from the United States in effect at the time application for such card or renewal thereof is made.

§ 166.2 *Resident alien's border crossing identification card; application.* Application for a resident alien's border crossing identification card shall be made, upon a form prescribed for that purpose, at any immigration and naturalization field office in the continental United States or Alaska. The applicant shall appear in person and, under oath or affirmation, shall execute his application, before an immigrant inspector, prior to his departure from the United States, except that an alien whose identification card has been lost or destroyed subsequent to his departure may execute an application for a card before an immigrant inspector when applying for admission to the United States if the outstanding identification card had not yet expired. The applicant shall furnish a photograph, size 2 by 2 inches, the distance from the top of head to point of chin to be approximately 1¼ inches, unmounted, printed on thin paper with a light background, clearly showing a full front view of the features of the applicant without hat, and it shall have been taken within 30 days of the date when it is furnished. Where because of unusual circumstances it would be a hardship for the applicant to obtain such photograph, the immigrant inspector considering the application may in his discretion waive the furnishing of the photograph.

§ 166.3 *Resident alien's border crossing identification card; issuance; validity.* If the applicant is found to have the qualifications enumerated in § 166.1, the identification card may be issued to him by an immigrant inspector. Entries on the card shall be made by typewriter, if practicable, or in ink, and the applicant shall sign the card in ink, either with his full name or by witnessed mark after proper identification. The applicant's photograph shall be fastened on the card unless the furnishing of the photograph was waived, in which case his right index finger print shall be placed on the card in lieu of his photograph. The card shall be valid for an initial period of not to exceed six months, and the expiration date shall be fixed accordingly and written on the card when it is issued. The identification card shall be delivered to the applicant on his personal appearance in the office where the application is filed, except that where justified by unusual circumstances the card may be delivered to him either before or after his departure from the United States through some other immigration and naturalization office or by mailing it to him.

§ 166.4 *Resident alien's border crossing identification card; use.* The rightful holder of a valid resident alien's border crossing identification card issued under § 166.3 may present that document in lieu of an immigration visa or reentry permit when applying for admission at any land, water, or air port of entry in the continental United States or Alaska as a returning legal resident after an absence from the United States of not more than six months, provided that during such absence he shall not have visited any foreign territory other than Canada or Mexico. The presentation of a resident alien's border crossing identification card shall not otherwise relieve the applicant from establishing that he is not subject to exclusion from the United States.

CROSS REFERENCE: For permits to enter and passports, see Part 175 of this chapter.

§ 166.5 *Resident alien's border crossing identification card; extension or revalidation.* On the request of the holder and with the limitations prescribed in this section, a resident alien's border crossing identification card, either before or after its expiration, may be made valid by an immigrant inspector at any office authorized under § 166.2 to accept applications, for an additional period or periods not exceeding six months each. Such a card may also be extended or revalidated at a United States immigration station in Canada, where the holder satisfactorily establishes that the card was valid when he departed from the United States, but such extension or revalidation shall be only to a date within six months after the date on which such departure occurred. An expired card may be revalidated if the holder applies for admission to the United States, is found to be otherwise admissible, and satisfactorily establishes that the card was valid when he departed from the United States and that he has not been absent from the United States for more than six months. Each additional period of validity shall commence on the date the extension of validity or revalidation is granted. No card shall be made valid unless the holder has the qualifications enumerated in § 166.1. No card issued before November 14, 1941, shall be extended or revalidated notwithstanding any extensions or revalidations thereof which may have been subsequently granted. Extension or revalidation shall preferably be granted by the original issuing office, but if that is not practicable, such action may be taken by any other authorized office. All extensions or revalidations granted shall be endorsed on the card and the issuing office notified of the action taken if the extension or revalidation was granted by an office other than the original issuing office.

§ 166.6 *Resident alien's border crossing identification card; cancellation.* All resident aliens' border crossing identification cards which were issued before November 14, 1941, are hereby canceled notwithstanding any extensions or revalidations which may have been subsequently granted, and when they come to the attention of officers of the Service, such cards shall be lifted from the holder and filed in the original issuing office. Any valid or expired resident alien's border crossing identification card which was issued on or after November 14, 1941, and which is found in the possession of an alien who does not have the qualifications enumerated in § 166.1 or who is making improper use of the card, shall be lifted from the holder and returned to the original issuing office for cancellation, together with a report of the reasons therefor: *Provided, however,* That no card shall be lifted and canceled if found in the possession of an alien applying for admission to the United States unless and until the holder has been excluded by a board of special inquiry.

§ 166.11 *Nonresident alien's border crossing identification card; qualifications to obtain.* A nonresident alien's border crossing identification card may be issued to any alien who, upon application therefor, submits satisfactory evidence that he (a) is a native-born citizen of Canada, domiciled or residing therein, or a British subject domiciled or residing in Canada or a native-born citizen of Mexico domiciled or residing therein, (b) is in possession of a valid passport or document in the nature of a passport duly issued to the holder by the appropriate authorities of the government of which he is a citizen or subject, if such a travel document be a requirement for entry, (c) desires temporary admission into the United States for a period or periods of not more than 29 days each, and (d) is admissible to the United States under the immigration laws: *Provided, however,* That no such card shall be issued unless the applicant is known or shown to be a person who has complied fully with all provisions applicable to him of laws, regulations, Executive orders, or other governmental restrictions regulating the entry of aliens to the United States in effect at the time application for such card is made: *Provided further,* That such card may be issued to an applicant who desires temporary admission into the United States for a period or periods of less than six months if such applicant is entitled under the provisions of §§ 175.48 (gg) and 176.107 (w) of this chapter to enter the United States for such period or periods.

§ 166.12 *Nonresident alien's border crossing identification card; application.* Application for a nonresident alien's border crossing identification card shall be made, upon a form prescribed for that purpose, at a United States immigration office located at any land, water, or air port of entry in the continental United States or Alaska or at any United States immigration station located in Canada. The applicant shall appear in person and, under oath or affirmation, shall execute his application before an immigrant inspector. The applicant shall furnish his photograph, prepared under the specifications prescribed for photographs in § 166.2, or the furnishing of the photograph may be waived under the conditions stated in § 166.2.

§ 166.13 *Nonresident alien's border crossing identification card; issuance; validity.* If the applicant is found to have the qualifications enumerated in § 166.11, the identification card shall be issued to him by an immigrant inspector. Entries on the card shall be made by typewriter, if practicable, or in ink, and the applicant shall sign the card in ink, either with his full name or by witnessed mark after proper identification. The applicant's photograph shall be fastened on the card unless the furnishing of the photograph was waived, in which case his right index finger print shall be placed on the card in lieu of his photograph. The card shall be valid for an unlimited time unless it is canceled as provided in § 166.15. The identification card shall be delivered to the applicant on his personal appearance in the office where the application is filed, except that where justified by unusual circumstances the card may be delivered to him by mail prior to his entry to the United States.

§ 166.14 *Nonresident alien's border crossing identification card; use.* The rightful holder of a nonresident alien's border crossing identification card issued under § 166.13, or by a United States diplomatic or consular officer, may present such card in lieu of a consular visa, if that document be required, when arriving direct from Canada or Mexico and applying for admission to the United States at any land, water, or air port of entry in the continental United States or Alaska. The presentation of a nonresident alien's border crossing identification card shall not otherwise relieve the applicant from establishing that he is not subject to exclusion from the United States.

CROSS REFERENCE: For permits to enter and passports, see Part 175 of this chapter.

§ 166.15 *Nonresident alien's border crossing identification card; cancellation.* All nonresident aliens' border crossing identification cards which were issued before November 14, 1941, are hereby canceled notwithstanding any extensions or revalidations which may have been subsequently granted, and when they come to the attention of officers of the Service, such cards shall be lifted from the holder and filed in the original issuing office. Any valid or expired nonresident alien's identification card which was issued on or after November 14, 1941, and which is found in the possession of an alien who does not have the qualifications enumerated in § 166.11 or who is making improper use of the card, shall be lifted from the holder and returned to the original issuing office for cancellation, together with a report of the reasons therefor: *Provided, however,* That no card shall be lifted and canceled if found in the possession of an alien applying for admission to the United States unless and until the holder has been excluded by a board of special inquiry.

§ 170.2 *Who are aliens required to register and be fingerprinted*—(a) *Definition of "alien."* An alien, as the term is used in this part, includes any person who is not a citizen of the United States.

(b) *United States citizenship, acquisition of.* United States citizenship is acquired by birth or naturalization, but a person who, being an alien, has applied for naturalization does not become a citizen until he has been finally admitted to citizenship as required by law.

(c) *Persons in doubt of alienage, to register.* Persons who may be in doubt as to whether they are aliens required to register and be fingerprinted may consult any representative of the Immigration and Naturalization Service. Any person who continues to remain in doubt as to his status should register. No person who registers shall thereby suffer any prejudice to his claim to citizenship.

§ 170.3 *Time and place of registration and fingerprinting.* (a) Registration shall commence on August 27, 1940. Any person in the United States on that date who is required to register and be fingerprinted, or to register, may do so at any time on or before December 26, 1940. All other persons required by law to register and be fingerprinted, or to register, shall do so in conformity with § 170.1.

(b) *Post Offices, first- or second-class designated, or any other place the Commissioner of Immigration and Naturalization may designate.* Any person in the United States required by law to register and be fingerprinted, or to register, may be registered and fingerprinted, or register:

The postmaster at such post office shall inform the alien (or his parent or guardian) of the location of the nearest designated registration office or offices. If the alien (or his parent or guardian) states that he will be unable to appear at such office or offices and requests that he be permitted to register and be fingerprinted, or register, at the post office customarily serving the area in which he resides, he shall be required to fill out and sign Form AR–13. The postmaster shall promptly forward such form, as so filled out and signed, to the nearest office of the Immigration and Naturalization Service and the registration officer at such office shall make arrangements to register and fingerprint, or register, the alien, or will request in writing that those functions be performed by a registration

officer more conveniently located to accomplish them.

(d) *Aliens, inmates of penal and eleemosynary institutions, aged, infirm or otherwise incapacitated; arrangements for.* The postmaster in each registration office, if requested in writing by the Immigration and Naturalization Service so to do, will make special arrangements for the registration and fingerprinting of alien inmates confined to penal and eleemosynary institutions within his registration area.

(e) *Special arrangements on request for fingerprinting.* The postmaster in each registration office, if requested in writing by the Immigration and Naturalization Service so to do, will make special arrangements for the registration and fingerprinting of aged, infirm, or otherwise incapacitated aliens within his registration area.

§ 170.4 *Method of registration—(a) Officers, postmasters, postal employees designated by postmasters and persons designated by the Commissioner of Immigration and Naturalization.* Any postmaster in a post office designated as a registration office, or postal employee designated by such a postmaster, or any immigrant inspector, naturalization examiner, special inspector, or Border Patrol inspector of the Immigration and Naturalization Service, or any other person heretofore or hereafter designated by the Commissioner of Immigration and Naturalization, shall be a registration officer, authorized to register and fingerprint aliens in accordance with the provisions of this part: *Provided, however,* That on and after January 1, 1943, no postmaster or other postal employee shall exercise or perform any of the functions or duties of a registration officer unless such postmaster or postal employee has first been requested in writing by an officer of the Immigration and Naturalization Service to perform such functions and duties in connection with the case of a particular alien, and the registration and fingerprinting of any alien by a postmaster or other postal employee in contravention of this proviso shall be invalid as a compliance with the provisions of Title III of the Alien Registration Act, 1940.

(b) *Certification of registration officers.* Any postmaster who shall designate any person as a registration officer shall certify that fact to the Immigration and Naturalization Service.

(c) *Forms for registration and fingerprinting.* Registration shall be made by each person required to register himself or another, upon Form AR–2 (the primary registration form) and Form AR–3 (the attached receipt) and, in appropriate cases, on Form AR–2a (for supplemental information, to be made a part of Form AR–2) and Form AR–4 (the fingerprint form); and the registration shall in all respects conform to these forms. However, if the alien required to be registered and fingerprinted is a seaman who was admitted to the United States as a nonimmigrant under the provisions of section 3 (5) of the Immigration Act of 1924, the provisions of this section and of §§ 170.5 and 170.6 are to be followed except where there are special provisions prescribed in § 170.8 for the registration and fingerprinting of such seamen.

(d) *Instructions for registration.* Specimen copies of the registration form (Form AR–1) including abbreviated instructions and suggestions for the alien (or his parent or guardian) shall be printed and placed in all post offices or registration offices and in such other places as may be deemed appropriate for general distribution; and, together with copies of these regulations, shall be posted at prominent places in the registration offices.

(e) *Duties of registration officers.* The registration officer shall fill in the registration forms with information furnished him by the alien (or his parent or guardian) and all fingerprints shall be taken by the registration officer.

(f) *Forms for fingerprinting.* The registration officer shall take the complete fingerprints of each alien who is required to be fingerprinted in the space provided for that purpose on Form AR–4, and shall take a single, specified fingerprint on Forms AR–2 and AR–3. A parent or guardian registering on behalf of an alien need not be fingerprinted.

(g) *Forms, signed and sworn to by registrant, or parent or guardian.* The registration forms (Forms AR–2, AR–3, and, if used, AR–4 and AR–2a) must be personally signed and sworn to (or affirmed) by the alien (or his parent or guardian) before a registration officer.

(h) *Registration forms may be signed by mark in presence of witness, if registrant is unable to write.* If the alien (or his parent or guardian) is unable to write, he must make his mark in the signature space in the registration forms, and his mark shall be witnessed by a witness other than the registration officer. The witness shall sign his name and address on the registration forms near the mark, and the words "witnessed by" shall precede the witness's signature.

(i) *Oath or affirmation to registration information required; duties of officers.* If the alien (or his parent or guardian) has conscientious scruples against taking an oath, he may make affirmation to the truth and completeness of his statements and answers in the registration.

(j) *Manner of taking oath or affirmation.* All registration officers are hereby authorized to administer to the alien (or his parent or guardian) the oath or affirmation required herein. The oath is to be taken by the alien (or his parent or guardian) raising his right hand and swearing to the truth and completeness of the statements and answers made by him in the registration. Affirmation may be made by the alien (or his parent or guardian) raising his right hand and declaring that he solemnly affirms the truth and completeness of the statements and answers made by him in the registration.

(k) *Registration of insane or incompetent aliens, persons responsible for.* Any alien who is insane or otherwise incompetent or of unsound mind may be registered by his legal guardian, trustee, or committee, or by such other person as may be charged by law with his care or custody. If no such person is available, then such an alien may be registered by whatever person is actually responsible for his care or custody. Any person registering in behalf of any insane alien shall answer to the best of his ability the questions required to be put to the alien, and shall swear (or affirm) that such alien to the best of his knowledge and belief is insane; but the alien himself, if fourteen years of age or older, shall be fingerprinted.

(l) *Information required for registration.* The following information shall be furnished by each alien fourteen years of age or older; in the case of a parent or guardian applying for the registration of an alien under fourteen years of age, the information stated to be required of the alien shall be furnished by such parent or guardian.

He shall also give the name under which he first arrived in the United States, as it was spelled at the time of arrival. The alien shall list all the names by which the alien has ever been known, either in the United States or outside, including the maiden name of a married woman, the original name or names of an adopted child, business or professional name, aliases and nicknames. If the alien is under fourteen years of age, then his mother's maiden name shall be listed. All names given by the alien shall be in the English alphabet.

He shall also state the city, town, or village (or nearest city, town, or village), the province and the country of his birth, as they existed at the time of birth. The alien shall name as the country of his birth the state or power which, at the time of his birth, exercised dominion and sovereignty over the place of his birth.

(4) *Country of which alien is a citizen or subject.* The alien shall name the country, if any, of which he is a citizen or subject, or to which he owes allegiance. If the alien is not a citizen of any country, he shall so state; he shall, in such a case, state the country of which he was last a citizen or subject, or to which he last owed allegiance.

(5) *Sex, race, marital status.* The alien shall state his sex, and marital status. If the alien is separated from his or her husband or wife, but not divorced, he shall be listed as married. The alien shall state the race to which he belongs. Persons of mixed blood shall not be considered members of the white race; they shall be considered as belonging to the racial stock other than white from which they may have sprung. Persons sprung from more than one racial stock other than white shall list themselves under "Other" as of mixed blood. Hindus shall be listed under "Other" as Hindus.

(6) *Height, weight, color of hair and eyes.* The alien, if fourteen years of age or older, shall state his height in feet and inches, his weight in pounds, and the color of his hair and eyes.

(7) *Place, date and port of last arrival in the United States.* The alien shall state the place and date of his last arrival in the United States. The alien shall state the port or other city or town at which he last arrived in the United States. If he did not arrive at any port, city, or town, he shall state the port, city, or town near which he last arrived in the United States. The alien shall not report as a last arrival any return from a visit of less than six months in Canada or Mexico. His return from a visit to any other place outside the United States shall be considered his last arrival. The alien shall also state the mode of transportation by which he last arrived in the United States. If the alien arrived by boat, he shall state the name of the vessel or ship. If the alien does not remember the vessel or ship, he shall state the name of the steamship company which transported him to the United States. The alien shall also indicate the manner in which he last arrived in the United States; that is, whether as a passenger, member of a crew, stowaway, or otherwise. The alien shall also state the immigration classification under which he last entered the United States; that is, whether he entered as a permanent resident, visitor, student, treaty merchant, seaman, official of a foreign government, employee of a foreign government official, or otherwise. The alien shall also state the date of his first arrival in the United States. A first arrival shall be defined as the earliest arrival following which the alien remained for six months or longer.

(8) *Length of residence in the United States.* The alien shall state the total number of years he has lived in the United States since his first arrival, as stated in subparagraph (7) of this paragraph, whether continuously or at different times. Visits of less than six months outside the United States shall not be deducted from the total period. Any period longer than six months which the alien has spent outside the United States shall be deducted. The alien shall also state whether he intends to stay in the United States permanently, and if not, how long he expects to stay.

(9) *Occupation, if fourteen years of age or older.* The alien, if fourteen years of age or older and not insane or incompetent, shall state his ordinary or usual occupation. This shall be defined as the trade, business, or profession by which the alien ordinarily earns his livelihood. He shall also state the trade, business, or profession in which he is at present engaged, even though it may differ from his usual occupation. The alien shall also state the name and address of the person, firm, or corporation by which he is employed, together with the business or industry in which said person, firm, or corporation is engaged. If the alien is himself engaged in some trade, business, or profession, he shall so indicate, and shall state his business address. In any case, including that of an insane or incompetent alien, where a parent, guardian, or other person registers in behalf of the alien, such parent, guardian, or other person shall give his own name, address, and business, and this information shall be recorded in the space reserved on Form AR–2 for statement of the name, address, and business of the alien's employer.

(10) *Activities, clubs, lodges, groups, organizations, or societies.* The alien, if fourteen years of age or older, shall state any activities in addition to his occupation in which he is, has been within the past five years, or intends to be engaged. The alien shall list the names of all clubs, lodges, groups, organizations, or societies to which he belongs or in which he participates. If the alien holds any office or official position in any of these clubs, lodges, groups, organizations, or societies, he shall so state.

(11) *Military, naval, or other service in armed forces of any country.* If an alien, fourteen years of age or older, has had military, naval, or other service in the armed forces of any country including the United States, and including the auxiliary arms of service, he shall state the name of the country or countries, the branch or branches of service, and the dates of enlistment and discharge. If he has engaged in military or naval activity, not actually in the armed forces of any government, he shall so state and indicate its nature.

(12) *Steps taken towards naturalization.* The alien, if eighteen years of age or older, shall state whether he has filed a preliminary naturalization form (N–300) for a declaration of intention to become a citizen, referred to in Forms AR–1 and AR–2 as an application for "first citizenship papers," and, if he has so filed, he shall state the date or dates of the filing of such preliminary form. If the alien's declaration of intention has been filed in a court (that is, if he has received his "first citizenship papers"), he shall state the date of filing of his declaration in court, the number, and the city or State where the declaration was filed. If the alien has filed a petition for naturalization in a court, he shall give the date, or dates, of such filing and the city and State where filed. If the alien has filed only a preliminary naturalization form (N–400) for such petition for naturalization, he shall so state in the space marked "filed petition for naturalization" by inserting the words "preliminary form for" so as to read "filed preliminary form for petition for naturalization," and shall give the date, or dates, of such filing and the city and State where filed. In the case of any alien under eighteen years of age, this information shall relate to either of the alien's parents who has taken any step to secure naturalization. If neither parent has taken any such step, it shall be so stated.

(13) *Relatives living in the United States.* The alien shall state whether he has one or both parents or a husband or wife living in the United States. He shall also state the number of his children, if any, living in the United States.

(14) *Criminal record in or outside the United States.* The alien, if fourteen years of age or older, shall state whether or not he has at any time been arrested, tried or convicted for any criminal offense, either in the United States or outside. An offense shall not be considered criminal unless made so by the law of the State or country where the alien was arrested, tried, or convicted. He shall state the nature of the offense, the date of arrest, the city, town or county, the State or country (if outside the United States) where he was arrested, tried, or convicted, and the disposition of the case.

(15) *Affiliations with political activities of foreign governments.* The alien, if fourteen years of age or older, shall state whether, during the past five years, he has been affiliated with or active in (a member of, official of, a worker for) organizations, devoted in whole or in part to influencing or furthering the political activities, public relations, or public policy of a foreign government. If the alien has been affiliated with or active in any such groups or organizations, he shall list them. If he holds an office or official position in any such group or organization, he shall so state. The registration officer shall not undertake to enumerate or define any such groups or organizations.

(m) *Alien to exhaust all possible sources of information.* Whenever an alien (or his parent or guardian) states that he is unable to supply any portion of the information required by Form AR–2, the registration officer shall ask the alien if he has exhausted all possible sources of information. If the alien answers that he has done so, the registration officer shall write "Don't know" in the space reserved for such information in Form AR–2.

(n) *Aliens who believe themselves not subject to registration.* If any person indicates to the registration officer that he does not believe himself subject to registration and fingerprinting, but that he is registering for his own protection, the registration officer shall so note on Form AR–2, after completing the registration. The notation shall be made on the margin of the form and shall be as follows: "Applicant doubts need for registration."

(o) *Signature and fingerprint of alien on Form AR–3.* After the alien shall have duly executed and sworn to (or affirmed) his registration, he shall sign Form AR–3 in the space provided for his signature, and shall place a single specified fingerprint thereon. In the case of an alien under fourteen years of age, the parent or guardian, after having executed and sworn to (or affirmed) the registration, shall sign Form AR–3; but such parent or guardian need not place his fingerprint thereon. In the case of an insane or incompetent alien, the guardian or other person registering in his behalf, after having executed and sworn to (or affirmed) the registration, shall sign Form AR–3; but the registration officer in such case shall take the alien's own fingerprint thereon.

(p) *Receipt of registration as evidence of registration, compliance with any and all laws necessary, no legal duty to carry receipt on person.* The Immigration and Naturalization Service shall, at the earliest practicable date, cause to be delivered to the alien (or his parent or

guardian) a receipt of registration (Form AR–3), which shall be evidence of registration. The issuance of such receipt shall not relieve the alien (or his parent or guardian) from full compliance with any and all laws and regulations of the United States now existing or hereafter made concerning aliens; nor shall it be construed to confer upon the alien (or his parent or guardian) immunity from any liability, pain, penalty, or punishment incurred by the alien (or his parent or guardian) for violation of any law of the United States either before or after its issuance. The alien is under no legal duty or obligation to carry said receipt on his person, and he shall suffer no penalty or disadvantage for failing to do so.

(c) *Lost receipts, affidavit under oath and proof thereof, duplicate receipt issued.* A receipt shall not be issued to any person who has already obtained one unless he surrenders his former receipt, except in case of loss, mutilation, or destruction of the original receipt in which event it may be replaced in accordance with § 170.9. No person shall use a receipt relating to any other person (except in behalf of his minor child or ward). If the alien dies, permanently departs, or is deported from the United States, his receipts shall be returned to the Immigration and Naturalization Service. If any person finds a lost receipt of registration, he shall return it to the Alien Registration Division, Immigration and Naturalization Service, Washington, D. C.

§ 170.5 *Disposition of registration forms and fingerprints.* (a) The registration forms and fingerprints shall be sent promptly by registration officers to the Immigration and Naturalization Service, Washington, D. C. If the registration and fingerprinting, or registration, was conducted by an employee of the Immigration and Naturalization Service, forms and fingerprints shall be forwarded through the district director of Immigration and Naturalization having jurisdiction over the place at which registration occurred. If the registration occurred in a post office on or after January 1, 1943, and the registration officer was a postmaster or other postal employee who performed the functions of a registration officer in the case of a particular alien at the written request of an officer of the Immigration and Naturalization Service, the forms and fingerprints shall be forwarded to the office of that Service which requested the registration and fingerprinting of the alien.

(b) *Registration and fingerprinting records secret and confidential.* All information furnished by the alien (or by his parent or guardian) in connection with registration and fingerprinting shall be secret and confidential and shall be made available only to such persons or agencies as may be designated by the Commissioner with the approval of the Attorney General. It shall be unlawful for any registration officer or any other person to divulge any such information to any person or agency not so designated.

§ 170.6 *Notice of change of residence and address of resident aliens within five days.* Whenever any registered alien who is a permanent resident in the United States shall change his place of residence, he (or, in the case of an alien under fourteen years of age, his parent or guardian) shall, within five days, report such change to the Immigration and Naturalization Service. A change of residence shall mean only a change of permanent dwelling place. The alien (or his parent or guardian) may report this information upon Form AR–11.

§ 170.7 *Aliens not permanently residing in the United States.* Any alien or the parent or guardian of any alien less than fourteen years of age who is not a permanent resident of the United States and who is required by law to register shall report to the Commissioner the alien's residence at the end of each period of three months' residence in the United States regardless of whether or not the alien has changed his residence. The alien (or his parent or guardian) may report this information on Form AR–11.

§ 170.8 *Registration and fingerprinting of alien seamen.* An alien seaman who was admitted to the United States as a nonimmigrant under the provisions of section 3 (5) of the Immigration Act of 1924 and who is required to be registered and fingerprinted because he has remained in the United States for thirty days or longer shall be registered and fingerprinted on Seaman Form AR–102–S (the primary registration form); Seaman Form AR–103–S (the attached receipt); in appropriate cases when necessary on Form AR–2a (for supplemental information, to be made a part of Seaman Form AR–102–S), and on Form AR–4 (the fingerprint form). The registration officer shall record on Form AR–102–S only the information required by Items 1, 3, 4, 5 (a), 5 (c), 6, and 13, which includes the name of the alien; the date and place of birth; the name of the country, if any, of which the alien is a citizen or subject, or to which he owes allegiance; the alien's sex and race; the alien's personal description; whether the alien has one or both parents or husband or wife or children living in the United States, except that if any such relatives or any other relatives of the alien are residing in the United States, their names, addresses and relationship shall also be listed in the spaces provided under Item 14 on the form. The registration officer shall take the fingerprints of the alien on Form AR–4 and the alien shall furnish all information required therein. The receipt of registration (Form AR–103–S) shall be plainly stamped "The holder of this card is not permitted to work ashore or on coastwise vessels." The receipts of registration issued on Form AR–103–S shall bear no time limitation with respect to validity. Such receipts shall be delivered to the seamen at the time of registration.

§ 170.9 *Replacement of lost, mutilated, or destroyed receipt of registration.* (a) Except as hereinafter provided, any alien whose registration receipt card has been lost, mutilated, or destroyed may apply for a new receipt card in lieu thereof. Such application shall be made under oath or affirmation, on a form prescribed for that purpose, and shall be submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter.

(b) When the application for a new receipt card is received by the district director, he shall assign the investigation of the application to any officer of the Service within his jurisdiction. The investigating officer shall conduct such inquiry into the circumstances surrounding the alleged loss, mutilation, or destruction of the original receipt card as to satisfy himself that such loss, mutilation, or destruction has occurred. If a receipt card has been mutilated, it must be surrendered to the investigating officer before a new card will be issued. The investigating officer shall also satisfy himself that the applicant is the individual to whom the registration record relates, and shall make any further inquiry justified by the facts in a particular case. If deemed advisable, written sworn statements concerning any pertinent facts may be obtained from the applicant and any other persons whose testimony should be secured. Upon completion of the investigation, the investigating officer shall recommend the granting or denial of the application for a new receipt card, and if his recommendation is adverse he shall state the reasons therefor in writing. The investigating officer shall obtain the applicant's signature and a print of his right index finger upon Form AR–3a and shall type on the face of that form the name and present address of the applicant. If for any reason the impression of the right index finger cannot be taken, the impression of another finger should be obtained and the form suitably endorsed to show which finger and hand.

(c) The investigating officer shall then forward the application and any testimony taken from the applicant and other persons, together with Form AR–3a, to the district director having jurisdiction. The district director or an officer designated by him shall review the record and may, if he deems it advisable, refer the case to the same or any other officer of the Service for further investigation. If no further investigation is considered necessary, the entire record shall be forwarded to the Alien Registration Division. The reviewing officer shall indicate whether he concurs with the recommendation of the investigating officer, and if not, he shall state the reasons for his nonconcurrence.

(d) Upon consideration of the application and record in the Central Office, the Chief of the Alien Registration Division may, if he is satisfied that the original receipt has been lost, mutilated, or destroyed, sign the Form AR–3a, place thereon the proper registration number, and mark the form to show that it is a duplicate issued in lieu of an original receipt which has been lost, mutilated, or destroyed. Both the original date of registration and the date of issuance of the duplicate shall be shown on the new card. If the said officer is not satisfied that a duplicate should be issued, he shall deny the application. If the record indicates that any further action is desirable or necessary in connection with the case of the alien, it should be referred to the appropriate division of the Central Office for consideration of such further action.

(e) If a duplicate receipt card on Form AR–3a is issued, it shall be sent direct to the applicant by the Alien Registration Division.

(f) Any alien child who was less than fourteen years of age at the time of his registration upon the basis of an application made by his parent or legal guardian under §§ 170.1 (c) or 170.1 (d) and who desires to obtain a new registration receipt card in lieu of a lost, mutilated, or destroyed original may, if the alien is less than fourteen years of age at the time application is made, obtain a new card through the procedure specified in paragraphs (a) to (e) of this section. In such cases, however, the application for a new card shall be executed by the child's parent or guardian, preferably the same person who made application for the original registration; the testimony of the parent or guardian instead of that of the child shall be obtained and the new Form AR–3a, if issued, shall be delivered to the parent or guardian. No fingerprint of the alien child need be obtained on Form AR–3a, which shall be signed by the parent or guardian. In any such case in which no parent or guardian is available, the matter shall be reported to the Alien Registration Division for special instructions concerning the procedure to be followed in replacing the original receipt card.

(g) An alien seaman who has been admitted to the United States as a nonimmigrant under the provisions of section 3 (5) of the Immigration Act of 1924, has remained for thirty days or more, has been registered and fingerprinted, and whose alien registration receipt card (Seaman Form AR–103–S) has been lost, destroyed, or mutilated, should be reregistered and given a new original receipt card. In such cases, any mutilated receipt card must be surrendered before another card is delivered.

Such application must be approved before a permit to enter is granted.

§ 175.57 *Entry not permitted in special cases.* (a) Any alien, even though in possession of a permit to enter, or exempted under §§ 175.41 to 175.63, inclusive, from obtaining a permit to enter, may be excluded temporarily if at the time he applies for admission at a port of entry it appears that he is or may be excludable under one of the categories set forth in § 175.53. The official excluding the alien shall immediately report the facts to the head of his department, who will communicate such report to the Secretary of State. Any alien so temporarily excluded by an official of the Department of Justice shall not be admitted and shall be excluded and deported unless the Attorney General, after consultation with the Secretary of State, is satisfied that the admission of the alien would not be prejudicial to the interests of the United States. Any alien so temporarily excluded by any other official shall not be admitted and shall be excluded and deported unless the Secretary of State is satisfied that the admission of the alien would not be prejudicial to the interests of the United States.

(b) In the case of an alien temporarily excluded by an official of the Department of Justice on the ground that he is, or may be excludable under one or more of the categories set forth in § 175.53, no hearing by a board of special inquiry shall be held until after the case is reported to the Attorney General and such a hearing is directed by the Attorney General or his representative. In any special case the alien may be denied a hearing before a board of special inquiry and an appeal from the decision of that board if the Attorney General determines that he is excludable under one of the categories set forth in § 175.53 on the basis of information of a confidential nature, the disclosure of which would be prejudicial to the public interest.

§ 175.58 *Additional requirements for officials of foreign governments.* In addition to all other requirements, any official, employee, or agent of a foreign government proceeding to the United States for permanent residence, or temporarily as a tourist, or on personal business or for pleasure, or proceeding through the United States to a foreign destination, must disclose in connection with his application for any required permit to enter, and in connection with his application for admission at a port of entry, his official governmental position, status, or connection. Failure to disclose his official position, status, or connection in making such application, or in obtaining a permit to enter, or obtaining entry by false or fraudulent statements, shall be punishable as a breach of §§ 175.41 to 175.63, inclusive.

§ 175.60 *Procedure for issuance of permits to enter.* Application for a document which is a permit to enter under §§ 175.41 to 175.63, inclusive, shall be made as provided by the rules and regulations applicable to the issuance of such a document and in accordance with the additional requirements provided in §§ 175.41 to 175.63, inclusive. With the exceptions specified in § 175.61 a permit-issuing authority may issue or refuse a permit to enter upon his own responsibility without requesting the Secretary of State to issue an advisory opinion or instruction recommending the issuance or refusal of the permit.

§ 175.61 *Cases requiring advisory opinions.* Aliens who are found by a permit-issuing authority to be ineligible to receive permits to enter may be refused such permits without an advisory opinion from the Secretary of State. No permit to enter shall be issued by a permit-issuing authority on the application of an alien without submitting such application to the Secretary of State (officers of the Immigration and Naturalization Service will refer applicable cases to the Attorney General) for an advisory opinion as provided in §§ 175.60 and 175.62, if the alien falls within one of the following classes:

(a) An alien in whose case the permit-issuing authority considers that there is sufficient doubt to require an advisory opinion as to whether the alien's admission into the United States would be prejudicial to the interests of the United States.

(b) An alien seaman who is applying for an immigration visa as a permit to enter. (Alien seamen whose names are included on a crew list submitted for visa should be considered in accordance with the regulations governing the issuance of crew-list visas.)

(c) An alien who at the time of his departure from the United States was a lawful permanent resident thereof, who departed without a reentry permit, who proceeded to a country outside of the Western Hemisphere, and who is applying for any kind of a permit to enter.

(d) An alien in whose case the permit-issuing authority knows or has reason to believe that an unfavorable opinion was previously formulated by the Secretary of State.

(e) An alien who (1) is coming to the United States as an official or employee of a foreign government, or who is a member of the family, an attendant, a servant, or an employee of a foreign government official, and who (2) is applying for an immigration visa as a permit to enter.

(f) An alien who at the time of his entry into the United States will be a member of the armed forces of a foreign country in whose case a permit to enter is required, and who is applying for an immigration visa as a permit to enter.

(g) An alien in whose case it appears that a permit to enter may be refused because of the applicant's inadmissibility under the general immigration laws, but in whose case there is sufficient doubt to warrant a request for an advisory opinion.

(h) An alien who is applying for a diplomatic or an official visa as a permit to enter as a nonimmigrant under section 3 (1), 3 (2), or 3 (3) of the Immigration Act of 1924, and who has an official status under the government of a country other than (1) an American Republic and (2) the government of a country with which the Department of State has concluded a reciprocal arrangement for the granting or refusal of such permits to enter without specific authorization in each individual case.

(i) An alien who was previously interned in the United States.

(j) An alien in whose case the Secretary of State shall have issued special instructions to the permit-issuing authority to request an advisory opinion.

§ 175.62 *Procedure in obtaining advisory opinions.* In requesting an advisory opinion from the Secretary of State, a permit-issuing authority shall furnish such information and follow such procedure as may be required by the Secretary of State from time to time.

§ 175.63 *Effective date.* Sections 175.41 to 175.63, inclusive, shall be considered as having become effective on the first day of the month of July 1945, and shall supersede the regulations issued on November 19, 1941, as amended (former §§ 175.41–175.58) and the regulations contained in 22 CFR 58.101–58.136.

(a) "The act" means the Immigration Act, approved May 26, 1924, as amended.

(b) "Alien" means an individual who is not a native-born or naturalized citizen of the United States, but this definition shall not be held to include citizens of the islands under the jurisdiction of the United States.

(c) "Immigrant" means an alien who is not classifiable within any of the nonimmigrant categories mentioned in section 3 of the act.

(d) "Nonimmigrant" means an alien who is classifiable within one or more of the categories mentioned in section 3 of the act.

(e) "Seaman" or "airman" means any alien whose occupation or calling as such is bona fide, and who is employed in any capacity on board any vessel or aircraft arriving in the United States from any place outside of the United States.

(f) "Passport" means a document of identity and nationality issued by the appropriate authorities of a recognized foreign government to which the bearer owes allegiance, identifying the bearer and stating his nationality or, in the case of an alien unable to obtain such a document, a travel document in the nature of a passport issued by a duly authorized official and showing the bearer's identity and nationality.

(g) "Crew-list visa" means the stamp and notations placed by a consular officer on a list of seamen or airmen who are members of the crew of a vessel or aircraft proceeding to the United States.

(h) "Consular officer" means an officer of the Foreign Service of the United States (except a consular agent), authorized to act in a consular capacity at a diplomatic or consular office, the Executive Secretary of the Panama Canal or a shipping commissioner in the Canal Zone, the Governors of Guam and American Samoa, or such officers subordinate to them as they may authorize to issue crew-list visas.

(l) "Government vessel" or "government aircraft" means a vessel or aircraft owned and operated, or merely operated, directly by the Government of the United States in the public business with government personnel and not operated on a commercial or profit basis, or a foreign flag vessel or foreign aircraft owned and operated, or merely operated, directly by a recognized foreign government in its public business and by official personnel, and not operated for what would ordinarily be regarded as commercial purposes or for profit. This definition does not include vessels or aircraft which are merely government-controlled or subsidized.

(m) "United States" means the States, the territories of Alaska and Hawaii, the District of Columbia, Puerto Rico, and the Virgin Islands.

(n) "Continental United States" means the territory of the several States, the District of Columbia, and Alaska.

§ 177.52 *Passports and visas required.* Before a seaman or an airman may be admitted into the United States for any purpose he must present a valid passport that is unexpired at the time of his admission and that bears his photograph, and a visa appropriate to his case, unless exempted from these requirements by the regulations in this part.

Exemptions from these requirements stated herein are under two headings: exemptions, immigrant (resident) seamen or airmen; and exemptions, nonimmigrant (nonresident) seamen or airmen.

§ 177.53 *Exemptions, immigrant (resident) seamen or airmen*—(a) *Passport and visa not required.* An alien seaman or airman who is a lawful permanent resident of the United States is not required to present a passport or a visa if arriving in the United States under the following circumstances:

(1) As a seaman or airman who is the holder of a resident alien's border-crossing identification card, and who is employed on vessels of United States, British, or Canadian registry, engaged solely in traffic on the Great Lakes and connecting waterways, or on aircraft traveling solely between the United States and Canada. (See § 176.202 (d) of this chapter.)

(2) As a passenger who is a shipwrecked or castaway seaman or airman rescued by, or transferred at sea to, a vessel or aircraft bound to a port in the United States.

(3) As a member of the crew of a vessel or aircraft who is in possession of a valid reentry permit.

(b) *Passport not required.* An alien seaman or airman who is a lawful permanent resident of the United States whose case does not fall within paragraph (a) of this section is not required to present a passport if arriving in the United States under the following circumstances:

(1) As a seaman or airman who has lost his passport, who is unable to obtain a replacement thereof, who is arriving as a member of the crew of a United States vessel or aircraft, or a United States-owned Panamanian flag vessel, and who presents evidence, when required, of having been examined for security by the United States Coast Guard: *Provided*, That this waiver of the passport requirement shall be valid only for a single entry of such seaman or airman, unless such waiver is extended by the Secretary of State.

(2) As a seaman or airman in whose case an individual waiver of the passport requirement has been granted by the Secretary of State, except that for a seaman or airman arriving at a port in the Virgin Islands, the Governor thereof may grant such waiver, and for a seaman or airman arriving at a port of the Canal Zone, the Governor thereof may grant such waiver: *Provided*, That such waivers may be granted only in cases of hardship in which the public security is not jeopardized.

(c) *Visa not required.* An alien seaman or airman who is a lawful permanent resident of the United States whose case does not fall within paragraph (a) of this section is not required to present a visa if arriving in the United States on a vessel or aircraft under the following circumstances:

(1) As a seaman or airman whose name is included in the visaed crew list of the vessel or aircraft upon which he arrives.

(2) As a passenger who was a member of the crew of a United States vessel or aircraft which has been sold and delivered abroad when the contract of employment provides for the return of the crew or the laws of the United States provide for their return to a port in the United States.

(3) As a passenger who is returning to the United States in accordance with the terms of the articles of the vessel or aircraft on which he formerly served.

(4) As an alien (American) seaman who is a consular passenger, or is repatriated after and in accordance with the terms of his discharge in a foreign port before a consular officer, but who, for any reason, cannot be considered as serving as a seaman on the vessel on which he arrives at a port in the United States. (See § 176.203 (a), (b), and (c) of this chapter.)

§ 177.54 *Exemptions, nonimmigrant (nonresident) seamen or airmen*—(a) *Passports and visas not required.* An alien nonresident seaman or airman is not required to present a passport or a visa if arriving in the United States under the following circumstances:

(1) As an airman employed on an aircraft proceeding from one place to another in foreign contiguous territory and landing temporarily in the United States under emergency conditions. (See § 176.107 (u) of this chapter.)

(2) As a seaman or airman who is the holder of a nonresident alien's border-crossing identification card, and who is employed on vessels of United States, British, or Canadian registry, engaged solely in traffic on the Great Lakes and connecting waterways, or on aircraft traveling solely between the United States and Canada. (See § 176.109 (b) of this chapter.)

(b) *Passports not required.* A nonresident seaman or airman whose case does not fall within paragraph (a) of this section is not required to present a passport if arriving in the United States under the following circumstances:

(1) As a seaman or airman who has lost his passport, who is unable to obtain a replacement thereof, who is arriving in the United States as a member of the crew of a United States vessel or aircraft or a United States-owned Panamanian flag vessel, and who presents evidence, when required, of having been examined for security by the United States Coast Guard: *Provided*, That this waiver of the passport requirement shall be valid only for a single entry of such seaman or airman after the loss of his passport, unless such waiver is extended by the Secretary of State.

(2) As a seaman or airman in whose case an individual waiver of the passport requirement has been granted by the Secretary of State, except that for a seaman or airman arriving at a port in the Virgin Islands, the Governor thereof may grant such waiver, and for a seaman or airman arriving at a port of the Canal Zone, the Governor thereof may grant such waiver: *Provided*, That such waivers may be granted only in cases of hardship in which the public security is not jeopardized.

(c) *Visas not required.* A nonresident seaman or airman whose occupational status as such is found to be bona fide, entering a port of the United States solely in pursuit of his calling, but as a passenger on a vessel or aircraft and not as a member of the crew of the vessel or aircraft on which he arrives, may be admitted temporarily as a nonimmigrant in the discretion of the Attorney General and under regulations prescribed by him. Such an alien must present a passport but not a visa, if he is arriving in the United States under the following circumstances:

(1) As a seaman or airman who was a member of the crew of an American vessel or aircraft, which has been sold and delivered abroad, when the contract of employment provides for the return of the crew or the laws of the United States provide for their return to an American port.

(2) As a seaman or airman who is returning to the United States in accordance with the terms of the articles of the outward voyage.

(3) As a shipwrecked or castaway seaman or airman rescued by, or transferred at sea to, a vessel or aircraft bound to a port in the United States. (In this case a passport will not be required for the first entry if the alien has lost his passport): *Provided*, That such a seaman or airman must agree to reship foreign or depart from the United States at the first available opportunity.

(4) As an alien (American) seaman who is a consular passenger, or is repatriated after, and in accordance with the terms of, his discharge in a foreign port before a consular officer, but who, for any reason, cannot be considered as serving as a seaman on the vessel on which he arrives at a port in the United States.

(5) As a shipwrecked or castaway seaman or airman, who was taken aboard a vessel or aircraft in a foreign port or place where no American consular officer was stationed, and who was brought to the United States as a passenger without touching at any port or place where such an officer was stationed: *Provided*, That such a seaman or airman must agree to reship foreign or depart from the United States at the first available opportunity.

(6) As a nonresident Canadian national, occupationally a seaman or airman, who is being sent forward to join a vessel or aircraft in a port of the United States, provided he presents a valid seamen's or airmen's identification certificate issued by an appropriate Canadian Government agency.

§ 177.55 *Crew-list visas required.* (a) Except as otherwise provided in the regulations in this part, there shall be submitted to an American consular officer for visa a list of all the alien members of the crew of each vessel or aircraft proceeding to the United States from any foreign port or place from which the vessel or aircraft commences its voyage to the United States. No seaman or airman shall hereafter enter the United States as a member of the crew of a vessel or aircraft unless his name appears on a visaed crew list, or unless he is in possession of an appropriate individual visa, except where the vessel or aircraft is exempted from the requirement of submitting a visaed crew list under this part.

(b) If there is no American consular officer stationed at the port or place from which the vessel or aircraft commences its voyage to the United States, but there is one stationed at a nearby port or place to whom the crew list may be submitted by mail, or by other means, for visa without delaying the departure of the vessel or aircraft, the crew list must be so submitted. If there is no American consular officer stationed nearby, the crew list must be submitted for visa at the first port or place of call where an American consular officer is stationed.

(c) A vessel or aircraft arriving at a port in the continental United States, Hawaii, Puerto Rico, or the Virgin Islands, after entering and clearing from a port or place in the Canal Zone for purposes other than transit, refueling, or landing passengers for medical treatment, shall be subject to all the crew-list visa requirements applicable to vessels or aircraft arriving in the United States from any foreign port or place.

(d) Supplemental crew-list visas should be obtained at subsequent ports or places of call to cover any additional seamen or airmen who have been signed on since the original or a prior supplemental crew-list visa was obtained.

(e) If one or more alien members of the crew are signed on after the crew list has been visaed and prior to the departure of the vessel or aircraft, the names of such aliens must be submitted to the consular officer for addition to the copies of the crew list.

§ 177.56 *Crew-list visas not required.* Crew-list visas are not required for the following classes of cases:

(a) Vessels or aircraft proceeding from a port or place where no American consular officer is stationed and it is not possible for such vessel or aircraft to comply with the conditions of § 177.55 (b).

(b) Government vessels or government aircraft.

(c) Vessels or aircraft operating between a port of the United States and a port of Canada or Newfoundland, and not touching at a port of any other country.

(d) Vessels or aircraft operating on a regular service exclusively between a port in Florida and Habana, Cuba, except that a new crew-list visa must be presented (1) to cover the first trip each month, and (2) at any other time during the month whenever a new crewman is signed on.

(e) A member of the crew of a vessel or aircraft who is in possession of an appropriate individual visa or a reentry permit.

(f) A member of the crew of a vessel or aircraft in whose individual case an emergency waiver of the crew-list visa requirements has been granted by the Secretary of State.

(g) A vessel or aircraft proceeding from one foreign place to another, which is diverted from its course under emergency conditions and enters a port of the United States, provided the crew-list visa requirement is waived by the Secretary of State.

§ 177.57 *Refusal of crew-list visa.* (a) If a consular officer has definite knowledge that a crew list contains the name of an alien who is not a seaman or airman, or whose admission into the United States would be contrary to the public safety, or who is endeavoring to enter the United States in evasion of the immigration laws, the crew-list visa shall be withheld until the name of such alien has been removed from the crew list of the vessel or aircraft, or until such alien, if admissible into the United States, shall have made application for and received an appropriate individual visa.

(b) If a consular officer has doubt as to the admissibility into the United States of an alien named in a crew list, but the evidence is not sufficient to warrant the refusal of a visa, he should advise the master, commanding officer, or agent of the vessel or aircraft that the admissibility of the seaman or airman into the United States is doubtful. If the name of the alien concerned is not removed from the crew list, the consular officer may grant the visa, telegraphing a report to the Department of State and including in such report the name of the suspected alien and the facts on which the doubt is based.

(c) When a crew-list visa is refused in any case, a full report should be forwarded by the consular officer to the Department of State in sufficient time to reach the United States before the arrival of the vessel or aircraft. The original of the crew list may be returned to the master, commanding officer, or agent, but the duplicate should be filed in the consular office.

(d) Unless there is specific evidence that a previously deported alien, or removed alien (that is, an alien previously removed from the United States under the authority and provisions of section 23 of the act of February 5, 1917, as amended), included in a crew list intends to leave the vessel or aircraft in evasion of the law, in a port or place under the jurisdiction of the United States, the crew-list visa should not be refused. However in the cases of seamen, a notation (preferably in red ink) of the fact of the previous deportation or removal should be placed in the remarks column of the crew list after the name of the deportee or removed alien, and in the cases of airmen such notation may be made in an appropriate place on the aircraft crew list. The master, commanding officer, or agent of the vessel or aircraft should be informed that such an alien may not be admitted by the immigration authorities after the vessel or aircraft arrives in the United States.

(e) If the fact of deportation or removal has been discovered after the crew list has been visaed and the crew list does not, therefore, carry an appropriate notation in the remarks column, the Department of State should be immediately informed by telegraph or air mail.

§ 177.58 *Crew-list form.* (a) Crew lists or manifests of aliens employed on vessels as members of the crew shall be prepared in duplicate on Department of Justice Form I–480, or such other form as the Department of Justice may prescribe. Masters or agents of vessels will ordinarily have a supply of crew-list forms, which they may purchase in the United States from collectors of customs, but consular offices having a possible demand for such forms will keep a supply on hand from which they may furnish copies in an emergency. Consular officers may obtain copies from the Department of State upon requisition.

(b) In view of the limited number of persons composing the crews of aircraft, and for other reasons, the crew lists or declarations of aircraft commanders covering the aliens employed on the aircraft shall be prepared on such form as the Commissioner of Immigration and Naturalization may prescribe or approve.

(c) No form of application for a crew-list visa shall be required other than the presentation of the complete crew list and all necessary information with respect thereto.

§ 177.59 *Preparation of crew lists.* (a) All entries on the crew lists of both vessels and aircraft shall be made in the English language. Bilingual or multilingual entries may be made if one of the languages is English. All entries on both copies shall preferably be printed in ink or typewritten; however, script copies may be accepted by the consular officer. The name of every member of the crew, citizens and nationals of the United States as well as aliens, should be included in the crew list. Citizens and nationals of the United States and alien immigrant seamen or immigrant airmen who are in possession of immigration visas, or reentry permits, or who are admitted under section 13 (b) of the act of 1924, as amended, are not considered as being documented as nonimmigrant aliens, even if their names are included in a crew list which has been visaed. (E. O. 9352, Part III, June 15, 1943)

(b) There shall be inserted before the name of each seaman who is an alien, and who was not employed on the vessel on its last preceding trip to the United States the word "first." In addition the initials "PE" (meaning "Previous Experience") should be inserted immediately after the word "first" in the cases of seamen proceeding to the United States on their first trip on a vessel to which they have been transferred from another vessel of the same company. The neglect, failure, or refusal of the owner, agent, consignee, master, or other responsible person to comply with this requirement may constitute a violation of section 36 of the act of February 5, 1917, and such persons should be so informed by consular officers, but a failure to warn them will not relieve them of liability.

(c) If a crew list is prepared on more than one page, the pages should be securely fastened together with eyelets in the upper left corner and tied by ribbon inserted through the eyelets. The ends of the ribbon should be brought through a slit cut in the last page and fastened to the page opposite the visa stamp by a wafer seal on which the impression seal of the consular office should be placed. The consular impression seal should be placed on all other pages in the lower right corner. The pages should be properly numbered.

(d) In order to facilitate the handling of the crew list of a large vessel, a consular officer is authorized to separate a crew list containing 400 or more names into four separate sections. The separate sections should correspond to the following departments of the crew of the vessel: (1) Deck Department, (2) Engine Department, (3) Catering Department, and (4) Armed Guard. The crew-list visa should be placed on the last page of the last section of the crew list. Each section of the crew list should be closed in such a manner as to prevent any additions to the list after the visa has been granted with the words "I. Deck Department, (or II. Engine Department, III. Catering Department, or IV. Armed Guard), Containing — members of crew". The final section of the crew list should further carry the words "Crew list in four parts: Total members —".

(e) If the name or names of seamen or airmen submitted as signed on after the crew list was visaed are in substitution for other members of the crew, the names of the latter seamen or airmen should be stricken from the list with pen and ink and the initials of the consular officer should be placed on the line opposite the names deleted. If there should not be sufficient time in which to complete an investigation of the seamen or airmen, the consular officer should not delay the vessel or aircraft, but may authorize the addition of such names to the crew list and telegraph the Department of State regarding any such alien in whose case investigation discloses information indicating a malafide seaman or airman, or other grounds for exclusion at the port of entry.

(f) If the additional members of the crew are signed on in an emergency under circumstances which make it impossible to submit the names to the consular officer before sailing, the facts should be reported at the first port of call at which an American consular officer is stationed. The latter officer may issue a supplemental crew-list visa covering the members of the crew in question if satisfied regarding their bona fides. He should communicate with the consular officer at the port of shipment, before the visa is granted if time permits, and request information concerning the seamen or airmen in order that the Department of State may be advised regarding those whose status may be in doubt. The consular officer first discovering the doubtful status of the members of the crew should report the facts to the Department of State and advise the other officer that he has done so.

§ 177.60 *Form of crew-list visa.* The passport visa stamp should be affixed, signed, and sealed, and the clauses concerning the period of validity of the visa should be struck out, as a crew-list visa is valid for only one entry. The visa should be shown as granted under section 3 (5) of the Immigration Act of 1924, and the notation "seamen" or "airmen" should be entered on the classification line below. The visa should be placed on the crew list in such a manner as to prevent any addition being made to the list after the visa has been granted. The words "Closed with — members of crew" should be written at the end of the crew list and just ahead of the visa.

(a) *Numbering, fees, and fee stamps.* Crew-list visas need not be numbered. The fee for visaing a crew list is $2.00, as prescribed by Item No. 7 of the Tariff of United States Foreign Service Fees. No fee should be charged for a crew-list visa issued to a United States vessel or aircraft or for supplemental visa issued to any vessel or aircraft. Fee stamps in the prescribed amount will be placed on the visa and canceled.

§ 177.61 *Disposition of crew lists.* After the crew-list visa has been granted or refused, the original copy of the crew list should be returned to the master, commanding officer, or agent of the vessel or aircraft for delivery to the appropriate authorities at the first port or place of arrival in the United States. The crew list on Form I–480 or other prescribed form is for ultimate delivery to the immigration authorities in the United States. The duplicate copy of Form I–480 or other prescribed form should be filed in the consular office and should bear appropriate notations to identify the service, its date, fee, and fee number.

§ 177.62 *Effective date.* This part shall become effective on September 10, 1946.

PART 178—POSTING OF IMMIGRATION LAWS BY TRANSPORTATION COMPANIES

§ 178.1 *Posting of immigration laws by transportation companies.* Upon application by any transportation company, the Central Office will furnish a summary of all immigration laws, in English, a posting of which, in appropriate foreign languages, will be regarded as an observance of the spirit of section 8 of the act of March 3, 1893 (27 Stat. 570; 8 U. S. C. 172). Certificates in relation to the posting of immigration laws and other matters which, under said law, transportation companies must file, shall be filed with the Central Office on January 1 and July 1 each year. (Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675, sec. 1, 54 Stat. 1238; 8 U. S. C. 102, 222, 458, 5 U. S. C. 133t; 8 CFR, 90.1.

§ 301.1 *Definitions of "national," "alien," "state," "permanent," "allegiance," and "stateless person."* The term "national" means a person owing permanent allegiance as a citizen or a subject or otherwise to a state, including the United States. An "alien" is a person who is neither a citizen nor a national of the United States. The term "state" means a member of the community of nations, including its outlying possessions. The term "state" does not include a State of the United States. The term "permanent" as used in this part in relation to allegiance means a relationship of a continuing or lasting nature, as distinguished from a "temporary" relationship; but a relationship may be permanent even though it is one which may be dissolved eventually at the instance either of the United States or of the individual, in accordance with law. The term "allegiance" means the tie which binds the individual to the state of which he is a national and denotes the sum of the obligations which he owes to the state. A "stateless person" is an alien who does not owe permanent allegiance to any state. (Secs. 101 (a), (b), 321, 335, 54 Stat. 1137, 1148, 1157; 8 U. S. C. 501 (a), (b), 721, 735)

§ 301.2 *Definitions of "national of the United States" and "citizen of the United States."* The term "national of the United States" means any person who owes permanent allegiance to the United States, whether or not he is a citizen of the United States. The term "citizen of the United States" means a person who, through birth or naturalization, has acquired citizenship of the United States and has not lost that status. Neither of these two terms includes an alien. (Const. U. S. sec. 1, art. XIV; sec. 101 (b), 54 Stat. 1137; 8 U. S. C. 501 (b))

§ 301.3 *Definition of "naturalization."* The term "naturalization" means the conferring of nationality of a state upon a person after birth. (Sec. 101 (c), 54 Stat. 1137; 8 U. S. C. 501 (c))

§ 301.4 *Definition of "United States."* The term "United States" when used in a geographical sense means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States. (Sec. 101 (d), 54 Stat. 1137; 8 U. S. C. 501 (d))

§ 301.5 *Definition of "outlying possessions."* The term "outlying possessions" means all territory over which the United States exercises rights of sovereignty other than the continental United States, Alaska, Hawaii, Puerto Rico, the Virgin Islands of the United States, and the Canal Zone. (Sec. 101 (e), 54 Stat. 1137; 8 U. S. C. 501 (e))

315.5 Evidence required to overcome presumption.
315.6 Form of evidence.
315.7 When evidence is not satisfactory to diplomatic or consular officer.
315.8 When evidence is not satisfactory to immigration officer.
315.9 When evidence overcomes presumption; effect of decision.
315.10 Proof of facts not relating to presumption under section 402.

AUTHORITY: §§ 315.1 to 315.10, inclusive, issued under sec. 402, 54 Stat. 1169; 8 U. S. C. 802; sec. 22, title 5, U. S. C.; sec. 37 (a), 54 Stat. 675; 8 U. S. C. 458. Statutes interpreted or applied are secs. 401 (c), (d), 402, 403 (b), 54 Stat. 1169, 1170; 8 U. S. C. 801 (c), (d), 802, 803 (b).

§ 315.1 *Nationals subject to presumption of expatriation.* Section 402 of the Nationality Act of 1940 (54 Stat. 1169; 8 U. S. C. 802) provides:

A national of the United States who was born in the United States or who was born in any place outside of the jurisdiction of the United States of a parent who was born in the United States, shall be presumed to have expatriated himself under subsection (c) or (d) of section 401, when he shall remain for six months or longer within any foreign state of which he or either of his parents shall have been a national according to the laws of such foreign state, or within any place under control of such foreign state, and such presumption shall exist until overcome whether or not the individual has returned to the United States. Such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States, or to an immigration officer of the United States, under such rules and regulations as the Department of State and the Department of Justice jointly prescribe. However, no such presumption shall arise with respect to any officer or employee of the United States while serving abroad as such officer or employee, nor to any accompanying member of his family.

Subsections (c) and (d) of section 401 of the act (54 Stat. 1169; 8 U. S. C. 801 (c), (d)) provide that a person who is a national of the United States either by birth or naturalization shall lose his nationality by:

(c) Entering, or serving in, the armed forces of a foreign state unless expressly authorized by the laws of the United States, if he has or acquires the nationality of such foreign state; or

(d) Accepting, or performing the duties of, any office, post, or employment under the government of a foreign state or political subdivision thereof for which only nationals of such state are eligible.

Subsection (b) of section 403 of the act (54 Stat. 1170; 8 U. S. C. 803 (b)) provides:

No national under eighteen years of age can expatriate himself under subsections (b) to (g), inclusive, of section 401.

§ 315.2 *When presumption arises.* The presumption that a person who was born in the United States or in any place outside of the jurisdiction of the United States of a parent who was born in the United States has committed the acts of expatriation specified in subsections (c) and (d) of section 401 of the Nationality Act of 1940 will only arise under section 402 of the act when the person, while not an officer or employee of the United States serving abroad or an accompanying member of the family of such officer or employee, shall have remained for six months after the date stated in § 315.3, in a foreign state or in any place within the control thereof of which he or either of his parents shall have been a national.

§ 315.3 *When six months' residence begins.* The six months' residence referred to in section 402 of the Nationality Act of 1940 cannot begin before January 13, 1941 (the effective date of the act), nor before the person in question has reached the age of eighteen years.

§ 315.4 *To whom evidence shall be presented to overcome presumption.* Evidence intended to overcome the presumption of expatriation under section 402 of the Nationality Act of 1940 shall be presented (a) to a diplomatic or consular officer of the United States, if the person making a claim to nationality of the United States is in a foreign country; (b) to an immigration officer at a port of entry of the United States, if such person is applying for admission to the United States; (c) to the Department of State, Washington, D. C., if such person is residing in the United States and is applying for a passport or for protection abroad or for any other official assistance from that Department; and (d) to such immigration officer as required by regulations under the immigration or nationality laws relating to the right or privilege which the person residing in the United States seeks to avail himself of as a national thereof. In the case of any other person residing in the United States who is seeking to avail himself of a right or privilege as a national thereof, if it appears that a presumption of expatriation has arisen against him under section 402 of the Nationality Act of 1940, the Commissioner of Immigration and Naturalization, Washington, D. C., should be consulted.

§ 315.5 *Evidence required to overcome presumption.* The presumption described in section 402 of the Nationality Act of 1940 may be overcome by the presentation of satisfactory evidence that the person subject to the presumption has not, on or after January 13, 1941, (a) entered or served in the armed forces of a foreign state, or, if he has so entered or served, that he did not have and did not acquire the nationality of such foreign state; and (b) that he has not, on or after January 13, 1941, accepted or performed the duties of any office, post, or employment under the government of a foreign state or political subdivision thereof, or, if he has accepted or performed any such duties, that nationality of such foreign state was not a prerequisite to eligibility therefor. A statement of the cause of his foreign residence which has given rise to such presumption, the places in the foreign state or states where he resided, and the occupations he followed in each such place shall be required.

§ 315.6 *Form of evidence.* Evidence to overcome the presumption under section 402 of the Nationality Act of 1940 shall be in the form of statements made under oath or affirmation by the person seeking to overcome such presumption. The officer examining any case under § 315.2 may, in his discretion, require additional evidence in support of any such statements. When it appears that the person against whom the presumption has arisen has performed any of the acts specified in subsection (c) or (d) of section 401 of the Nationality Act of 1940, a written statement by the appropriate officer of the foreign state shall be required, if practicable, showing whether such person at the time of performing such acts was a national of that state, whether only nationals of that state were eligible for such service, or whether by performing such acts he acquired its nationality. The statement of such foreign officer shall be accepted as *prima facie* correct.

§ 315.7 *When evidence is not satisfactory to diplomatic or consular officer.* When the evidence presented is clearly not satisfactory to the diplomatic or consular officer of the United States to overcome the presumption of expatriation under section 402 of the Nationality Act of 1940, he shall refer his findings to the Department of State and if the latter concurs it shall inform the Department of Justice. In any case in which the evidence is not entirely satisfactory to such officer to show that the presumption of expatriation has arisen, or, if it has arisen, that it has been overcome by the evidence presented, he should consult the Department of State.

§ 315.8 *When evidence is not satisfactory to immigration officer.* (a) When, in the case of a person applying at a port of the United States for admission as a national thereof, an immigration officer is not entirely satisfied that the presumption of expatriation under section 402 of the Nationality Act of 1940 has arisen, or if it has arisen, he is not entirely satisfied that it has been overcome by the evidence presented, he shall refer the case to a board of special inquiry. Such board, if not satisfied that the presumption is overcome, and if such person is not admissible to the United States as an alien, shall exclude him from admission to the United States, and inform him of his right of appeal on each question.

(b) In any case in which a person residing in the United States seeks as a national thereof to avail himself of any right or privilege in connection with the administration of the immigration laws or the nationality laws, and the immigration officer is not entirely satisfied that the presumption of expatriation under section 402 of the Nationality Act of 1940 has arisen, or, if it has arisen, he is not entirely satisfied that it has been overcome by the evidence presented, the case shall be handled in the manner and in the channels as required by the regulations relating to the exercise of such right or privilege. If the final decision be that such presumption has arisen and has not been overcome, the Central Office, Immigration and Naturalization Service, shall so inform the Department of State. (Secs. 16, 17, 39 Stat. 885, 887; 8 U. S. C. 152, 153)

§ 315.9 *When evidence overcomes presumption; effect of decision.* When the United States diplomatic or consular officer or immigration officer is satisfied that the evidence presented overcomes the presumption of expatriation under section 402 of the Nationality Act of 1940, the United States passport or other travel document of the person shall be endorsed by or on the part of such officer with a certificate as follows:

I certify that the holder of this _____ has submitted to me evidence which I believe to be sufficient to overcome, as of this date, the presumption of expatriation under section 402 of the Nationality Act of 1940.

If the person has no such passport or travel document, the certificate shall be made in the form of a letter to him. The certificate shall be dated and signed by the officer making it, and he shall add thereto the title of his office and his station. Such certificate shall be accepted by diplomatic, consular, and immigration officers of the United States as *prima facie* evidence that the presumption of expatriation has been overcome, but shall not preclude such officers or the United States from requiring satisfactory evidence that the certificate was not obtained or issued through fraud or other illegality when there is reasonable cause to believe that such is the case.

§ 315.10 *Proof of facts not relating to presumption under section 402.* Nothing in this part shall relieve any person from complying with any requirements with respect to proof of facts which do not relate to overcoming the presumption under section 402 of the Nationality Act of 1940.

Sec. 403. (a) Except as provided in subsections (g), (h), and (i) of section 401, no national can expatriate himself, or be expatriated, under this section while within the United States or any of its outlying possessions, but expatriation shall result from the performance within the United States or any of its outlying possessions of any of the acts or the fulfillment of any of the conditions specified in this section if and when the national thereafter takes up a residence abroad.

The hearing officer will notify the applicant of the time and place of hearing.

§ 316.6 *Hearing officer's recommendation.* The hearing officer shall recommend approval or disapproval by the Attorney General of the applicant's request for approval of the formal written renunciation of nationality. The hearing officer, in making his recommendation, is authorized to consider not only the facts presented at the hearing, but also results of any investigation and any information which may be available to him in reports of Government agencies or bureaus, and from other sources, relating to the applicant's allegiance and relating to the effect of renunciation of nationality upon the interests of national defense.

§ 316.7 *Approval or disapproval by Attorney General.* The hearing officer's recommendation and the record of the hearing and any other facts upon which it is based, will be submitted to the Attorney General for his approval or disapproval of the applicant's formal written renunciation of nationality. Upon receipt of such notice and evidence of citizenship so surrendered, the Immigration and Naturalization Service shall notify the clerk of the court in which the applicant's naturalization occurred that the renunciation of nationality has been approved and the clerk of the court shall be requested to enter that fact upon the record of naturalization.

317.10 Denial of certificate of identity.
317.11 Appeal by applicant.
317.12 Certificate of identity obtained by fraud or other illegality.

AUTHORITY: §§ 317.1 to 317.12, inclusive, issued under sec. 503, 54 Stat. 1171, 1172; 8 U. S. C. 903.

§ 317.1 *Authority for issuance of certificate of identity.* Section 503 of the Nationality Act of 1940 (54 Stat. 1171, 1172; 8 U. S. C. 903) provides:

If any person who claims a right or privilege as a national of the United States is denied such right or privilege by any Department or agency, or executive official thereof, upon the ground that he is not a national of the United States, such person, regardless of whether he is within the United States or abroad, may institute an action against the head of such Department or agency in the District Court of the United States for the District of Columbia or in the district court of the United States for the district in which such person claims a permanent residence for a judgment declaring him to be a national of the United States. If such person is outside the United States and shall have instituted such an action in court, he may, upon submission of a sworn application showing that the claim of nationality presented in such action is made in good faith and has a substantial basis, obtain from a diplomatic or consular officer of the United States in the foreign country in which he is residing a certificate of identity stating that his nationality status is pending before the court, and may be admitted to the United States with such certificate upon the condition that he shall be subject to deportation in case it shall be decided by the court that he is not a national of the United States. Such certificate of identity shall not be denied solely on the ground that such person has lost a status previously had or acquired as a national of the United States; and from any denial of an application for such certificate the applicant shall be entitled to an appeal to the Secretary of State, who, if he approves the denial, shall state in writing the reasons for his decision. The Secretary of State, with approval of the Attorney General, shall prescribe rules and regulations for the issuance of certificates of identity as above provided.

§ 317.2 *Application for certificate of identity*—(a) *What application shall show.* The application for a certificate of identity shall show:

(1) The full and true name of the applicant;

(2) The place of his residence outside the United States;

(3) That he claims to be a national of the United States, and the basis of such claim and evidence submitted in support thereof;

(4) That such claim is made in good faith and upon a substantial basis;

(5) That he claims a right or privilege as a national of the United States, and specifically the nature of such claim;

(6) That such right or privilege has been denied him by a specified department or agency or executive official of the United States on the ground that the applicant is not a national of the United States, and the date and place of such denial;

(7) That an action for a judgment declaring applicant to be a national of the United States has been instituted by him against the head of such department or agency in the District Court of the United States for the District of Columbia or in the district court of the United States for the specified district in which he claims permanent residence;

(8) That such action was instituted in good faith with the intention of prosecuting it to conclusion and is pending in such court;

(9) That he desires to proceed to the United States to prosecute such action;

(10) That, if granted a certificate of identity and admitted to the United States for the purpose of prosecuting such action, he will do so with due diligence;

(11) That he understands that admission to the United States upon such certificate of identity shall be under regulations prescribed in Part 112 of this chapter, and upon the condition that he shall be subject to deportation if the final outcome of such court action is not to the effect that he is a national of the United States and if he then fails to depart therefrom without delay in accordance with directions from the Immigration and Naturalization Service; and

(12) Such other facts and proofs, with respect to the foregoing, as may be required by the application form or by the diplomatic or consular officer before whom the application for a certificate of identity is executed.

(b) *Supporting witness.* The application for a certificate of identity shall be supported by the affidavit of a credible witness, but this requirement may be waived in the discretion of the officer before whom the application is executed.

(c) *Form and execution.* The application for a certificate of identity shall be made in quadruplicate on an approved form and shall be signed and sworn to (or affirmed) by the applicant in person before a diplomatic or consular officer of the United States. The affidavit of the witness, if not waived, shall also be made before a diplomatic or consular officer of the United States. The application shall be accompanied by four photographs of the applicant taken within thirty days of the date on which the application is filed. The photographs shall be 2 by 2 inches in size, unmounted, printed on thin paper, have a light background, and clearly show a full front view of the features of the applicant (with head bare, unless the applicant is a member of a religious order wearing a headdress), with the distance from the top of head to point of chin approximately 1¼ inches. Snapshot, group, or full length pictures will not be accepted. The applicant, except in the case of a person physically or otherwise incapable of signing his name, shall sign each copy of the photograph with his full, true name in such manner as not to obscure the features. The signature shall be by mark if the applicant is unable to write. One photograph shall be glued to the original application and one to each copy thereof and impressed with the legend machine so as not to cover the features. Officers not having a legend machine will use the impression seal. The consular impression seal should invariably be used in completing the application. Fingerprints of the applicant shall be required and attached to the application and each copy thereof, as in the case of a visa.

§ 317.3 *Independent investigation.* When an application for a certificate of identity is executed before a diplomatic or consular officer, an independent investigation of the facts in the case should be made, as far as practicable, by such officer, even though the application and proofs submitted therewith may on their face appear to justify issuance of a certificate of identity.

§ 317.4 *Good faith and substantial basis of claim of United States nationality*—(a) *Relationship to provision concerning loss of nationality.* The provision in section 503 of the Nationality Act of 1940 that a certificate of identity shall not be denied "solely on the ground that such person has lost a status previously had or acquired as a national of the United States" is to be read with the provision of the section that the claim of nationality presented in the court action be made in good faith and have a substantial basis.

(b) *Meaning of good faith.* Good faith means an honest belief of the applicant that he is a national of the United States, and is to be determined by the diplomatic or consular officer of the United States in the light of the facts and circumstances of each case. For example, where it appears that United States nationality has been lost by naturalization of the person upon his own application in a foreign state, good faith would appear to be lacking in the absence of a satisfactory showing to the contrary. Special care should be taken in the examination of the case of an applicant who, while in a foreign state, has exercised any rights or performed any duties for which only nationals of such state are eligible.

(c) *Meaning of substantial basis.* A substantial basis of a claim of United States nationality means one which satisfies the diplomatic or consular officer of the United States that the claim of the applicant that he is a national of the United States is, notwithstanding any previous ruling of a department, agency, or executive official of the United States, sufficiently meritorious to justify resort to the court for a determination of the question.

§ 317.5 *Denial of a right or privilege as a national of the United States.* Denial by a Department or agency or executive official of the United States of a right or privilege as a national of the United States may occur in the administration of various laws. For example, it may occur where a person has applied as a national of the United States for a passport or for registration at an American consulate or for nonquota status of an alien wife or alien minor child under sections 4 and 9 of the Immigration Act of 1924, and the application is denied on the ground that the applicant is not a national of the United States.

§ 317.6 *Proof of institution of action.* Proof that the applicant has instituted an action referred to in § 317.2 is best made by presentation of a duly certified copy of the complaint filed in the action. The presentation of such a copy may be waived only when other evidence is furnished which satisfactorily establishes that the suit has been instituted and is pending.

§ 317.7 *In case of doubt as to issuance of certificate of identity.* Where it appears that the presence of the applicant in the United States would endanger the public safety or where the diplomatic or consular officer believes that the applicant is a national of the United States and entitled to a passport as such or where the diplomatic or consular officer has any doubt with respect to the action he should take upon the application for a certificate of identity, the officer should suspend action and consult the Department of State.

§ 317.8 *Form and issuance of certificate of identity.* The certificate of identity shall be issued on the approved form, printed upon the application form. It shall be signed and sealed by the diplomatic or consular officer, who shall state on the original and each copy thereof the date and place of issuance. The three copies shall be marked "copy." One copy and any documentary evidence submitted by the applicant shall be retained in the files of the issuing office, and two copies sent to the Department of State, one of which shall be forwarded to the Central Office, Immigration and Naturalization Service, Department of Justice.

§ 317.9 *Period of validity of certificate of identity.* A certificate of identity shall expire six months from the date of its issuance, unless extended by direction of the Secretary of State.

§ 317.10 *Denial of certificate of identity.* In case the certificate of identity is denied by a diplomatic or consular officer, a notation to that effect shall be made by him in the space provided therefor at the end of the original application and on each copy thereof. The notation shall set forth definitely the grounds for the denial. The original application and any documentary evidence submitted by the applicant shall be retained in the files of the office to which the application was submitted. One copy shall be returned to the applicant, and two copies shall be sent to the Department of State, one of which shall be forwarded to the Central Office, Immigration and Naturalization Service, Department of Justice.

§ 317.11 *Appeal by applicant.* When an applicant is denied a certificate of identity, he may appeal by a written statement to the Secretary of State, setting forth fully the pertinent facts and the grounds upon which United States nationality is claimed and his reasons for considering that the denial of his application by the diplomatic or consular officer is not justified. The statement shall be executed in quadruplicate and submitted to the diplomatic or consular office in which the denial was made. If the statement contains facts not set forth in the application it shall be sworn to (or affirmed) by the applicant before a diplomatic or consular officer of the United States. The original statement and one copy shall be forwarded by the diplomatic or consular officer to the Department of State with two copies of the application for the certificate of identity and any documentary evidence submitted by the applicant, if the copies have not already been sent to that Department. One copy of the statement shall be retained in the files of the diplomatic or consular office in which the denial was made and one copy returned to the applicant. If it is not practicable for the statement to be sworn to or affirmed by the applicant in the diplomatic or consular office in which the denial was made, it may be sworn to or affirmed in any other diplomatic or consular office of the United States. In such case, the original and two copies of the statement shall be forwarded by that office to the diplomatic or consular office in which the application was denied, but if that is not practicable they shall be sent directly to the Department of State. One copy shall be returned to the applicant.

§ 317.12 *Certificate of identity obtained by fraud or other illegality.* Whenever a certificate of identity is found by a diplomatic or consular officer of the United States to have been obtained by fraud or other illegality, or to be in the possession of a person other than the rightful holder, such officer shall, if practicable, obtain possession of the certificate and send it, together with a report on the matter, directly to the Department of State.

(b) Application for a declaration of intention shall be made on preliminary Form N–300, as described in § 365.1 of this chapter, which form may be obtained from the clerk of any naturalization court or from any office of the Immigration and Naturalization Service. Following the submission of the preliminary Form N–300 to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter, the applicant will be notified when and where to appear to file the declaration of intention, at which time a fee of $3 for the declaration of intention shall be paid to the clerk of the naturalization court. The petition for naturalization shall be filed and final action thereon taken while the child is under the age of 18 years. No declaration of intention shall be required. No definite period of residence in the United States or a State shall be required, but it must be established that the child in whose behalf the petition is filed is residing permanently in the United States with the citizen parent pursuant to lawful entry. A certificate of arrival shall be filed with the petition. At the hearing on the petition, the facts of the child's residence and the other qualifications described in section 307 (a) of the Nationality Act of 1940 shall be proved by the oral testimony of at least two credible witnesses who are citizens of the United States as required by section 309 (b) of the said act. Before being admitted to citizenship the child in whose behalf the petition is filed shall take the oath prescribed by section 335 of the said act, except that such oath may be waived by the naturalization court, if, in the opinion of the court, the child is too young to understand the meaning of such oath. Proof of at least two years' continuous residence in the United States immediately preceding the date of filing the petition, and proof that the child has been adopted in the United States under the age of 16 years and has been in the legal custody of the adoptive parent or parents for at least two years prior to the filing of the petition, shall be furnished. At the hearing on the petition, the facts of the child's residence and the other qualifications described in section 307 (a) of the Nationality Act of 1940, shall be proved by the oral testimony of at least two credible witnesses who are citizens of the United States as required by section 309 (b) of the said act. In addition to the qualifications herein set out, it shall be established by any evidence satisfactory to the naturalization court that the child in whose behalf the petition for naturalization is filed was residing in the United States at the time such child lost citizenship through the cancellation of a parent's naturalization; that prior to such cancellation such child actually was a citizen of the United States; and that the petition for naturalization filed in behalf of such child was filed within two years after the date of the cancellation of the parent's certificate or within two years after the effective date of the Nationality Act of 1940. (For petition of such a child who is over 18 years of age, see § 330.5 of this chapter.) (Secs 309, 319, 335, 54 Stat. 1143, 1148, 1157; 8 U. S. C. 709, 719, 735)

A petitioner for naturalization under this section shall pay the usual fee for filing a petition for naturalization, except that during the time the United States is at war, no clerk of a United States court shall charge or collect a naturalization fee from such petitioner for filing a petition or issuing a certificate of naturalization if the petitioner is in the military or naval service of the United States, and no clerk of any State court shall charge or collect any such fee unless the laws of such State require the charge to be made, in which case only the portion of the fee required to be paid to the State shall be charged or collected.

§ 334.2 *Where service was continuous—(a) Applicant who files petition while still in service.* A person described in § 334.1, whose service in the armed forces described therein has been continuous, may, while still in such service, file a petition for naturalization in any naturalization court, without regard to his place of residence, and without having resided continuously in the United States for at least five years and in the State where the petition is filed for at least six months, immediately preceding such filing. No certificate of arrival and no declaration of intention shall be required to be filed with the petition. The petition shall be verified, but for no specified period of time, by at least two witnesses, citizens of the United States, as provided in § 370.4 of this chapter, and the verifying witnesses shall also testify at the final hearing unless excused as provided in § 373.2 of this chapter. Such petition may be heard immediately if (1) the petitioner be then actually in such armed forces, and (2) before the filing of the petition, the applicant and at least two verifying witnesses, citizens of the United States, who shall identify the applicant as the person who rendered the service upon which the petition is to be based, have appeared before and been examined by a representative of the Immigration and Naturalization Service, and (3) a certificate of such examination on Form N–440 is filed with the petition in accordance with § 373.5 of this chapter. Such duly authenticated copies of service records shall be accepted as proof of the good moral character, attachment to the principles of the Constitution of the United States of America, and favorable disposition toward the good order and happiness of the United States of the petitioner for the periods of such service.

(b) *Applicant who files petition after leaving service but within six months.* If the petitioner has been separated from such service prior to filing his petition for naturalization, but files his petition for naturalization within six months after the termination of such service, he shall be entitled to the same exemptions from residence in the United States and State, and within the jurisdiction of the naturalization court, and from filing with his petition for naturalization a certificate of arrival and a declaration of intention as the petitioner described in paragraph (a) of this section. But the petitioner under this paragraph shall prove his residence, good moral character, attachment to the principles of the Constitution of the United States, and his favorable disposition toward the good order and happiness of the United States for the period from the date of his separation from such service to the date of the filing of his petition for naturalization, and from the latter date to the date of his admission to citizenship, by the affidavits and testimony of at least two citizen witnesses, in the manner provided in §§ 370.4 and 373.2 of this chapter. A petitioner under this paragraph shall not be entitled to an immediate hearing upon his petition, but only after the expiration of at least 30 days after the petition is filed, in accordance with the provisions of section 334 (c) of the Nationality Act of 1940.

§ 334.3 *Where service was not continuous.* A person described in § 334.1, whose service was not continuous, shall be entitled to all of the exemptions set forth in § 334.2 (a) (including an immediate hearing if still in the service), if he files a petition for naturalization while still in such service or within six months after honorable separation therefrom, except that such petitioner must establish his continuous residence, good moral character, attachment to the principles of the Constitution of the United States, and favorable disposition toward the good order and happiness of the United States, for the period of five years at least immediately preceding the filing of his petition, and from the date of filing his petition to the date of the final hearing thereon. Proof of such qualifications for the periods during which the petitioner was actually in such service shall be made as provided in § 334.2 (a). As to any part or parts of the five-year period immediately preceding the filing of the petition for naturalization, and as to the period between the date of the filing of the petition and the final hearing thereon, between the periods of the petitioner's service in the United States Army, Navy, Marine Corps, or Coast Guard, such proof must be made by the affidavits and testimony of at least two citizen witnesses, for each such period, as set forth in §§ 370.4 and 373.2, respectively, of this chapter.

§ 334.4 *Where petition for naturalization is filed more than six months after termination of service.* Where an alien has performed the service specified in § 334.1, but fails to file a petition for naturalization while still in such service or within six months after the termination of such service, he shall not be entitled to any of the exemptions set forth in § 334.2, except that such a petitioner for naturalization may prove his good moral character, attachment to the principles of the Constitution of the United States, and favorable disposition toward the good order and happiness of the United States, for any period or periods, during the five-year period immediately preceding the filing of the petition, of service specified in § 334.1, by the production of duly authenticated copies of the records of the executive departments having custody of the records of such service, as described in such section, in lieu of affidavits and testimony or depositions of witnesses for the period or periods of such service.

The petition for naturalization shall be filed on Form N–405. There shall be attached to the original of every petition for naturalization filed under any of such sections, an affidavit of the petitioner, sworn to before the clerk of court or a member of the Service on Form N–421, fully setting forth the periods and the description of his service in the United States Army, Navy, Marine Corps, or Coast Guard. Such Form N–421 shall be filed with and made a part of the petition for naturalization at the time such petition is filed. The duplicate and triplicate executed copies of Form N–421 shall be attached to the duplicate and triplicate petitions for naturalization, respectively.

PART 335—SPECIAL CLASSES OF PERSONS WHO MAY BE NATURALIZED: ALIEN ENEMIES

Sec.
335.1 Alien enemy defined.
335.2 Naturalization of alien enemies; exceptions.
335.3 Final hearing of petition; notice by clerk of court; effect of objection; waiver of notice.
335.4 Investigation.
335.5 Exception from alien enemy classification.
335.6 Filing of declarations of intention and petitions for naturalization by alien enemies.

AUTHORITY: §§ 335.1 to 335.6, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 335.1 to 335.6, inclusive, interpret and apply sec. 326, 54 Stat. 1150, sec. 703, 56 Stat. 183; 8 U. S. C. and Sup., 726, 1003; E. O. 9372, Aug. 27, 1943, 8 F. R. 11887.

§ 335.1 *Alien enemy defined.* An alien who is a native, citizen, subject, or denizen of any country, state, or sovereignty with which the United States is at war, shall be considered an alien enemy for the purposes of the naturalization laws. A native of such an enemy country who subsequent to birth has become a citizen or subject of a nation with which the United States is not at war shall nevertheless be considered as an alien enemy.

§ 335.2 *Naturalization of alien enemies; exceptions.* An alien enemy as defined in § 335.1, who is otherwise entitled to naturalization except for the fact that he is an alien enemy, may be naturalized if his declaration of intention was made not less than two years nor more than seven years before the date of the beginning of the war mentioned in § 335.1, or if such alien was entitled upon such date to become a citizen of the United States without having made a declaration of intention, or if his petition for naturalization shall be pending upon such date. Such alien must conform to all of the other applicable provisions of the naturalization laws.

§ 335.3 *Final hearing of petition; notice by clerk of court; effect of objection; waiver of notice.* (a) An alien enemy who comes within one or more of the classes set forth in § 335.2 and who has not been granted a waiver of the 90 days' notice as provided in paragraph (b) of this section, shall not have his petition for naturalization called for a hearing, or heard, except after 90 days' notice to the Commissioner of Immigration and Naturalization to be represented at the hearing. Such notice shall be given to the Commissioner through the appropriate district director of Immigration and Naturalization by the clerk of the court in which the petition is filed. The Commissioner's objection to such final hearing shall cause the petition to be continued from time to time for so long as the Commissioner may require. The objection by the Commissioner to the hearing of such a petition shall be presented to the court by the appropriate district director of immigration and naturalization acting for and on behalf of the Commissioner. Once an objection to such final hearing has been made within 90 days by the Commissioner through the district director, the petition shall be continued until such objection has been withdrawn.

(b) The district director of immigration and naturalization may, in his discretion and upon the request of the petitioner, waive the 90 days' notice required by paragraph (a) of this section. Such waiver may be granted at any time after the petition has been filed and either before or after the clerk's notice has been given and the 90-day period has commenced. Where a petitioner requests a waiver of the 90 days' notice, the case shall be investigated in accordance with § 335.4 and submitted by the naturalization officer or examiner to the district director with a recommendation as to whether a waiver should be granted. If a waiver is granted, notice thereof shall be executed by the district director on Form N–424 and filed with the clerk of the naturalization court. One copy of Form N–424 shall be retained in the field office file and one copy forwarded to the Central Office.

§ 335.4 *Investigation.* A thorough investigation shall be made in the case of every alien enemy whose petition for naturalization may be listed for final hearing. If as a result of such investigation, the district director is satisfied of the loyalty to the United States of the petitioner and that the petitioner is in every way qualified for citizenship, no objection shall be made to the naturalization of the petitioner solely upon the ground that such petitioner is an alien enemy. If it is necessary, in order to preserve the right to have such petition continued as provided in § 335.3, to interpose objection to final hearing before completion of the investigation, such objection may be withdrawn if the result of the investigation is satisfactory in the above respects.

§ 335.5 *Exception from alien enemy classification.* (a) An alien enemy who does not come within one or more of the classes described in § 335.2 and who has filed a petition for naturalization may, in the discretion of the President of the United States, be excepted from such classification of alien enemy, whereupon he shall have the privilege of having a final hearing upon his petition for naturalization. The President of the United States has ordered excepted from the classification of alien enemy all persons whom the Attorney General, the Commissioner of Immigration and Naturali-

zation, or any district director of the Immigration and Naturalization Service shall, after investigation fully establishing their loyalty, certify as persons loyal to the United States. Application for such exception shall be made on Form N–436 and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. Thereupon the district director shall cause a full and complete investigation to be made of the loyalty of such applicant. If, after such investigation, the district director is satisfied of the loyalty to the United States of the petitioner, he shall issue a certificate of loyalty on Form N–438 in triplicate, the original to be filed in the appropriate naturalization court, one copy to be retained in the field office file, and one copy to be transmitted to the Central Office. The clerk of the naturalization court need not file the certificate of loyalty with and make it a part of the petition for naturalization but may file it in some other orderly manner. Where an application for exception from the classification of alien enemy is denied by the district director, the entire file shall immediately be forwarded to the Central Office with a brief statement of the grounds on which such denial is based.

(b) An alien enemy who has been certified as a person loyal to the United States in the manner prescribed in the preceding paragraph shall have the privilege of having a final hearing upon his petition for naturalization without being subject to the provisions of §§ 335.3 and 335.4.

AUTHORITY: §§ 337.1 to 337.5, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675, 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 337.1 to 337.5, inclusive, interpret and apply sec. 325, 54 Stat. 1150; 8 U. S. C. 725.

§ 337.1 *Persons who have served on United States Government or merchant vessels; exemptions and fees.* A person who has served honorably or with good conduct for an aggregate period of at least five years (a) on board of any vessel of the United States Government other than in the United States Navy, Marine Corps, or Coast Guard, or (b) on board of vessels of more than twenty tons burden, whether or not documented under the laws of the United States, and whether public or private, which are not foreign vessels and whose home port is in the United States, may be naturalized, subject to the provisions of §§ 337.2 to 337.5, inclusive. A petitioner for naturalization under this section shall pay the usual fee for filing a petition for naturalization.

§ 337.2 *Where service was continuous*—(a) *Applicant who files petition while still in service.* A person described in § 337.1, whose service described therein has been continuous, may, while still in such service, file a petition for naturalization in any naturalization court, without regard to his place of residence, and without having resided continuously in the United States for at least five years and in the State where the petition is filed for at least six months, immediately preceding such filing. No certificate of arrival and no declaration of intention shall be required to be filed with the petition. The petition shall be verified, but for no specified period of time, by at least two witnesses, citizens of the United States, as provided in § 370.4 of this chapter, and the verifying witnesses shall also testify at the final hearing unless excused as provided in § 373.2 of this chapter. Such petition may be heard immediately if (1) the petitioner be then actually in such service, and (2) before the filing of the petition, the applicant and at least two verifying witnesses, citizens of the United States, who shall identify the applicant as the person who rendered the service upon which the petition is to be based, have appeared before and been examined by a representative of the Immigration and Naturalization Service, and (3) a certificate of such examination on Form N–440 is filed with the petition in accordance with § 373.5 of this chapter. At the time the petition for naturalization is filed, the applicant shall present duly authenticated copies of the records of the executive departments having custody of the records covering the petitioner's service if it was on a vessel of the United States Government, which copies must show the period or periods of such service and that it was performed under honorable conditions, or discharge showing service with good conduct if service was on a vessel other than a vessel of the United States Government. Such duly authenticated copies of service records and discharges shall be accepted as proof of the good moral character, attachment to the principles of the Constitution of the United States of America, and favorable disposition toward the good order and happiness of the United States of the petitioner for the periods of such service.

(b) *Applicant who files petition after leaving service but within six months.* If the petitioner has been separated from such service prior to filing his petition for naturalization, but files his petition for naturalization within six months after the termination of such service, he shall be entitled to the same exemptions from residence in the United States and State, and within the jurisdiction of the naturalization court, and from filing with his petition for naturalization a certificate of arrival and a declaration of intention as the petitioner described in paragraph (a) of this section. But the petitioner under this paragraph shall prove his residence, good moral character, attachment to the principles of the Constitution of the United States, and his favorable disposition toward the good order and happiness of the United States for the period from the date of his separation from such service to the date of the filing of his petition for naturalization, and from the latter date to the date of his admission to citizenship, by the affidavits and testimony of at least two citizen witnesses, in the manner provided in §§ 370.4 and 373.2 of this chapter. A petitioner under this paragraph shall not be entitled to an immediate hearing upon his petition, but only after the expiration of at least 30 days after the petition is filed, in accordance with the provisions of section 334 (c) of the Nationality Act of 1940.

§ 337.3 *Where service was not continuous.* A person described in § 337.1, whose service was not continuous, shall be entitled to all of the exemptions set forth in § 337.2 (including an immediate hearing if still in the service), if he files a petition for naturalization while still in such service or within six months after honorable separation, or separation with good conduct, therefrom, except that such petitioner must establish his continuous residence, good moral character, attachment to the principles of the Constitution of the United States, and favorable disposition toward the good order and happiness of the United States, for the period of five years at least immediately preceding the filing of his petition, and from the date of filing his petition to the date of the final hearing thereon. Proof of such qualifications for the periods during which the petitioner was actually in such service shall be made as provided in § 337.2. As to any part or parts of the five-year period immediately preceding the filing of the petition for naturalization, and as to the period between the date of the filing of the petition and the final hearing thereon, between the periods of the petitioner's service on vessels as described in § 337.1, such proof must be made by the affidavits and testimony of at least two citizen witnesses, for each such period, as set forth in §§ 370.4 and 373.2 respectively, of this chapter.

§ 337.4 *Where petition for naturalization is filed more than six months after termination of service.* Where an alien has performed the service specified in § 337.1, but fails to file a petition for naturalization while still in such service or within six months after termination of such service, he shall not be entitled to claim any of the exemptions set forth in § 337.2, except that such a petitioner for naturalization may prove his good moral character, attachment to the principles of the Constitution of the United States, and favorable disposition toward the good order and happiness of the United States, for any period or periods, during the five-year period immediately preceding the filing of the petition, of service specified in § 337.1, by the production of duly authenticated copies of the records of the executive departments having custody of the records of such service, or discharges showing service with good conduct, as described in such section, in lieu of affidavits and testimony or depositions of witnesses for the period or periods of such service.

AUTHORITY: §§ 352.1 to 352.4, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 352.1 to 352.4, inclusive, interpret and apply secs. 305, 306, 307 (a), 309, 54 Stat. 1141, 1142, 1143; 8 U. S. C. 705, 706, 707 (a), 709.

§ 352.1 *Attachment to Constitution and disposition toward United States.* No person shall acquire United States citizenship under the provisions of Chapter III of the Nationality Act of 1940 (except a person subject to the provisions of section 313, 314, 317 (b) or 323 thereof) unless such person shall have proved his attachment to the principles of the Constitution of the United States and his favorable disposition toward the good order and happiness of the United States for such period or periods as may be required in his particular case, and in the manner provided by Part 373 of this chapter.

The appropriate naturalization officer of the Service, before recommending any petitioner favorably to the court, shall make a general inquiry to determine whether there is any evidence that the petitioner belongs to any of the classes described in section 305 of the said act. If there is such evidence, the burden shall be upon the petitioner to refute it and to show that he is qualified for naturalization under the Nationality Act of 1940.

§ 352.4 *Deserters from the military or naval service of the United States or avoiders of the draft into such military or naval service; ineligible to become citizens of the United States.* If there is reason to believe that a petitioner for naturalization, at any time during which the United States has been or may be at war, deserted the military or naval forces of the United States, or, being duly enrolled, departed from the jurisdiction of the district in which enrolled or went beyond the limits of the United States with intent to avoid any lawfully ordered draft into the military or naval service of the United States, inquiry shall be made by the field office of the appropriate authorities to determine the facts, and action upon the petition shall be based thereon. 354.3 Residence; when not affected by absence on or after January 13, 1941.
354.4 Residence; when not affected by absence on or after June 29, 1938, and prior to January 13, 1941.
354.5 Residence; when not affected by absence after June 25, 1936, and prior to June 29, 1938.
354.6 Residence; when not affected by absence prior to June 25, 1936.
354.7 Absence of clergyman or nun; no effect upon residence if absence temporary in nature.
354.8 Absence; application for approval if for one year or more.

AUTHORITY: §§ 354.1 to 354.8, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. Statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

§ 354.1 *Residence; minimum periods required.* The general provisions of the Nationality Act of 1940 require that a petitioner for naturalization must have resided continuously in the United States for at least five years, and in the State where then residing for at least six months, immediately preceding the filing of the petition, and that he must also reside continuously within the United States from the date of filing the petition until the date of his admission to citizenship. For exceptions to the general rule, see Parts 324, 326, 330, 332, 334, 337, 345, 347, and 348 of this chapter. (Secs. 307, 309, 54 Stat. 1142, 1143; 8 U. S. C. 707, 709)

§ 354.2 *Residence; break of continuity, procedure where an objection is filed —* (a) *Effect of absence of not more than six months.* Where a petitioner for naturalization has been absent from the United States not more than six months during the period for which continuous residence is required, no objection shall be made to the granting of the petition upon that ground unless the facts and circumstances indicate a break in the continuity of such residence.

(b) *Effect of absence of more than six months but less than one year.* Where the absence during the period for which continuous residence is required has been for more than six months but less than one year, an objection shall be made unless the evidence satisfactorily overcomes the presumption raised by the statute that the required continuity of residence has been broken.

(c) *Effect of absence of one year or more.* Where there has been an absence from the United States for a continuous period of one year or more, during the periods for which continuous residence is required, an objection shall be made to the granting of the petition, unless the applicable requirements of § 354.3, § 354.5, or § 354.6 have been fully met.

(d) *When objection overruled; procedure.* If an objection made under this section is overruled, the necessary action shall be taken to preserve the Government's right of review, and the facts reported immediately to the Central Office. (Sec. 307 (b), (c), 54 Stat. 1142; 8 U. S. C. 707 (b), (c))

§ 354.3 *Residence; when not affected by absence on or after January 13, 1941.* No period of absence from the United States on or after January 13, 1941, and during the period for which continuous residence in the United States is required by the naturalization laws, shall break the continuity of such residence if prior to the beginning of such absence from the United States, the alien:

(a) Had resided in the United States for a period of at least one year and had filed a declaration of intention during such period, or was entitled to file a petition for naturalization without a declaration of intention;

(b) Was thereafter employed by, or had entered into a contract with, the Government of the United States, or an American institution of research recognized as such by the Attorney General or was employed by an American firm or corporation engaged in whole or in part in the development of the foreign trade and commerce of the United States, or a subsidiary thereof, or whose residence abroad was necessary for the protection of the property rights in such countries of such firm or corporation or subsidiary;

(c) Had established to the satisfaction of the Attorney General, in the manner prescribed by § 354.8, prior to the beginning of such absence, or the procurement of such employment or contract if then temporarily absent from the United States, that such employment or contract or representation was of the nature described in paragraph (b) of this section, and that his absence from the United States was in connection with one or more of the activities described therein; and

(d) Shall prove, at the final hearing upon his petition for naturalization, to the satisfaction of the court, that his absence from the United States during such period was solely for such purpose or purposes.

For the purposes of paragraph (a) of this section, the period of the alien's residence must have followed a lawful entry to the United States for permanent residence and the place of his general abode shall be deemed his place of residence. Physical absence from the United States of a purely temporary nature during such period of time on the part of the alien shall not be deemed to break the continuity of residence. (Secs. 104, 307 (a), (b), 54 Stat. 1138, 1142; 8 U. S. C. 504, 707 (a), (b))

§ 354.4 *Residence; when not affected by absence on or after June 29, 1938, and prior to January 13, 1941.* No absence from the United States on or after June 29, 1938, and prior to January 13, 1941, shall be held to have broken the continuity of residence in the United States of an alien who has been lawfully admitted to the United States for permanent residence, has thereafter resided in the United States for at least one year, and who has during such period made a declaration of intention, or was entitled to file a petition for naturalization without a declaration of intention, and who has met all of the other requirements set forth in § 354.3, except that any application for the benefits of previous laws relating to exemptions from the usual effect of an absence for more than one year, which may have been made and acted upon by the Secretary of Labor prior to June 14, 1940, shall be considered valid under the Nationality Act of 1940. (52 Stat. 1247, sec. 347, 54 Stat. 1168; 8 U. S. C. 382, 747)

§ 354.5 *Residence; when not affected by absence after June 25, 1936, and prior to June 29, 1938.* No period of absence outside the United States after June 25, 1936, and prior to June 29, 1938, shall be held to have broken the continuity of residence in the United States required by the naturalization laws, if the alien:

(a) Had previously made a declaration of intention (if such declaration was necessary for the filing of a valid petition for naturalization); and

(b) Prior to the beginning of such absence, or before the procurement of the employment or contract which made the absence necessary, had established to the satisfaction of the Secretary of Labor that such absence was to be for one or more of the purposes described in § 354.3; and

(c) Establishes to the satisfaction of the court at the final hearing upon his petition for naturalization that his absence from the United States was for the purpose which was established to the satisfaction of the Secretary of Labor.

No objection shall be made to naturalization in the case of any person who was absent from the United States on June 25, 1936, and who may at any time thereafter have submitted a complete and proper application to the Secretary of Labor for the benefits of section 1 of the act of June 25, 1936, which may have been subsequently acted upon favorably by the Secretary of Labor. (Sec. 1, 49 Stat. 1925, sec. 347, 54 Stat. 1168; 8 U. S. C. 382, 747)

§ 354.6 *Residence; when not affected by absence prior to June 25, 1936.* No period of absence from the United States during the five years immediately preceding June 25, 1936, shall be held to have broken the continuity of residence required for naturalization purposes if the alien had proved to the satisfaction of the Secretary of Labor prior to June 14, 1940, or, subsequently thereto and prior to the final hearing upon his petition for naturalization, may have proved or may prove to the satisfaction of the Attorney General in the manner prescribed by § 354.8, and also at the final hearing upon his petition proves to the court, that during such period of absence he was under employment by, or contract with, either the United States Government, or such American institution of research as was recognized by the Secretary of Labor or may have been so recognized since by the Attorney General, or an American firm or corporation as described in §§ 354.3 and 354.5, and that his absence was necessary in connection with any of the activities described therein. (49 Stat. 1925, sec. 307 (c), 54 Stat. 1142; 8 U. S. C. 382a, 707 (c))

§ 354.7 *Absence of clergyman or nun; no effect upon residence if absence temporary in nature.* No absence at any time by a clergyman or nun, theretofore lawfully admitted into the United States

for permanent residence, shall be regarded as interrupting the residence in the United States required by the naturalization laws, provided such absence was for a temporary period and solely in his or her capacity as a regularly ordained clergyman or nun of an established church or religious faith, if such person establishes to the satisfaction of the Attorney General, in the manner prescribed by § 354.8 either before or after such absence, and to the satisfaction of the court at the final hearing upon the petition for naturalization, that the requirements of this section have been fully met and that he or she has in all other respects fully complied with all applicable provisions of the naturalization laws. (Sec. 308, 54 Stat. 1143; 8 U. S. C. 708)

§ 354.8 *Absence; application for approval if for one year or more.* Applications for the benefits of §§ 354.3, 354.6, and 354.7 shall be submitted to the Immigration and Naturalization Service, Washington, D. C., in duplicate, on Form N–470. A copy of the decision upon the application shall be filed in the naturalization court with the alien's petition for naturalization as a part of the record in the naturalization proceedings. (Sec. 307 (b), (c), 54 Stat. 1142; 8 U. S. C. 707 (b), (c))

AUTHORITY: §§ 356.1 to 356.8, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 356.1 to 356.8, inclusive, interpret and apply secs. 304, 327 (b), (c), 332 (a), 344, 54 Stat. 1140, 1151, 1154, 1163; 8 U. S. C. 704, 727 (b), (c), 732 (a), 744.

§ 356.1 *Signing of petition for naturalization by petitioner.* Every petition for naturalization shall be signed by the petitioner in his own handwriting, if he is physically able to write.

§ 356.2 *Petitioner's ability to speak English.* Every petitioner applying for naturalization in his own behalf (except a petitioner who is physically unable to speak or a petitioner under section 317 (b) or 323 of the Nationality Act of 1940) shall, before being naturalized, demonstrate his ability to speak the English language by carrying on understandingly an ordinary conversation in English.

§ 356.3 *Educational examination of petitioners for naturalization.* The examination of each petitioner for naturalization shall include an educational examination. The purpose of the educational examination shall be to determine whether the petitioner has a fair knowledge of the fundamental principles of the Constitution and is qualified to assume the duties and responsibilities of a citizen of the United States. To this end the petitioner may be questioned as to (a) the principal historical facts concerning the development of the United States as a republic, (b) the organization and principal functions of the Government of the United States, and of the States and local units of government, and (c) the relation of the individual in the United States to government—National, State, and local, the rights and privileges growing from that relationship, and the duties and responsibilities which result from it. Every care shall be exercised to avoid abstruse, technical, irrelevant, and extreme questions. The language level of the questions shall be suited to the particular petitioner, having regard to his educational background and the extent of his knowledge of the English language.

§ 356.4 *Public-school instruction and training in citizenship responsibilities of applicants for naturalization.* The Central Office and the field shall cooperate in the establishment and maintenance of classes within or under the supervision of the public schools for the preparation of naturalization applicants for their citizenship duties and responsibilities. Field officers, including naturalization examiners, shall visit such classes when practicable. Should applicants for naturalization who desire such preparation live in remote localities where the establishment of a class is impracticable, field officers shall communicate with the appropriate representative of the public schools in the applicants' vicinity for the purpose of making other suitable arrangements, if possible, for their instruction.

§ 356.5 *Sending names of candidates for naturalization to the public schools.* Arrangements shall be made with the public schools by which the names and addresses of applicants for naturalization will be made available to such schools for the purpose of interesting applicants in attending public-school classes in preparation for citizenship duties and responsibilities. It shall be made clear to applicants for naturalization and to the public schools that such attendance is voluntary. At the same time applicants shall be informed that if they are in need of instruction for their educational examination in preparation for citizenship, the public schools offer an excellent opportunity to obtain it.

§ 356.6 *Federal citizenship textbooks.* Citizenship textbooks, for the free use of applicants for naturalization receiving instruction in or under the supervision of the public schools in preparation for citizenship, shall be prepared and distributed by the Service to the appropriate representatives of the public schools upon their signed requisitions therefor.

§ 356.7 *Public-school certificate as evidence of petitioner's educational progress.* Public-school certificates, attesting the attendance and progress records of petitioners for naturalization in citizenship classes, shall be given weight by naturalization officers in determining the educational standing of such petitioners, dependent upon satisfaction of the district director and the naturalization courts with the courses of instruction, teaching, and examinations of the public schools issuing such certificates. In no instance, however, shall such certificates be accepted as a total waiver of the educational examination.

§ 356.8 *Cooperation with official National and State organizations.* The Central Office and the Field Service shall take steps to obtain the aid of and to cooperate with official National and State organizations in the Service's program of education of applicants for naturalization for their citizenship duties and responsibilities. Similar action shall be taken in relation to duly accredited unofficial educational, social service, welfare, and other organizations having as one of their objects the adequate preparation of applicants for naturalization for their citizenship duties and responsibilities.

Clerks of courts shall also include on Form N–4 a list of the inclusive numbers of all certificates of naturalization issued during the preceding month, and the duplicates of such certificates, with their stubs intact and with the alien registration receipt cards to which reference is made in § 377.3 of this chaper, shall be forwarded to the appropriate district director or divisional director. (Sec. 337 (a), (b), (c), 54 Stat. 1158; 8 U. S. C. 737 (a), (b), (c))

§ 360.4 *Disposition to be made of clerk's report and accounting.* Upon receipt, by the field officer concerned, of the monthly reports upon Form N–4 and accompanying papers, said forms shall be stamped so as to show the date of receipt. Such papers shall be examined in all cases at the local field office of the Service and appropriate action taken and record made therefrom. Thereafter they shall be transmitted to the Central Office accompanied by the original report on Form N–4. The duplicate report on Form N–4 and the triplicate copy of the petition shall be retained by the field office. If it be necessary for the field officer to return a duplicate naturalization paper to the clerk of court for correction, a carbon of the letter to the clerk returning such paper shall be sent with the other papers, if there be any, to the Central Office for its information. The other duplicate papers shall not be held awaiting the return of the corrected papers from the clerk of court, but shall be forwarded to the Central Office immediately after all records have been made. The corrected paper bearing the "received" stamp of the field office, as of the subsequent date of receipt, shall be forwarded to the Central Office when received from the clerk of court. The duplicates and report herein referred to shall be sent by registered mail and plainly marked "Official Business." (Secs. 337, 343, 54 Stat. 1158, 1163; 8 U. S. C. 737, 743)

(Sec. 342 (e), 54 Stat. 1162; 8 U. S. C. 742 (e))

§ 360.6 *Fees in United States courts; remittance.* All naturalization fees collected by clerks of United States district courts (except in Alaska and the District Court of the Virgin Islands of the United States) and the clerk of the District Court of the United States for the District of Columbia, shall be forwarded quarterly by a remittance payable to the order of the "Commissioner of Immigration and Naturalization, Washington, D. C." (Sec. 25, 49 Stat. 1813, sec. 342 (c), (d), (e), 54 Stat. 1162; 48 U. S. C. 1405x, 8 U. S. C. 742 (c), (d), (e))

§ 360.7 *Fees in other than United States courts; remittance.* One-half of all naturalization fees collected by clerks of courts other than those described in § 360.6 (including United States district courts in Alaska but excluding the District Court of the Virgin Islands of the United States), up to $6,000 in any one fiscal year, shall be similarly remitted to the Commissioner of Immigration and Naturalization, Washington, D. C. Where the collections during the first quarter of any fiscal year equal or exceed $1,500, the clerk shall remit all in excess of $750; and where such collections for the first and second quarters equal or exceed $3,000, the clerk shall remit all in excess of $1,500; and where the collections for the first three quarters of the fiscal year equal or exceed $4,500, the clerk shall remit all in excess of $2,250; and in any case where the total collections for any fiscal year equal or exceed $6,000, the clerk shall remit all fees or moneys so collected in excess of $3,000. All naturalization fees collected by the clerk of the District Court of the Virgin Islands of the United States shall be paid into the Treasury of the Virgin Islands in accordance with the provisions of the Organic Act of the Virgin Islands. (Sec. 35, 49 Stat. 1816, sec. 342 (c), (d), (e), 54 Stat. 1162; 48 U. S. C. 1406h; 8 U. S. C. 742 (c), (d), (e))

§ 360.8 *Time for report of and accounting for fees collected.* The accounting for naturalization fees collected and the payment of fees over to the Commissioner of Immigration and Naturalization as provided in §§ 360.6 and 360.7, shall be made within thirty days from the close of each quarter of each and every fiscal year. (Sec. 342 (e), 54 Stat. 1162; 8 U. S. C. 742 (e))

§ 360.9 *Report of and accounting for spoiled and void papers.* (a) Where a declaration of intention, petition for naturalization, or certificate of naturalization is damaged, mutilated, or defaced in any manner, or is executed only partially and is never actually filed by the clerk of court, the original and all copies of such paper are to be marked "spoiled" and transmitted in the manner described in § 360.3 with the monthly report of the clerk of court on Form N–4. If a number has been allotted to such a declaration of intention or petition for naturalization, that number may be assigned to the next succeeding declaration of intention or petition for naturalization, as the case may be.

(b) Where a completely executed declaration of intention or petition for naturalization is filed by a clerk of court and it later develops that such document is materially defective, it, nevertheless, must remain a part of the records of the court and the copies thereof must be disposed of as provided in § 360.3 and the fee accounted for in accordance with the provisions of §§ 360.6, 360.7, and 360.8. The district director who receives such defective paper will inform the declarant or petitioner of the defect, and, if such defective paper is a petition for naturalization, the petitioner will be further informed of the desirability of permitting the paper to be marked "void" in order that, if possible, the fee paid therefor may be refunded. At the same time such petitioner is to be informed that, if he so desires, he may exercise his right to have the petition submitted to the court for a judicial ruling, in which event no refund of the fee can be made. Where such petitioner requests that his petition be marked "void", such request shall be addressed to the Commissioner in triplicate. One copy of such request shall be attached to each copy of the petition. Clerks of courts in their "Monthly Reports" on Form N–4 and "Abstract of Collections" on Form N–7, shall separately list void declarations and petitions, according to the number, if any, assigned to them, and indicate by appropriate notation that same are "void". (Sec. 337 (c), 54 Stat. 1158; 8 U. S. C. 727 (c))

§ 362.1 *Who may be registered.* Any alien not ineligible to citizenship in whose case there is no record showing lawful admission to the United States for permanent residence, who makes a satisfactory showing to the Commissioner of Immigration and Naturalization in accordance with this part that he (a) entered the United States prior to July 1, 1924; (b) has resided in the United States continuously since such entry; (c) is a person of good moral character; and (d) is not subject to deportation, may have a record of his entry made upon payment of the statutory fee of $18.

§ 362.2 *Application for registry; form; fee.* Application for registry shall be made on Form N-105 (Application for Registry of an Alien) and shall be submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The application shall be signed by the applicant on page 3 of the form, but shall not be subscribed and sworn to or affirmed on page 4 until the applicant appears before an officer of the Immigration and Naturalization Service for examination as provided in § 362.9 (a). The application shall be accompanied by the statutory fee of $18, remitted as prescribed in § 60.30 (b) of this chapter. The application shall also be accompanied by the originals of such documentary evidence, or pertinent excerpts therefrom if the documents are lengthy or bulky, as the applicant may have showing his continuous residence in the United States since June 30, 1924, and his good moral character. If the applicant desires any such documents returned to him, his application should also be accompanied by photostatic, photographic, or typewritten copies of such documents. The applicant shall also submit three photographs of himself as prescribed in § 364.1 of this chapter.

§ 362.3 *Attorneys.* Attorneys and other persons qualified to practice before the Immigration and Naturalization Service, who represent applicants for registry, shall be permitted upon completion of the application and examination of the applicant and his witnesses to review the record, either before it is forwarded to the Central Office or thereafter and prior to final decision. They may submit briefs and, upon sufficient notice, shall be given opportunity to present oral argument before the Central Office. When final decision is made in a case, the attorney representing the applicant shall be entitled to notification.

§ 362.4 *Procedure upon receipt of application.* (a) Upon receipt of an application in an immigration and naturalization office, the application and any Service records relating to the applicant shall be examined to determine whether (1) the application contains sufficient data to show that the applicant has the qualifications prescribed in § 362.1; (2) the documentary evidence appears reasonably adequate to support the application; and (3) it has been ascertained conclusively that no valid record exists of the applicant's lawful admission for permanent residence. If these requirements have not been met, the field office may defer acceptance of the application. In that event the application, money order, photographs, and documentary evidence shall be returned to the applicant with a request that additional information or evidence be submitted or, if efforts are to be made to locate a record of admission for permanent residence, with advice that such action is being taken.

(b) Efforts to verify the claimed entry shall be made even though the applicant alleges that he was not inspected at a port of entry. If such efforts are unsuccessful, the applicant may be notified that he may resubmit his application.

(c) Upon receipt of the application properly prepared and accompanied by evidence deemed satisfactory, or by a statement of the applicant that such evidence cannot be obtained, and after it has been ascertained conclusively that no valid record of the applicant's admission for permanent residence exists, the field office shall accept the application and money order. At that time, or later if necessary, the applicant shall be notified when and where he should appear for examination.

§ 362.5 *Entry upon which application for registry must be based; continuity of residence.* The entry upon which an application for registry must be based shall be the entry by which the applicant first entered the United States, provided he has since maintained a continuous residence therein. If an absence has occurred since such entry the applicant must show that it did not break the continuity of his residence in the United States. In determining whether continuous residence in the United States has been broken, consideration shall be given to the applicant's intention and purpose in absenting himself, and to his activities while absent. In case continuity of residence has been broken by any absence, the application must be considered as based upon the applicant's last entry since which he has maintained a continuous residence in the United States.

§ 362.7 *Facts essential to be established.* It must be established to the satisfaction of the Commissioner of Immigration and Naturalization (a) that the applicant is an alien not ineligible to citizenship; (b) that there is no record of the entry upon which his application must be based, as determined by § 362.5; (c) that such entry occurred prior to July 1, 1924; (d) that he has resided continuously in the United States since such entry or at least since a date prior to July 1, 1924; (e) that he is a person of good moral character, as determined from evidence of his conduct for a reasonable period next preceding the date of

his examination, which ordinarily should not be more than five years; and (f) that he is not subject to deportation.

§ 362.8 *Evidence; burden of proof.* The record shall include the affidavits of such number of credible witnesses, preferably citizens of the United States, concerning the moral character and continuity of residence of the applicant as may be deemed necessary. Where practicable such affidavits shall be made on Form N–120 (Affidavit of Witness in Registry Proceedings). Documentary evidence such as bank books, leases, deeds, licenses, receipts, letters, and birth, marriage, church, school, employment and police records, or similar evidence shall, so far as possible, be used in establishing the essential facts to which such documentary evidence is relevant. Where by reason of conditions known or shown to exist it is reasonable to believe that such evidence is not obtainable, other relevant evidence shall be considered. The burden of proof shall be upon the applicant. In presenting such proof he shall be entitled to the benefit of any records concerning his entry which are in the custody of the Immigration and Naturalization Service.

§ 362.9 *Examination and investigation*—(a) *Examination of applicant.* At the examination, the examining officer shall orally review the application with the applicant. Any necessary changes shall be consecutively numbered by such officer and acknowledged in the oath or affirmation which is a part of the application. The examining officer shall then administer the oath or affirmation contained on page 4 of Form N–105 and obtain the applicant's signature at the appropriate place. Only in cases in which the examining officer deems the action necessary shall a further examination of the applicant be made by interrogation, under oath or affirmation, but in such cases a transcript of the additional testimony taken shall be incorporated as a part of the record. When no longer required, the original documents submitted by the applicant shall be returned to the applicant if photostatic or other copies thereof have been supplied by him for the record. If the examining officer is satisfied as to the authenticity of the documents and is satisfied that such photostatic or other copies are true and correct, he shall return the original documents to the applicant at the conclusion of the examination and incorporate the copies into the record which is submitted to the Central Office.

(b) *Examination of witnesses.* Witnesses shall be examined orally under oath or affirmation in accordance with the interrogatories of Form N–120. Should additional statements be deemed necessary, witnesses shall be interrogated under oath or affirmation, and a transcript of their testimony shall be made a part of the record. Witnesses located within a reasonable distance of the place of examination shall be required to appear in person to execute Form N–120, and for oral examination. When witnesses cannot appear because of remoteness, disability, or other sufficient cause, their affidavits may be accepted without requiring their personal appearance. What constitutes remoteness, disability, or other sufficient cause within the meaning of this paragraph shall be determined by the officer in charge of the district or subdistrict in which the witnesses are located.

(c) *Investigations in other districts.* Necessary investigations in other districts may, when feasible, be conducted by correspondence. Where it is considered useful to obtain information from records and there is reasonable ground to believe that such action will accomplish material results, such further investigations may be made by correspondence.

(d) *Purpose of examinations.* The purpose of all examinations shall be to obtain evidence bearing upon the applicant's qualifications for registry and the qualifications of his witnesses. Records in registry proceedings shall be restricted to the accomplishment of this purpose.

§ 362.10 *Record; recommendation, review, and disposition.* Upon completion of the examination, the examining officer shall prepare a report of his findings on Form N–125 (Findings in Application for Registry) as to each of the six essential facts to be established as prescribed by § 362.7, together with his recommendation and any comment he deems necessary. If denial of the application is recommended, a statement shall be made of the supporting grounds and reasons therefor. When recommendation is made that the application be granted and such action is based primarily on other than documentary evidence, a brief statement of the facts and circumstances in evidence considered sufficient to justify such action shall be made. When recommendation to grant the application is based principally on documentary evidence, that fact shall be stated. The record, supporting documents, and photographs, and the findings and recommendation of the examining officer shall then be forwarded to the district director. That officer, or an officer designated by him for that purpose, shall thereupon review the record, both as to procedural requirements and the findings and recommendation, and shall himself or through his designated substitute prepare and execute Form N–130 (Record of Investigation of Applicant for Registry) in triplicate. If such review leads to a different recommendation from that of the examining officer, the reasons therefor shall be stated briefly on Form N–130. The entire record shall then be transmitted to the Central Office.

§ 362.11 *Authorization or denial; procedure thereafter.* If the Commissioner of Immigration and Naturalization is satisfied from the record and accompanying documents that the applicant is entitled to registry, an order to that effect will be entered on Form N–130. The original of said form shall be retained in the Central Office, and the duplicate forwarded to the officer in charge of the district where entry occurred. That officer shall consummate the registry by making duplicate Form N–130 a part of the records of the port through which, or port nearest to the place where, the alien entered the United States. If the port or place through which applicant entered the United States is in a district other than that in which his application for registry originated, the officer in charge of the district where the application was filed shall be furnished with triplicate Form N–130 for his records. The triplicate and duplicate copies of said form shall be sent to the head of the district wherein entry occurred when the place where the application was filed is in the same district. If the Commissioner of Immigration and Naturalization is not satisfied from the record and accompanying documents that the applicant is entitled to registry, the application shall be denied, and the head of the district wherein the application was filed advised of the action. If denied on the ground that applicant is subject to deportation, the Central Office shall take such further action as may be considered advisable.

§ 362.12 *Certificate of lawful entry; delivery.* In all cases where the application is granted, Form N–135 (Certificate of Lawful Entry) shall be issued with the photograph of the applicant affixed. The certificate shall be mailed to the officer in charge of the district wherein the application originated, for delivery. Before delivery, the certificate shall be signed by the applicant in the presence of an immigration and naturalization officer, who shall likewise sign it.

§ 362.13 *Replacement of certificate lost, mutilated, or destroyed.* If a certificate of lawful entry issued to an alien is lost, badly mutilated, or destroyed, application for a duplicate shall be made in affidavit form, accompanied by three photographs of the applicant of the size and type prescribed in § 364.1 of this chapter. The application shall also be accompanied by the fee of 50 cents required by § 383.4 of this chapter, such fee being remitted as prescribed in § 60.30 (b) of this chapter. The application shall be submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The application, which shall be executed in duplicate, shall recite the circumstances of the loss or destruction of the certificate. If replacement is being sought because of mutilation of the original certificate, the latter must be forwarded with the application. The officer receiving the application shall forward the original thereof and accompanying photographs, together with appropriate recommendation, to the district director for transmission to the Central Office. Upon delivery of the duplicate certificate, the applicant shall be instructed that if the original certificate alleged to have been lost or destroyed is later found, it must be delivered to an immigration and naturalization officer for transmission to the Central Office.

Such certificates of arrival shall be issued only on Form N–210, N–215, N–220, N–225, or N–230, whichever is applicable, except that the certificate of arrival required under § 339.2 (b) of this chapter may be in the form of the certification by the designated representative of the Immigration and Naturalization Service as it appears in the last paragraph of the Affidavit of Witnesses and Certificate of Petitioner's Service on Form N–411.

§ 363.2 *When necessary in order to make declaration of intention.* A person who arrived in the United States after June 29, 1906, cannot file a valid declaration of intention until a certificate of arrival has been issued in accordance with § 363.1. § 370.4 *Verification of petition for naturalization; proof of residence, good moral character, and other requirements.* A petitioner for naturalization, except where granted special exemption by law from the usual requirements as to residence, shall, at the time he files his petition, verify it by the affidavits of at least two credible witnesses, citizens of the United States, who shall appear in person and who shall have and aver knowledge of the petitioner at each place of his residence in the State where then residing during the period of at least six months immediately prior to the filing of the petition. If the petitioner has resided at two or more places in the State during such six months' period, and for this reason two witnesses cannot be procured to verify the petition as to all such residence, additional witnesses may be used but their affidavit shall be executed in triplicate on Form N–451, one copy of which affidavit shall be attached to the original petition and the others to the duplicate and triplicate petitions, respectively, at the time of filing the petition. Each of the witnesses named in this section shall state in his affidavit that he has personally known the petitioner to have been a resident at such place for such period and that the petitioner was, during all such time, a person of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the United States.

§ 370.5 *Oath of petitioner and witnesses.* The petition for naturalization shall be executed under oath or affirmation. The following oath or affirmation shall be administered to the petitioner: "You do swear (affirm) that you know the contents of this petition for naturalization subscribed by you, that the same are true to the best of your own knowledge, except as to matters therein stated to be alleged upon information and belief, and that as to those matters you believe them to be true, and that this petition was signed by you with your full, true name: So help you God."

The following oath or affirmation shall be administered to each of the witnesses who verify the petition: "You do swear (affirm) that the statements of fact you have made in the affidavit of this petition for naturalization subscribed by you are true to the best of your knowledge and belief: So help you God."

§ 370.6 *Numbering of petitions.* Petitions for naturalization shall be numbered in a series separate from declarations of intention in the order in which filed.

§ 370.7 *Indexing of petitions involving change of name.* Where a change of a petitioner's name has been finally ordered by the court, the clerk of court shall enter both the name by which the petitioner was originally known and his name, as changed, in the index of petitions for naturalization.

§ 370.8 *Preliminary naturalization examinations; facts to be ascertained; manner of conducting and uniformity; limitation.* Wherever practicable, preliminary examinations of applicants for naturalization and their witnesses shall be made in person and under oath. The applicant and each witness shall be interviewed separately and apart from one another. The purpose of such examinations shall be to obtain accurate and material information bearing upon the applicant's admissibility to citizenship and the qualifications of the witnesses. Both the applicant and the witnesses shall be carefully interrogated to determine whether the applicant has complied with the jurisdictional requirements of law; is mentally and morally qualified for citizenship; is attached to the principles of the Constitution of the United States, and is well disposed to the good order and happiness of the United States. If the applicant has been arrested or charged with the violation of any law or ordinance, the facts shall be ascertained, including information as to whether conviction resulted and the nature and extent of any sentence which may have been imposed. Particular attention shall be given to ascertaining the applicant's complete marital history and the whereabouts of his or her spouse, if married, and minor children, if any. Questions to applicants and witnesses shall be repeated in different form and elaborated, if necessary, until the examining officer is satisfied that the person being interrogated fully understands them. The witnesses shall be questioned to develop not only their own credibility and competency but also the extent of their personal knowledge of the applicant's residence, good moral character, attachment to the principles of the Constitution of the United States, and other qualifications for citizenship. Search shall be made of appropriate court and other records and other available sources of information in establishing the qualifications of the applicant and witnesses. The examination shall be limited to inquiry concerning the applicant's residence, good moral character, understanding of and attachment to the fundamental principles of the Constitution of the United States, and his other qualifications to become a naturalized citizen, and shall be uniform throughout the United States.

§ 370.9 *Material statements of applicants and witnesses to be in writing, under oath.* Material statements of applicants for naturalization or applicants for certificates of citizenship or other naturalization or citizenship documents, and their witnesses, shall, where deemed necessary by the naturalization officer, be taken down in writing and under oath and signed by the applicant or witness.

§ 370.10 *Review of field investigations.* District directors and divisional directors shall, so far as possible, review the records of field investigations, either personally or through some duly designated member or members of the field staffs of their offices, and assign any available examiners, when advisable, to conduct further investigations, especially outside the offices of the Service.

373.3 Depositions; procedure.
373.4 Substitution of witnesses; procedure.
373.5 Certificate by examiner where petitioner is exempt from certain residential requirements; immediate hearing.

373.9 Objections; form and content; procedure when overruled.
373.10 Procedure where petitioner for naturalization appears to be a citizen of the United States.

AUTHORITY: §§ 373.1 to 373.10, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. Statutes interpreted or applied and statutes giving special authority are cited in parentheses at the end of affected sections.

§ 373.1 *Preliminary hearings under section 333 of the Nationality Act of 1940.* (a) Preliminary hearings conducted under section 333 of the Nationality Act of 1940 shall be open to the public. Wherever possible, a member of the Service other than the person who conducted the preliminary examination, shall serve as designated examiner. Preliminary hearings shall be conducted in person by the designated examiner, or officer, and the petitioner and his witnesses shall be present. The petitioner and witnesses shall first be duly sworn. The designated examiner shall have before him at the preliminary hearing the record of the preliminary examination in each case. He shall not, however, be limited to the information contained in such record, but may use any material evidence or data received from any other source; and he may present and examine other witnesses than those produced by the petitioner.

(b) After the conclusion of the preliminary hearing in each case, where it is determined to make a favorable recommendation to the court, the witnesses in such case may be excused from further appearance. In any case where the recommendation is unfavorable, the designated examiner shall inform the petitioner of his right to appear before the court in person with his witnesses at the final hearing.

(c) At the time the designated examiner or officer conducts the preliminary hearing of each petitioner he shall enter on Form N–476 the petition number, petitioner's name, and, upon completion of the examination, fill in the symbols indicating his findings and a brief notation of the reasons for any unfavorable finding. This docket shall be signed by him and shall be made available to the court whenever desired, and after the final hearing shall be filed of record in the field office.

(d) The designated examiner or officer shall prepare in triplicate his findings and recommendations for presentation to the court on Forms N–480 or N–481 for petitions recommended to be granted, on Form N–483 for petitions recommended to be continued, and on Form N–484 for petitions recommended to be denied. These findings and recommendations shall be signed by the officer in attendance at the final hearing and submitted to the judge of the court at or before the final hearing. After the final hearing has been held, an order of court shall be prepared in triplicate on Form N–482 for petitions recommended to be granted, on Form N–483 for petitions recommended to be continued, and on Form N–484–A for petitions recommended to be denied. The original order of court shall be presented for signature to the judge who presided at the final hearing. The originals of all of the forms named in this paragraph shall be filed permanently in the court, the duplicates forwarded by the clerk of court through the appropriate field office to the Central Office, and the triplicates filed in the field office. (Secs. 333, 334 (b), 54 Stat. 1156; 8 U. S. C. 733, 734 (b))

§ 373.2 *Proof at the hearing of residence and other qualifications within or without the State, but prior to the six months' period.* At the preliminary hearing upon the petition for naturalization before a designated examiner, or, if no preliminary hearing is held, at the final hearing before the court, the petitioner shall prove the qualifications required by section 307 (a) of the Nationality Act of 1940 either by depositions taken in accordance with § 373.3, or by the oral testimony of at least two credible citizen witnesses for each place of his residence except that proof, where required, of the petitioner's residence in the State where the petition is filed during at least six months immediately preceding its filing shall be made only by the oral testimony of such witnesses. Where oral testimony to establish residence prior to the period of six months immediately preceding the filing of the petition is taken before a court or before a designated examiner, an affidavit on Form N–451 shall be executed by the witnesses in triplicate before the clerk of court or the designated examiner, one copy of which affidavit shall be attached to the original petition, and the others to the duplicate and triplicate petitions, respectively. Where the testimony of the witnesses is heard by a designated examiner they may be excused from appearance before the court at the final hearing, unless the petitioner otherwise demands or the court otherwise orders. (Secs. 307, 309, 327 (e), 333, 334, 54 Stat. 1142, 1143, 1151, 1156; 8 U. S. C. 707, 709, 727 (e), 733, 734)

§ 373.3 *Depositions; procedure.* Depositions may be used to prove compliance with the requirements for naturalization during any period except the minimum period of State residence. Such depositions shall be taken only upon written interrogatories on Form N–462. Whenever possible they shall be made before a naturalization examiner, but where there is a likelihood of unusual delay or of hardship, such depositions may be taken before a postmaster without charge, or before a notary public or other person authorized to administer oaths for general purposes, and such authorization shall be filed in the naturalization court with the depositions. The appropriate district director is hereby authorized to determine when an unusual delay or hardship is likely in such cases, and is authorized to appoint postmasters or other officers to take depositions in such cases. In cases where the depositions are taken other than before a naturalization examiner or postmaster, the alien shall be informed of the name and title of the officer designated to take the depositions, and the petitioner shall arrange with him independently of the Service to defray all costs and expenses therewith. When depositions are taken by the Service, the time and place shall be so fixed as to be as convenient as possible to all concerned, consistently with good administration. Where deponents reside at or in the vicinity of the local headquarters of the Service, the depositions shall, if possible, be taken in the office of the Field Service. In other cases, definite arrangements shall be made with deponents by correspondence prior to their appearance. The petitioner for naturalization shall have the right to be present or to be represented, if desired, when the depositions are taken. Depositions shall be sent to the officer having administrative supervision over the district in which the petition is filed, and by him forwarded to the clerk of court at any appropriate time prior to the final hearing upon the petition. (Secs. 309 (b), 327 (e), 54 Stat. 1143, 1151; 8 U. S. C. 709 (b), 727 (e))

§ 373.4 *Substitution of witnesses; procedure.* If the witnesses who verified the petition cannot be produced at the final hearing, and the petitioner desires to substitute other witnesses in their stead, notice thereof on Form N–450 shall be given by the petitioner to the naturalization officer having administrative supervision over the district in which the

petition is filed, at a reasonable time in advance of the date set for the final hearing upon the petition for naturalization. Where the competency and qualifications of the original witnesses have been previously determined by the Service to be satisfactory, and a representative of the Service attends the final hearing in person, notice of intention to substitute witnesses may be given to such representative at the hearing. In no case shall a final hearing be held upon a petition until after the substitute witnesses have been examined by the representative of the Service and an affidavit on Form N–451 executed in triplicate by the witnesses before such representative or the clerk of court. One copy of this affidavit shall be attached to the original petition, prior to or at the time of the hearing, and the others filed with the duplicate and triplicate petitions, respectively. If it should appear after a petition has been filed that any of the verifying witnesses thereto are not competent, and it is established that the petitioner acted in good faith in producing such incompetent witnesses, other witnesses may be substituted in accordance herewith. (Sec. 309 (d), 54 Stat. 1144; 8 U. S. C. 709 (d))

§ 373.5 *Certificate by examiner where petitioner is exempt from certain residential requirements; immediate hearing.* Petitioners for naturalization who conform to the requirements of section 317 (a) or (c), 318 (a), 324 (a) or (b), or 325, of the Nationality Act of 1940, may be naturalized without compliance with the usual requirements for residence in the United States and in the State, but shall personally file their petitions for naturalization in conformity with the other applicable provisions of the naturalization laws, and may have their petitions heard immediately, provided that there is attached to the original and duplicate petitions at the time of filing a certificate of examination of a naturalization examiner on Form N–440. (Sec. 317 (a), (c), 318 (a), 54 Stat. 1146, 1147, sec. 324 (a), (b), 54 Stat. 1149, 60 Stat. 417, sec. 325, 54 Stat. 1150; 8 U. S. C. and Sup., 717 (a), (c), 718 (a), 724 (a), (b), 725)

§ 373.6 *Naturalization rule days.* Final naturalization hearings shall be held only on stated days, fixed by rule of the court. Each district director, as far as possible, shall endeavor to have rule days for final hearings arranged so that naturalization sessions of the courts will follow each other in adjoining counties or circuits. (Sec. 332 (d), 54 Stat. 1156; 8 U. S. C. 732 (d))

§ 373.7 *Personal representation of Government at court hearings.* Wherever possible, final naturalization hearings shall be attended personally by naturalization examiners or other members of the Service authorized by the Commissioner. Representatives appearing in behalf of the United States may cross-examine the petitioner and the witnesses produced in support of the petition, and may call other witnesses and produce evidence concerning any matter affecting the petitioner's right to naturalization. In cases where it appears to be necessary, the naturalization officer shall have made a stenographic report of the testimony given in any naturalization proceeding. (Sec. 334 (d), 54 Stat. 1157; 8 U. S. C. 734 (d))

§ 373.8 *Written report in lieu of personal representation at final hearings.* Whenever it is impossible for a representative of the Service to be present at the final hearing upon a petition for naturalization, notice thereof shall be seasonably transmitted by the Service to the court in writing. The petitions set down for hearing shall be listed by number and name, and on the list shall be indicated immediately under each number and name all unfavorable facts, and if any, the grounds for objection, with pertinent comment and citation of authorities in support of the objection. Where continuance of the petition may be desired, the basis therefor shall be set forth. In cases in which the Service offers no objection it shall be so stated. (Sec. 334 (d), 54 Stat. 1157; 8 U. S. C. 734 (d))

§ 373.9 *Objections; form and content; procedure when overruled.* Where material objection on behalf of the United States by the Service to the granting of a petition for naturalization is overruled by the court, the necessary action shall be taken to preserve the Government's right of review. Material objections shall be in writing, in the form of a motion for an order denying the petition for naturalization, and shall set forth with particularity all of the grounds therefor. Where a material objection is overruled, a comprehensive report containing all the pertinent facts shall be submitted to the Central Office not later than ten days after the date of the hearing. Such report shall contain the recommendation of the officer who attended the final hearing and of the appropriate district director, as to whether an appeal should be taken or cancellation proceedings instituted. (Sec. 334 (d), 54 Stat. 1157; 8 U. S. C. 734 (d))

§ 373.10 *Procedure where petitioner for naturalization appears to be a citizen of the United States.* Where doubt exists as to whether a petitioner for naturalization is already a citizen of the United States, the motion of the designated examiner or of the examiner at the final hearing should in no case be for denial of the petition on the ground that the petitioner is "already a citizen" unless the proof of that fact is clear and positive. Where doubt of citizenship exists, the case shall be treated by the Service as though the applicant were an alien. (Sec. 334 (d), 54 Stat. 1157; 8 U. S. C. 734 (d))

379.4 Procedure upon receipt of application.
379.5 Proof.
379.6 Examination and evidence
379.7 Record; recommendation; review.
379.8 Final disposition.

AUTHORITY: §§ 379.1 to 379.8, inclusive, issued under sec 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 379.1 to 379.8, inclusive, interpret and apply sec. 339, 54 Stat. 1160, 58 Stat. 4; 8 U. S. C. and Sup., 739.

§ 379.1 *Who may apply for certificate of citizenship.* Any person who claims to have derived United States citizenship through the naturalization of a parent or parents or through the naturalization or citizenship of a husband or any person who claims to be a citizen of the United States by virtue of the United States citizenship of his parent or parents at the time of his birth outside the United States, may apply to the Commissioner for a certificate of citizenship.

§ 379.2 *Application for certificate; form; fee.* Where the applicant claims to have derived United States citizenship through the naturalization of a parent or parents or through the naturalization or citizenship of a husband, application for a certificate of citizenship shall be made by the applicant on Form N–600. Where the applicant claims to be a citizen of the United States on the ground that his parent or parents were citizens of the United States at the time of his birth outside the United States, application for a certificate of citizenship shall be made by the applicant on Form N–600–A. The application shall be submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The application shall be signed by the applicant, or in the case of a child under the age of 18 years by his parent or guardian, when submitted, but shall not be subscribed and sworn to or affirmed until the applicant appears before an officer of the Immigration and Naturalization Service for examination upon the merits of his application. The application shall be accompanied by the statutory fee of $5, remitted as prescribed in § 60.30 (b) of this chapter. The application shall also be accompanied by the originals of such documentary evidence, or pertinent excerpts therefrom if the documents are lengthy or bulky, as the applicant may have or be able to obtain relating to the date and place of his birth, the date and place of the marriage of his parents, the date and place of marriage of applicant if the applicant be a woman, or any other documents tending to establish the claimed citizenship. The applicant shall not be required to furnish a translation of any such documents written in a foreign language. If the applicant desires any such documents returned to him after final action has been taken in his case, his application should also be accompanied by photostatic, photographic, or typewritten copies of such documents except that no copy of any sort may be made of any original or copy of a declaration of intention or certificate of naturalization or citizenship or any part thereof. The applicant must submit three photographs in accordance with the requirements of Part 364 of this chapter.

§ 379.3 *Attorneys.* Attorneys and other persons qualified to practice before the Immigration and Naturalization Service, who represent applicants for certificates of citizenship under section 339 of the Nationality Act of 1940, as amended, shall be permitted, upon completion of the application and examination of the applicant and his witnesses, to review the record either before it is forwarded to the Central Office or thereafter, and prior to final decision. Such attorneys and other practitioners may submit briefs, and, upon sufficient notice, shall be given opportunity to present oral argument before the Central Office. When final decision is made in a case, the attorney or other person representing the applicant shall be entitled to notification of such action.

§ 379.4 *Procedure upon receipt of application.* If the application is not properly prepared, or does not present a prima facie case, it shall be returned for correction or completion, and shall not be accepted until properly prepared. When an application is submitted, but the nature of the documentary evidence therewith is not reasonably adequate to support the application, the field office may defer acceptance thereof. In the latter event, the application, money order, photographs, and documentary evidence, and any copies of evidence shall be returned to the applicant with a request for submission of more substantial evidence. If the application is thereafter submitted accompanied by satisfactory evidence, or is so submitted with the statement that further evidence cannot be obtained, the field office shall accept it for further consideration. The applicant shall thereafter be informed when and where he and his witnesses will be examined upon the merits of his application.

§ 379.5 *Proof.* The applicant shall establish to the satisfaction of the Commissioner that he is a citizen of the United States, that he derived such citizenship through the naturalization of a parent or parents or through the naturalization or citizenship of a husband, or that he acquired such citizenship through birth outside the United States at a time when his parent or parents were citizens of the United States.

§ 379.6 *Examination and evidence.* The examining officer shall orally review the application with the applicant, or in the case of a child under the age of 18 years, with the parent or guardian, before administering the oath. Any necessary changes in the application shall be consecutively numbered and acknowledged in writing by the applicant or the parent or guardian. The applicant and the person or persons through whom applicant claims to have derived or acquired citizenship then shall be questioned under oath by the examiner for the purpose of identification and to clarify any points in controversy on the basis of the information submitted in the application. If the sworn application form, supporting documentary evidence, records of the Service, the testimony of the person or persons through whom citizenship is claimed, and the testimony of the applicant, or the parent or guardian if applicant be a child under the age of 18 years, establish applicant's claim to citizenship, no other witnesses shall be required. Otherwise, such number of credible witnesses, preferably citizens of the United States, as may be deemed necessary shall be questioned under oath by the examiner concerning the facts of applicant's alleged citizenship. If the person or persons through whom the applicant claims citizenship are deceased or otherwise not available the testimony customarily required of such person or persons may be furnished by qualified witnesses. The testimony heard shall not be reduced to writing in verbatim form except in cases where neither primary nor secondary documentary evidence is available to establish such essential fact concerning applicant's citizenship and except in cases where it appears that criminal proceedings might be instituted as a result of perjured statements. Any facts deemed necessary to the examination relating to the birth, death, marriage, divorce, or identity of any person involved therein shall be established by official copies of public records or church records if such copies are available or can be obtained. If the examining officer is satisfied that the applicant has made a reasonable effort to procure such documentary evidence and that it is not available or cannot be procured without undue hardship to such applicant, the examining officer may receive and consider any other evidence which the applicant may present. The burden of proof to establish his citizenship shall at all times be upon the applicant. In presenting his proof, the applicant shall be entitled to the benefit of any records concerning him which are in the custody of the Service and copies of, or information from, any such records may be made available to the officer of the Service passing upon the application, without payment of fee by the applicant. When no longer required, the original documents submitted by applicant shall be returned to the applicant if photostatic or other copies thereof have been supplied by him for the record. If the examiner is satisfied as to the authenticity of the documents and is satisfied that such photostatic or other copies are true and correct, he shall return the original documents to the applicant at the conclusion of the examination and incorporate the copies into the record which is submitted to the Central Office.

§ 379.7 *Record; recommendation; review.* Upon completion of the examination, the examining officer shall prepare a report of his findings on Form N–635 or Form N–635–A as to each of the essential facts to be established in the proceeding, together with his recommendation and any comment he deems necessary. Where any issue of law or fact is raised by the evidence, the examining officer shall summarize the evidence and prepare a report thereon to accompany the Form N–635 or Form N–635–A. If the original documents were returned to the applicant at the conclusion of the examination, the examiner shall place a notation on Form N–635 or Form N–635–A showing that the copies were compared with such original documents and were found satisfactory and that the original documents were returned to the applicant. If denial of the application is recommended, a statement shall be made of the supporting grounds, and reason therefor. When recommendation to grant the application is based principally on documentary evidence, that fact shall be stated; otherwise, a brief statement of the facts and circumstances in evidence considered sufficient to justify action recommended shall be made. The record, supporting documents, photographs, and the findings and recommendation of the examining officer shall then be forwarded to the district director. That officer or an officer designated by him for that purpose, shall thereupon review the record, both as to procedural requirements and the findings and recommendation, and shall himself, or through his designated substitute, make his recommendation on Form N–635 or Form N–635–A. If such review leads to a different recommendation from that of the examining officer, the reasons therefor shall be stated in writing. The entire record shall then be submitted to the Central Office.

§ 379.8 *Final disposition.* If the Commissioner is satisfied from the record that the applicant is entitled to receive a certificate of citizenship, the certificate shall be issued. If the applicant has assumed or is known by a name other than his true name but has not had his name changed in accordance with the law of the jurisdiction where he assumed the new name, and, therefore, is not legally entitled to use the assumed name, the certificate of citizenship shall be issued in the applicant's true name followed by the words "also known as" followed by the assumed name, but in such a case the applicant shall be required to sign only his true name on the certificate and on the photographs submitted with his application. The certificate shall be in duplicate and shall be forwarded to the field office in which the application originated for signature by the applicant, unless applicant is a child unable to sign his name, in which case the certificate shall be signed by the parent or guardian, and the signature shall read "(insert name of parent or guardian) in behalf of (insert name of child)." The applicant shall, unless he is too young to understand the meaning thereof, take and subscribe to, before a member of the Service, the oath of renunciation and allegiance prescribed by section 335 of the Nationality Act of 1940. Thereafter personal delivery of the original of the certificate shall be made to the applicant, who shall sign a receipt therefor, unless applicant is a child unable to sign his own name, in which case it shall be delivered to his parent or guardian, who small sign a receipt therefor. The applicant shall be furnished with a certificate only if such individual is at the time within the United States.

(a) A record of the alleged naturalization exists;

(b) The applicant is the subject of such record;

(c) The applicant, if naturalized, has not become expatriated;

(d) The applicant needs the certificate to obtain recognition as a citizen of the United States by a foreign state; and

(e) The certificate, if issued, will be used only for such purpose.

The application shall be forwarded to the Commissioner with a report of the investigation and the recommendation of the investigating officer and the district director. If the naturalization is alleged to have occurred in another district, verification from the records there may be omitted from the investigation and the recommendation made subject to verification of the naturalization from records in the Central Office. If the Commissioner is satisfied that the applicant has the qualifications listed in this section, a special certificate of naturalization shall be issued on Form N–578. The certificate shall be furnished by the Commissioner only to the Secretary of State for transmission to the proper authority in the foreign state by which the applicant seeks to obtain recognition as a citizen of the United States.

If the application is for a declaration of intention in lieu of one about to expire by reason of the seven-year limitation, the application may be sent to the Central Office at once and the applicant questioned at some later time but before the new declaration is delivered. All mutilated naturalization papers shall be surrendered to the Service. In the case of an application for a new certificate in a changed name, the application shall be accompanied by appropriate documentary evidence of such change. Every applicant for a certificate under this part shall satisfy the Service that he has not become expatriated subsequent to the date he claims to have acquired United States citizenship.

§ 382.5 *New papers; by whom issued; forms; numbering.* If the application is approved, the new naturalization or citizenship paper shall be issued by the Commissioner or a Deputy Commissioner and not by the clerk of court. Any new declaration of intention shall be upon Form N–321, N–322, or N–323, and any new certificate of naturalization or of citizenship upon Form N–570. The new paper shall be numbered to correspond with the number of the paper which it replaces. Certificates issued to evidence naturalizations which occurred prior to September 27, 1906, shall be consecutively numbered, the number in each instance being preceded by the letters "OL."

§ 382.6 *Replacement of evidence of naturalization under section 317 (b) of the Nationality Act of 1940.* A naturalized citizen woman, within § 330.3 of this chapter, whose certified copy of the proceedings prescribed by that section has been lost, mutilated, or destroyed, may apply for a new certified copy in lieu thereof. Such application shall be made on Form N–565 and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The applicant shall execute and forward the Form N–565 with the required fee of $1, in accordance with § 382.3, except that no photographs will be required. The application shall be handled in accordance with the provisions of § 382.4. If the application is approved, there shall be issued a certified, positive photostat of the record of the proceeding filed in the Central Office, whether such record be a duplicate of Form N–408 or a copy of the proceedings which took place at an embassy, legation, or consulate. If the applicant's name has been changed after naturalization, by order of court or by marriage, and appropriate documentary evidence of such change is submitted with the application, the certification of the positive photostat shall show both the name in which the proceedings were had and the changed name. Such an applicant shall use Form N–565 and the required fee shall be $1. The procedure described in this section may be followed even though the naturalization proceedings took place at an embassy, legation, or consulate. In such cases, it will not be necessary that verification of the alleged naturalization proceedings be made by the field office.

§ 383.1 *Application for certification of records; form.* Application shall be made on Form N–585 to the Commissioner for certification of a naturalization record of any court, or of any part thereof, or of any certificate of naturalization or of citizenship, for use in complying with any statute, Federal or State, or in any judicial proceeding. The applicant shall fill out properly, sign, make oath to, and forward the application to the Commissioner of Immigration and Naturalization, Washington, D. C.

§ 383.2 *Application for certification of records; contents.* If the certification referred to in § 383.1 is desired for use in complying with a statute, the date and citation of the statute concerned shall be stated in the application. If it be desired for use in a judicial proceeding, the application shall set forth the title and character of the proceeding and the court in which it is pending, and shall be accompanied by an order of such court requesting the Commissioner to supply the certification. The application shall state the title and address of the officer to whom, or the court to which, the certification should be sent.

§ 383.3 *Certification of declaration of intention; photographs required.* If the application on Form N–585 is for certification of a declaration of intention in lieu of one filed with a petition for naturalization, the application shall be accompanied by three photographs of the applicant as prescribed in Part 364 of this chapter.

§ 383.4 *Copies of Service records and information; fees.* (a) Except where otherwise provided by law or by regulations under his chapter, there shall be paid to the Commissioner of Immigration and Naturalization for furnishing any person or agency, other than an official or agency of the Federal Government, with copies, certified or uncertified, of any part of, or information from, the records of the Service, a fee of 25 cents per folio, with a minimum fee of 50 cents for any one such service, in addition to a fee of $1 for any official certification furnished under seal. Each sheet or page of the letter or other document furnished an applicant by the Commissioner shall be regarded as one folio in computing the required fee. Application for the desired service shall be made in prescribed form and shall be accompanied by the minimum fee of 50 cents or $1.50, if a certification is desired, for each such service. The application and fee shall be submitted as prescribed in § 60.30 of this chapter. The Commissioner, in his discretion, may waive the filing of a formal application, or advance payment of the fee, or both. The applicant will be advised if any fee in addition to the minimum is required under the provisions of paragraph (b) of this section for the requested service.

(b) The following instructions and illustrative schedule will be adhered to in computing fees for the furnishing of copies of documents or written information from the records of the Service under subdivision (b) (9) of section 342 of the Nationality Act of 1940:

(6) Where a photostatic copy of a document is furnished, the fee therefor shall be computed strictly on the basis of the number of sheets of photostatic material necessarily prepared in order to furnish a complete likeness of the document, thus:

	Fee to be charged
Applicant requests one photostatic copy of one 1-page document (the original document containing written matter on one side only)	$0.50
Applicant requests one photostatic copy of one 1-page document (the original document containing written matter on both sides)	.50

Such application shall be made on Form N–585 and submitted to the immigration and naturalization office prescribed in § 60.30 (a) of this chapter. The application shall be accompanied by the statutory fee of $1.50, in accordance with § 383.4. No photographs will be required. The application shall be handled in compliance with the applicable provisions of § 382.4 of this chapter. If the application is approved, there shall be issued a certified, positive photostat of the record of the proceedings filed in the Central Office, whether such record be the duplicate of Form N–415 (or Form 2234) or a copy of the proceedings conducted at an embassy, legation, or consulate. If the applicant's name has been changed after the taking of the oath by order of court or by marriage and if appropriate documentary evidence of such change is submitted with the application, the certification shall show both the name in which the proceedings were had and the changed name. The procedure described in this section may be followed even though the proceedings took place at an embassy, legation, or consulate. In such cases it will not be necessary that verification of the alleged record of restoration of citizenship rights be made by the field office.

§ 383.7 *Records; authority of officers to release information and to certify records.* The Commissioner, the General Counsel, the district directors, or such other officers of the Service as may be designated by the Commissioner may decide applications for copies of immigration and naturalization records, or for information therefrom, and may certify that any official file, document, or record in the custody or control of the Service is a true file, document, or record or that a copy of such a file, document, or record is a true copy. PART 385—REVOCATION OF RECORDS CREATED AND OF NATURALIZATION AND CITIZENSHIP DOCUMENTS ISSUED BY THE COMMISSIONER

Sec.
385.1 Report and notice.
385.2 Answer.
385.3 Findings and recommendations.
385.4 Criminal prosecution.

AUTHORITY: §§ 385.1 to 385.4, inclusive, issued under sec. 327, 54 Stat. 1150, sec. 37 (a), 54 Stat. 675; 8 U. S. C. 727, 458; 8 CFR, 90.1. §§ 385.1 to 385.4, inclusive, interpret and apply secs. 340, 346, 54 Stat. 1160, 1163; 8 U. S. C. 740, 746.

§ 385.1 *Report and notice.* If, at any time after a certificate of lawful entry has been issued under Part 362 of this chapter, or a certificate of naturalization has been issued under Part 378 of this chapter, or a certificate of citizenship has been issued under Part 379 of this chapter, or a special certificate of naturalization has been issued under Part 380 of this chapter, or a new certificate in changed name or a new declaration of intention or a new certificate of naturalization or of citizenship has been issued under Part 382 of this chapter, or a new certified copy of the proceedings has been issued under § 382.6 or § 383.6 of this chapter, evidence becomes available to a district director of Immigration and Naturalization indicating that such record or document was obtained illegally or fraudulently, a complete report shall be promptly submitted to the Central Office by the district director, with comment and recommendation. If the Commissioner or a Deputy Commissioner is satisfied that a prima facie showing has been made that such record or document

was obtained illegally or fraudulently, he shall cause such district director to have served personally or by registered mail written notice on the person to whom the document was issued by the Commissioner or a Deputy Commissioner, at such person's last known address in the records of the Service, that a proceeding has been instituted to cancel the record or document, which notice shall contain a statement of the grounds upon which the proposed cancellation proceeding is based, and of the nature of the supporting evidence. Such notice shall state that not more than 60 days from the date of service of the notice the person to whom the record relates or to whom the document was issued must show cause, before a designated officer of the Service and at a place designated for such hearing, why such cancellation should not take place. The district director in whose district the proceedings shall take place shall have authority to extend the 60-day period specified in the notice, but for not more than 30 additional days.

§ 385.2 *Answer.* The person against whom such proceeding has been brought may, within the time designated in § 385.1, submit his defense in writing under oath or affirmation. Upon receipt of such response, or answer, or upon expiration of the time allowed for showing good cause, the record shall be closed and forwarded to the Commissioner, accompanied by findings of fact, conclusions of law, and the recommendation of the officer assigned to hear or consider the case, together with the comment and recommendation of the district director.

§ 385.3 *Findings and recommendations.* The findings of fact, conclusions of law, and recommendation of the officer assigned to hear or consider the case, and the comment and recommendation of the district director shall, in case the person to whom the document was issued makes response or answer to the notice requiring him to show cause, be served upon him or his counsel, if any, in person or by registered mail, and the person to whom the record relates or the document was issued shall be given further notice in person or by registered mail that he has 10 days from the date of receipt thereof within which to file a brief or to inform the Commissioner that he intends to present oral argument on the record. In the latter event he shall be informed of the time, place, and date when he may appear in person or through counsel to make such argument. If such notice is not received, or no brief is submitted within the time specified, the case shall proceed to final consideration. If the Commissioner finds that the record or document or both were procured illegally or through fraud, he shall cancel *ab initio* such record or document or both. Notice of such action shall be given in person or by registered mail to the person proceeded against or his counsel, if any, at the last address of such person shown on the record of the cancellation proceeding, if a response or answer was made. Upon the cancellation of any such record or document, the person proceeded against or his counsel, if any, shall be requested in writing by registered mail to surrender any such document which may have been issued to the person proceeded against, for transmission to the Central Office. The cancellation of any such document issued by the Commissioner shall not affect the citizenship status of the individual to whom it was issued.

§ 385.4 *Criminal prosecution.* In case of the cancellation of any such record or document on the ground of illegal or fraudulent procurement, the material facts in regard thereto may be presented by the district director to the office of the appropriate United States attorney for appropriate action under section 346 of the Nationality Act of 1940, if so directed by the Commissioner or a Deputy Commissioner.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

[B. A. I. Order 373, Amdt. 7]

PART 94—RINDERPEST AND FOOT-AND-MOUTH DISEASE; PROHIBITED AND RESTRICTED IMPORTATION

ANIMALS, MEATS, PRODUCTS, ETC., REFUSED ENTRY

Section 94.4 of Part 94, Chapter I, Title 9, Code of Federal Regulations [B. A. I. Order 373], is hereby amended to read as follows:

§ 94.4 *Animals, meats, products, etc., that are refused entry.* Any animals, meats, organs, glands, extracts, or secretions specified in §§ 94.1, 94.2 and 94.3, offered for entry and refused admission into the United States, shall be exported by the consignee thereof within 10 days or shall be destroyed in accordance with the directions of the Chief of the Bureau of Animal Industry. Any such animals, meats, organs, glands, extracts, or secretions coming into the United States other than by ocean vessel shall be destroyed immediately or otherwise disposed of in accordance with the directions of the Chief of the Bureau of Animal Industry.

Rinderpest and foot-and-mouth disease are such extremely contagious diseases of animals that every reasonable effort must be made to keep them out of this country. The regulation here amended was designed to accomplish that purpose by requiring the exportation within ten days, or the destruction, of animals, meats, and products which were offered for entry in the regular course of commerce and refused admission. When the regulation was adopted, neither disease existed in North America. During the latter part of 1946, however, foot-and-mouth disease gained a foothold on this continent. Consequently, it has become even more important to provide for summary destruction or other immediate disposition of animals, meats, and products coming into this country in an irregular manner, as by straying across land borders or by smuggling, etc., in order to prevent the introduction of that disease into this country. That is the primary purpose of the present amendment.

Protection of the livestock interests of the United States requires that this amendment be made effective at the earliest practical moment. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238), it is found, upon good cause, that notice and public procedure on this amendment are impracticable and contrary to the public interest, and good cause is found for the issuance of this amendment effective less than thirty days after publication. Neither notice nor hearing is required by any other statute.

This notice shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 8, 26 Stat. 416, sec. 2, 32 Stat. 792, sec. 306, 46 Stat. 689; 21 U. S. C. 103, 111, 19 U. S. C. 1306)

Done at Washington, D. C., this 25th day of July 1947.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Acting Secretary of Agriculture.
